

QWEST CONFERENCING OVERVIEW

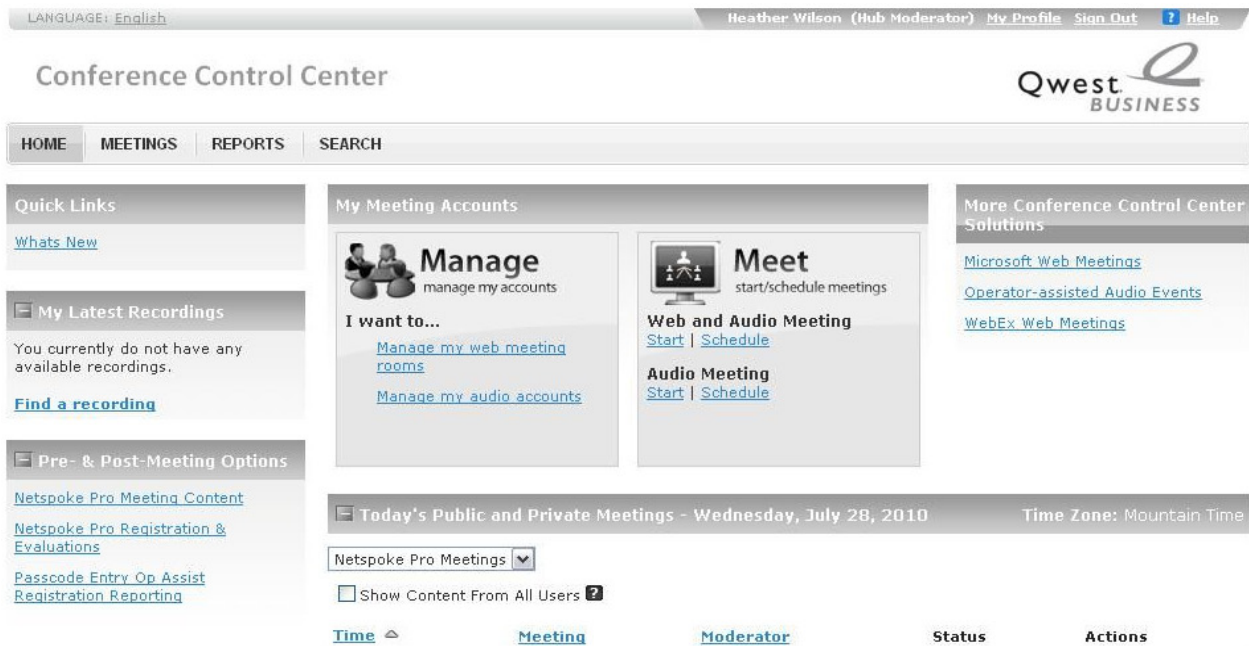

Conferencing is an invaluable, mission critical business tool in today's global economy. There's great demand for easy-to-use, cost effective, environmentally friendly collaboration solutions. Qwest Conferencing Service is the preferred way for large and small enterprises to virtually host and conduct important meetings and events. From self-service meetings to large high-profile events, Qwest has the conferencing solution to meet your needs.

THE QWEST CONFERENCING DIFFERENCE

- Versatile Conferencing Platform – Integrated feature-rich audio and Web conferencing in a single tool. Host any meeting without having to find another service – audio only, Web only, or audio, Web and desktop video combined.
- Unifying Communication Resources – Simplify meeting scheduling, initiation, and access. Qwest Web Conferencing integrates with Enterprise Officeware and handheld devices.
- Comprehensive Service Access – Join meetings from anywhere around the world via dial in/dial out features.
- Redundant, Reliable, and Scalable – World-class global conferencing platform with over 85 international access points across North America, Europe and Asia Pacific.
- Green Meetings – Qwest Conferencing supports environmentally responsible business practices by enabling the replacement of unnecessary travel with dynamic online work sessions.

QWEST CONFERENCING SOLUTIONS INCLUDE:

The Conference Control Center (CCC) – The CCC is a personalized, self-service online toolbox to manage your conference accounts and meetings. From the CCC all types of audio and web tools are available to you. You can also create custom invitations, access recorded calls, and determine the features that will be used on your call.

Availability of Qwest services varies. Please refer to the following for availability details about Qwest Conferencing: <http://qwest.com/legal/docs/availability.pdf>
