

Federal Government Leadership Team

Executive Team

Erich Sanchack, Senior Vice President – Federal Sales

As Senior Vice President and General Manager for CenturyLink Federal Solutions, Erich Sanchack has overall profit and loss responsibility for CenturyLink's federal government business. This includes all federal government customers, specifically civilian, DoD, DHS and the intelligence community. Sanchack has more than 20 years of industry experience, including more than 12 years with Lockheed Martin working in various parts of the organization. At Lockheed Martin, Erich served as Vice President of Competitive Enhancements, Vice President of Corporate Internal Audit, and Vice President of Information Technology Services for their Information Systems & Global Solutions-

Defense business and Deputy Vice President of Integrated Ground Systems.

Erich progressed through various business development roles from 1998 to 2004, followed by lead responsibility directing North American global customer service operations for Tetra Pak, Inc. During his time as a U.S. Marine Corps finance officer, Erich deployed with the 22 Marine Expeditionary Unit (Special Operations Capable) during Operation Joint Endeavor (Bosnia), Assured / Quick Response (Liberia and Central African Republic), Operation Noble Obelisk (former Zaire), and Operation Silver Wake (Albania).

Erich is a member of the board of directors for the American Heart Association for Greater Washington Region as well as chair of the 2017 Greater Washington Heart Walk, serves on the advisory council for Johns Hopkins Community Physicians, is a member of the ACT-IAC Executive Advisory Council and serves on the Armed Services Council for the Union League of Philadelphia

Lisa C. Bruch, Vice President - Sales & Marketing

Lisa has over 30 years of sales, marketing, business development and contracting experience in both the public and private sectors. Lisa is a proven leader who demonstrates strength in building strategic partnerships and directing complex programs. Accomplishments include increasing the depth and integration of the contracts and procurement organizations into the integrated customer-facing team model, devising strategies that grow market share, and creating environments that facilitate business growth. As an entrepreneur, Lisa has guided strategies on major acquisitions for telecommunications and infrastructure projects in the Middle East and West Africa. Prior to joining Qwest, Lisa was

president and CEO of The Crawford Group, Inc., which provided strategic support to telecommunications companies and small businesses alike. Lisa has also held executive level positions at AT&T in the Government Markets group and AT&T Global Sales where she led sales teams focused on emerging markets as well as state and local governments. Lisa is an alumna of Lincoln University, Pennsylvania, the Smeal College of Business at the Pennsylvania State University, and has been a member of the National Contract Management Association since 1986.

Marcy Palus, Vice President - Contracts Management

Marcy is responsible for the company's federal government contracts division as well as manages all key customer and external relationships within the federal government finance and contracting community. She has more than 30 years of experience in the defense contracting community. She previously served as vice president of contracts for Lockheed Martin and prior to that, as vice president at Raytheon. Palus received her bachelor's degree from Boston College.

Dr. Jason Seibel, Vice President - Operations Integration

Jason leads proposal and capture management, government services and network operations, and all program and project management for Federal Solutions. He has responsibility for coordinating the support engineering and product design aspects of the federal business as well as the capture and execution aspects of the business. He also oversees all NOC operations within the Federal channel, as well as the program and project management support for Federal.

Dana Albright, Area Vice President – Strategic Initiatives

Dana Albright is the Area Vice President, Strategic Initiatives for CenturyLink Federal Solutions. This includes responsibility for: the Integration Management Office (IMO) for the Level 3 transaction, oversight of IDIQ administration management activities, and liaison for corporate Merger & Acquisition process and manages all other Federal Solutions strategic, growth initiatives.

Albright has over 25 years of experience in program and operations management, with more than 18 of them at CenturyLink (formerly Qwest Communications). She has held multiple senior leadership roles directing complex corporate initiatives and driving business transformation programs. As Chief of Staff to Chief Operating Officer she was the principal Operations lead for M&A diligence activities and led the Integration Management program following CenturyLink's acquisition of Qwest. As Program Operations Director, Albright established and directed a centralized PMO delivering multi-million enterprise program portfolios including the operationalization of the Networx Enterprise and Universal contracts and corporate contingency planning related to collective bargaining.

Albright holds Masters Degrees in Interdisciplinary Business and International Management, and a Bachelor of Science degree in Business from Bellevue University. She has held various leadership roles in philanthropic organizations including: the Junior League, Boys and Girls Club, Omaha Symphony and the Boy Scouts. Albright is the current Steering Committee Chair for the Mile High Chapter of Program and Portfolio Management Professionals.

