

CenturyLink™ SIP Trunk

Overview

CenturyLink SIP Trunk enables the origination and termination of local voice, dedicated long-distance, domestic and international toll-free service and Enhanced V911 traffic across a single broadband connection. It is designed to work in conjunction with CenturyLink IQ™ Networking, which includes a managed, fully interoperable and scalable suite of wide area network (WAN) services. CenturyLink IQ™ Networking is comprised of advanced Internet protocol (IP)-centric, multi-protocol label switching (MPLS).

Why CenturyLink?

Key Differentiators

- Complete communications solutions managed by a single provider that knows how to design, build and run networks
