GENERAL CUSTOMER SERVICES PRICE LIST

FOR THE

STATE OF ALABAMA

This price list contains regulations and rates applicable for the furnishing of Business Local Exchange Service, Long Distance Message Telecommunications, and for other general customer services and facilities associated with the above services offered by CenturyTel of Alabama, LLC, d/b/a CenturyLink, under this price list as CenturyTel of Southern Alabama d/b/a CenturyLink, also referred to as the Telephone Company and/or Company, within this State. This price list also contains rates, charges, terms and conditions for services formerly contained in the CenturyTel of Alabama, LLC d/b/a CenturyLink Advanced Data Services Price list and services formerly contained in the CenturyTel of Alabama, LLC d/b/a CenturyLink IntraLATA Private Line Service Price List, governing the provision of intrastate data communications.

Effective February 14, 2018, the CenturyTel of Alabama, LLC d/b/a CenturyLink Advanced Data Services Price List is cancelled in its entirety. See Section 23 for services formerly contained therein.

Effective February 19, 2018, the CenturyTel of Alabama, LLC d/b/a CenturyLink IntraLATA Private Line Service Price List is cancelled in its entirety. See Section 17 for services formerly contained therein.

CenturyLink’s End User Agreement located at www.centurylink.com/tariffs/al_mult_user_agreement.pdf applies to all RESIDENTIAL SERVICES in addition to the regulations and rates contained herein.

CenturyLink’s Standard Terms and Conditions For Communications Services (“Standard Terms and Conditions”) located at www.centurylink.com/tariffs/LTOS_Business_Standard_Terms.pdf applies to all BUSINESS SERVICES in addition to the regulations and rates contained herein.

Intrastate communication services are furnished through facilities provided by the Company for the transmission of intelligence by electrical impulse, principally by means of wire, radio, or a combination thereof.
EXPLANATION OF SYMBOLS

When changes are made in any price list page, a revised page will be issued canceling the price list page affected; such changes will be identified through the use of the following symbols:

(C) Signifies a changed regulation.

(D) Signifies a discontinued rate, regulation or text.

(I) Signifies an increase.

(M) Move from one page to another with no change in rate, regulation or text.

(N) Signifies a new rate, regulation or text.

(R) Signifies a reduction.

(T) Signifies a change in text but no change in rate or regulation.

The above symbols will apply except where additional symbols are identified at the bottom of an individual page.

TRADE NAMES, TRADEMARKS AND SERVICE MARKS USED IN THIS TARIFF

The following list of trade names, trademarks and/or service marks which may be used for services offered in this tariff are owned by CenturyLink, Inc. or a subsidiary of CenturyLink, Inc. and are used by CenturyTel of Southern Alabama d/b/a CenturyLink with express permission. Trademark and service mark designations will not be listed hereafter in the Tariff. However, the laws regarding trademarks and service marks are applicable.

Trade names, trademarks and service marks that are owned by CenturyLink, Inc. or a subsidiary of CenturyLink, Inc. cannot be used by another party without authorization.

GENERAL REGULATIONS

S2.1 Application

a. The regulations specified herein are applicable to all communication services offered in this price list by CenturyTel of Alabama, LLC, dba CenturyTel, known herein as CenturyTel of Southern Alabama dba CenturyLink, hereinafter referred to as the Company. Additional regulations, where applicable, pertaining to specific service offerings accompany such offerings in various sections of this price list.

S2.2 Limitations and Use of Service

S2.2.1 Use of Customer's Service

a. Telephone facilities are furnished for the use of the customer, employees, agents or representatives of the customer or members of the customer's domestic establishment except in connection with semipublic telephone service and except as the use of the service may be extended, in addition to other service which may be separately ordered, patrons of hospitals or of hotels, members of clubs, students living in quarters furnished by schools, colleges or universities, to persons temporarily subleasing a customer's residential premises, or to tenants living in retirement complexes.

b. Reserved for Future Use

c. In view of the fact that the customer has exclusive control of his communications over the facilities furnished him by the Company, and of the other users for which facilities may be furnished him by the Company, and because of unavoidableness of errors incident to the services and to the use of such facilities of the Company, the services and facilities furnished by the Company are subject to the terms, conditions, and limitations herein specified.
GENERAL REGULATIONS

S2.2 Limitations and Use of Service (Cont’d)

S2.2.2 Establishment of Identity

a. The calling party shall establish his identity in the course of any communications as often as may be necessary.

b. The calling party shall be solely responsible for establishing the identity of the person or station with whom connection is made at the called location.

S2.2.3 Accessories Provided by the Customer

a. Accessories which aid a customer's convenience in his use of the facilities of the Company in the service for which they are furnished under this price list are permissible, provided any such accessory so used would not endanger the safety of Company employees or the public; damage, require change in or alteration of, to the service or other facilities of the Company, or interfere with the proper functioning of such service or facilities; or impair the operation of the telephone system or otherwise injure the public in its use of the Company's services.

b. Except as otherwise provided in this price list, nothing herein shall be construed to permit the use of a recording device, or of a device to interconnect any line or channel of the Company with any other communication line or channel of the Company or of any other person.

c. While the Company's basic monthly exchange line service as specified in Section S3.2 may be used by the customer for dial-up access, the advertised speeds of the customer's modem may not be attainable with this service and are not guaranteed by the Company.

S2.2.4 Broadcast of Recordings of Telephone Conversations

a. The broadcasting of a recording of a telephone conversation during the period of recording is allowed provided that, in the interest of protecting the privacy of telephone service, the recording is made in accordance with the regulations governing connection with voice recording equipment as specified in Section 15 of this price list.
GENERAL REGULATIONS

S2.2 Limitations and Use of Service (Cont’d)

S2.2.5 Recorded Public Announcements

a. Use of Company facilities or service in connection with automatic answering service, automatic answering and recording service, recorder-coupler service or miscellaneous devices for recorded public announcements are subject to the following conditions:

(1) For purposes of identification, customers to telephone service who transmit recorded public announcements over facilities provided by the Company must include in the recorded message the name of the organization or individual responsible for the service and the address of the organization or individual named in the announcement as shown in the currently distributed telephone directory.

(2) Private telephone numbers will not be furnished for use with recorded public announcements.

(3) Failure to comply with the provisions of this price list shall be cause of termination of the service.

S2.2.6 Limited Communication

a. The Company reserves the right to limit the length of communication when necessary because of a shortage of facilities caused by emergency conditions.

b. The emergency provisioning and restoration of facilities shall be in accordance with Part 64, Subpart D, Paragraph 64.401, of the FCC’s Rules and Regulations, which specifies the priority system for such activities. Section S13.9 describes the service arrangement.

S2.2.7 Transmitting Messages

a. The Company does not transmit messages but offers the use of its facilities for communications between customers. If because of transmission difficulties, the operator, in order to accommodate the customer, repeats messages, she is deemed to be acting as the agent of the persons involved and no liability shall attach to the Company because of any errors made by the operator or misunderstandings that may arise between customers because of the errors.

b. Where the Company transmits messages through the Alabama Relay Center, the Company shall not be liable for errors in translating, transmitting, receiving or delivering messages by telephone, TDD or any other instrumentality over the facilities of the Company, connecting utilities or through the Alabama Relay Center, in the absence of gross negligence or willful misconduct.
GENERAL REGULATIONS

S2.2 Limitations and Use of Service (Cont’d)

S2.2.8 Unlawful Use of Service

a. The service is furnished subject to the condition that it will not be used for an unlawful purpose. Service will be discontinued if any law enforcement agency, acting within its apparent jurisdiction, advises in writing that such service is being used in violation of law. The Company will refuse to furnish service when it has reasonable grounds to believe that such service will be used in violation of law.

S2.2.9 Cancellation of Service for Cause

a. The Company may, following five (5) days written notice, either suspend service or terminate the customer's contract without suspension of service or following a suspension of service, disconnect the service.

(1) Abandonment of the service.

(2) Failure of a customer to make suitable deposit as required by this price list.

(3) Impersonation of another with fraudulent intent.

(4) Reserved for Future Use

(5) Non-payment of any regulated sum due for exchange, long distance or other services.

(6) Use of service in such a way as to impair or interfere with the service of other customers; such improper use includes, but is not limited to, the use of telephone service by a customer or with his permission in connection with a plan or contrivance to secure a large volume of telephone calls, to be directed to such customer at or about the same time which may result in preventing, obstructing, or delaying the telephone service of others.

(7) Use of service or facilities for a call or calls, anonymous in a manner reasonable to be expected to frighten, abuse, torment, or harass another.

(8) Any other violation of the Company's regulations.
GENERAL REGULATIONS

S2.2 Limitations and Use of Service (Cont’d)

S2.2.9 Cancellation of Service for Cause (Cont’d)

b. The Company reserves the right to cancel any contract for service with and to discontinue service to any person who uses or permits the use of obscene, profane or grossly abusive language over or by means of the Company's facilities, and who, after reasonable notice fails, neglects or refuses to cease and refrain from such practice or to prevent the same, and to remove its property from the premises of such person.

S2.2.10 Alabama Relay Center Restrictions

a. The following calls may not be placed through the Alabama Relay Center:

   (1) Calls to 976, 900, or 700 numbers.

   (2) Calls to time or weather recorded messages.

   (3) Calls to other informational recordings.

   (4) Station sent paid calls from coin telephones.

   (5) Operator handled conference service and other teleconference calls.

   (6) All calls billed to cards (i.e., credit cards and calling cards) other than those issued by AT&T or the local exchange companies.

S2.3 Establishment and Furnishing of Service

S2.3.1 Availability of Facilities

a. The Company's obligation to furnish service is dependent upon its ability to procure and retain, without reasonable expense, suitable facilities and rights for the provision of such service.

b. The rates and charges quoted in this price list provide for the furnishing of service and facilities where suitable facilities are available or when the construction of the necessary facilities does not involve excessive costs.
S2.3 Establishment and Furnishing of Service (Cont’d)

S2.3.1 Availability of Facilities (Cont’d)

c. When excessive costs are involved for the construction of facilities, charges for such construction will be determined in accordance with the regulations as set forth in Section S5, "Charges Applicable Under Special Conditions", except as otherwise specified.

d. In certain instances, i.e., when spare facilities and/or equipment are not available, it may be necessary to preempt existing services to provision or restore National Security Emergency Preparedness (NSEP) Services. If, in its best judgment, the Telephone Company deems it necessary to preempt, then the Telephone Company will ensure that:

(1) The service(s) preempted have a lower or do not contain NSEP assigned priority levels.

(2) A reasonable effort is made to notify the preempted service customer of the action to be taken.

(3) A credit allowance for any preempted service shall be made in accordance with the provisions set forth in Section S2.4.4.

S2.3.2 Construction of Facilities

a. Customers who receive or request service shall be deemed to have consented to the reasonable use of their real property to construct, operate, maintain, replace, or enlarge telephone and/or communication lines, overhead or underground, including all conduit, cables, wires, surface testing terminals, markers and other appurtenances under, through, across and upon any real property or interest therein owned or leased or controlled by said member for the furnishing of telephone or communications service to said customer, or any other customer. Upon request, the customer agrees to execute any easement or right-of-way contract on a form to be furnished by the Company.
GENERAL REGULATIONS

S2.3 Establishment and Furnishing of Service (Cont’d)

S2.3.3 Application for Service

a. Any applicant for service may be required to sign an application form requesting the Company to furnish the service in accordance with rates, charges, rules and regulations from time to time in force and effect.

b. The Company may decline to serve an applicant or disconnect a customer who is indebted to the Company for similar service at a former location or at the present location of the applicant or customer, or where such indebtedness was incurred by a member of the applicant's or customer's household, either under the name of the applicant or the customer, or another name when the application for such service is or was made within one year from the date such indebtedness became due. Provided, however, that in the event such indebtedness for service previously rendered is in dispute, the applicant shall be served or customer's service shall be continued upon complying with the deposit as specified in the end user agreement or service order, and in addition thereto making a special deposit in amount equal to the net balance in dispute. Upon settlement of the disputed amount, the balance, if any, due the applicant or customer or member of applicant's or customer's household shall be promptly repaid, together with accrued interest at the rate established periodically by the Company based on the Wall Street Journal prime rate as quoted in the money rates section of the Wall Street Journal.

If IntraLATA Private Line Service is established and it is subsequently determined that either condition in b. preceding exists, the Telephone Company may suspend or disconnect such service on two day's written notice until satisfactory arrangements have been made for the payment of the prior indebtedness.

c. The following shall not constitute sufficient cause for denying service to a prospective customer:

1. Failure to pay for business service at a different location and a different telephone number shall not constitute sufficient cause for refusal of residence service or vice versa.
2. Failure to pay directory advertising charges in dispute.
3. Failure to pay charges in dispute billed for other carriers.
4. Failure to pay for non-regulated equipment or services.
5. Failure to pay for Local Dial-It charges in dispute.

d. When an application for service and facilities or requests for additions, rearrangements, relocations or modifications of service are cancelled in whole or in part prior to completion of the work involved, the applicant is required to reimburse the Company for all expense incurred in handling the request before notice of cancellation is received. Such charge, however, is not to exceed all charges which would apply if the work involved in complying with the request had been completed.

Any costs due to a rearrangement of service caused by a suspension of a portion of a service will be borne by the customer.

(M) Material formerly appeared in Section B.1.f.3) of the CenturyTel of Alabama, LLC d/b/a CenturyLink IntraLATA Private Line Service Price List.

AL 18-03
S2.3 Establishment and Furnishing of Service (Cont’d)

S2.3.3 Application for Service (Cont’d)

e. When a customer requests a change in location of all or a part of the facilities covered by his application for service or request for addition, rearrangements or modifications of his existing service prior to completion of the work involved, he is required to pay the difference between the total costs and expenses incurred by the Company in completing the work involved and that which would have been incurred had the final location of the facilities been specified initially.

S2.3.4 Application of Rates for Business and Residence Service

a. In general, business rates apply at business locations and residence locations as illustrated by the situations described in b and c following.

b. Business rates apply whenever the use of the service is primarily or substantially of a business, professional, institutional or otherwise occupational nature where the listing required is such as to indicate business use.

Business rates apply for:

(1) Offices, stores, factories, mines and all other places of a strictly business nature.

(2) Boarding houses, except as modified under S2.3.4.c.(2); offices of hotels and apartment houses, colleges, quarters occupied by clubs and fraternal societies, except as modified under S2.3.4.c.(5); public, private or parochial schools, hospitals, nursing homes, libraries and other institutions and churches.

Note: For the purpose of this price list, a boarding house is defined as a house or apartment where rooms are rented or boarders taken or both. Such houses or apartments may obtain service at residence rates when in the judgment of the Company they are not conducted primarily for business purposes and are listed as residences.
GENERAL REGULATIONS

S2.3 Establishment and Furnishing of Service (Cont’d)

S2.3.4 Application of Rates for Business and Residence Service (Cont’d)

b. Business rates apply whenever the use of the service is primarily ... (Cont’d)

(3) Reserved for Future Use
(4) Reserved for Future Use
(5) Service terminating solely on the secretarial facilities of a secretarial answering firm will carry business rates.
(6) Reserved for Future Use
(7) Reserved for Future Use
(8) Service listed in business telephone directories or in the business section of the White Pages Directory or listed as a business in a combined residence/business White Pages Directory.

c. Residence rates apply when the use of the service is of domestic nature and provided that service is not used substantially for occupational purposes. Residence rates apply for:

(1) Private residences on service not employing business listings.
(2) Private apartments in hotels or other residential facilities providing for occupation by a single resident for a period in excess of the minimum contract period where service is confined to the customer’s use.
GENERAL REGULATIONS

S2.3 Establishment and Furnishing of Service (Cont’d)

S2.3.4 Application of Rates for Business and Residence Service (Cont’d)

   c. Residence rates apply when the use of the service is of domestic … (Cont’d)

      (3) Reserved for Future Use

      (4) Reserved for Future Use

      (5) College fraternity and sorority houses where members lodge within the house.

      (6) Secretarial line terminations of residence main service terminating as extension lines on the premises of a telephone answering bureau.

   d. A customer may change from business service to residence service if the customer’s arrangements would entitle him to a residence classification of his service, as specified in c. above.

      If a customer has a business listing, the change from business service to residence service would require a number change with no referral of calls. However, the customer may retain his existing business number for his residential service if the change is made effective with the publication of the new telephone directory.

      The appropriate service charges as specified in Section S4 of this price list shall apply.

   e. Changes from residence to business service may usually be made without change in telephone number, if the customer so desires. Service connection charges, which apply for such changes, are quoted in Section S4 of this price list.
GENERAL REGULATIONS

S2.3 Establishment and Furnishing of Service (Cont’d)

S2.3.5 Transfer of Service between Customers

a. Service previously furnished one customer may be assumed by a new customer upon due notice of cancellation, provided there is no lapse in the rendition of service. The Network Access Change charge, specified in Section S4.3, will be applied to the new customer’s account for such transfers.

b. Where existing service is continued for a new customer, the telephone number may be retained by the new customer only if the old customer consents and an arrangement acceptable to the Telephone Company is made to pay all outstanding charges against the service.
GENERAL REGULATIONS

S2.3 Establishment and Furnishing of Service (Cont’d)

S2.3.6 Initial Service Periods

a. Unless otherwise specified herein or in the service order, the initial service period for all services offered in this price list is one (1) month commencing with the date of installation of the service.

b. For services furnished with initial service periods exceeding one month, the applicable initial service period is the number of months indicated in parenthesis following the basic termination charge listed in that section of this price list containing the service offered.

c. The initial service period relates to each applicable unit of service, either on the initial or subsequent installation.

S2.3.7 Floor Space, Electric Power and Operating at the Customers Premises

a. The customer is responsible for the provision and maintenance, at his expense, of all suitable space and floor arrangements, including but not limited to adequate lighting, proper relative humidity and temperature control, required on his premises for communication facilities provided by the Company in connection with services furnished to the customer by the Company. Any power outlets and commercial power required for the operation of such facilities shall be provided by, and at the expense of, the customer.

b. Except as may be specified elsewhere in this price list, all operating required for the use of communications facilities provided by the Company at the customer’s premises will be performed at the expense of the customer, and must conform with the operating practices and procedures of the Company to maintain a proper standard of service.
GENERAL REGULATIONS

S2.3 Establishment and Furnishing of Service (Cont’d)

S2.3.8 Provision and Ownership of Facilities
   
a. Facilities furnished by the Company on the premises of a customer or authorized user of the service are the property of the Company and are provided upon the condition that such facilities, except as expressly provided in the price list, must be installed, relocated and maintained by the Company and that the Company's employees and agents may enter said premises at any reasonable hour to make collections from coin boxes, to install, inspect or repair any part of the Company's facilities on the customer's premises, or upon termination or cancellation of the service, to remove such facilities.

b. Customers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Company, except upon written consent of the Company.

S2.3.9 Provision and Ownership of Directories
   
a. Telephone directories distributed from time to time by the Company, remain the property of the Company and shall not be mutilated and shall be surrendered upon request.

b. No binder, holder, insert or auxiliary cover or attachment of any kind not furnished by the Company shall be attached to the directories owned by the Company, except that this prohibition shall not apply to a customer-provided binder, holder, insert or auxiliary cover which is not so attached as to impede reference to essential service information or otherwise interferes with service.

S2.3.10 Provision and Ownership of Telephone Numbers
   
a. Telephone numbers are the property of the Company and are assigned to the service furnished the customer. The customer has no property right to the telephone number or any other call number designation associated with the services furnished by the Company, and no right to the continuance of service through any particular central office. The Company reserves the right to change such numbers, or the central office designation associated with such numbers, or both, assigned to the customer, whenever the Company deems it necessary to do so in the conduct of its business.
S2.3 Establishment and Furnishing of Service (Cont’d)

S2.3.11 Maintenance and Repairs

a. All ordinary expense of maintenance and repairs, unless otherwise specified in this price list, is borne by the Company. In case of damage, loss, theft, or destruction of any of the Company's property due to the negligence of willful act of the customer or other persons authorized to use the service, and not due to ordinary wear and tear or causes beyond the control of the customer, the customer shall be required to pay the expense incurred by the Company in connection with the replacement of the property damaged, lost, stolen, or destroyed, or the expense incurred in restoring it to its original condition.

b. Where a maintenance or repair visit is made to the customer's premises and the difficulty or trouble report results from the use of unauthorized attachments or connections, the "Maintenance of Service Charge" as specified in Section S2.7.4 of the Price list shall be applied.

S2.3.12 Company Facilities at Hazardous or Inaccessible Locations

a. Where service is to be established at a location that would involve undue hazards, or where accessibility is impracticable to employees of the Company, the customer may be required to install and maintain the Company's facilities in a manner satisfactory to the Company, any remuneration to be based on the conditions involved.

