

CenturyLink Cellular Personal Communications Service Networkx Service Overview

Extend your virtual reach—cost effectively

CenturyLink's Cellular/Personal Communications Service (CPCS) solution brings domestic and nondomestic mobile service that includes data-optimized capabilities for the wireless user. CenturyLink offers a high quality, nationwide wireless voice and data solution.

Geographic Availability

CenturyLink CPCS is available domestically and can be used for roaming internationally.

Features

CenturyLink CPCS solutions provide a comprehensive listing of features, including, but not limited to, those highlighted below:

- **Caller ID** - The CenturyLink network can provide Caller ID for each terminating call made in the network.
- **Caller ID Blocking** – Subscriber can block their number on a per call basis.
- **Call Forwarding (CF)** – CenturyLink provides Call Forwarding utilizing the wireless network.
- **Call Forwarding** - Unconditional - CenturyLink provides Call Forwarding unconditional to customers on the wireless network.
- **Call Waiting** - Call Waiting is provided by the wireless MSC and can be turned off per call.

Benefits

Robust and secure technology - Agencies enjoy minimum network down time and increased wireless information security.

How it works

The nationwide PCS network consists of two major components: the radio network and the data network.

Why buy from CenturyLink?

CenturyLink has historically exceeded performance indicators and plans to exceed them for the Government.
