DSL High-Speed Internet

The speed you need.
The choices you want.

CENTURYTEL

CENTURYTEL

High-Speed DSL

Accelerate your Internet experience!

Now, CenturyTel is bringing you the power to choose your own Internet experience. Whichever speed you choose, you'll get unlimited access that's up to 50 times faster than a standard dial-up connection[†]. Another advantage over dial-up? You can surf the Web and talk on the phone. You'll never miss a call while you're on the Web again.

Do more! Without the wait.

CenturyTel DSL service provides an entirely new Internet experience that allows you to do more … *faster.* Let's say you login and e-mail a 2 MB family photo to a friend. Unlike standard dial-up, you complete the task in a second or less, but that's too limiting. While sending, you're listening to your favorite song on the artist's Web site while checking out the movie trialer of a film you want to see. You do all this while talking to your friend on the phone and paying your bills online – all using a single phone connection. Finally, an Internet product with the flexibility to meet your needs, without all the wait.

The CenturyTel advantage.

And because it's from CenturyTel, you're assured a reliable connection that's backed by our friendly, knowledgeable customer service representatives 24 hours a day, 7 days a week.

The speed you need. The choice you want.

- Up to 50X faster than dial-up[†]
- Private, secure connection
- Talk on the phone at the same time
- Knowledgable 24/7 technical support
- Free parental control software
- Free spam filter
- 5 e-mail addresses
- 5 MB of personal Webspace