S2.3.13 Work Performed Outside Regular Working Hours

a. The rates and charges specified in this price list contemplate that work in connection with furnishing or rearranging service be performed during regular working hours. Whenever a customer requests that work necessarily required in the furnishing or rearranging of his service be performed outside the Company's regular working hours or that once begun be interrupted, so that the Company incurs costs that would not otherwise have been incurred, the customer may be required to pay, in addition to the other rates and charges specified in this price list, the amount of additional costs incurred by the Company as a result of the customer's special requirements.
GENERAL REGULATIONS

S2.3 Establishment and Furnishing of Service (Cont’d)

S2.3.14 Termination of Service

a. Termination of Service by the Company

(1) Violation of any of the regulations contained in this price list on the part of the customer may be regarded as sufficient cause for termination of the customer's service.

(2) When the service is terminated on the initiative of the Company because of violation of its regulations by the customer, the regulations stipulated below for termination of service at the customer's request apply.

(3) The Company may refuse to furnish or continue to furnish service hereunder, if such service would be used or is used for a purpose other than for which it is provided or when its use interferes with or impairs, or would interfere with or impair, any other service rendered to the public by the Company.

b. Termination of Service at the Customer's Request

Service may be terminated at any time upon reasonable notice from the customer to the Company. Upon such termination the customer shall be responsible for the payment of all charges due. This includes all charges due for the period service has been rendered plus any unexpired portion of an initial service period or applicable termination charges, or both.

When business service is terminated at the customer’s request after the minimum service period or initial contract period as described preceding has been met, service will be discontinued immediately, and a final bill will be issued in accordance with Section S2.4.5, Prorating of Opening and Closing Bills. Residential customers may request termination of residence service at any time, and service will be discontinued on the last day of the customer’s billing cycle after the minimum service period has been met. Final charges will be rendered in accordance with Section S2.4.5, Prorating of Opening and Closing Bills.

S2.3.15 Ringer Limitations

a. The number of ringers directly connected to the line is limited to four (4) per customer.

b. Ordinarily in connection with individual line service, a ringer is permanently connected to the line.
GENERAL REGULATIONS

S2.3 Establishment and Furnishing of Service (Cont’d)

S2.3.16 Vacation Number Reservation

a. General

Vacation Number Reservation provides for temporary suspension of service at customer request for a period of not less than one (1) month and not to exceed nine (9) months in a twelve (12) month period. Vacation Number Reservation applies only to residential and business access line rates. It does not apply to Key, PBX, Centrex lines, or Trunks, calling features or bundled services. The customer’s account must be current to be placed on Vacation Number Reservation. After service has been restored, there will be a minimum of one (1) month’s charge for full service before the service can again be put on Vacation Number Reservation.

b. Rates

The charge for Vacation Number Reservation is Fifty (50) percent of the regular flat rated monthly access line rate.

c. Conditions

(1) Telephone service will be completely disconnected during the period of Vacation Number Reservation; there will be no dial tone.

(2) If the customer has not requested that the service be restored after nine (9) months of Vacation Number Reservation, the service will revert back to the standard rate; however, full service (dial tone) will not be restored until the customer requests such by contacting the Telephone Company. The customer will be notified of the date of the discount expiration in advance.

(3) There will be no charge to activate Vacation Number Reservation. Applicable nonrecurring charges will apply each time Vacation Number Reservation is restored to full service.
GENERAL REGULATIONS

S2.3 Establishment and Furnishing of Service (Cont’d)

S2.3.17 Responsibilities of the Customer

a. Multi-Line Telephone Systems

Pursuant to 47 CFR §9.16(b)(1) and (2), multi-line telephone systems connected to the Company’s network which were manufactured, imported, sold, leased, or installed after February 16, 2020 must be configured to:

- allow an end user to directly initiate a “911” call from any station equipped with dialing facilities, without dialing any additional digit, code, prefix, or post-fix, including any trunk-access code such as the digit 9, regardless of whether the user is required to dial such a digit, code, prefix, or post-fix for other calls, and

- provide MLTS notification to a central location at the facility where the system is installed or to another person or organization regardless of location, if the system is able to be configured to provide the notification without an improvement to the hardware or software of the system.

MLTS notification must (1) be initiated contemporaneously with the 911 call, provided that it is technically feasible to do so; (2) not delay the call to 911; and (3) be sent to a location where someone is likely to see or hear it.

Customers who connect multi-line telephone systems to the Company’s facilities must agree to defend and indemnify the Company for acts and omissions resulting in non-compliance, as described in Section S2.5.4.
GENERAL REGULATIONS

S2.3 Establishment and Furnishing of Service (Cont’d)

S2.3.18 Reserved
GENERAL REGULATIONS

S2.4 Payment Arrangements and Credit Allowances

S2.4.1 Advance Payments

Advance payments are not required for services provided herein as a condition of credit establishment. However, in addition to or in lieu of a deposit as specified elsewhere herein, the Company may require an advance payment for customer-premises equipment ordered in conjunction with services provided herein.

S2.4.2 Deposits

a. The Company reserves the right to examine the credit record or other available external sources of credit of an applicant or Customer. An applicant’s or current customer’s credit worthiness will be determined in an equitable and nondiscriminatory manner. If applicant’s or customer’s credit is deemed unsatisfactory, the Company may require an applicant or a customer to make a suitable cash deposit to be held by the Company as a guarantee of the payment of charges for service. The fact that a deposit has been made neither relieves the applicant nor the customer from complying with the Company’s regulations as to advance payments and the prompt payment of bills on presentation nor constitutes a waiver or modification of the regulations of the Company providing for the discontinuance of service for nonpayment of any sums due the Company for service rendered.

b. Applicants or customers who request service in a location where the Company believes, in its sole discretion, the equipment may be subject to loss or damage through theft, vandalism or other reasons involving a responsibility on the part of the customer will be required to make a suitable deposit to cover that potential loss or damage, such deposit not to exceed the value of the equipment furnished.
GENERAL REGULATIONS

S2.4 Payment Arrangements and Credit Allowances

S2.4.2 Deposits (Cont’d)

c. The amount of deposit, if applicable, will be determined in accordance with the Company's policies.

d. Deposits, if applicable, will be refunded or applied, in accordance with the Company's policies.

e. The Company does not apply interest on deposit amounts that it holds or upon the return of deposit amounts to the applicant or customer.

S2.4.3 Payment for Service

a. All charges due by the customer are payable at the Company's Business Office or at any agency duly authorized to receive such payments. If objection in writing is not received by the Company within forty-five (45) days after the bill is received, the account shall be deemed correct and binding upon the customer.

b. The customer shall pay monthly in advance or on demand all charges for service and equipment and shall pay on demand all charges for long distance service. The customer is responsible for payment of all charges for services furnished the customer including charges for services originated or charges accepted at the customer's station.
GENERAL REGULATIONS

S2.4 Payment Arrangements and Credit Allowances (Cont’d)

S2.4.3 Payment for Service (Cont’d)

c. Failure to receive a bill does not relieve the customers of the responsibility for payment in accordance with the provisions set forth herein.

d. Should service be suspended for nonpayment of charges, it will be restored only as provided under "Restoration Charge" in Section S4 of this price list.

e. When the service has been disconnected for nonpayment, the service agreement is considered to have been terminated. Reestablishment of service may be made only upon the execution of a new service agreement which is subject to the provisions of this price list.

f. In its discretion, the Company may restore or reestablish service which has been suspended or disconnected for nonpayment of charges, prior to payment of all charges due. Such restoration or reestablishment shall not be construed as a waiver of any rights to suspend or disconnect service for nonpayment of any such or other charges due and unpaid or for the violation of the provisions of this price list; nor shall the failure to suspend or disconnect service for nonpayment of any past due regulated account or accounts operate as a waiver or estoppel to suspend or disconnect service for non-payment of such account or of any other past due regulated account.

g. An administrative charge as specified in Section S4 of this price list will be applied to each insufficient funds check received. Regulations contained in this price list regarding suspension or discontinuance of telephone service will remain applicable.

h. All charges due by the customer are payable at the Company's Business Office or at any agency duly authorized to receive such payments.
GENERAL REGULATIONS

S2.4 Payment Arrangements and Credit Allowances (Cont’d)

S2.4.4 Allowance for Interruptions

a. Customers experiencing a service outage exceeding twenty-four (24) hours will receive a credit allowance as provided in b. following, and a Service Performance Guarantee credit as provided in S2.4.6 following.

b. When the use of service or facilities furnished by the Company is interrupted due to any cause other than the negligence or willful act of the customer or the failure of the facilities provided by the customer, a pro rata adjustment of the fixed monthly charges involved will be allowed for the service and facilities rendered useless and inoperative by reason of the interruption during the time said interruption continues in excess of twenty-four (24) hours from the time it is reported to or detected by the Company, except as otherwise specified in this price list. For the purpose of administering this regulation, every month is considered to have thirty (30) days.

c. See Section 17.7.5.G. of the CenturyTel of Northern Alabama d/b/a CenturyLink General Customer Services Price List for terms and conditions pertaining to IntraLATA Private Line Service.

d. See Section 23.2.12 of the CenturyTel of Northern Alabama d/b/a CenturyLink General Customer Services Price List for terms and conditions pertaining to Advanced Data Services.

S2.4.5 Prorating of Opening and Closing Bills

Bills for telephone service are normally rendered on a monthly basis. Bills rendered for establishment of business and residential services and final bills rendered for discontinuation of business services will be prorated on the basis of a thirty (30) day billing period. Final bills rendered after customer-requested discontinuance of residential service will not be pro-rated and service will remain available to the customer until the first day of the customer’s next billing cycle.
S2.4 Payment Arrangements and Credit Allowances (Cont’d)

S2.4.6 Service Performance Guarantee

a. Business

(1) If a business customer requests installation or repair of Company-owned facilities used to provide exchange, message toll, private line or enhanced services offered under this price list and the installation or repair is not completed as agreed, the customer will be eligible to receive a credit of $100.00. One credit per order or trouble report may be applied for the affected service to which the customer subscribes to in this price list.

(2) Each credit shall be limited to the amount described above for the particular line or lines associated with the service to be installed or repaired.

(3) Credit will be provided in accordance with the above conditions at the request of the customer. At the company’s discretion, the Service Performance Guarantee will appear as either a $100 credit on the customer’s bill or something of equal value to the customer.

(4) Credit will be extended in accordance with the above conditions only for installation or restoration of exchange, private line, message toll, or enhanced services or for installation or repair of Company-owned facilities used to provide those services. The Service Performance Guarantee is not applicable for Public Telephone Service and/or Semipublic Telephone Service.

(5) The credit will not apply to "out of service" conditions resulting from:

   (a) Willful neglect, misuse or abuse by the customer.

   (b) Problems in the customer's premises equipment or in the customer's inside wire.

   (c) Natural disasters, labor difficulties, governmental orders, civil commotions, general network failure, cable cuts affecting more than 5% of the Company's customers or circumstances beyond the control and/or knowledge of the Company.
S2.4 Payment Arrangements and Credit Allowances (Cont’d)

S2.4.6 Service Performance Guarantee (Cont’d)

a. Business (Cont’d)

   (5) The credit will not apply to "out of service" conditions resulting from: … (Cont’d)

      (d) Temporarily or permanently discontinued service due to nonpayment of bills.

b. Residence

(1) If a residence customer requests installation or repair of Company-owned facilities used to provide service offered under this Price list, and the installation or repair is not completed as agreed, the customer will be eligible to receive a credit of $25.00. One (1) credit per order or trouble report may be applied for the affected service to which the customer subscribes to in this price list.

(2) Each credit shall be limited to the amount described above for the particular line or lines associated with the service to be installed or repaired.

(3) Credit will be provided in accordance with the above conditions at the request of the customer. At the company's discretion, the Service Performance Guarantee will appear as either a $25 credit on the customer's bill or something of equal value to the customer.

(4) Credit will be extended in accordance with the above conditions only for installation or repair of Company-owned facilities used to provide services offered in accordance with this price list.
GENERAL REGULATIONS

S2.4  Payment Arrangements and Credit Allowances (Cont’d)

S2.4.6  Service Performance Guarantee (Cont’d)

b.  Residence (Cont’d)

(5)  The credit will not apply to "out of service" conditions resulting from:

(a)  Willful neglect, misuse or abuse by the customer.

(b)  Problems in the customer's premises equipment or in the customer's inside wire.

(c)  Natural disasters, labor difficulties, governmental orders, civil commotions, general network failure, cable cuts affecting more than 5% of the Company's customers or circumstances beyond the control and/or knowledge of the Company.

(d)  Temporarily or permanently discontinued service due to nonpayment of bills.

S2.4.7  Late Payment Charge

The following Late Payment Charge will be applied on each residence and business subscriber's bill for charges assessed for services contained within this Price List. The Late Payment Charge is applied to the total unpaid amount carried forward and is included in the total amount due on the current bill.

Residence and Business  Greater of $13.00 or 5% of unpaid balance (I)(T)

S2.4.8 Economic Development Incentive Waivers and Discounts

a. General

(1) The purpose of this Price list offering is to complement and supplement the public policy of this State as set forth in the Alabama Law, Act No. 87-573, Act No. 93-851, and Act No. 95-187 by providing incentive waivers and discounts to qualifying businesses.

(2) Qualification may be under Option One, Option Two or Option Three of this Price list but not under more than one option simultaneously.

(3) When the application for service is made, the applicant must advise the Company of their intent to receive the discounts and waivers afforded under either Option One, Option Two or Option Three of this Price list.
GENERAL REGULATIONS

S2.4 Payment Arrangements and Credit Allowances (Cont’d)

S2.4.8 Economic Development Incentive Waivers and Discounts (Cont’d)

a. General (Cont’d)

(4) Any qualifying business certifying that it is eligible for the waivers and discounts contained herein shall agree, as a condition of receiving the waivers and discounts, to provide proof satisfactory to the Company of its eligibility under Alabama Law, Act No. 87-573, Act No. 93-851 or Act No. 95-187. If any qualifying business certifying that it is eligible to receive the waivers and discounts set forth herein is subsequently determined not to be eligible for the benefits created by Alabama Law, Act No. 87-573, Act No. 93-851, or Act No. 95-187 as applicable for the Option chosen, that business shall not be eligible for any waiver or discount under this Price list offering. Upon such occurrence, the business shall immediately cease to be eligible and may be required to provide deposits, pay applicable service connection/installation charges, and pay the full undiscounted price list charges for any services received pursuant to this offering.

b. Option One

(1) For the purpose of Option One of this Price list offering, the term "private employer" means a business or industry located within boundaries of an enterprise zone and operating a private-for-profit business.

(2) For the purpose of Option One of this Price list offering, "enterprise zone" means a geographic area which is economically depressed, in need of expansion of business and industry and creation of jobs. Rural enterprise zone means an enterprise zone located in a non-MSA county, such as defined by the U.S. Bureau of the Census. Urban enterprise zone means an enterprise zone located in a MSA county, as such is defined by the U.S. Bureau of the Census. These enterprise zones shall be specifically designated by the Alabama Department of Economic and Community Affairs pursuant to the Alabama Enterprise Zone, Act No. 87-573.
S2.4 Payment Arrangements and Credit Allowances (Cont’d)

S2.4.8 Economic Development Incentive Waivers and Discounts (Cont’d)

b. Option One (Cont’d)

(3) For the purpose of Option One of this Price list, a new permanent employee is a full-time employee who remains employed with the firm for a minimum of nine months, working a minimum of thirty (30) hours per week and receiving appropriate company benefits.

(4) Any private employer which meets the following qualifications may qualify for discounts associated with Option One of this Price list offering. Any private employer which

(a) obtained an endorsement resolution approved by the appropriate local governing authority, and

(b) which company’s operation falls into Standard Industrial Classifications (SIC) codes 20-42, 44-49, or major warehousing and distribution centers or regional and/or corporate headquarters of companies whose standard industrial classification (SIC) codes are 20-42, 44-49 or such activities have a prospect of significant economic impact without threatening the well-being of existing industries located in the Enterprise Zone, and

(c) which expanded its labor force and which did not close or reduce total employment elsewhere in Alabama in order to expand into the Enterprise Zone, and which can certify and document that at least thirty percent of new permanent, full-time employees were formerly unemployed for at least ninety (90) days prior to this employment, or

(d) that a new capital investment was made and that at least five (5) new permanent full-time employees were hired.
GENERAL REGULATIONS

S2.4  Payment Arrangements and Credit Allowances (Cont’d)

S2.4.8 Economic Development Incentive Waivers and Discounts (Cont’d)

b. Option One (Cont’d)

(5) In order to qualify under Option One of this Price list, the private employer will be required to certify that it has met the requirements of this Price list offering as well as the requirements of the Alabama Enterprise Zone, Act No. 87-573, Section 5.

(6) Where an Enterprise Zone is designated during one calendar year but is not so designated by the Alabama Department of Economic and Community Affairs during the succeeding year, the private employer shall continue to receive the discount originally designated in Option One for the full twelve-month period, provided the private employer otherwise remains eligible for the discount.

c. Option Two

(1) For the purpose of Option Two of this Price list offering, "Approved Company" means any corporation, partnership, trust or other form of business entity approved by the Alabama State Industrial Development Authority (Authority) pursuant to the provision of Alabama Law, Act No. 93-851.

(2) For the purpose of Option Two of this Price list offering, any Approved Company which meets the following qualifications will qualify for the discounts in this price list. Any Approved Company

(a) which has submitted written evidence to the Authority indicating local support for the project, and

(b) whose proposed project is used in a trade or business which is described in the 1987 Standard Industrial Classification Major Groups 20 through 39, inclusive, 50 and 51, Industrial Group Number 737, and Industry Numbers 8731, 8733 and 8734 as set forth in the Standard Industrial Classification Manual, and
GENERAL REGULATIONS

S2.4 Payment Arrangements and Credit Allowances (Cont’d)

S2.4.8 Economic Development Incentive Waivers and Discounts (Cont’d)

   c. Option Two (Cont’d)

      (2) For the purpose of Option Two of this Price list offering, … (Cont’d)

        (c) has a new project investment of at least $5 million and will employ at least fifty (50) full-time new employees within eighteen (18) months of the date the project is placed in service, or

        (d) whose expansion project has an investment of at least $2 million and will employ at least twenty (20) full-time new employees within eighteen (18) months of the date the project is place in service.

      (3) The Approved Company must either pay employees an average full-time hourly wage of at least $8 per hour, or an average total compensation for full-time paid employees which is at least equivalent to $10 per hour to be eligible for discounts under this Price list.

      (4) Should the Authority waive the minimum investment requirement when the project will be located in an area of the State which the Authority determines to be in an economically distressed area, that Approved Company will also be eligible for discounts under this Price list.

      (5) For the purpose of Option Two of this Price list, a new employee includes only those individuals who have not previously been employed by the Approved Company in Alabama, will be employed at the project site and will be subject to the personal income tax imposed by Section 40-18-2 of the Code of Alabama upon commencement of employment at the site.

      (6) In order to quality under Option Two of this Price list, the Approved Company will be required to certify that it has met the requirements of this Price list offering as well as the requirements of Alabama Law, Act No. 93-851.
GENERAL REGULATIONS

S2.4 Payment Arrangements and Credit Allowances (Cont’d)

S2.4.8 Economic Development Incentive Waivers and Discounts (Cont’d)

d. Option Three

(1) For the purpose of Option Three of this Price list offering, "Approved Company" means any corporation, partnership, limited liability company, proprietorship, trust or other business entity making a qualified investment approved by the Alabama Department of Revenue (Department) pursuant to the provisions of Alabama Law, Act No. 95-187.

(2) For the purpose of Option Three of this Price list offering, any Approved Company which meets either of the following qualifications will qualify for the discounts in this Price list.

(a) A small business addition, as defined by Alabama Law, Act No. 95-187, with a capital cost of at least $1 million, which will create at least fifteen (15) new jobs within one (1) year of the date the project is placed in service.

(b) A qualifying project or headquarters facility, other than a small business addition as defined by Alabama Law, Act No. 95-187, with a capital cost of at least $2 million, which will create at least twenty (20) new jobs within one (1) year of the date the project is placed in service.

(3) The Approved Company must either pay employees an average full-time hourly wage of at least $8 per hour, or an average total compensation for full-time paid employees which is at least equivalent to $10 per hour to be eligible for discounts under this Price list.