Ray Baxter, Director - Capture, Proposal, Business Analysis and Publications Management

With over 40 years of telecommunications experience, Mr. Baxter has held a variety of leadership roles that include New York Telephone, Satellite Business Systems, MCI Telecommunications, Sprint & SkyTerra Communications directing rate case responses, national accounts sales & implementation programs, business development, complex bid analysis and technical response teams. Mr. Baxter joined Qwest Government Systems, Inc in 2009 as Director Proposal & Publications Management. He is responsible for the development and submission of compliant and compelling responses to complex Federal solicitations. He assumed responsibility for the

Capture Management and Business Analysis functions in 2012 integrating the entire Proposal Management cycle from pre-sales to post submission under a single directorate. Mr. Baxter holds an MBA from New York University and a Bachelor of Science degree in Electrical Engineering from Bucknell University. A native "New Yorker", he has resided in northern Virginia for more than 20 years.

Shawn Carroll, Director – Engineering

Shawn Carroll joined the CenturyLink engineering team in February 2006 in support of the Networx proposal development and design effort. In his current role as Director of Engineering, Mr. Carroll is responsible for leading a team that supports all design and custom engineering aspects for CenturyLink's federal customer base. He brings 20+ years of engineering experience in government and industry in the support of network communications solutions. Prior to joining CenturyLink, Mr. Carroll held engineering and management positions at PSINet, Focal Communications and Broadwing Communications where he developed a diverse background in optical transport,

switching, routing, voice services, customer support, and service delivery. He played a key role in designing network solutions for several commercial and civilian contracts including the Federal Reserve Bank, National Science Foundation and DARPA. Mr. Carroll holds a degree in communications from State University of New York, College at Oswego and resides in Northern Virginia with his wife and children. He is a member of the Armed Forces Communications and Electronics Association (AFCEA).

Audrey Hallett, Director - Contracts Administration

Audrey D. Hallett joined CenturyLink as Director of Contracts for federal government markets in January 2001. Her role is to ensure federal agencies have access to CenturyLink's expanding services portfolio through a full complement of contract vehicles, while leading the organization in forming industry partnerships and small business alliances. Since her arrival, she has helped CenturyLink expand its customer base, diversify its offerings and leverage its industry relationships to provide alternate channels for delivery of CenturyLink services. Prior to CenturyLink, she managed Sprint Corporation's federal and state government contracts and subcontracts. Hallett

previously provided acquisition support to Sprint International and Telenet Corporation for data communication opportunities in the US and Pacific Rim. Hallett also proudly served as an officer in the United States Air Force with assignments at the Air Force Flight Test Center, the Navy/Air Force Joint Cruise Missiles Project and the Air Force Education with Industry Program at Rockwell International. Hallett received the Air Force Commendation Award and

the Air Force Systems Command Outstanding Contracting Officer of the Year Award during her military career. Hallett holds an MBA degree in management from Golden Gate University in San Francisco, CA, and a Bachelor of Arts degree in Humanities Pre-Law from Michigan State University in East Lansing, MI.

Chuck Leinbach, Director - Federal Programs

Chuck Leinbach has a broad knowledge of telecommunications with a career spanning over 25 years in the government and industry. His career has leveraged his strong technical background and robust experience managing a myriad of telecommunications projects and programs.

Chuck joined CenturyLink in August 1998 as systems engineer. A year later, he was promoted to lead engineer and a year following that became engineering manager, directing support for a critical government network. In November 2000, he was named Director, Technical Services supporting Special Government and Campus Programs. Today Chuck's major objective is to ensure ongoing support for existing programs and new requirements in this customer community. He manages a diverse and highly effective team of engineers, technicians, program, project managers, and logisticians. His team is lauded for their high performance and achievement, for example, in incentive award programs, the teams achieve 95% or better. In addition to his operational role, Chuck supports pre-sales engineering and proposals for our civilian, DOD, and Advanced Programs federal sectors. Prior to joining CenturyLink, Chuck was a member of the Booz, Allen & Hamilton program management team. In this role he supported major national, special programs managing new telecommunications requirements.

Tom Sewolt, Director – Federal Sales Operations

Tom Sewolt is Director of Business Operations and Chief of Staff of the CenturyLink Federal sector. He has more than 20 years of industry and government experience and has held leadership positions in procurement, contracting, sales and operations. Tom joined the Federal organization in 2003 and has been instrumental in growing the business nearly three-fold. He currently leads a management team that specializes in Program Control, Financial Planning & Analysis, Compliance and Sales Operations. Tom received his Bachelor's degree from Regis University in Denver, CO.

