

CenturyLink Notify

Deliver notifications by voice, email, text or fax effortlessly

Notify delivers a robust, multi-channel communications solution that gives companies the power to easily deliver notifications to large or small groups of people by voice, email, text message or fax. Notify makes it fast, easy and cost effective to send messages that enable your business to connect with your customers.

As a hosted solution, this CenturyLink™ service is highly scalable, enabling rapid delivery of priority messages. In fact, it has the capacity to support millions of multi-channel communications a day with no hardware or software to buy, which means no capital expenses.

Notify delivers

- On-demand, hosted solution with no required capital expenditures
- Robust platform and services features that support voice, email, SMS and fax
- Access via a self-service portal or API integration into your systems
- Detailed reporting for program analysis and efficiency optimization

Your business benefits

- Build customer satisfaction through interactive communications
- Improve efficiencies and reduce costs within contact centers
- Automate internal and external communications
- Enhance customer loyalty and decrease account attrition

Self-service portal

Notify is a very versatile service. These are just a few of the many things you can accomplish using it.