(4) A new employee includes only those individual who have not previously been employed at the site of the qualifying project or by an investing company in the state, will be employed at the project site, and will be subject to the personal income tax imposed by Section 40-18-2 of the Code of Alabama 1975 upon commencement of employment at the site.
S2.4.8 Economic Development Incentive Waivers and Discounts (Cont’d)

d. Option Three (Cont’d)

(5) In order to qualify under Option Three of this Price list, the Approved Company will be required to certify that it has met the requirements of this Price list offering as well as the requirements of Alabama Law, Act No. 95-187.

e. Credits, waivers and discounts shall be applicable as follows:

(1) Under Option One, Option Two, and Option Three of this Price list, qualifying businesses will be eligible to receive the waiver of charges listed or credit for newly ordered price listed services, other than Contract Service Arrangements, Special Assembly, local usage charges and long distance services (i.e. MTS) which the business can demonstrate to be related directly to the increased employment.

(a) 100 percent waiver or credit of normal service deposits for telephone service if the business has established a satisfactory credit rating.

(b) All service connection/installation charges for applicable services (excludes inside wiring) will be waived or credited to the business’ account.

(c) All monthly charges will be eligible for a fifty percent (50%) discount. The discount shall be applicable for twelve (12) months beginning upon certification.
GENERAL REGULATIONS

S2.5 Liability of the Company

S2.5.1 Service Irregularities

a. The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission or failures or defects in facilities furnished by the Company, occurring in the course of furnishing service or other facilities and not caused by the negligence of the customer, shall in no event exceed an amount equivalent to the proportionate charges to the customer for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs.

S2.5.2 Use of Facilities of Other Connecting Carriers

a. When suitable arrangements can be made, facilities of other connecting carriers may be used in conjunction with this Company's facilities in establishing connections to points not reached by this Company's facilities. Neither this Company nor any connecting carrier participating in a service shall be liable for any act or omission of any other company or companies furnishing a portion of such service.

S2.5.3 Transmission of Data

The Company shall not be held liable for any damage, harm or loss of data caused by the subscriber using the Company's voice-grade telephone access lines and/or facilities for the transmission of data. The Company's liability shall be limited to errors or damages to the transmission of voice messages over these facilities, and the liability shall be limited to an amount equal to the proportionate amount of the Company’s billing for the period of service during which the errors or damages occur.

S2.5.4 Limitation of Liability

Customer will defend and indemnify the Company, its affiliates, agents and contractors from all third party claims, liabilities, fines, penalties, costs and expenses, including reasonable attorneys' fees, arising from or related to customer's, customer's end user's or customer's third-party provider(s)' acts, omissions (including the failure to purchase or implement features that enable the receipt and transmission of direct-dial “911” calls or multi-line telephone system notifications), or failures of connectivity that impede, prevent or otherwise make inoperable the ability of the customer or its end users to directly dial “911” or to receive or transmit multi-line telephone system notifications, as required by law, in the United States.
S2.5 Liability of the Company (Cont’d)

S2.5.5 Period for the Presentation of Claims

a. The Company shall not be liable for damages or statutory penalties in any case where a claim is not presented in writing within sixty (60) days after the alleged delinquency occurs.

S2.5.6 Service in Explosive Atmosphere

a. The Company does not guarantee nor make any warranty with respect to service provided by it for use in an explosive atmosphere. The customer shall indemnify and hold the Company harmless from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or person, for any personal injury to or death of any person or persons, and for any loss, damage or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of said equipment so provided.

b. The Company may require each customer to sign an agreement for the furnishing of such service as a condition precedent to the furnishing of such service.

c. The customer shall furnish, install and maintain sealed conduit with explosive-proof fittings between this service and points outside the hazardous area where connection may be made with regular facilities of the Company. The customer may be required to install and maintain this service within the hazardous area if, in the opinion of the Company, injury or damage to Company employees or property might result from installation or maintenance by the Company.
GENERAL REGULATIONS

S2.5 Liability of the Company (Cont’d)

S2.5.7 Defacement of Premises

a. The Company is not liable for any defacement of or damage to the premises of a customer resulting from the furnishing of service on such premises or by the removal thereof, when such defacement or damage is not the result of negligence of employees of the Company.

S2.6 Movement of Exchanges Between Rate Groups

a. An exchange is placed in a Rate Group on the basis of the number of Company main stations and PBX trunks within the local calling area. A local calling area is an area within which the customers or other authorized users of an exchange are entitled to connections with other customers or authorized users without payment of a toll charge. A local calling area can include stations of other telephone companies.

b. When the number of Company main stations and PBX trunks in the local calling area of an exchange exceeds or falls below the group base and such Company station count position continues for four (4) consecutive months, the Company will file revised price lists for the Commission's approval to move the exchange into the proper rate group.

c. When the Company requests that an exchange be moved from one Rate Group to another, notice of the proposed rates will be given to the customers affected at least thirty (30) days prior to the date such proposed rates are requested to become effective, by one of the following means: (1) By means of publication in a newspaper in general circulation in the area; or (2) Bill insert; or (3) Other notification by mail.

d. A bill insert explaining the new rates will be included in the customer's first monthly bill which reflects the new rates.
GENERAL REGULATIONS

S2.7 Customer Premises Inside Wire

S2.7.1 General

   a. Customer Premises Inside Wire is defined as that wire, including connectors, blocks and jacks, within a customer's premises that extends between the termination of the Exchange Service Line at the Demarcation Point and those standard jack locations on the customer's premises to which terminal equipment can be connected for access to the Exchange Service Line.

   b. The demarcation point is provided as part of the Exchange Service Line or Private Line Services. If a Network Interface Device (NID) is employed as the demarcation point, this NID will normally be installed outside the customer's building at a location determined by the Company which is accessible to the customer. If the NID is installed inside a customer's building due to customer request, and not at the initiative of the Company, charges will apply as specified in Section S4 of this price list. The normal location of the NID is in close proximity to where the Company facilities attach to the customer's building; wherever practicable.

   c. When a NID is installed at the customer's request on existing service, a Secondary Service Order charge and a Premises Visit charge will apply as covered in Section 4 of this Price list.

S2.7.2 Responsibility of the Customer

   a. The installation and maintenance of Customer Premises Inside Wire is the sole responsibility of the customer.

   b. The customer assumes the risk of loss of service, damage to property, or death to or injury of the customer or the customer's agent that may result from any installation or maintenance activity undertaken by that customer or the customer's agent.

   c. The customer will save the Company harmless from any and all liability, claims, or damage suits arising out of the customer's premises inside wire activity.
S2.7 Customer Premises Inside Wire (Cont’d)

S2.7.3 Violation of Regulations

a. Where Customer Premises Inside Wire is found to be causing network related harm, the Company will promptly notify the customer of the violation and will take such immediate action as is necessary for the protection of the telecommunications network and Company employees.

b. It is the customer's responsibility to discontinue such use and correct the situation causing the network harm.

c. Failure of the customer to discontinue such use to correct the problem will result in suspension of the customer's service until such times as corrections are made.

S2.7.4 Trouble Isolation Charge (a.k.a. Maintenance of Service Charge)

A. Description

The Trouble isolation Charge is applicable when the Company dispatches a technician to investigate a customer-reported trouble and a service difficulty is found to be caused by customer-provided equipment, wire, facilities, communications system or customer actions, and the customer does not have the Company repair the premises wire trouble.

The Trouble Isolation Charge also applies when a customer requests or allows the Company to dispatch a technician to investigate the reported trouble and the customer then does not allow access to the necessary in-home wiring and equipment or is not available to allow access.

This charge is waived for customers who have inside wire protection, unless the Company determines through remote testing that no trouble exists, and the customer insists on a dispatch. If no trouble is found, a Trouble Isolation Charge applies whether or not the customer has inside wire protection.
GENERAL REGULATIONS

S2.7 Customer Premises Inside Wire

S2.7.4 Trouble Isolation Charge (a.k.a. Maintenance of Service Charge) (Cont'd)

B. Application

The Trouble Isolation Charge will not apply when:

- Customer is subscribed to an Inside Wire Maintenance Plan before a Company technician is dispatched
- A service difficulty or trouble is found to be in a permanently wired telephone associated with service (i.e., no network interface device)
- The service difficulty or trouble is in Company-maintained equipment or wiring.
- No trouble is found after customer allows the necessary access to in-home wiring and/or equipment.
- Customer authorizes company repair of inside wiring and/or customer-provided equipment

C. Rates

Trouble Isolation Charge, business and residence $95.00 (I)

S2.7.5 Inside Wire Maintenance Plans (a.k.a. Inside Wire Protection)

A. General

See CenturyLink Inside Wire Maintenance and Line-Backer™ Terms and Conditions Service Agreement for applicable terms and conditions for business and residence inside wire maintenance plans.

An Early Termination Fee as described in the aforementioned service agreement will apply when a customer who is subscribed to an inside wire maintenance plan under a nine-month minimum commitment period discontinues the plan prior to the end of the commitment period.

GENERAL REGULATIONS

S2.7 Customer Premises Inside Wire (Cont’d)

S2.8 Taxes, Fees and Surcharges

2.8.1 Service may be subject to federal, state and/or local taxes at the prevailing rates. Such taxes are listed as separate line items on Customer’s invoice, are not included in the rates and charges listed herein and shall be paid by Customer in addition to the rates and charges stated in this Price List.

2.8.2 To the extent that a municipality, other political subdivision or agency of government, or the Commission imposes upon and collects from Company a gross receipts tax, occupation tax, license tax, permit fee, franchise fee, or regulatory fee, such taxes and fees shall, insofar as practicable and allowed by law, be billed pro rata to Customers receiving service from Company within the territorial limits of such municipality, other political subdivision or agency of government.

2.8.3 See Section 17.7.13 of the CenturyTel of Northern Alabama d/b/a CenturyLink General Customer Services Price List for additional terms and conditions pertaining to IntraLATA Private Line Services.

(M) Material previously appeared on 3rd Revised Page 38 of this section.
S2.9 Provision of Network Interface Device

S2.9.1 General

a. The following rules will apply to new installations for telephone service using Network Interface Device (NID).

(1) All wiring on the customer's premises that is connected to the telephone network shall connect to the Telephone Company network through the Telephone Company provided NID.

(2) Maintenance of the NID shall be the responsibility of the Telephone Company.

(3) For single unit premises, the Company will terminate its network facilities no further than twelve (12) inches upon entering the customer's premises.

(4) In locations with multiple customers, i.e., multiple premises, the Company will terminate network facilities at the minimum point of entry to the building or property to allow the building owner to determine the location of the point or points of demarcation. When the building owner selects multiple points of demarcation, the Company must still terminate its network facilities no further than 12 inches upon entering an individual customer premises.

(5) Customers are allowed access to both simple and complex inside wiring at points up to and including the point of demarcation. For simple inside wiring, the customer is no longer required to interconnect through a plug and jack arrangement provided by the Company. However, the Company may elect to continue placing a plug and jack arrangement at the point of demarcation.

(6) The Telephone Company shall instruct the customer of the location, purpose and use of the NID.
GENERAL REGULATIONS

S2.10 Slamming

Slamming is the unauthorized change of a subscriber’s preferred telecommunications carrier.

Per FCC 00-135, CC Docket 94-129, a telecommunications carrier who acquires a customer by an unauthorized change of that customer’s local service that may be billed the applicable nonrecurring charges to establish that customer’s service with the authorized telecommunications carrier.
S2.11 Termination Liability

1. In the event the service is terminated by the customer prior to completion of the initial term commitment period, the customer shall be liable for an early termination charge, except as noted below. The amount of the early termination charge will be 25% of the monthly recurring charge(s) (MRC) for the remainder of the term. For example:

\[25\% \times \text{MRC} \times \# \text{ of Lines/Channel/Path} \times \# \text{ of Months Remaining} = \text{Termination Charge}\]

2. Early termination charges will apply only to those rate elements under a term commitment period. If any rates for the service are increased during the term period, the customer may terminate the service without incurring an early termination charge.

3. Renewal Options

   a. Prior to the end of the term commitment period, the customer may:
      1) Renew their term commitment,
      2) Commit to a new term period,
      3) Change service, or
      4) May arrange for termination of the service at the end of term.

   b. In the event the customer does not select one of the above renewal options, the customer will be converted to the shortest-term period available under price list (i.e., month-to-month, one year, etc.) for the same service. If the customer is converted in this way, an early termination charge will not apply should the customer subsequently discontinue service.

4. Early termination charges will not be assessed under the following circumstances:

   a. Customer moves existing service either to a new location within the same address and/or same building (inside move) or to a new location (outside move) and maintains that service for the remainder of the term.

   b. Customer moves existing service to a new location where the service is unavailable.

   c. Customer renegotiates a new term commitment plan for the same service before the initial term commitment expires and the value of the new term commitment is equal to or greater than the value of the initial term commitment.

   d. Customer changes to another service or upgrades service to a higher speed or capacity under a term commitment, provided the following conditions are met:
      1) The value of the new term commitment is of equal or greater monetary value than the initial term commitment.
      2) The Company provides the new service via price list or on an individual case basis (ICB).
      3) The order to discontinue the existing service and the order for the new or upgraded service are received by the Company at the same time.
GENERAL REGULATIONS

S2.12 Facility Relocation Cost Recovery Fee

Effective May 31, 2017, terms, conditions and rates for this fee are located at LOCAL TERMS OF SERVICE FOR FACILITY RELOCATION COST RECOVERY FEE.

S2.13 Natural Disaster Relief for Customers

In situations where customers’ telecommunications services are interrupted by natural disasters, the Company may offer alternative telecommunications services to customers in the immediate affected area, and waive otherwise applicable charges for those services. The availability and details of the offers, including, but not limited to, the maximum duration of the offer or waiver of any applicable charges, will be determined by the Company in each instance of natural disaster.
GENERAL REGULATIONS

2.14 UNIVERSAL SERVICE DISCOUNT PLAN FOR SCHOOLS AND LIBRARIES (E-RATE)

2.14.1. GENERAL

A. The Universal Service Support Mechanism was established to ensure affordable telecommunications service to all Americans including low-income consumers and eligible schools and libraries. Public and private schools (generally grades Kindergarten-Twelve) and public libraries and qualifying consortia may be eligible to apply for support discounts (Support) through the Schools and Libraries Universal Service Support Mechanism (E-Rate Program) in connection with the purchase of the Company’s services and equipment (Service).

B. In addition, these Customers may be eligible for state or local corollaries to the E-Rate Program. The Support may be provided by the E-rate Program in the form of a discount percentage of the billed charges for eligible Service. Schools, libraries, and consortia eligible for E-rate support pursuant to 47 Code of Federal Regulations part 54, subpart F shall comply with all E-rate Program rules and regulations in order to receive the Support.

2.14.2. APPLICATION FOR SUPPORT

A. E-Rate Program

The Customer will abide by all E-Rate Program rules for receipt of Support. The Customer is responsible for applying to the Schools and Libraries Division (SLD) of the Universal Service Administrative Company (or other authorized E-Rate Program administrator) for Support from the E-Rate program each year the Customer is eligible for the Support. The Customer will notify the Company in writing within 30 days of its receipt of a Funding Commitment Decision Letter from the SLD along with a copy of the notice and other relevant documentation as requested by the Company.

B. Other Funding Sources

The Customer is responsible for applying for Support from state and/or local administrators (Funding Sources). The Customer will notify the Company in writing within 30 days of its receipt of a Support commitment from such Funding Sources and will include a copy of its application, Funding Source Support documentation, and other relevant documentation as requested by the Company.
GENERAL REGULATIONS

2.14 UNIVERSAL SERVICE DISCOUNT PLAN FOR SCHOOLS AND LIBRARIES (E-RATE) (Cont’d)

2.14.3. RECEIPT OF SUPPORT

A. E-Rate Program

The Customer will pay, in full, all invoices issued by the Company prior to the Company’s receipt of notification from the Funding Source acknowledging the Customer's receipt of Service. Upon notification, the Company will apply discounts to the Customer's invoices or reimburse the Customer according to the Funding Commitment Decision Letter. The Customer is responsible to apply for SLD reimbursement (instead of receiving discounted Company bills) for all eligible customer premise equipment rentals or other financed arrangements. The Company reserves the right to require the Customer to seek SLD reimbursement (instead of receiving discounted Company bills) if the Customer has not received its Funding Commitment Decision Letter from the SLD by December 31 of the funding year. All discounts or reimbursements will be retroactive to the date authorized by the SLD funding year. The Company will either apply a credit to the Customer’s account or provide the Customer with a check corresponding to the appropriate amount of Support based on Service received.

B. Other Funding Sources

The Customer will pay, in full, all invoices issued by the Company prior to the Company’s receipt of notification from the Funding Source acknowledging the Customer's receipt of Service. Upon notification, the Company will apply discounts or reimburse the Customer for Service delivered corresponding to the Funding Source acknowledgement. These discounts or reimbursements will be retroactive to the date authorized by the Funding Source funding year. The Company may reimburse the Customer with a credit to the Customer’s account or with a check corresponding to the appropriate amount of Support based on Service received.
2.14 UNIVERSAL SERVICE DISCOUNT PLAN FOR SCHOOLS AND LIBRARIES (E-RATE) (Cont'd)

2.14.4. FAILURE TO OBTAIN SUPPORT

A. The Customer will reimburse the Company if the FCC, SLD or Funding Sources fail to do so or if the FCC, SLD or Funding Sources reclaim any portion of Support sent to the Company on Customer's behalf. Customer will not be responsible for Support withdrawn due to the Company's material failure to provide Service.

B. The Company is not responsible for the Customer's compliance with FCC, SLD or Funding Source rules and regulations, the Customer's applications for Support, or any decisions or actions by the FCC, SLD or Funding Sources with respect to the Customer.

C. For Service agreements of more than one year, the Customer may not terminate the Agreement based solely on its failure to receive Support.

LOCAL EXCHANGE SERVICE

S3.1 General

a. Local exchange service rates in this price list are identified with CenturyTel of Alabama, LLC.

b. Exchange Areas, Base Rate Areas, and Sub-Base Rate Areas for each exchange are identified on maps filed in this price list section.

c. Rates for flat rate local exchange service are related to the total number of access lines within the local calling area.

d. The rates for service not specifically shown in this section are presented in other sections of this price list.

e. Volunteer Fire Departments as defined in Sections 9.3.17 and 9.3.18(a) of the Alabama Code (1987) may subscribe to business access line service at rates discounted 25% from those rates listed in Sections S3.2.1 of this price list.

LOCAL EXCHANGE SERVICE

S3.3 Service for Emergency Facilities

S3.3.1 General

   a. When state and federal regulations require emergency facilities be provided in a state
      of readiness, these services can be on temporary suspension and can be provided at
      one-half the regular full rate for such service, subject to the regulations in b. and c.
      following.

   b. When the period of suspension is less than one (1) month, the regular charges for
      the full month of service shall apply.

   c. In connection with complete suspension of service, local or long distance service is
      not furnished during the period of suspension. At the request of the customer, inward
      calls to a station at which service is suspended may be referred to the call number of
      another station in the same exchange, providing facilities for referral are available.

S3.3.2 Application of Charges

   a. When, at the request of the customer, service is temporarily suspended, a
      suspension charge of $32.00 will apply at the time of suspension.

   b. The charge for a maximum period of nine (9) months in any calendar year for main
      station service during the period of suspension is 50 percent of the rate regularly
      charged.

S3.7 Employee Telephone Service

   S3.7.1 General

The same rules and regulations are applicable to employees and retirees of the Company as are applicable to the general public. Certain telephone services will be furnished to Company employees and Company retirees at reduced rates as authorized by Company practices and procedures.
LOCAL EXCHANGE SERVICE

S3.7 Employee Telephone Service (Cont’d)

S3.7.2 Rates (Cont’d)

c. Employee Telephone Service as provided in 3.7.1.a above, will not be applicable to:

(1) Long distance message telecommunications service.

(2) Foreign exchange service.

(3) An employee who has his telephone number nonpublished.

S3.8 Operator Assisted Local Calls

S3.8.1 General

a. A charge will apply when the caller requests operator assistance and the call is completed within the local service area. The call may be billed to the originating telephone, credit card, third number, or collect.

b. The appropriate service charge, as specified in S3.8.2 following, will be applied to each completed call except:

(1) For calls to the Company for official telephone business.

(2) For emergency calls to agency type telephone numbers such as to those agencies of the federal, state or local government which have the capability and legal authority to provide aid in emergency situations and to any emergency medical number.

(3) When the caller identified himself as being handicapped and unable to place the call due to his handicap.

(4) When the caller advises he has had service trouble in reaching the terminating number.

(5) Public Payphone Usage Surcharge

In addition to any applicable Operator Handled Service Charge, this surcharge applies to all completed Local and IntraLata long distance calls that are made from a payphone and are not paid by coins being placed in the payphone coin box.