Sales Team Leadership

Civilian Sales

Wayne Davis, Area Vice President - Civilian Sales

Following a 25-year career working with government and industry partners to market and implement private data and information networks, Wayne Davis joined CenturyLink as Director of Business Development. Currently Wayne is the Area Vice President for the CenturyLink civilian sales organization. During his career, Davis has directed account management activities for a variety of large federal government customers, including the United States Postal Service, the Department of Energy, the Department of Interior, the Environmental Protection Agency, the Federal Reserve System, the Federal Deposit Insurance Corporation and others. He was the national accounts branch manager at MCI, and subsequently became Director of the USPS account, a \$3 billion contract engagement. He later became Director of business development for the GSA FTS2001 contract at MCI (operating under the name WorldCom at the time), responsible for securing new contract opportunities and aligning new products and services to meet the government's evolving technology and telecommunications needs. Davis holds a Bachelor of Arts Degree from Maryville College. He has been involved in the Industry Advisory Council (IAC) for a number of years, serving as the 2005 Industry Chair for the IAC Executive Leadership Conference (ELC). Davis was elected to the IAC Executive Committee in June of 2011 and is the President of the board of the National Capital Chapter of the Independent Telecommunications Pioneers Association (ITPA).

James Clevenger, Branch Director, Civilian

James Clevenger joined CenturyLink (formerly Qwest Communications) in June of 1998. He held both sales and sales management positions, before joining the CenturyLink Government team in 2007. In his current role as Branch Director of Civilian Agencies Sales, he supports GSA, HHS, NASA, HUD, Treasury Department, Department of Education, USDA, the Legislative Branch, USPS, Federal Reserve and the US Commissions (among others). James' team provides national coverage to these agencies and is based in Arlington, Virginia. Prior to joining CenturyLink, James spent 2 years with a technology company, REVNET based in Annapolis, MD. He has an extensive background in providing Telecommunications solutions for customers in the federal marketplace. James holds a Bachelor of Arts in Economics from Hobart College and resides in Severna Park, MD with his family.

Robert Sahagun, Branch Director, Civilian

Bob Sahagun has served the federal telecommunications community for over 20 years. He joined CenturyLink in May 2003. In his current role for CenturyLink, he serves as branch sales director for civilian accounts, specifically the Department of Veterans Affairs (VA), Department of Commerce (DOC), and Social Security Administration (SSA), with a team that provides national coverage to these agencies. Prior to joining CenturyLink, Sahagun spent 12 years as the Director of International networks for MCI Government Systems. He also has an extensive background in providing private global networks for customers in the federal marketplace. Sahagun holds a Bachelor of Arts in Economics from Radford University and resides in Great Falls, Virginia with his family.

Advanced Programs, DHS, DoE and DOJ

Cynthia Shelton, Area Vice President – Advanced Program Sales

Cynthia Shelton has more than 30 years of experience in the intelligence community and almost 20 years of combined service in the U.S. Air Force and the Air Force Reserves. She received her bachelor's degree from the U.S. Air Force Academy and her Master of Science degree in strategic intelligence from the Joint Military Intelligence College at Bolling Air Force Base. She is responsible for leading the federal sales team for CenturyLink's Intelligence, Energy, Justice and Homeland Security/cybersecurity programs. She brings extensive experience from across the intelligence, cybersecurity and national security communities, having managed various complex, mission-critical programs for several large government contractors in executive leadership roles. She also serves as a member of the Women's Leadership Committee for the Boys and Girls Club of Greater Washington.

Tina Bohse, Branch Director – DHS and Cybersecurity Programs

Tina joined CenturyLink in 2001 (via Qwest Communications) as Senior Account Manager with a focus on the Department of State, specializing in international communications requirements. She also worked as CenturyLink's Director of Business Development for National Security Accounts, focusing on strategic programs and initiatives in this space. She has over 25 years experience in the federal government communications technology arena, and previously held sales and marketing positions at Bell Atlantic, MCI and Winstar. In her current role, Tina serves as Sales Director for the Department of Homeland Security team, which also includes sales responsibility for our IPSS and ECS Cybersecurity programs. Tina received a bachelor of science from the University of Virginia and a master of business administration from the George Washington University.

James "Doc" Holliday, Branch Director – Intel Programs

Doc rejoined CenturyLink in February 2017 as sales director intelligence programs after previously supporting the Government and Education Solutions (GES) team as sales manager. Doc has over 30 years of experience in the information technology industry of which more than 25 years has been supporting clients in the public sector space. At the Federal level, Doc has supported the EPA, FAA, DOE, NRC, Department of Commerce and at the state government level he has supported the states of Michigan, Indiana, Ohio, Wisconsin and Illinois. He holds a Master's Certificate in Federal Government Contracting and a Master's Certificate in Program Management both from the George Washington University Center of Public Policy. He currently serves as Sales Director for the Department of Energy and Department of Justice modules. Doc received a bachelor of science in civil engineering degree from the Purdue University and holds a master degree of business administration from DePaul University.