This surcharge does not apply to calls made to emergency numbers (911), to a telecommunications relay service (TRS), or local calls for which the caller has made the required coin deposit.
LOCAL EXCHANGE SERVICE

S3.11 Rotary Line Service (a.k.a. Hunting Service)

S3.11.1 General

a. Rotary line service provides means whereby calls made to the first number of a rotary group will be automatically completed over the first idle line in the rotary group. If all lines are busy the calling party will receive the busy signal.

b. This service is furnished only when the rotary numbers are available and only in connection with individual lines.

c. See Section S6 for the regulations applicable to directory listings in connection with provision of main services on a rotary basis.

S3.11.2 Rates

a. **No charge applies when** Rotary Line Service is provided in connection with automatic access lines (PBX Trunks and Diod Trunks).

b. The **following rate applies** for each individual line or key trunk arranged in a hunt group, in addition to the applicable One-Party rate specified in Section S3.2.1.a.

S3.12 CenturyTel Dial DataLink Service

S3.12.1 General

a. CenturyTel Dial DataLink Service is an enhancement to single line residential and single line business service that provides higher quality transmission standards than those normally provided for voice transmission. It is designed for those single line residential and single line business customers who need a better grade of service for data transmission.

b. Lines conditioned for CenturyTel Dial DataLink Service may also be used for normal voice communication.

c. The parameters of CenturyTel Dial DataLink Service are designed to support transmission of data up to 4800 bits per second on the line from the point of demarcation at the customer's premises to the customer's serving central office.

d. The quality of the line is guaranteed only between the customer's demarcation point and the customer's serving central office. The Company makes no guarantee for the transmission level over the whole circuit.

e. A line enhanced with CenturyTel Dial DataLink Service cannot operate with the Call Waiting feature described in Section S13.4.1.a., the customer must also subscribe to Cancel Call Waiting (S13.4.1.f).

S3.12.2 Rates

a. The rate for CenturyTel Dial DataLink Service is the applicable monthly rate for individual line service, in addition to the following rates:

<table>
<thead>
<tr>
<th></th>
<th>Installation Charge</th>
<th>Monthly Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Residence, per line</td>
<td>$ 25.00</td>
<td>$ 5.00</td>
</tr>
<tr>
<td>Business, per line</td>

LOCAL EXCHANGE SERVICE

S3.15 Classroom Communication Service-GRANDFATHERED (1)(2)

S3.15.1 General

a. Classroom Communication Service provides local access service for in-classroom voice and data communications. It is intended only as a communications link between classrooms for the purpose of enhancing the education process by allowing one or more teachers to conduct classes at multiple locations and to access various informational databases.

b. Customers may subscribe to Classroom Communication Service rates for access lines used exclusively for the following purposes:

(1) The in-classroom use of computers and modems to access various informational databases and shared educational programs as well as accessing students in other classrooms for the purpose of sharing information and learning experiences.

(2) Teacher workroom use of computers and modems to access various informational databases and to share information and ideas with other teachers in an effort to enhance the educational experience of the students.

c. The Classroom Communication Service access line rate includes the following features:

(1) Touch Calling Service

(2) CenturyTel Dial DataLink Service (See Section S3.12)

S3.15.2 Regulations

a. This service is available to full time educational institutions, public and private, that are eligible for accreditation by the Southern Association of Colleges and Schools.

b. Classroom Communication Service access lines may not be used for administrative purposes.

c. Directory Listings will not be provided.

(1) Effective August 22, 2019, Classroom Communication Services is grandfathered. Availability to current customers is limited to lines in service at existing locations.

(2) Effective November 1, 2015, this service was deleted from the Price List in error. The terms, conditions, and rates are identical to those that were in place previously with the exception of the Touch Calling Service section reference which was omitted for accuracy and the reference to Local Calling Plans which was updated to CenturyTel Local Calling Plans-LATA Wide Plan.
LOCAL EXCHANGE SERVICE

S3.15 Classroom Communication Service-GRANDFATHERED (1) (Cont’d)

S3.15.2 Regulations (Cont’d)

d. Qualifying educational institutions must subscribe to at least one (1) access line at the appropriate business rate for administrative purposes in order to subscribe to Classroom Communication Service.

S3.15.3 Rates and Charges

a. The monthly recurring charges for the access line will be billed at the following rate:

   Monthly Rate

   (1) Access Line, each

   (a) Flat Rate Service

       All Rate Groups $22.50

   (b) Local Calling Plan Options

       Basic Calling N/A
       Community Plus Calling N/A
       Premium Calling N/A

b. Rates as specified in Section S3.16 of this price list apply to the CenturyTel Local Calling Plans-LATA Wide Plan. Schools may subscribe to a different flat rate or CenturyTel Local Calling Plans-LATA Wide Plan option for their Classroom Communication access lines than from the option on their access lines used for administrative purposes.

c. The Access Line rate does not include the intrastate or interstate Subscriber Line Charge.

(1) Effective August 22, 2019, Classroom Communication Services is grandfathered. Availability to current customers is limited to lines in service at existing locations.

(Z) Rates were erroneously removed from Price List on 9-27-2019. Rate which should have been published is as listed. There is no remaining demand for Community Plus Calling, for which the grandfathered rate is deleted.
LOCAL EXCHANGE SERVICE

S3.16 CenturyTel Local Calling Plans-LATA Wide Plan (1)

S3.16.1 General

a. This price list applies to local exchange telephone service provided under the CenturyTel Local Calling Plans-LATA Wide Plan. The exchange areas to which the regulations and rates contained herein are as specified in Section S3.16.4 to this price list and are in addition to the applicable regulations and rates specified in other tariffs and price lists of the Company.

S3.16.2 Regulations

a. Existing customers may have the option to keep their current flat rate service or convert to the CenturyTel Local Calling Plans-LATA Wide Plan service. Should the existing customer opt to keep the current flat rate service, he will continue to dial "1+" to the expanded local calling areas and will be charged the applicable intraLATA toll rates for such calls.

b. All new customers moving into the CenturyTel Local Calling Plans exchanges may choose one of the CenturyTel Local Calling Plans-LATA Wide Plan options or subscribe to flat rate service. Should the new customer subscribe to flat rate service, he will dial "1+" to the expanded local calling areas and will be charged the applicable intraLATA toll rates for such calls.

c. The Plans are furnished only from central offices which have been arranged to provide these services, and are available to individual business and residence and automatic access line customers.

d. Services

Basic Calling Plan is economy rate exchange service which provides measured rate calling only.

Community Plus Plan provides flat rate calling within the originating exchange and CenturyTel specified nearby exchanges with measured calling to all other exchanges within the LATA.

(1) Grandfathered to existing customers at their present location.
LOCAL EXCHANGE SERVICE

S3.16 CenturyTel Local Calling Plans-LATA Wide Plan (1) (Cont'd)

S3.16.2 Regulations (Cont'd)

d. Services (Cont'd)

Premium Calling Plan-Block of Time provides flat rate calling to all exchanges within the LATA over a sixty (60) hour block of time monthly allotment. Usage over the sixty (60) hour block of time will be billed at $.04 per minute.

Any exchange routes that are flat rated under the Community Plus Plan will also be flat rated under the Premium Calling Plan-Block of Time option and those minutes of use will not be counted toward the sixty (60) hour block of time.

e. Service charges shall be waived for those customers subscribing to a CenturyTel Local Calling Plan (LCP), changing to or between CenturyTel LCP Options; as well as converting back to flat rate service.

f. Flat rate and measured rate services will be furnished to the same customer on the same premises where both services are available in the customer's local exchange area. Should a customer request flat rate and measured rate services on the same premises, a separate line and number will be required for each service type. The customer will receive two (2) separate bills, one bill combining all flat rate lines and services and one for all measured rate lines and services provided.

g. Measured rate service, where applicable, provides for calling to specified home exchange and outside home exchange areas with each call measured on a per minute of use basis. Usage rates for home exchange and outside home exchange calls are specified in S3.16.3.c.

h. Calls made to the specified areas should be dialed by the customer on a station-to-station sent-paid basis without the assistance of a Telephone Company operator. Any "0+" or "0-" call to an exchange that was toll prior to CenturyTel Local Calling Plans implementation will be billed as an intraLATA operator assisted toll call regardless of whether the originating customer subscribes to a CenturyTel Local Calling Plans option or not.

(2) Grandfathered to existing customers at their present location.
LOCAL EXCHANGE SERVICE

S3.16 CenturyTel Local Calling Plans-LATA Wide Plan (1) (Cont’d)

S3.16.2 Regulations (Cont’d)

h. Calls made to the specified areas should be dialed ... (Cont’d)

"0+" calls made to exchanges that were local or flat rate EAS prior to CenturyTel Local Calling Plans implementation will be billed at the local operator surcharge for the type call being made, plus $.25.

i. CenturyTel Local Calling Plan service will not be offered in connection with Public Telephone Access Service, Feature Group A or Foreign Exchange services. However, Centrex customers may subscribe to the Basic Calling and Community Plus Options.

j. Vacation Number Reservation (Reference Section S2.3) is not available to customers subscribing to the CenturyTel Local Calling Plans.

k. For the purpose of determining charges, the following applies:

(1) A flat monthly line rate for provision of incoming calls and access to the local network.

(2) A charge per minute or fraction thereof, rounded to the next higher minute, for the duration of the call. Monthly billing is based on cumulative minutes of usage. Home exchange and outside home exchange minute of use rates are specified in S3.16.3(c).

(3) Chargeable time for all calls begins when connection is established between the calling line and the called line or branch exchange, and ends when the calling line "hangs-up" thereby releasing the network connection. If the called line "hangs-up", but the calling line does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Telephone Company operator.

(4) The rates shown in section S3.16.4 are in addition to the access line rates shown in section S 3.2.

(3) Grandfathered to existing customers at their present location.

S4.1 Definitions

S4.1.1 Service Charges

a. A service charge consists of one or more of the following charges for work required due to customer request. The charges below are separately established in order to provide a reasonable basis for an equitable recovery of the costs incurred in the required operations.

(1) Network Access Establishment and Change - Applicable for receiving, recording and processing a customer's order for installations, moves or changes. The network access charge varies according to the type of activity involved. When an order for service contains more than one activity, the highest network access charge will apply. Network access charges are classified as network access establishment and network access change.

(2) Premises Visit - Applicable for a required trip to customer's premises in connection with establishment of service or rearrangement of service.

(3) Central Office Line Connection Work - Work associated with testing and connecting the line within the central office and extending the line from the serving central office to the customer's premises. Includes, but is not limited to, central office connections and cable cross connections.

(4) Reserved for Future Use

(5) Installation Charge - Installation charges for service features other than that furnished for basic telephone service are identified and presented throughout this price list. If applicable, charges apply for these service features in addition to the charges listed in S4.3 preceding as appropriate.

(6) Network Cabling - Applicable for specific customer requests to place the Demarcation Point(s) on the premises, at a location or locations other than that proposed by the Company. Cabling charges are as specified in Section S4.10.b.
SERVICE CHARGES

S4.1 Definitions (Cont’d)

S4.1.2 Protector

a. Point of connection between inside wire and outside wire.

S4.1.3 Termination Charge

a. A charge applying when a customer discontinues an item of service or equipment prior to the expiration of the initial service period designated for such item.

S4.1.4 Restoration Charge

a. A charge applying to restore service following a temporary suspension of service for nonpayment of charges.

S4.2 General

a. Service charges are applicable for facilities and services furnished to the customers as herein provided and may be required to be paid before the work is started.

b. Service charges do not apply when service is reestablished at a location which has been destroyed by fire or made untenanted by fire, or in connection with the establishing of service at a new location occupied by the customer on account of the old location being untenanted for reasons beyond the control of the customer. If service is established at a new location and the customer later moves back to the old location, the service charges are made in connection with the reestablishment of service at the old location.
S4.2 General (Cont’d)

c. A service ordering charge will be applicable in addition to any appropriate service charges in Section S4.3. Only one (1) network access charge is applicable for all installations or connections requested on one (1) account at one time.

(1) The network access establishment charge is applicable for requests for (1) initial connection of telephone service; (2) connection of additional local exchange lines, local private lines, tie lines or off-premises extension lines, and other services involving central office connections.

(2) The network access change charge is applicable for a customer's request for (1) a change where a premises visit is required; (2) a number change; (3) a downgrade of service.

(3) The network access change charge is applicable for record type orders only, i.e., (1) change in or addition of directory listings; (2) change from business to residence service without change in telephone number.

(4) The network access establishment and network access change charge cannot be applied on the same order. Only the service charge appropriate for the greatest degree of work is applicable.

d. A premises visit charge is applicable if a premises visit is required to complete any requested work on the customer's premises with the exception of restoral of service and repair.

e. The central office line connection work charge applies for the connection of local exchange lines, local private lines, outside extension lines, and any testing and connection functions carried out within the central office.

f. Each terminal of a tie line, local private line, and an off-premises extension line are treated as an exchange line for the purpose of applying service charges.
SERVICE CHARGES

S4.2 General (Cont’d)

g. The charges applicable for changes in telephone numbers are as follows:

(1) Where a local exchange line number is changed the network access change charge plus the central office line connection work charge will apply.

(2) These charges do not apply when, in the judgment of the Company, a change in a telephone number is necessary for continuation of satisfactory service.

h. Changes in the locations of terminations to points outside the customer’s premises are considered new installations at the new location.

i. Residential service charges specified in S4.3.a through c. for the establishment of Basic Local Exchange Service may be paid in three (3) equal installments over a three-month period where the total exceeds $45.00.

j. Service charges do not apply to:

(1) Reserved for Future Use

(2) Any requests for changes pertaining to the blocking or unblocking of 900/976 service subsequent to an initial change will incur appropriate nonrecurring charges.

(3) Reserved for Future Use

(4) Incidents in sections of the state, where governed by this price list, for the purpose of providing relief in times of flood, hurricane, or tornado and declared as a disaster area by the Governor of Alabama, federal government and/or both.

k. For active duty members of the United States military and their dependents with valid military ID cards, all service charges typically applicable to central office reconnects will be waived when establishing local exchange access line service or transferring existing local exchange access line service from one location to another. Central office reconnects are defined as customer requests for service that do not require any physical work beyond the Company’s central office.

</tbody>
</table>

| **b. Premises Visit, each** | 15.00 | 15.00 |

| **c. Central Office Line Connection Work, each** | 22.50 | 22.50 |

**Note:** Additional charges may apply for any services ordered and provided on a price listed basis.

---

<sup>[1]</sup> Company concurs with Section 23.3 (Ordering Charges) of the CenturyTel of Northern Alabama d/b/a CenturyLink General Customer Services Price List for service charges applicable in conjunction with Advanced Data Services.

<sup>[2]</sup> Any requests for changes pertaining to the blocking or unblocking of 900/976 service subsequent to an initial change will incur appropriate nonrecurring charges.
S4.4 Installation Charges

a. Installation charges for services other than that furnished for basic telephone service are identified and presented throughout this price list if applicable as a part of the offering of service features. These charges apply in addition to the charges listed in S4.3 preceding as appropriate.

b. Installation charges do not apply where service is established without connection or change of service.

S4.5 Termination Charge

a. A termination charge is determined by applying to the basic termination charge the percentage which the unexpired portion of the initial service period bears to the full initial service period.

   (1) The basic termination charge and the initial service period are indicated in the section of this price list covering the service items to which they apply. The initial service period is shown in brackets following the amount of the basic termination charge.

b. When a customer discontinues one or more units of a group of the same item, the equipment latest installed shall be considered as the equipment first discontinued.

c. When a customer cancels an order for service carrying a basic termination charge prior to the establishment of that service, a termination charge applies equal to the cost incurred by the Company in engineering, ordering and providing the equipment and disposing of it, less credits obtained through disposal, the termination charge in this event will not exceed the basic charge.

S4.6 Restoration Charge

a. In the event service is temporarily suspended for nonpayment of charges, such service will be restored upon payment of charges due or at the discretion of the Company, a substantial portion thereof, and in addition a restoration charge of $32.00 will apply.
SERVICE CHARGES

S4.7 Reserved

(M) Material previously appearing on this page now appears on Page 38 of Section 2.
S4.8 Return Check Charge (a.k.a. Returned Check Charge)  
   a. An administrative charge will be applied to each insufficient funds check received.  
      (1) Each check, each instance $30.00  

S4.9 Special Network Termination Equipment  
   a. General  
      The following charges apply for special network termination equipment provided as a Demarcation Point for the connection of customer equipment. The network cabling charges may be applicable according to Section S4.10.b.  

   (1) Ancillary Devices  
       Series, per termination point $23.00  

   (2) Data Equipment  
       Universal, per termination point 36.00  
       Programmed, per termination point 34.00  

   (3) Key and PBX Systems  
       50-pin miniature ribbon connection,* per termination connector 40.00  

* Central Office and PBX lines will be consecutively wired beginning with the first position unless otherwise specified by the customer.
SERVICE CHARGES

S4.10 Installation of Network Interface Device (NID)

a. Single or Duplex Dwellings

(1) Where a customer with existing service requests that his network interface device be relocated to the outside of his dwelling, a NID will be installed at the Secondary Service Order and Premises Visit charges shown in S4.3.

(2) When a customer with existing or new service specifically requests that the network interface device be located inside his dwelling, a NID will be installed at the following incremental charges:

   (a) First fifteen (15) minutes $15.00
   (b) Each additional fifteen (15) minutes or fraction thereof 11.00

   Note: The Secondary Service Order and Premises Visit charges as shown in S4.3 will also apply if inside installation is done other than at the time of initial establishment of service.

b. Multi-Story, Multi-Occupancy Dwellings

(1) The termination of all Telephone Company network facilities, including the NID, in multi-story, multi-occupancy buildings will normally terminate inside the building at a location determined by the Company which is accessible to the customer. Normally, the location will be the same location as the termination for riser, house, or building distribution cable. If an alternate location is requested by the customer, and not at the initiative of the Company, the charges outlined in Section S4.10.a (2) will apply for one (1) and two (2) line installations. If this situation applies to a multi-line installation, the following charges will be applied per increments of ten (10) feet:

   Nonrecurring Charge

   (a) Network Cabling, 25 Pair $  7.25
   (b) Network Cabling, 50 Pair 10.75
   (c) Network Cabling, 75 Pair 15.00
SERVICE CHARGES

S4.11 Link-Up Alabama

S4.12 Service Date Change Charge

The Company concurs with the terms, conditions and charges specified in Section 4.1.8 of the CenturyTel of Northern Alabama d/b/a CenturyLink General Customer Services Price List for a customer-requested change of service date on a pending order for a Private Line service or Design Service prior to the scheduled service date.

S4.13 Cancellation of Order Charge

The Company concurs with the terms, conditions and charges specified in Section 4.1.9 of the CenturyTel of Northern Alabama d/b/a CenturyLink General Customer Services Price List when customer or the Company cancels an order for installation of a Private Line or Design Service for which the Company has already begun installation or incurred preparatory costs.

S4.14 Expedited Order Charge

An Expedited Order Charge applies when a customer requests a service date for a Design Service that is earlier than the standard interval. If the Company agrees to provide the service on an expedited basis, an expedited order charge may apply as specified in S5.1, Charges Applicable Under Special Conditions, unless set forth elsewhere in this General Customer Service Price List for a specific service.

This section is applicable to the recovery of construction costs incurred by the Company in provisioning service to a customer of a Competitive Local Exchange Carrier (CLEC), or the CLEC at the request of the CLEC.

S5.3.2 General

a. Construction charges are applicable as hereinafter set forth and are in addition to other charges specified in this price list and/or in the CLEC's interconnection agreement between the CLEC and the Company.

b. Construction charges are payable upon application for service or when billing is rendered, at the option of the Company.

c. The word "cost' when used in this section, means the in-plant cost consisting of labor, materials, supervision, and any other overhead expenses associated with the construction necessary to service a CLEC's customer and/or CLEC. Estimated cost will be used; however, where the CLEC requests, actual cost will be used where practicable.

d. The regulations in this Price list contemplate that the type of construction required to provide the quantity and class of service involved will be determined by the company. The CLEC will be required to pay any additional cost involved where a different type of construction other than that of the Company is desired.

e. When attachments are made to poles of other companies in lieu of providing new pole line construction for which construction charges would be applicable under the provisions of this section, all attachment rental charges to the Company for such attachments will be assessed to the CLEC.

f. When a CLEC request to serve a customer, or the CLEC, is so located that it is necessary to use private right-of-way to furnish service and the Company is unable to obtain the required right-of-way without cost, the CLEC will be required to pay all costs incurred in securing, clearing and retaining such right-of-way.

S5.3.3 Charges

a. Construction charges are applicable on private and public property.

b. When a CLEC has issued an order to the Company requesting the Company to provision service to a CLEC's customer, or to the CLEC, and construction is required to provision the requested service, the CLEC will be responsible for paying one hundred percent (100%) of the construction costs.

DIRECTORY LISTINGS

S6.1 Regulations Applicable to Directory Listings

a. The rates and regulations specified herein for directory listings apply only to the alphabetical section of the directory and the directory assistance records. Listings are indented solely for the purpose of identifying customer's telephone numbers and as an aid to the use of the telephone service.

b. The listing of customers either without charge or at the rate specified herein for additional listings in the alphabetical section of the directory does not contemplate special prominence of arrangement. In accepting listings as requested by customers or prospective customers, the Company will not be a party to controversies between customers as a result of the publication of such listings in its directories.

c. Listings must conform to the Company’s specification with respect to its directories. The Company reserves the right to reject listings when in its judgment such listings would tend to delay or impede the use of the service.

d. The Company reserves the right to limit the length of any listing to one line in the directory by use of abbreviations when in its judgment the clearness of the listing and the identification of the customer is not impaired thereby.

e. Except as hereinafter provided only one listing is furnished without charge for each main service, PBX system or Centrex system; where a number of main services are provided on a rotary basis they are considered as one service. If additional listings are required to properly identify the customer, such additional listings may be provided without charge to the extent that the number of listings allowed does not exceed the number of main station lines or PBX trunks associated with that service. Directory listings showing the appropriate Centrex station number may be furnished indented under the main listing or additional listings at the charge for additional listings. Such listings may be specific departments, locations or titles of key personnel.
DIRECTORY LISTINGS

S6.1 Regulations Applicable to Directory Listings (Cont’d)

f. Additional listings on rotary numbers usually bear the call number of the first line of the rotary group but, at the customer's request, they may bear any one of the rotary numbers.

g. Street numbers, followed by the names of streets, will be used in identifying the location of the customer except when in the judgment of the Company names of buildings, apartment houses or communities serve as a better means of identification. The use of floor, room or suite numbers of buildings or apartment houses, or other such designations, is not permitted.

h. Listings are not provided in connection with public telephone service except when the listing will facilitate the operations of the Company. No additional listings are permitted. Listings in connection with semi-public telephone service are furnished under the same rates and regulations as other business service.

i. When in the judgment of the Company the use of reference or other listings in excess of the number of listings permitted without extra charge as previously outlined, are needed for better identification of the customer or governmental offices to facilitate the Company's operations, such listings may be provided without charge.

j. By not requesting a non-published telephone number, the customer agrees to the release of his name, address, and/or telephone number.

S6.2 Business Listings

a. Generally, business listings consist of a name, a designation descriptive of the customer's business if not self-explanatory, the address at which service is rendered, and the business telephone number. The primary listing is ordinarily the name of the individual, firm or corporation which contracts for the service or under the name under which a business is regularly conducted, but may be that of a second party designated by the customer. Additional listings may be furnished in the names of partners or members of the firm, if the customer is a partnership or firm; the names of officers of the corporation where the customer is a corporation, and for any business establishment, the names of associates or employees of the customer.
DIRECTORY LISTINGS

S6.2 Business Listings (Cont’d)

a. Generally, business listings consist of a name, a designation … (Cont’d)

   Business additional listings may also be the bona fide names of individuals, firms or corporations which the customer owns or controls, or is duly authorized to and actually does represent.

b. All listings of a customer's services which are located on the same premises must bear the same address, except in the case of outside stations of PBX or Centrex systems when the address shown as the premise where the outside station is located.

S6.2.1 Business Designations

a. The designation in a business listing consists of a word or phrase, abbreviated where necessary, that describes the general nature of the customer's business. Designations will not be used where the name under which the customer is doing business is sufficient to indicate the nature of the business. The listing of an individual, together with his title and the name of the business with which he is associated or represents, in lieu of a designation of the general nature of the business, is not permitted. Likewise, the listing of a firm or corporation, followed by the name or name and title of an individual connected therewith, in lieu of a business designation is not permitted.

b. Listings of clergymen, physicians, surgeons, dentists, veterinary surgeons, professors, government officials, etc., may for purposes of identification include abbreviated designations of titles. Also the title of "Mrs." or "Miss" is permitted. Degrees are permitted when they serve as a means of better identification; however, titles and designations will be omitted when a degree is used which conveys adequate information.
DIRECTORY LISTINGS

S6.2 Business Listings (Cont’d)

S6.2.2 Trade Names

a. A trade name created by adding a term such as Company, Agency, Shop, Works, etc., to the name of a commodity or service will not be accepted as a listing unless the customer shows satisfactory evidence that he is authorized to do business under the trade name. The Company reserves the right to reject listings which appear to be designed primarily to give publicity to the commodity or service, or which in its judgment are otherwise objectionable or unnecessary for identification purposes.

S6.3 Residence Listings

a. Generally, residence listings consist of a name, the address of the premises at which service is rendered, and the telephone number. The primary listing is ordinarily the name of the individual who contracts for the service but the listing may be the name of a second party so designated by the customer. Additional listings may be furnished in the names of relatives, including those by marriage, domestic employees of the customer, or other persons residing in the customer’s home who are recognized as part of the customer’s domestic establishment.

S6.3.1 Special Residence Designations

a. Listings of clergymen, physicians, surgeons, dentists, veterinary surgeons, professors, government officials, etc. may, for the purposes of identification include abbreviated designations of titles. Also, the title of “Mrs.” or “Miss” is permitted.

S6.3.2 Dual Name Listings

a. Dual name listings may be provided for customers subscribing to residence service who share the same surname and reside at the same address and for a person known by two first names.
S6.3  Residence Listings (Cont’d)

S6.3.2  Dual Name Listings (Cont’d)

b.  Dual name listings may be provided as the primary listing at no recurring charge for the addition of the second name to the listing.

c.  Dual name listings may be provided as an additional listing at the customer's option at the regular additional listing rate.

d.  A network access charge as specified in Section S4.3a.(2) applies for (1) changing a primary single name directory listing to a primary dual name directory listing, (2) changing an additional dual name directory listing to a primary dual name directory listing, or (3) changing the primary or additional dual name directory listing once established when not accomplished on an order for which a network access charge is applicable.

S6.4  Non-Published Telephone Numbers

a.  Some customers request their telephone numbers be omitted from the directory and the Company's directory assistance records. Such requests may be fulfilled through the assignment of a non-published telephone number subject to the rates and regulations outlined below.

(1)  Incoming calls to non-published telephone numbers will be completed by the Company only when the calling party places the call by number. The Company will adhere to this practice notwithstanding any claim of emergency the calling party may present. Provided, however, should a call be placed from a customer's telephone number to 911 emergency services, the customer's name, address and/or telephone number will be released to the appropriate governmental authority. The acceptance by the Company of the customer's request to furnish a non-published telephone number does not create any relationship or obligation, direct or indirect, to any person other than the customer.

b.  In the absence of gross negligence or willful misconduct, no liability for damages arising from publishing a non-published telephone number in the directory or disclosing said number to any person shall attach to the Company. Where such a number is published in the directory, the Company's liability shall be limited to and satisfied by a refund of any monthly charges which the Company may have made for such non-published telephone number. The customer indemnifies and saves the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a non-published telephone number of the disclosing of said number to any person.
S6.4 Non-Published Telephone Numbers (Cont'd)

Utilization of Call Trace and Call Line Identifier

Parties with non-published numbers forfeit the privacy afforded by the service to the extent that the telephone number is identified through activation of a Call Trace or Call Line Identifier procedure whereby the name and address of the subscriber will be provided to the authorized law enforcement agency upon request.

S6.4.1 Rate Application

a. A monthly rate of $8.00 applies for each nonpublished and non-listed telephone number except when it qualifies as one of the exceptions in S6.4.1.b.

b. The rate for nonpublished and non-listed services does not apply to the following:

(1) Customer with a Published Listing
   If a customer has both published and nonpublished/nonlisted listings for the same address and class of service, the nonpublished/nonlisted monthly recurring charge will not apply.

(2) Customer with a Nonpublished/Nonlisted Listing
   If a customer has a nonpublished/nonlisted listing, only one monthly recurring charge will be applied for any nonpublished and/or nonlisted listings for the same customer with the same class of service at the same address. If the customer has a combination of nonpublished and nonlisted listings at the same address, the nonlisted monthly recurring charge will apply.

(3) Pay Telephone Service

(4) Special Reversed Long Distance Service

(5) Foreign Exchange/Zone Service

(6) Temporary Service (service provided for a period not more than thirty (30) days)

(7) Special services such as teletypewriters or data services provided for customers with impaired hearing having a limited requirement for voice communication.

(8) Local Exchange Service for customer living in a hotel, hospital, retirement complex, or boarding house provided the customer is listed under the telephone listing of the establishment.

(9) A customer requesting nonpublished or nonlisted service due to personal safety concerns (stalking, domestic violence, sexual assault, etc.) will be provided the service free of charge. Customer may be required to provide documentation of eligibility. Examples of acceptable documentation are participation in a state-administered address confidentiality program or a court-ordered protective order.
S6.5 Additional Listing Charges

S.6.5.1 General

a. Additional (paid) directory listings are accepted for a minimum chargeable period of the life of the directory issue in which the listing first appears, not to exceed one (1) year from the effective date of the listing. In case the additional listing does not appear in the directory, the minimum chargeable period is for one (1) month. Listing charges date from the day the directory assistance records are posted. Directory assistance records are posted at the time the application for the listing is made, or any time up to and including the closing date of the directory, as desired by the customer. The customer to the service assumes responsibility for all charges for additional listings associated with his service.

b. Listing charges are automatically discontinued upon termination of the main service with which associated and additional listing charges may be discontinued upon request after the expiration of the minimum chargeable period. Charges for additional listing of those other than the customer may be discontinued upon request of the customer in case the listed party becomes a customer to exchange service similar in classification to that under which such party already is listed, i.e., business or residence, or in case of the death of listed party, or if such party moves from the premises at which the exchange service listed is furnished.

S6.6 Miscellaneous Listings

S6.6.1 Reference Listings

Reference listings may be furnished to customers who change their names, absorb other businesses or subdivide their business and have authority to continue the use of the old name, and in other cases when in the judgment of the Company they are considered necessary and are not intended for advertising purposes. Such listings are furnished at the regular rate for additional listings.

S6.6.2 Foreign Listings

Listings in the alphabetical section of the directory of an exchange other than that from which the customer is served.

A monthly rate of $4.80 applies for each Foreign Listing; however, Foreign listings billed on an annual basis will be billed for an annual charge of $60.00.

(T)

S6.6.3 Indented Listings

Indented listings are employed where a customer has more than one listing for service under the same name at one or more locations. An indented listing may be either a business listing or a residence listing where the name in the second listing would be a repetition of that in the first.
S6.6 Miscellaneous Listings (Cont’d)

S6.6.4 Caption Listings

a. Listings may be indented under a caption or sub-caption at no additional charge for the caption arrangement when in the judgment of the Company the caption will facilitate the use of service.

b. The captions must be an essential part of the indented listings which follow and may include names of departments, branches of the business or titles of officials.

c. Listings that are variations of the same general line of business, or which in the judgment of the Company appear to advertise the extent of the customer’s business, are not permitted in listings to be indented under captions.

S6.6.5 Additional Listings for Names Spelled More Than One Way

a. Customers whose names may be spelled differently from the way such names are commonly pronounced may arrange for additional listings of their names alternately spelled, at the regular additional listing rate.

b. Listings of alternate spelling are not allowed when in the judgment of the Company they are desired for the purpose of securing a preferential position in the directory or for advertising purposes.

S6.6.6 Alternate (Directive) Listings

a. Customers may obtain listings which refer calling parties to certain other telephone numbers. Alternate listings are of two general types as described below:

(1) Nights, Sundays, and Holidays -

(a) This type of alternate listing refers calling parties to an alternate telephone number to be used after business hours and on Sundays and holidays. The monthly rate for such listing is the regular additional listing rate per month for each line of the “Note:” of the alternate directory listing.
DIRECTORY LISTINGS

S6.6 Miscellaneous Listings (Cont’d)

S6.6.6 Alternate (Directive) Listings (Cont’d)

a. Customers may obtain listings which refer calling parties (Cont’d)

(1) Nights, Sundays, and Holidays (Cont’d)

(b) Names of individuals are not permitted in listings of this type, however, telephone numbers may be shown of those entitled to use the service, in connection with which the alternate listing is to be provided, and who are agreeable to the use of their numbers in such alternate listing. Listings of this type may indicate the telephone numbers of members of the immediate family of the customer desiring the alternate listing.

(2) If no answer dial -

(a) Alternate listings which refer calling parties to other telephone numbers in case no answer is received at the preceding listed telephone may indicate the telephone number of customers who are agreeable to the use of their numbers in such listings. This type of alternate listing is charged for at the regular rate for an additional listing.

S6.6.7 Temporary Listings

a. Residence customers who leave their premises for periods of less than one year and who request the Company to render service to their tenants without a change in the customer billing, may arrange for the listing of such tenants on “Directory Assistance” records only.

b. A charge for an additional listing applies with a minimum charge equal to the monthly additional listing rate for any listing period. All charges including such additional listing charges will continue to be rendered in the name of the customer, who shall continue to remain responsible for all such charges.

S7.3 Public Telephone Access Service for Customer Provided Equipment (Cont’d)

S7.3.1 General (Cont’d)

d. Public Telephone Access Service is provided subject to the condition that telephone messages (local and long distance) placed from stations which are accessible to the public are completed over Public Telephone Access lines. Where Public Telephone Access Service is furnished, any type or grade of business service offered regularly at that location may be furnished in addition, provided such business service is confined to locations solely for use by the particular establishment.

e. Customer-provided public telephone may not be attached to other types of access lines. A subscriber must order a separate Public Telephone Access line for each applicable telephone installed and will be billed the price listed rate for each line.

f. Public Telephone Access Service will only be provided as Two-Way service and there will be no charge imposed for incoming calls.

S7.3.2 Responsibility of the Customer

a. The customer shall be responsible for the installation, operation and maintenance of any customer-provided telephones used in connection with this service.

b. The customer shall be responsible for payment of a Maintenance of Service Charge as covered in Section S2.7.4 of this Price list for each visit by the Company to the premises of the customer, where the service difficulty or trouble reports result from the use of equipment provided by the customer.

c. Customer-provided telephones may be connected to the Company network and have the following operational characteristics:

(1) If a time limitation is placed on a telephone, proper notice must be posted and a tone must sound 15-30 seconds before disconnection, the exact interval of which shall be clearly stated on the instrument. The minimum time limit shall be no less than three (3) minutes.

S7.3.2 Responsibility of the Customer (Cont’d)

c. Customer-provided telephones may be connected to (Cont’d)

(2) Non-chargeable Operator, 911 Emergency Service where available, and 800/877/888 numbers must be able to be made without a coin deposit, with no time limitation. Directory Assistance calls will be charged at the charges specified in Sections S3 and S18 of the price list.

(3) The appropriate emergency number (Operator, 911) must be clearly posted at each location of a customer-provided telephone.

(4) The telephone number of the line and operating instructions must be displayed on each customer-provided telephone.

(5) Local Telephone Directories must be provided at each location of a customer-provided telephone.

(6) Must clearly display information consisting of local address and telephone numbers where a caller can obtain assistance in the event that the customer-provided telephone malfunctions in any way. Must clearly indicate procedures for obtaining a refund from the customer and that the customer-provided telephone is not being provided by the Company. (The Company is not responsible for refunds of coins deposited in customer provided coin-operated public telephones).

(7) Customer provided coin activated instruments must be capable of accepting nickels, dimes and quarters, and all local calls must be prepaid.

(8) Must be equipped to return the coins to the caller in the case of an incomplete call.
COIN TELEPHONE SERVICE

S7.3 Public Telephone Access Service for Customer Provided Equipment (Cont’d)

S7.3.2 Responsibility of the Customer (Cont’d)

d. The customer to this service shall be responsible for any and all toll charges billed in connection with the Public Telephone Access Service.

e. The customer is responsible for meeting all federal, state and local statutes with respect to provision of customer-provided telephones in accordance with all hearing-impaired and handicapped person requirements.

f. The customer is responsible for insuring that customer-provided telephones are installed in compliance with all Public Service Commission accepted telecommunications industry standards, and the current National Electric Code and National Electric Safety Code.

g. The owner of a customer-provided telephone must apply for and receive an operating certificate from the Public Service Commission before the Company connects a Public Telephone Access Line. The certificate will be provided by the Public Service Commission on a company basis and not on an instrument-by-instrument basis.

S7.3.3 Violations of Regulations

a. Where any customer-provided telephone is used and/or connected in violation of this Price list, the Company will promptly notify the customer of the violation.

b. Failure of the customer to discontinue such use or to correct the violation will result in the suspension or disconnection of the customer’s service until such time as the customer complies with the provisions of this Price list.
COIN TELEPHONE SERVICE

COIN TELEPHONE SERVICE

S7.3 Public Telephone Access Service for Customer Provided Equipment (Cont’d)

S7.3.4 Rates and Charges Applied by the Company (Cont’d)

a. Public Telephone Access Service is provided on a Usage Rate (Cont’d)

(3) The customer who is billed the access line charge is responsible for local Directory Assistance service charges as specified in Sections S3.10.3 and S18.6.c.

(4) Switched Access Charges for usage as provided in Sections 4 and 12 of the Telephone Company's Facilities for Intrastate Access SERVICES TARIFF apply. Charges are billable to the interexchange carrier.

(5) Intrastate intraLATA long distance charges apply on a per message basis based on toll rates plus the appropriate additive operator services charges as specified in Section S18 of this Price list.

(6) At the request of the customer, Touch Calling Service may be provided as covered in Section S13 of this Price list for business individual line service.

(7) Where facilities to provide Usage Rate Service are not available in the customer's serving central office, the service may be provided by Foreign exchange or Foreign Central Office Service as provided in Section S9 of this Price list.

(8) Service charges as covered in Section S4 of this Price list for business individual line service are applicable. Changes in service from an existing exchange service to Public Telephone Access Service for CPE will be considered as new service.

(9) Reserved for Future Use

(10) Listings in connection with Public Telephone Access Service for CPE are furnished under the same rates and regulations as other business service.
COIN TELEPHONE SERVICE

S7.3 Public Telephone Access Service for Customer Provided Equipment (Cont’d)

S7.3.4 Rates and Charges Applied by the Company (Cont’d)

a. Public Telephone Access Service is provided on a Usage Rate (Cont’d)

(11) The Company will bill and collect on behalf of PTAS providers for intrastate services that the provider is duly certificated by the Commission to provide through, at a minimum, clearinghouse arrangements.

S7.3.5 Rates and Charges Applied by the Customer

a. The charge for a local call may not exceed the charge authorized by the Public Service Commission for Company provided local coin service. Minimum duration of a local call shall be no less than three (3) minutes.

S7.3.6 Optional Service Features

a. Operator Screening and Central Office Blocking

(1) Selective Class of Call Screening alerts operator services systems (live or mechanical) that a call is originating from a PTAS line which may require special handling and billing treatment.

S7.3 Public Telephone Access Service for Customer Provided Equipment (Cont’d)

S7.3.7 Public Telephone Access Line for Institutional Service Providers (ISPs)

a. General

(1) Public Telephone Access Lines for Institutional Service Providers (ISPs) is an exchange line service specifically provided for telecommunications use at an institution for use by inmates in making collect only calls.

(2) This service does not apply to telephones located outside the confines of the facility (i.e., administrative areas, guards' break rooms/lounges, etc.)

b. Definitions

For the purposes of this price list, the following definitions are applicable:

(1) Administrator:

The executive officer or person designated by the executive officer of the institution.

(2) Customer:

The billed party.

(3) Institution:

An institution is any type of confinement/correctional facility (i.e., prisons, jails, work farms, detention centers, etc.).

(4) Institutional Service Provider (ISP):

An entity which provides coinless telephone service for the exclusive use of inmates within the confines of a penal, correctional or mental institution.
COIN TELEPHONE SERVICE

S7.3 Public Telephone Access Service for Customer Provided Equipment (Cont’d)

S7.3.7 Public Telephone Access Line for Institutional Service Providers (ISPs) (Cont’d)

c. Rules and Regulations

(1) Institutional Service Providers (ISPs) shall be authorized to utilize "store and forward" technology to complete "0+" local, intraLATA and interLATA collect-only calls from prisons and jails. The ISP may provide the operator function and may use the services of the Company or other authorized carrier to complete the toll transport function of these calls.

(2) All inmate telephones which offer automated, collect-only service must be equipped with both an acceptance and rejection response mechanism so that if neither action is taken, the call is terminated and not billed. Instruments or technologies which provide for or allow automatic acceptance of automated collect-only calls without action from the called party are prohibited.

(3) The ISP must submit the name of the equipment manufacturer to the Commission and must satisfactorily demonstrate to the Commission the acceptance and rejection responses mechanism before the ISP equipment is installed in any prison or jail.