Shari Snyder, Branch Director – Intel Programs

Shari joined CenturyLink in 2004 (via Qwest Communications) as a Federal Account Manager with a focus on the Intelligence Agencies. She has over 25 years experience in the federal government communications technology arena with positions in sales and customer service at Qwest Government Services and MCI. In her current role, Shari serves as Branch Director of Sales for Special Programs. Shari received a bachelor of arts from Marymount Manhattan College. She resides in Virginia with her husband and children.

DOD Sales

Greg Taylor, Area Vice President - DOD Sales

Greg Taylor joined CenturyLink in May 2008 as Director, Department of Defense Sales. In this role, Greg and his team sell and provide CenturyLink solutions to the Department of Defense agencies worldwide. Before joining CenturyLink, Greg spent more than 26 years in the telecom industry in various sales and management positions. He began his telecom career in 1982 in the Washington, D.C. office of ITT. He joined Sprint in 1989 as the senior national account manager for the US Army and later was promoted to branch manager. Subsequently, Greg assumed responsibility as manager, European sales based in Frankfurt, Germany. Under his leadership Sprint expanded their role as a telecommunications supplier in Europe and the Pacific Rim. He returned to the U.S. in 2003 as the branch director responsible for all sales to the U.S. Navy, Marine, DISA and U.S. Air Force. Greg is a graduate of the University of Maryland College Park with a Bachelor of Arts degree. Greg is a member of the Association of U.S. Army, the Navy League, and the U.S. Air Force Association and is a long standing member of the Armed Forces Communications and Electronics Association. Greg and his wife Jennifer live with their two daughters, in Howard County, Maryland.

Thelma Barker, Branch Director - DOD

Thelma joined CenturyLink in 2007 (via Qwest Communications) as a Federal Account Manager with a focus on civilian agencies. She has over 20 years experience in the federal government communications technology arena, and previously held sales positions at Sprint International, Sprint Government Services and Network Equipment Technologies. In her current role, Thelma serves as Branch Director of Sales for DOD agencies and all U.S. military bases. She has been involved in the Industry Advisory Council (IAC) for a number of years and graduated the ACT-IAC Partners Program as a Fellow in 2016. She also serves on the board of the Independent Telecommunications Pioneers Association (ITPA). Thelma received a Bachelor of Arts in Communications from Hampton University. She resides in Virginia with her husband and their daughter.

Tom Delery, Branch Director - DOD

Tom Delery is a former U.S. Navy Captain, who joined CenturyLink as the Department of Defense (DOD) Sales Manager in 2008. Tom leads a team of Information Technology professionals responsible for Cloud, Hosting, Managed Security and professional and network services. His team is a solutions partner for the Army, Navy, Marines, Air Force and the Defense Research and Engineering Network (DREN). Tom transitioned from over 25 years naval service, into information technology in 2002 as a Government Account Manager with Sprint working with the Department of State, U.S. intelligence agencies and personnel in the Special Operations branches of the Armed Forces. He played a key role in providing worldwide communications to the Department of State and in the expansion of CONUS and OCONUS distance learning training for the Army. Tom has a Masters degree in National Security Affairs from the U.S. Naval War College in Newport, R.I. and a Bachelor of Arts degree in History from The Citadel, the Military College of South Carolina. Tom is a member of the Armed Forces Communications Electronics Association (AFCEA), the Association of United States Army, the National Defense Industry Association and The Citadel Alumni Association.

Dean Economou, Branch Director - DISA

Dean Economou is a Branch Sales Director at CenturyLink. He has responsibility for a team of sales professionals that help DISA meet its global information and critical infrastructure requirements. Prior to CenturyLink, Dean was the Director of DOD Sales with Mobile Armor, an information assurance company. Before coming to Mobile Armor, Dean was a Client Executive with Sprint / Nextel. Dean managed the U.S. Air Force business unit. He was responsible for utilizing corporate resources and assets to support the war fighter in Operation Iraqi Freedom and respond to challenges like Hurricane Katrina. Dean received an MBA from George Washington University. He received his ROTC commissioning into the U.S. Army in 1991 from Northeastern University. Dean held several positions as an Intel officer including being liaison officer between active and reserve units during the Bosnia conflict.

Alliance Sales

Mark Robinson, Director - Federal Channel Sales Mark Robinson has over 25 years of experience in the federal/public sector as well as the commercial enterprise segment. He has sales and business development experience in Cloud, Network, and Managed IT Services, security, telecommunication services, Government contract and project management.