(4) The ISP may block or arrange to have blocked calls to local Directory Assistance (411), long distance Directory Assistance (555-1212), toll free numbers (1-800 or 1-888), 700, 900, 911, 950, 976, 101XXXX, 011+IDDD, 0-, and any other numbers the institution and/or the Commission finds may jeopardize the integrity and security of the institution and the safety of the public.
COIN TELEPHONE SERVICE

S7.3 Public Telephone Access Service for Customer Provided Equipment (Cont’d)

S7.3.7 Public Telephone Access Line for Institutional Service Providers (ISPs) (Cont’d)

c. Rules and Regulations

(5) The ISP may not provide intraLATA service except by means of local exchange company facilities authorized for resale.

(6) The ISP must validate each call against a billing validation database to ensure that the called number can receive and be billed for collect calls.

(7) The Company will bill and collect on behalf of PTAS providers for intrastate services that the provider is duly certificated by the Commission to provide through, at a minimum, clearinghouse arrangements.

S7.4 Reserved for Future Use
COIN TELEPHONE SERVICE

S7.5 Customer-Owned Pay Telephone (COPT) Coin Line Service

S7.5.1 Definitions and Requirements

a. Customer-Owned Pay Telephone (COPT) Coin Line Service is a coin voice grade exchange line that provides switch based dial tone first (DTF) coin line functionalities for customer-owned pay telephones.

b. COPT Coin Line Service is provided at the request of a COPT provider that provides pay telephone service with switch based coin line functionalities to the public on a resale basis.

c. A COPT Coin Line subscriber must use a separate COPT Coin Line for each pay telephone instrument installed and will be billed the price listed rate for each line. Off-premise extensions to a COPT Coin Line are not permitted.

d. Where COPT Coin Line Service is provided, any type or grade of residence or business service offered regularly at that location may also be furnished, provided such residence or business service is confined to locations solely for use by the particular establishment.

e. The carriage and completion of local messages are provided by the Company.

f. The Company shall not be liable for shortages of coins deposited and/or collected from the COPT Coin Line subscriber's equipment.

g. The Company shall not be liable for end-user fraud associated with failure of the subscriber's equipment to perform.

h. COPT Coin Line Service will be suspended at a reduced rate.

i. COPT Coin Line Service will be provided from central offices where facilities are available.

j. COPT Coin Line Service will be provisioned where technically and economically feasible.
COIN TELEPHONE SERVICE

S7.5 Customer-Owned Pay Telephone (COPT) Coin Line Service (Cont'd)

S7.5.2 Features

a. Service is provided in equal access Stored Program Control (SPC) central offices where coin line control equipment is available.

b. Service is provided on a one-way or two-way basis at the customer's option.

c. Coin signaling, including coin collect and coin return, is provided by the network. Coin collect identifies when a call is completed. Coin return occurs when a no answer or busy signal is encountered.

d. The following features are included in the COPT line rate at no additional charge, when a customer orders COPT service.

Answer Supervision is the line side functionality that provides an electrical signal to the calling end of a switched telephone connection when the called line goes off-hook, which determines when billing for a specific call should commence.

Billed Number Screening provides for the automatic blocking of third number billing, collect billing, or both to the COPT line.

Selective Class of Call Screening alerts operator services systems (live or mechanical) that a call is originating from a COPT line which may require special handling and billing treatment.

Touch Calling Service provides the capability to receive standard DTMF signaling on a COPT access line.

976, 1+976 and 1+900 Blocking provides screening information to the operator assisted, sent-paid, credit card or third number calls from being billed to the COPT line.
COIN TELEPHONE SERVICE

S7.5 Customer-Owned Pay Telephone (COPT) Coin Line Service (Cont’d)

S7.5.2 Features (Cont’d)

e. Reserved for Future Use

f. Reserved for Future Use

g. Standard recorded announcements used for calls from the Company's Public Telephone Service pay telephones are used for calls that originate from a COPT Coin Line.

h. All 0+ local calls are handled by the Company's operator services system.

i. All 0-, 0+ and 1+ (intraLATA and interLATA) calls are routed to the presubscribed carrier selected by the customer who has the required coin signaling capabilities (i.e., coin recognition, coin control, etc.) to complete the call.

j. All direct dialed interLATA and international (1+, 101XXXX+1, 011+) calls will be forwarded to the presubscribed carrier selected by the customer who has the required coin signaling capabilities (i.e., coin recognition, coin control, etc.) to complete the call.
COIN TELEPHONE SERVICE

S7.5 Customer-Owned Pay Telephone (COPT) Coin Line Service (Cont’d)

S7.5.3 Responsibility of the Subscriber

a. The subscriber shall be responsible for the installation, operation, and maintenance of any customer-provided telephones used in connection with this service. In addition, the subscriber is responsible for meeting all federal, state, and local statutes with respect to provision of customer-provided telephones in accordance with all hearing-impaired and handicapped person requirements.

b. Customer-provided telephones must be connected to the Company network in compliance with Part 68 of the FCC Rules and Regulations and have the following operational characteristics.

(1) Must be capable of providing access to all locally available long-distance companies where provisions for interexchange calling is provided.

(2) Must be able to access the "Operator" where 911 is not available at no charge to the calling party.

(3) Must be able to access 911 Emergency Service, where available, at no charge to the calling party and without the use of a coin.

(4) Reserved for Future Use

(5) The appropriate emergency number (Operator, 911) must be clearly posted at each location of a customer-provided telephone.

(6) Must clearly indicate procedures for obtaining a refund from the subscriber and that the customer-provided telephone is not being provided by the Company. (The Company is not responsible for refunds of coins deposited in customer-owned pay telephones).

(7) Must be equipped to return the coins to the caller in the case of an incomplete call.

(8) The telephone number of the line must be displayed on each CPE telephone.
## COIN TELEPHONE SERVICE

### S7.5 Customer-Owned Pay Telephone (COPT) Coin Line Service (Cont’d)

#### S7.5.4 Violations of Regulations

- **a.** Where any customer-provided telephone is used and/or connected in violation of this Price list, the Company will promptly notify the customer of the violation.

- **b.** Failure of the subscriber to discontinue use or to correct the violation will result in the suspension or disconnection within five (5) business days after written notification of the subscriber’s service until such time as the subscriber complies with the provisions of this Price list.

#### S7.5.5 Rates and Charges

COIN TELEPHONE SERVICE

S7.5 Customer-Owned Pay Telephone (COPT) Coin Line Service (Cont’d)

S7.5.5 Rates and Charges (Cont’d)

b. No charge will be imposed for incoming calls.

c. Sent-paid local calls will be rated at the Company's central office. Local messages include calls made to Local Calling Areas listed in Section S3.

d. Operator assisted sent-paid local calls will be rated to the end-user at the rate of .25 cents per message, plus the appropriate additive operator service charges as specified in Section S3.8. Non-sent paid local calls will be rated to the end-user at the rate of .25 cents per message and the appropriate additive operator service charges as specified in Section S3.8.

e. Operator assisted sent-paid toll calls will be rated to the end-user at the long distance rate, plus the appropriate additive operator service charges as specified in Section S18. Non-sent paid intraLATA toll calls will be rated to the end user at the long distance rate and the appropriate additive operator service charges as specified in Section S18.

f. The appropriate Network Access Charge, Central Office Line Connection Charge, and/or Premise Visit Charge as specified in Section S4 of this Price list are applicable for each COPT Coin Line installed, moved, or changed.

g. Calls to local and long distance Directory Assistance Service will be charged the rate specified in Section S3.10.2 of this Price list.

h. Reserved for Future Use

i. Subscribers to Customer-Owned Pay Telephone (COPT) Coin Line Service may be listed in the directory as specified under "Directory Listings", Section S6.

j. Reserved for Future Use

k. COPTs shall not charge for local calls placed through the Alabama Relay Center.

TELEPHONE ANSWERING SERVICE FACILITIES

S8.1 General Provisions

S8.1.1 Facilities

a. The Company will provide facilities, as outlined herein, for telephone answering bureaus (secretarial firms) for their use in furnishing telephone answering service for customers to exchange services when they are absent or do not desire to answer their calls personally.

b. Main station and local private line terminations may also be provided where the customer contracts with a telephone answering bureau to receive all incoming calls or where the telephone answering bureau wishes to terminate administrative service for answering purposes only.

c. Foreign exchange service and secretarial lines associated therewith may be terminated in telephone answering equipment for answering purposes only. Secretarial lines are those lines of patrons of a telephone answering bureau which terminate in telephone answering facilities on the premises of the bureau so as to permit the bureau attendant to answer incoming calls on such lines.

d. Local exchange trunks may be terminated in a telephone answering switchboard for the purpose of completing local or long distance calls.

e. The Telephone Answering Bureau may forward calls from secretarial lines to the general exchange network over local exchange central office lines furnished the bureau for its administrative use; however, the secretarial service facilities furnished by the Company are not designed for such call forwarding. The answering bureau forwards calls at its own risk and the Company will not be liable for defects in transmission or other service difficulties arising out of or resulting from this type of connection.
TELEPHONE ANSWERING SERVICE FACILITIES

S8.2 Rates and Charges

S8.2.1 Billing to the Client

a. The following mileage charges are billed directly by the Company to the client of the telephone answering bureau:

(1) Secretarial Line Mileage:

   (a) Line terminating directly in the telephone answering equipment:

      (i) Where different buildings are involved, mileage charges are computed on airline measurements from the point where the secretarial line leaves the building in which is located the main line or private branch exchange switchboard to the place of location of the telephone answering firm, except that in those cases where the secretarial line is bridged to the main line in the central office, mileage charges are computed on the airline measurement from the location of the central office where bridged, to the place of location of the telephone answering firm. In cases where secretarial line service is provided from a foreign central office, the facility between the central offices involved will be provided in accordance with Section S9 (Foreign Central Office Service) of the price list.

For each quarter mile or fraction thereof, airline measurement, per month $5.00
S8.2 Rates and Charges (Cont’d)

S8.2.1 Billing to the Client (Cont’d)

a. The following mileage charges are billed directly by the Company … (Cont’d)

   (1) Secretarial Line Mileage (Cont’d):

      (a) Line terminating directly in the telephone answering equipment: (Cont’d)

         (i) Where different buildings are involved, … (Cont’d)

         Note: In connection with the provision of a secretarial line where the client is located in a building other than that in which the telephone answering firm is located, mileage measurements shall be computed to produce the lowest total mileage charge to the customer, e.g., if the client’s location is closer to the telephone answering firm, then the mileage measurement is computed from the client’s location rather than the central office location where bridged.

b. Service Charges:

   (1) Secretarial lines connected to the telephone answering facility:

   The appropriate charges specified in Section S4.3.a (1); b; and c of this Price list apply; however, where the secretarial line is bridged in the central office this charge does not apply in connection with a main station change of address within the same central office area.

   (2) Main station lines:

   The appropriate charges specified in Section S4.3.a (1); b; and c of this price list for main service, apply.
TELEPHONE ANSWERING SERVICE FACILITIES

S8.2 Rates and Charges (Cont’d)

S8.2.1 Billing to the Client (Cont’d)

c. Main lines of clients terminated only in telephone answering facilities for answering purposes only:

(1) The rate quoted in Section S3 of this price list for individual line service applies, plus the charge specified in S8.2.1.a(1)(a)(i) above for a secretarial line termination.

S9.2 Foreign Central Office Service

S9.2.1 General

a. Foreign Exchange (or FX) Service is exchange (local) service furnished to a subscriber from an exchange other than the one from which he would normally be served. It includes calls where a customer of another exchange service provider is assigned a telephone number with a VNXX Code assigned to an exchange different from the exchange associated with the customer's actual physical premise location. Such service is not in accord with the general plan of furnishing telephone service and such service is furnished only under special conditions, where warranted by the circumstances, including availability of facilities involved.

b. Foreign central office service is offered in connection with individual line main station service and PBX service only. It will be provided only between central office districts having the same calling scope.

c. Other services, equipment and facilities used in connection with foreign central office service, except as otherwise indicated in this price list, are furnished subject to the rates and regulations applying in the foreign central office from which the customer is served.

S9.2.2 Rates and Charges

a. The rate for foreign central office service is the monthly rate for the class of service desired, plus a foreign central office mileage charge of $5.00 per month per quarter mile or fraction thereof, for the distance, airline measurement, between the central office from which the customer would normally be served and foreign central office, i.e., the central office from which the customer desired to be served. In addition, the customer is charged any extra line mileage, which would apply for connection with the central office from which service normally would be rendered.

DIGITAL NETWORK SERVICES

S10.1 Digital Channel Service

S10.1.1 General

a. Digital Channel Service provides an intraexchange digital common line connection between the end user's premises and the local serving wire center. The digital transmission rate available is either DS1 (1.544 Mbps) or DS3 (44.736 Mbps). (Digital Channel Service connections may be made to another central office, owned by the Company, within the same exchange, subject to S10.1.4c following.)

b. Digital Channel Service will be used by the customer to aggregate the customer's telecommunication services onto a digital local loop. The services which can be combined include private line and switched services, intraexchange, intraLATA and interLATA services. A representative list of services which can use Digital Channel Service facility includes:

(1) Exchange Dial Tone service, e.g., exchange lines/trunks, Centrex Station Lines.

(2) Analog Transmission Services, e.g., Foreign Exchange Service, Private Line, Off-premise Extensions, Tie Lines.

(3) Digital Data Services (2.4, 4.8, 9.6, 56 or 64 Kbps) \[^{[1]}\]

(4) DS1 (1.544 Mbps) Services

(5) DS3 (44.736 Mbps) Services

c. Digital Channel Service is comprised of the following components:

Digital Channel Capacity
Service Activation

(1) The Digital Channel Capacity and Service Activation will be at the rates and charges as specified in Section S10.1.6 of this Price list.

\[^{[1]}\] Effective June 1, 2020 Digital Channel services are grandfathered when the underlying service is grandfathered. Availability to current customers is limited to circuits in service at existing locations.
DIGITAL NETWORK SERVICES

S10.1 Digital Channel Service (Cont’d)

S10.1.1 General (Cont’d)

c. Digital Channel Service is comprised of the following components: (Cont’d)

(2) Digital Channel Service customers will order capacity in quantities of DS1 or DS3 facilities, (increments of 24 channels for a DS1 facility or increments of 28 channels for a DS3 facility). Customers will be offered a Term Payment Plan of 36, 60 or 84 months. After completion of the selected payment plan, the service will be provided on a month-to-month basis at the same rate schedule as the completed payment plan.

S10.1.2 Digital Architecture

a. Digital Channel Service provides only the common line link between the End User and the local serving wire center. End-to-end private line and exchange services will utilize this digital link to the customer’s premise, rather than the analog loop which might otherwise be provided. This architecture is intended to promote more efficient connectivity of analog and digital networks in the future.

b. The time required to provision service is known as the service date interval. The service date interval for Digital Channel Service and related network services connected to Digital Channel Service will differ from the normal guidelines applicable to end-to-end services.
DIGITAL NETWORK SERVICES

S10.1 Digital Channel Service (Cont’d)

S10.1.2 Digital Architecture (Cont’d)

c. Digital Channel Service will be available on a digital basis at the network interface on a customer’s premises. Traditional analog services, like off-premises stations and automatic access lines, can be provided on a digital basis to a customer’s premises by the Company when a customer desires them encoded in a DS1 bit stream. Under those conditions, they will be provided as DSO channels by the Company. Both the Company and the customer have joint responsibilities to ensure the proper transmission of the provided services. Normal analog channel network interface specifications will be superceded by the electrical specifications of the 1.544 Mbps (DS1) or 44.736 Mbps (DS3) channel which is actually terminated. Each digital channel provided will have an identity only as a “time slot” within a DS1 or DS3 loop. Compatible digital to analog conversion equipment must be provided by the customer to derive the desired channelized services. Any Channel Service Units (CSUs) necessary for digital services are the responsibility of the customer.

S10.1.3 Definitions

a. Channel Service Unit (CSU). The term CSU denotes network channel terminating equipment provided by the customer to terminate digital facilities on a customer’s premises.

b. Digital Channel Capacity. A multifunctional DS1 or DS3 signal between the customer premises and the central office. This digital link can be used to transport switched and dedicated multijurisdictional services. This element acts as the transport medium for the service activations ordered by the customer. Digital Channel Capacity is available in quantities of DS1 or DS3 facilities.
DIGITAL NETWORK SERVICES

S10.1 Digital Channel Service (Cont’d)

S10.1.3 Definitions (Cont’d)

c. DSO. The term DSO denotes a channel service expressed in terms of its digitally encoded data bit rate in accordance with the North American hierarchy of digital signal levels. It is generally referred to as having a 64 Kbps transmission bit rate signal; however, customer transmission rates may be limited to 56 Kbps by existing or available central office equipment.

d. DS1. The term DS1 denotes a channel service expressed in terms of its digitally encoded bit rate in accordance with the North American hierarchy of digital signal levels. It has a 1.544 Mbps transmission bit rate and provides for the two-way simultaneous transmission of isochronous timed, Bipolar Return-to-Zero (BPRZ) bit stream format. Unframed signal formats are not permitted or compatible with Company equipment. DS1 facilities are normally provided on copper transmission medium.

e. DS3. The term DS3 denotes a channel service expressed in terms of its digitally encoded data bit rate in accordance with the North American hierarchy of digital signal levels. It has a 44.736 Mbps transmission bit rate and provides for the two-way simultaneous transmission of isochronous timed, Bipolar Return-to-Zero (BPRZ) bit stream format. DS3 facilities are provided on fiber optic transmission medium.

f. Service Activation. A Service Activation is the connection between the Digital Channel facility and the network service accessed.
DIGITAL NETWORK SERVICES

S10.1 Digital Channel Service (Cont'd)

S10.1.4 Regulations

a. Digital Channel Service is furnished subject to the availability and type of digital equipment located in a central office building owned or leased by the Company. Service inquiries will be necessary to determine availability.

b. Special Construction Charges as specified in Section S5 of this price list may be applicable.

c. The 1.544 Interoffice Channel mileage as specified in Section S20 of this Price list will apply when a customer's request for Digital Channel Service is provisioned in a central office other than the customer's local serving wire center.

d. The customer may activate any number or combination of digital channels within the limitations as set forth in Section S10.1.4g. Digital channels may be activated coincident with or at any time subsequent to the initial installation of Digital Channel Service. Once activated, a digital channel is subject to a minimum service period.

e. All Digital Channel Service capacity/ facilities must be terminated at a single equipment location on a customer's premises. Digital Channel Service capacity cannot be split between premises, or multiple locations within a premises.

f. When individual digital channels are activated to provide the local loop link for services offered in other sections of this Price list, the regulations, rates, and charges specified in this Price list will apply.

g. The total number of digital channels activated by the customer may not, at any time, exceed the total Digital Channel Capacity. Additionally, there are some types of service which require two DS0 channels to be combined. This restructuring of the channels within the DS1 or DS3 signal will reduce the normal quantity of channels available. The Company will notify the customer when the Digital Channel Capacity is altered by the types of services activated.
DIGITAL NETWORK SERVICES

S10.1 Digital Channel Service (Cont’d)

S10.1.4 Regulations (Cont’d)

h. Central Office Channelization (component of Digital Channel Capacity) generally provides analog to digital conversion to permit individual exchange services and multijurisdictional dedicated services to be combined and transported over digital high capacity facilities. This channelization is also intended for use at Company locations where different high capacity digital network links terminate in the same Central Office and must be converted to individual analog or digital channels before the service links can be cross-connected.

i. Channelization on a customer's premises will be provided by the customer.

j. Joint provisioning of services introduces joint responsibilities between the customer and the Company as specified following:

(1) Responsibilities of the Company:

(a) The Company will endeavor to activate its portion of joint service in a timely manner on the negotiated date to support installation requirements.

(b) The Company will provide the customer with information regarding the type and the manufacturer of Central Office (C.O.) channelization equipment to be used in each application.

(c) Company will attempt to limit its selection of Central Office equipment to avoid operational and administrative difficulties associated with a multi-vendor central office environment.
DIGITAL NETWORK SERVICES

S10.1 Digital Channel Service (Cont’d)

S10.1.4 Regulations (Cont’d)

j. Joint provisioning of services introduces joint responsibilities … (Cont’d)

   (1) Responsibilities of the Company: (Cont’d)

      (d) The Company reserves the right to change its equipment vendors
          should equipment availability, price or technological advantages make
          such a change attractive or necessary.

      (e) The Company will notify the customer, generally a minimum of six
          months in advance, of any need to change its central office equipment
          to allow the customer sufficient time to respond, make any necessary
          changes, and schedule cooperative testing for cutover, if required.

      (f) Digital synchronization timing for Digital Channel Service will be
          provided by the Company.

   (2) Responsibilities of the Customer:

      (a) The customer must be prepared to activate his portion of joint service
          in a timely manner on the negotiated date, providing testing equipment
          and personnel to support installation requirements, as may be
          necessary.

      (b) The customer will be responsible for selecting his own equipment.
          Customer equipment must be compatible with the Company provided
          channelization at the Central Office.
DIGITAL NETWORK SERVICES

S10.1  Digital Channel Service (Cont'd)

S10.1.4  Regulations (Cont’d)

j. Joint provisioning of services introduces joint responsibilities … (Cont’d)

(3) Trouble resolutions:

(a) The Company will assist the customer in resolving any installation or
day-to-day channel service problems. However, the Company does
not assure responsibility for the compatibility or suitability of the
customer's equipment. Dispatches to customer premises caused by
customer equipment troubles will result in a Maintenance of Service
Charge as set forth in Section S2.7.4 to the customer.

k. Channelized DS1 service is available only with D4 channel bank equipment or
compatible, equivalent equipment.

l. Emerging technology, such as low bit rate voice multiplexing techniques, may permit
additional quantities of individual channels to be channelized on a single DS1 signal.
Equipment providing this capability does not generally assure compatibility between
different manufacturers. Some equipment may not be suitable for data transmission
or tandem network line application. Rates, charges, and availability of this
equipment will be negotiated with the customer under a Special Service
Arrangement.

m. When a customer's Digital Channel Service is interrupted due to any cause other
than the negligence or willful act of the customer or the failure of the facilities
provided by the customer, a pro-rata adjustment of the monthly charges involved
will be allowed automatically for the service and facilities rendered useless and
inoperative by reason of the interruption during the time said interruption continues
in excess of twenty-four (24) hours from the time it is reported to or detected by the
Company except as otherwise specified in this Price list. The adjustment shall not
be applicable for the time that the Company stands ready to repair the service and
the customer does not provide access to the Company for such restoration work.
DIGITAL NETWORK SERVICES

S10.1  Digital Channel Service (Cont’d)

S10.1.5  Application of Rates

a. Three basic rate elements; Digital Channel Capacity, Digital Channel Activation, and Service Activation, are applicable to each Digital Channel Service.

b. The Digital Channel Capacity element provides for the transport between the end-user premises and the serving central office. Digital Channel Capacity is offered with 36, 60, or 84 month Term Payment Plan periods, after which service is provided on a month-to-month basis at the completed payment plan rates.

c. Service Activation charges are recurring charges and are applicable for each network service (switched or dedicated) required by the customer. Service Activation is offered on a month-to-month basis. For DS1 services, a DS1 Service Activation charge is applicable.

d. Monthly rates and charges as specified in Section S10.1.6 for Digital Channel Capacity apply according to the requested channel capacity. These rates apply regardless of the number of digital channels that are actually activated by the customer at a point in time.

e. Rates and charges specified in other Price list sections for services such as Smart Call™ features, etc., are in addition to the monthly rates for Digital Channel Service.

f. The rates and charges for other services connected or extended beyond Digital Channel Service (i.e., off-premises stations and private lines, etc.) are in addition to the rates specified in this Price list for the Digital Channel Service portion necessary to provide customer end-to-end service. This will also apply to Nonrecurring Charges and Service Connection Charges as specified in other Price lists for activities involving the non-Digital Channel Service portion of the customer end-to-end service.
DIGITAL NETWORK SERVICES

S10.1  Digital Channel Service (Cont’d)

S10.1.5  Application of Rates (Cont’d)

g.  Digital Channel Capacity is available under Term Payment Plans only for rate periods of 36 months, 60 months, or 84 months. All elements of a Term Payment Plan will expire at the same time (be coterminous).

(1) The customer may order additional Digital Channel Capacity(s) during a Term Payment Plan period. The expiration date of the additional capacity(s) will be the same expiration date as the original Term Payment Plan period.

(2) Service Activation charges are available on a month-to-month basis.

h.  At the expiration date of the customer’s selected Term Payment Plan period, the customer may continue service under a new Term Payment Plan or on a month-to-month basis at the expired payment plan rates. Rates for service under these options will be the current rates as specified in this Price list.

i.  In the event Digital Channel service is terminated by the customer prior to completion of the initial contract period, the customer shall be liable for early termination charges. (See General Regulations, Section S2.11)
S10.1 Digital Channel Service (Cont’d)

S10.1.5 Application of Rates (Cont’d)

j. Should customers request interconnection between different Digital Channel Services provisioned in two or more different local serving offices, 1.544 Interoffice Channel mileage as specified in Section S20 of this Price list will apply. This charge will apply in addition to Digital Channel Service charges for each premises for which Digital Channel Service is provisioned.

S10.1.6 Rates and Charges

a. Nonrecurring Charges

(1) Nonrecurring charges are one time charges that apply for specific work activity, (i.e., installation of service or change to an existing service). The types of nonrecurring charges that apply for Digital Channel Service are those listed below.

(a) Service Establishment Charge. This charge applies to the initial Digital Channel Capacity(s) ordered by a customer for receiving, recording and processing the request for service. This charge includes processing orders to establish initial Digital Channel and Service Activations. This charge includes common centralized testing, coordination and accounting activities.
DIGITAL NETWORK SERVICES

S10.1 Digital Channel Service (Cont’d)

S10.1.6 Rates and Charges (Cont’d)

a. Nonrecurring Charges (Cont’d)

   (1) Nonrecurring charges are one time charges that apply … (Cont’d)

   (b) Service Change Charge. This charge is applied per Digital Channel service payment plan and is associated with a customer request for modifications to an existing Digital Channel Service. This would include activities such as but not limited to:

       - Change of associated channel assignment.
       - Additions of supplemental features.
       - Activate/Deactivate Digital Channel Activations.
       - Activate/Deactivate Service Activations.

   (c) Installation of Digital Channel Service. These are nonrecurring charges associated with the work performed by the Company in connection with the physical installation activities involving central office and/or outside plant facilities. These charges apply at initial installation and for additions to existing service.

   In addition to these charges, the appropriate Service Ordering Charge will apply.

DIGITAL NETWORK SERVICES

S10.2 Switched Data Service

S10.2.1 General

a. This Price list section contains the application, definitions, description, regulations, and rates applicable to Switched Data Service furnished by the Company where technological capabilities exist.

S10.2.2 Description

a. Switched Data Service is a network service which provides the capability for switched digital end-to-end data transport.

b. The customer may subscribe to Switched Data Service under one of the following service arrangements, except when conditions specified in S10.2.4.j are applicable.

   (1) Switched Data Individual Line Loop Extension

   An extended loop capability which transports Switched Data usage between the customer premises and the local serving central office. Each Switched Data Individual Line Loop Extension provides one channel which supports data transmission only. Each channel can transmit up to 56,000 bits per second, or up to 64,000 bits per second depending on technology.

   (2) Switched Data Channel Access

   A 1.544 Megabit high capacity digital facility that transports Switched Data usage between the customer premises and the local serving central office on a channelized basis. Switched Data Channel Access provides 24 digital channels that support data transmission only. On a per channel basis, the customer can transmit data up to 56,000 bits per second.

c. Standard Features

   (1) Data Line Security

   This feature prevents a call from being interrupted by override tones, such as a call waiting tone, or other test or busy verification tests that would interrupt the flow of data.
DIGITAL NETWORK SERVICES

S10.2  Switched Data Service (Cont’d)

S10.2.2  Description (Cont’d)

c. Standard Features (Cont’d)

(2) Intercom Dialing

This feature allows customer group stations to complete calls to other stations without the assistance of an attendant, by dialing a 2 through 7 digit number. This feature is applicable to

Centrex customer groups only and is restricted to the serving wire center only.

(3) Direct Dialing

This feature allows the user to place local and long distance calls without the assistance of an attendant by using the standard 7 through 10 digit dialing methods.

d. Optional Features

(1) Data Direct Connect

This feature provides an automatic connection between a Switched Data calling line that goes off-hook and a predetermined location.

(2) Data Closed User Group

This feature, restricted to Centrex lines, provides partitioning of Switched Data lines into groups where calls within such a group are allowed, but calls between such groups are denied.

e. Optional Feature Packages

(1) The following feature packages are available for use with Switched Data service:

   (a) Feature Package Data 1000 includes:

      Data Toll Restriction - This feature will restrict toll calls from being placed over Switched Data lines.
DIGITAL NETWORK SERVICES

S10.2 Switched Data Service (Cont’d)

S10.2.2 Description (Cont’d)

  e. Optional Feature Packages (Cont’d)

    (1) The following feature packages are available for use with … (Cont’d)

      (a) Feature Package Data 1000: (Cont’d)

          Data Sequential Hunt Group - This feature assigns a pilot telephone
          number to the hunt group. Hunting is sequential, i.e., starting at the first
          line assigned to the pilot telephone number and ending at the last line.

S10.2.3 Definitions

  a. The following definitions are in addition to other definitions as stated in this and other
     Company tariffs.

      Bit

      A binary digit. The smallest unit of information in the binary system of notation.

      Bits Per Second

      The number of bits transmitted per second. A measure of the speed of transmission
      of digital information.

      Digital

      Information which is expressed in discrete or non-continuous form.

      Hunting

      A search through a group of telephone numbers until an idle number is found or the
      last number of the group is reached.
DIGITAL NETWORK SERVICES

S10.2 Switched Data Service (Cont'd)

S10.2.4 Regulations

a. In addition to the following regulations, the appropriate regulations established in other sections of this Price list will also apply.

b. Switched Data Service is comprised of the following rate elements:
   - Switched Data Customer Line
   - Service Connection Charges
   - Optional Features
   - Software Reconfiguration Charge
   - Network Usage Charge

c. The minimum billing period for which service is provided is one (1) month.

d. Federal Subscriber Line charges will apply to Switched Data Service as specified in the Company's Federal tariff.
   (CTOC F.C.C. 2 or F.C.C.3)

e. For Presubscription of an Interexchange Carrier, the rates and regulations as set forth in CenturyTel's Interstate Access Tariff will apply.

f. A directory listing for Switched Data service will be provided upon request in accordance with Section S6 of this price list.

g. Switched Data Individual Line Loop Extension can be provided where:
   A customer's local serving central office is capable of providing Switched Data.
DIGITAL NETWORK SERVICES

S10.2 Switched Data Service (Cont'd)

S10.2.4 Regulations (Cont'd)

g. Switched Data Individual Line Loop Extension can be provided where: (Cont’d)

- A customer’s local serving central office is not capable of providing Switched Data. The Telephone Company will determine the nearest designated central office capable of providing Switched Data Service. Interoffice digital data service (DDS) mileage will apply from the non-capable central office to the central office capable of providing Switched Data at the rates shown in the appropriate price list (see Note 1). In this situation, the dialing plan associated with the central office that will be providing the Switched Data Service to the customer will be utilized.

h. Switched Data Channel Access can be provided where:

- A customer’s local serving central office is capable of providing Switched Data.

- A customer’s local serving central office is not capable of providing Switched Data. The Telephone Company will determine the nearest central office capable of providing Switched Data. Interoffice digital high capacity mileage (1.544) will apply from the non-capable central office to the central office capable of providing Switched Data at the mileage rate shown in the appropriate price list (see Note 2). In this situation, the customer will utilize the dialing plan associated with the central office that delivers the digital dial tone.
DIGITAL NETWORK SERVICES

S10.2 Switched Data Service (Cont’d)

S10.2.4 Regulations (Cont’d)

i. Dialing Method

Access to Switched Data Service is obtained through a dial-up connection via the public switched telephone network using the standard 7 through 10 digit methods.

Origination of calls for 800, 888, 900, 976, 0- (IntraLATA) and 0+ (IntraLATA) is restricted.

j. Availability

The provision of Switched Data Service is subject to the availability of certain central office and outside plant facilities.

k. Technical Requirements

Switched Data requires the use of customer provided data equipment that must be compatible with the Telephone Company’s equipment and facilities.

S10.2.5 Application of Rates

Rates and charges specified in other sections of the Price list for services provided in conjunction with Switched Data Service (Smart Call™ features, Centrex features, etc.) are in addition to the monthly rates for Switched Data Service.
DIGITAL NETWORK SERVICES

S10.2 Switched Data Service (Cont’d)

S10.2.5 Application of Rates (Cont’d)

b. Switched Data lines placed in a voice Centrex business group do not require Central Office located lines for outbound data traffic. However, the customer may choose to purchase additional Central Office located lines to support all terminating traffic that may be increased by Switched Data. The customer has the option of placing the Switched Data lines in a Switched Data-only Centrex business group which will not require Central Office located lines for either outbound or terminating data traffic.

S10.2.6 Rates and Charges

S10.2 Switched Data Service (Cont’d)

S10.2.6 Rates and Charges (Cont’d)

a. The following rates and charges are in addition to other rates … (Cont’)

(5) Network Usage

Switched Data Network Usage will be billed to the originating end of the Switched Data call which terminates within the local calling area only. For Switched Data calls terminating outside the local calling area, the applicable toll charges will apply.

Switched Data Network Usage Rates Note 2

Discount Periods Note 3

(6) Software Reconfiguration Charge, Monthly Rate per occurrence $12.75

(a) The Software Reconfiguration charge is applicable for any software changes that are required to make changes to Optional Features (e.g., changing Data Direct Connection Destination, etc.) or changes to Feature Packages (e.g., add, delete or change features). The Service Charges as specified in Section S4 are also applicable.

S10.3 Reserved for Future Use

---

(1) The applicable Service Charges as specified in Section S4 of this Price list shall also apply.
(2) Refer to Section S20.4.1 for the 1.544 Special Access Line rates and Special Transport rate (when applicable).
(3) Federal End User Charges are also applicable.
DIGITAL NETWORK SERVICES

S10.4 Digital (ISDN) Single Line Service

S10.4.1 General

a. Digital (ISDN) Single Line Service is a local exchange telecommunications service available only to customers served from suitably equipped central offices where operating conditions permit. Digital (ISDN) Single Line Service utilizes Integrated Services Digital Network-Basic Rate Interface (ISDN-BRI) technology. It is a central office based service arrangement which consists of host central office interface equipment and software located on Company premises. This service provides local exchange access, interexchange access, and features.

S10.4.2 Conditions

a. Digital (ISDN) Single Line Service is available where central office and operating facilities and conditions permit. This service provides the following options to business and residence customers:

   Business Service
   - Measured
   - Block of Time (400 Hours plus, Overtime Charges)

   Residence Service
   - Measured
   - Flat Rate

b. Reserved for Future Use

c. One customer bill will be rendered for each Digital (ISDN) Single Line Service.

d. Digital (ISDN) Single Line Service is offered on a monthly basis or a contractual basis commencing on the date the service is established.

e. Reserved for Future Use

f. If remote units are required to provide switching capabilities for intracommunication purposes, they will be located on Company provided sites located on the customer's premises. Any remote units and all system cabling used in association with Digital (ISDN) Single Line Service are provided by and remain the property of the Company.
DIGITAL NETWORK SERVICES

S10.4  Digital (ISDN) Single Line Service (Cont’d)

S10.4.2  Conditions (Cont’d)

  g.  Rates and charges for Digital (ISDN) Single Line Service contemplate the use of
      central office equipment selected by the Company. When special central office
      equipment or features are provided at the request of the customer, special service
      arrangement rates and charges may be applied in addition to those shown herein.

  h.  If ISDN is not available from a customer’s normal serving central office, CenturyTel
      may choose, at the company’s discretion, to provide service from the nearest ISDN-
      capable office.

      At the Company’s discretion, Digital (ISDN) Single Line Service may be provided to
      a non-capable central office. In this instance, if the customer is served from a central
      office/exchange which has the same local calling scope as his normal serving
      central office/exchange, Foreign Central Office/Foreign Exchange Facility charge
      as specified in Section S10.4.5 of this Price list shall not apply.

      At the Company’s discretion, should the customer be served from a central
      office/exchange with a different local calling scope from the customer’s normal
      serving central office/exchange, the Foreign Central Office/Foreign Exchange Facility
      charge and the Foreign Central Office/Foreign Exchange Transport charge
      as specified in Section S10.4.5 of this Price list shall apply.

      When ISDN service becomes available from the customer’s normal serving central
      office, the customer will accept a number change to a number associated with the
      ISDN serving central office. The customer will be subject to calling areas associated
      with the normal serving central office, as specified in CenturyTel’s price lists. If the
      customer does not wish to take ISDN service from the normal serving central office
      after the service is available from his office, but continues to utilize service from an
      alternate serving central office, then charges as outlined above will continue to
      apply.

      No charge will apply to transfer the customer back to his normal serving central office
      as set forth above.
DIGITAL NETWORK SERVICES

S10.4 Digital (ISDN) Single Line Service (Cont’d)

S10.4.2 Conditions (Cont’d)

h. If ISDN is not available from a customer’s normal serving … (Cont’d)

No charge will apply to transfer the customer back to his normal serving central office as set forth above.

i. Reserved for Future Use

Digital (ISDN) Single Line is offered on a month-to-month basis and with Contract Term Options of 12 months or 36 months.

j. Private Line arrangements or Special Access Services connected with Digital (ISDN) Single Line Service are subject to rates, rules, and conditions as set forth in the appropriate price lists.

k. Certain optional feature capabilities may not be compatible with other Feature Packages or Optional System features.

l. Space Requirements

Suitable and sufficient space for any remote units required shall be leased by the Company from the customer.

Suitable space includes provisions for atmospheric control and encompasses the following environmental requirements:

- Dust free
- Controlled temperatures ranging from 50° to 86° Fahrenheit, with consideration given to heat loss and/or gain of the equipment
- Relative humidity of 20% minimum and 55% maximum

Commercial power necessary to operate the remote units, if required, shall be provided by the customer and located on the customer’s premises.

m. Subsequent Additions, Deletions and Changes

Subsequent line additions will be rated under a new contract or an addendum to an existing contract based upon the remaining period of the initial contract.
DIGITAL NETWORK SERVICES

S10.4 Digital (ISDN) Single Line Service (Cont’d)

S10.4.2 Conditions (Cont’d)

n. Termination Liability

In the event Digital (ISDN) Single Line service is terminated by the customer prior to completion of the initial contract period, the customer shall be liable for early termination charges. (See General Regulations, Section S2.11)
DIGITAL NETWORK SERVICES

S10.4 Digital (ISDN) Single Line Service (Cont'd)

S10.4.2 Conditions (Cont'd)

o. The Company may change telecommunications services, equipment, operations, or procedures while remaining consistent with the Federal Communications Commission's Rules and Regulations. If changes cause a customer’s equipment or communications system to become incompatible with services or if changes cause terminal equipment to require modification or become less effective, the Company shall not be responsible.

Customer requested temporary disconnections of Digital (ISDN) Single Line services are not permitted.

A change in service from a basic exchange service to Digital (ISDN) Single Line service is a discontinuation of service and an establishment of service. All applicable installation and service connection charges and all charges applicable to the establishment of Digital (ISDN) Single Line services are specified in Section S10.4.5. Unless otherwise noted, service charges specified in Section S4 of this Price list shall not apply in addition to the charges specified in Section S10.4.5.

p. Digital (ISDN) Single Line Service

Digital (ISDN) Single Line Service may be comprised of the following elements:

- Digital (ISDN) Single Line Access
- Feature Packages
- Optional Features
- Usage Options - must choose one:
  - Local Loop (applicable one-party residence and one-party business Dial Tone access line charges from Section S3.2.3.a.)
DIGITAL NETWORK SERVICES

S10.4 Digital (ISDN) Single Line Service (Cont’d)

S10.4.2 Conditions (Cont’d)

p. Digital (ISDN) Single Line Service (Cont’d)

(1) Business Customer Usage Options

All voice/switched data calls will be charged as measured or block of time rate; the customer must choose one option.

(a) Measured Rate - voice/switched data calls will be charged as follows:

- originating voice/switched data calls terminating within the local calling area - usage rates as specified in Section S10.4.5 will apply.
- originating voice/switched data long distance calls - rates as specified in Section S18 will apply, in lieu of usage rates as specified in Section S10.4.5.

(b) Block of Time - voice/switched data calls will be charged as follows:

- 400 hours - applies to originating voice/switched data calls terminating within the local calling area.
- Overtime will be charged at $.025 per minute per B-channel for originating voice/switched data calls. Long distance calls will be charged rates specified in Section S18 in lieu of usage rates specified in Section S10.4.5.
DIGITAL NETWORK SERVICES

S10.4 Digital (ISDN) Single Line Service (Cont’d)

S10.4.2 Conditions (Cont’d)

p. Digital (ISDN) Single Line Service (Cont’d)

(2) Home (Residence) Customer Usage Options

All voice/switched data calls will be charged as measured or flat rate; the customer must choose one option.

(a) Measured Rate - voice/switched data calls will be charged as follows:

- originating voice/switched data calls terminating within the local calling area - usage rates as specified in Section S10.4.5 will apply.
- originating voice/switched data long distance calls - rates as specified in Section S18 will apply, in lieu of usage rates as specified in Section S10.4.5.

(b) Flat Rate - unlimited voice/switched data calls terminating within the local calling area.

- originating voice/switched data long distance calls - rates as specified in Section S18 will apply, in lieu of usage rates as specified in Section S10.4.5.

q. Digital (ISDN) Single Line Service is digital exchange service.

Each Packaged Service is associated with a digital local loop, not with a channel.

A customer may order multiple Single Lines.

r. B-Channel and D-Channel Configuration

Each digital local loop is arranged with B-Channel or D-Channel configuration, or both B-Channel and D-Channel configuration.

Digital (ISDN) Single Line Access is a service which terminates a digital local loop at the central office and permits access to the exchange network. Only one (1) Digital (ISDN) Single Line access element is required for each digital local loop.
DIGITAL NETWORK SERVICES

S10.4  Digital (ISDN) Single Line Service (Cont’d)

S10.4.2  Conditions (Cont’d)

r.  B-Channel and D-Channel Configurations

The B-Voice/Circuit Switched Data Channel (B-V/CSD) assigns voice and circuit switched data traffic to two B-Channels of a digital local line. The CSD mode operates at a maximum speed of 64 Kbps (Switched 64 Kbps) but may be used at a speed of 56 Kbps (Switched 56 Kbps).

Data sent to interexchange carriers over B-V/CSD Channels in the CSD mode can be transmitted at either 64 Kbps or 56 Kbps. (Some interexchange carriers do not offer transmission at 64 Kbps).

The D-Packet Switched Data Channel allows transmission of packet-switched data over a D-Channel. Subscription to a D-Packet Service without subscription to B-Channel Service is permitted.

s.  Additional Telephone Numbers

Up to two primary telephone numbers are provided with each activated Digital (ISDN) Single Line, one (1) for each of two (2) channels. If an additional telephone number is required on either channel, an additional number charge applies for each additional number. The additional telephone numbers are available at the rate shown in this section. Additional telephone numbers may be published in the directory at the additional listing rates as found elsewhere in this price list.
DIGITAL NETWORK SERVICES

S10.4  Digital (ISDN) Single Line Service (Cont’d)

S10.4.2  Conditions (Cont’d)

t.  Digital (ISDN) Single Line Access

Digital (ISDN) Single Line Access provides support for connecting from one to eight terminals belonging to the same customer on an individual digital local line.

A maximum of two (2) users will be allowed simultaneous access to the B-Channel, the remaining users on the same Digital (ISDN) Single Line will be unable to access the service or will have access to the D-Channel packet network only.

Up to eight (8) users can simultaneously share the same D-Channel of a D-Channel packet switching arrangement. An additional directory number may be required for each additional terminal.

A maximum of eight (8) terminals belonging to the same customer are permitted per Digital Single line.

u.  Individual Line Loop Extension

Digital (ISDN) Single Line Individual Line Loop Extension provides a physical extension of the Digital (ISDN) Single Line loop from approximately 18,000 feet to approximately 36,000 feet. (These distances are for planning purposes. The actual distances are dependent on decibel (dB) loss and not just physical loop length.) This physical extension is accomplished by means of a central office installed power module and an outside plant installed regenerator or U-Repeater.

The deployment method is based on dB loss and not on specific cable footage. The vendor installation information indicates that up to a 34dB loss at 40kHz in either direction of the field repeater is acceptable. With the CenturyTel engineering practice of maximum loss for the Digital Centrex (ISDN) loop to be 38dB at 40kHz, it is assumed, if the customer’s distance would exceed the 38dB for standard installation, the U-Repeater would be mounted within the stated range of 34dB and the customer’s length would be extended another 34dB from the U-Repeater installation point. Only one (1) power module and U-Repeater can be used per Digital (ISDN) Single Line.
DIGITAL NETWORK SERVICES

S10.4 Digital (ISDN) Single Line Service (Cont’d)

S10.4.2 Conditions (Cont’d)

u. Individual Line Loop Extension (Cont’d)

The customer’s network access line is pre-engineered to determine when the U-Repeater/power module is required. The power module is designed to be used only with the U-Repeater and the repeater can only be used with the power module.

v. One interexchange carrier must be selected for all voice and circuit switched data telephone numbers associated with the same digital local loop, however 101XXXX access to other Carriers is provided. A separate interexchange carrier may be chosen for packet service.

w. Customer Referral

When an existing Digital (ISDN) Single Line Service customer refers a new customer who elects CenturyTel's Digital (ISDN) Single Line Service offering, the existing customer may receive up to $50.00 or something of equal value, as mutually agreed upon between the customer and the Company. The referred customer must be in service a minimum of thirty (30) days before the eligible existing customer may receive his bonus. The Company reserves the right to review and amend this program as necessary.

S10.4.3 Single Line Features

a. All features may not be available on all types of central office switches. Definitions of the Smart Call™ Feature Packages and CCLASS Features are provided in Section S13 of this Price list.

b. Data Feature Package 1000: Data Call Forward, Data Multi-Line Hunt Group, Data Speed Call-Short List, and Data Toll Restriction.

c. Data Feature Package 2000: Data 1000 Package plus Data Circular Hunting, and Data Speed Call-Long List.

S10.4 Digital (ISDN) Single Line Service (Cont’d)

S10.4.3 Single Line Features (Cont’d)

f. Feature Matrices

The following feature matrices indicate the availability of each feature with Digital (ISDN) Single Line Service.

(1) Basic Operating Features (1)  Digital

DIGITAL NETWORK SERVICES

S10.4 Digital (ISDN) Single Line Service (Cont’d)

S10.4.3 Single Line Features (Cont’d)

g. Definitions

(1) Digital (ISDN) Single Line

B-Channel (Bearer Channel). A channel used to carry digitized voice and data information at a speed of 64 Kbps.

Basic Rate Interface (BRI). BRI supports two 64 Kilobits per second (Kbps) B-Channels and one 16 Kbps D-Channel (2B+D).

Clear Channel Capability. The capability to transport 64 Kbps over a channel with no constraint on the quantity or on the sequence of bits.

Channel. The electrical path provided by the Company between two or more terminating points for the transmission of information or intelligence.

D-Channel (Delta Channel). A communications path that operates at 16 Kbps in support of network control signals and 9.6 Kbps X.25 packet data.

D-Packet. A service which permits a customer to use a D-Channel for packet switched data. Utilizes 9.6 of the 16 Kbps on BRI ISDN D-Channel and allows for more than one data device.

Digital (ISDN) Single Line. Single Line Service provided by ISDN-BRI. One line includes two (2) B-Channels and one (1) D-Channel.

Integrated Services Digital Network (ISDN). A set of standards which enable end-to-end digital transmission, access integration, and established standardization of points of interconnection over a single access line. End-to-end digital transmission eliminates the necessity for voice-band modems that use analog processing techniques. Access integration refers to utilizing a single ISDN line, whereby an end user over one line can access a wide variety of user information services such as voice, circuit switched data, and packet switched data.
DIGITAL NETWORK SERVICES

S10.4 Digital (ISDN) Single Line Service (Cont’d)

S10.4.3 Single Line Features (Cont’d)

g. Definitions (Cont’d)

(1) Digital (ISDN) Single Line (Cont’d)

Digital (ISDN) Single Line Access. The central office termination of an ISDN Line arranged for access to the public switched network.

Kbps: Kilobits Per Second.

Mbps: Megabits Per Second.

User: A member of a business system.

MBKS: Multibutton Key Set.

(2) Data 1000 Feature Package

Data Call Forward allows a customer to forward incoming calls to another telephone number.

Data Multi-Line Hunt Group provides sequential hunting among lines in a hunt group for calls to a pilot number.

Data Speed Dialing-Short List allows speed calling over a Circuit Switched Data Channel. A short list allows storing up to eight (8) numbers.

Data Toll Restriction denies toll calls attempted from Circuit Switched Data Channels.

(3) Data 2000 Feature Package - includes CSD 1000 Package plus

Data Circular Hunting searches for a vacant line in a hunt group for calls to a pilot number. The hunting starts from the idle line found by the previous hunt.

Data Speed Dialing-Long List allows speed calling over a Circuit Switched Data Channel. A long list allows storing up to thirty (30) numbers.
DIGITAL NETWORK SERVICES

S10.4 Digital (ISDN) Single Line Service (Cont’d)

S10.4.3 Single Line Features (Cont’d)

g. Definitions (Cont’d)

(4) X.25 Basic Package

X.25 Flow Control Parameter Negotiation permits negotiation on a per call basis of the flow control parameters. This consists of automatically negotiating the maximum packet size and window size for each direction of data transmission.

X.25 Incoming Calls Barred prohibits a data terminal from terminating an incoming call.

X.25 Outgoing Calls Barred prohibits a data terminal from originating outgoing virtual calls.

X.25 Reverse Charge permits a called party to be billed for a call.

X.25 Reverse Charge Acceptance allows a called party to accept charges for incoming calls.

X.25 Throughput Class Negotiation allows the calling data terminal to request specific throughput classes in a call request package for both directions of data transmission.

X.25 Transmit Delay Selection and Indication allows the data terminal to specify an acceptance transit delay on a per-call basis for virtual call.

(5) X.25 Deluxe Package: Includes Basic package plus the following:

X.25 Closed User Groups allows ISDN subscribers to establish subnetworks within which the members of a closed user group can communicate. A member cannot communicate with parties outside of the closed user group. Closed user groups are established by a service order. A user can belong to more than one (1) closed user group.
DIGITAL NETWORK SERVICES

S10.4 Digital (ISDN) Single Line Service (Cont’d)

S10.4.3 Single Line Features (Cont’d)

g. Definitions (Cont’d)

(5) X.25 Deluxe Package: (Cont’d)

X.25 Fast Select allows a data terminal to send as many as 128 bytes of data in addition to call setup and clearing packets.

X.25 Fast Select Acceptance allows transmitting incoming call packets with the fast select facility to a compatible destination terminal.

X.25 Hunt Groups allows grouping access lines so that a packet switched data call incoming to a hunt group is completed if there is an open channel on an access line within the hunt group. A Hunt Group is established by service order. Members of a Hunt Group can be distributed among the ISDN switching modules within the central office switch, but the Hunt Group cannot span switches. A Basic Rate Interface line within a Hunt Group can have its own address (individual line addressing) and can accept calls independent of the Hunt Group. A Hunt Group can have multiple group addresses.

X.25 One-Way Outgoing Logical Channel allows an ISDN subscriber to specify the number of channels to be used for originating calls.

X.25 Permanent Virtual Circuit allows packet switching to be implemented over a dedicated channel without needing call setup or clearing.

(6) Individual Services

Data Direct Connect provides an automatic connection between a calling line that goes off hook and a predetermined telephone number.
DIGITAL NETWORK SERVICES

S10.4 Digital (ISDN) Single Line Service (Cont'd)

S10.4.4 MBKS Basic Service

a. MBKS Basic Service consists of the following:

Analog Shared Directory Number - This capability allows an analog user to share an MBKS DN with ISDN MBKS users. The analog user can originate, receive, or bridge onto a call on the shared MBKS DN. If an MBKS DN is shared by an analog user and if there are multiple appearances of that shared DN on the ISDN MBKS terminals, the analog user can be associated with any one call appearance of that shared MBKS DN, with the default being the first call appearance.

Call Alternation - This feature allows a station user to hold one call, make another call then talk alternately between the two parties.

Call Forwarding - This feature provides the option of fixed and/or variable forwarding of a station's incoming calls to a predetermined number. Includes all calls or only calls reaching a busy or no answer conditions (Fixed Forwarding is established and changed by the Telephone Company, whereas variable forwarding is established and changed by the station user).

Conference Calling - allows a user to set up a conference call. Conference calls can include members of the customer group and parties outside the group. Up to six parties can be connected.

Drop - Allows a user to disconnect the last party added to a conference call, or the other party if only two (2) parties are conferenced.
DIGITAL NETWORK SERVICES

S10.4 Digital (ISDN) Single Line Service (Cont’d)

S10.4.4 MBKS Basic Service (Cont’d)

a. MBKS Basic Service consists of the following: (Cont’d)

Hold - Allows the MBKS set user to place a call on hold by pressing the function button. Any MBKS set with the call appearance for call on hold can pick up the call by pressing the call appearance button.

Key System Coverage for Analog Lines - Allows an analog station set to share calls with the ISDN station set.

Multiple DN Buttons - Provide access to more than one Directory Number (DN) on the MBKS set. Indicator lights show the status of the DN (idle, call on hold, call in progress, etc.)

Shared Call Appearances of Directory Number (DN) - Allows several MBKS station sets to share one or more DNs. Originating and terminating events on one station set affect all stations sharing that DN. The shared DNs can have multiple call appearances, multiple calls can exist on one DN, and more than one station sharing the DN can have a call active on that shared DN.

Speed Dialing - (Also known as Abbreviated Dialing) permits the customer to dial selected numbers using fewer digits than normally required. This is accomplished through the assignment of abbreviated codes to frequently called numbers. One and two-digit speed calling lists are available. The Speed Dialing Feature is available to individual lines, two-party lines, and members (some or all) of a multiline hunt group. Speed Dialing lists assigned to individual lines can be shared by other lines at the customer’s request. For the BRCS feature, the service providers can define list sizes and up to three digit access codes.

| Usage (2)           | .025/min per channel | .020/min per channel | .015/min per channel |

---

(1) Monthly access includes B-voice/switched data on both B-channels, local loop and individual line loop extension, if necessary. In addition, the appropriate one-party residence or one-party business access line rate specified in Section S3.2.1 is required for the local loop component.

(2) Usage applies to all originating voice/switched data calls terminating within the local calling area. Rates as specified in Section S18 apply for all originating long distance calls.

(3) Complementary packet services may be ordered from the appropriate price list.

(3) Applies in addition to all other applicable ISDN charges.
DIGITAL NETWORK SERVICES

S10.5 Integrated Services Digital Network – Primary Rate Interface (ISDN-PRI)

S10.5.1 General (1)

a. Integrated Services Digital Network (ISDN) - Primary Rate Interface (PRI) is a central office based service arrangement that is an alternative for individual access services, such as Direct Inward Dialing (DID), Direct Outward Dialing (DOD), 800/877/888 Services, and local business trunks. ISDN-PRI and other local services are offered on an end user basis only. Use of such services for transmitting interexchange traffic that does not either originate or terminate at the customer premises is prohibited.

b. ISDN-PRI is provisioned on a clear channel 1.544 megabit per second (Mbps) facility and uses the ISDN architecture of 23 “B” channels and one “D” channel or 24 “B” channels to provide the customer with the capabilities of simultaneous access, transmission and switching of voice, data and imaging services via channelized transport.

c. ISDN-PRI provides the capability to transport customer information in the form of circuit-switched voice or data up to 64 Kbps over any “B” channel. One “D” channel can control up to twenty (20) PRI trunks. In these cases, a single “D” channel in one ISDN-PRI trunk handles all signaling and control functions of the other trunks in the arrangement, which allows supplemental trunks to consist of twenty-four (24) “B” channels.

S10.5.2 Regulations (1)

a. ISDN-PRI service is available from serving central offices equipped with the necessary “clear channel” facilities to provide ISDN-PRI service. Feature availability and service capabilities are dependent on the facilities and the digital technology providing the service.

b. Customer Provided Equipment (CPE) must be NI-2 compliant. Any CPE that requires custom switch features not supported in the NI-2 specification may be supported as an exception and priced on an individual case basis. Custom ISDN features based in specific switch types may be provided on individual case basis.

(1) Effective February 23, 2011, this service is limited to existing facilities in service at existing locations for current customers. Current customers may migrate existing services to Integrated Services Digital Network-Primary Rate Interface (ISDN-PRI) Business Service as found in S10.5.5 of this Section at any time without incurring any Nonrecurring Charges or Service Charges. TDP customers may migrate existing services without incurring termination liability charges when they select a commitment period equal to or greater than the length of time remaining under their existing TDP.
DIGITAL NETWORK SERVICES

S10.5 Integrated Services Digital Network – Primary Rate Interface (ISDN-PRI) (Cont’d)

S10.5.2 Regulations (1) (Cont’d)

c. The service is available from central offices that have the necessary facilities to provide ISDN-PRI service and the customers serving wire center is ISDN-PRI capable. In the event, the local serving office is not so equipped, CenturyTel will provide PRI service from an alternate (or foreign) serving central office (determined by CenturyTel), within the same calling scope at no additional charge to the customer.

d. When a customer’s serving office is not suitably equipped and the customer chooses to subscribe to ISDN-PRI Service from another Telephone Company designated ISDN-PRI central office, the customer will utilize the dialing plan associated with the designated ISDN-PRI central office. The PRI Access and PRI Facility charges will apply in addition to the special access line and special transport, as specified in Section 5.7.5 of the Facilities for Intrastate Access Tariff and any appropriate FX charges that may apply.

This Price list provides for PRI switching capabilities only and additional services must be subscribed to under separate sections of this Price list. Each ISDN-PRI trunk group is provided with one telephone number. Additional numbers may be purchased at the rates specified in Section S13.7 for DID service.

e. This price list does not provide for the transmission of packet data on the “B” or “D” channels, but can be provided on an individual case basis.

f. In the event ISDN-PRI service is terminated by the customer prior to completion of the initial contract period, the customer shall be liable for early termination charges. (See General Regulations, Section S2.11)

---

(1) Effective February 23, 2011, this service is limited to existing facilities in service at existing locations for current customers. Current customers may migrate existing services to Integrated Services Digital Network-Primary Rate Interface (ISDN-PRI) Business Service as found in S10.5.5 of this Section at any time without incurring any Nonrecurring Charges or Service Charges. TDP customers may migrate existing services without incurring termination liability charges when they select a commitment period equal to or greater than the length of time remaining under their existing TDP.
DIGITAL NETWORK SERVICES

S10.5 Integrated Services Digital Network – Primary Rate Interface (ISDN-PRI) (Cont’d)

S10.5.2 Regulations (1) (Cont’d)

g. During the initial term commitment period, the customer may add PRI services at the same monthly rate specified in the customer’s original term commitment.

h. If a customer discontinues other CenturyTel services and establishes ISDN-PRI that utilizes the same facilities (i.e., Digital Channel Service) the nonrecurring charge associated with the ISDN-PRI facilities (DS1 facilities) will be waived for the same quantity replaced by the ISDN-PRI facilities to which the customer currently subscribes. The nonrecurring charges associated with the ISDN-PRI access portion of the new service applies in all instances.

i. The PRI Subsequent Activity Charge (SAC) is applicable for any changes to customer configurations after the initial installation. The SAC is applicable per occurrence and not based on the number of trunks.

S10.5.3 PRI Features (1)

The following B-channel features are offered to the customer, at no additional charge.

a. Calling Number Identification is a standard feature within a system between an ISDN-PRI Service and a Centrex System or between two or more ISDN-PRI Services belonging to the same customer.

b. “D” Channel Back-Up automatically takes over for a failed “D” channel in case of trouble. This may be subscribed to as part of a 23B+D Channel Back-Up arrangement.

c. Call-by-Call Service Selection provides an option to the dedicated channel configuration by allowing channels to be configured to access multiple services on a per call basis. With this feature, separate facilities are not required for individual services, such as DID, DOD, 800/877/888 services, and local switched access lines.

d. Clear Channel Capability allows the customer to transport 64 Kbps over the PRI channels with no constraint on the quantity or sequence of bits using the “Bipolar with Eight Zero Substitution” method of providing bit sequence independence.

(1) Effective February 23, 2011, this service is limited to existing facilities in service at existing locations for current customers. Current customers may migrate existing services to Integrated Services Digital Network-Primary Rate Interface (ISDN-PRI) Business Service as found in S10.5.5 of this Section at any time without incurring any Nonrecurring Charges or Service Charges. TDP customers may migrate existing services without incurring termination liability charges when they select a commitment period equal to or greater than the length of time remaining under their existing TDP.
DIGITAL NETWORK SERVICES

S10.5  Integrated Services Digital Network – Primary Rate Interface (ISDN-PRI) (Cont’d)

S10.5.3  PRI Features (1) (Cont’d)

   e.  Fractional DS1 ISDN-Originating allows the customer to set up N x 64 Kbps calls from an ISDN-PRI in real-time and in the same manner as any circuit switched ISDN call.

   f.  Fractional DS1 ISDN-Terminating allows the customer to receive N x 64 Kbps calls from an ISDN-PRI in real-time and in the same manner as any circuit switched ISDN call.

   g.  Non-Facility Associated Signaling (NFAS) allows the D-channel signaling entity to assign calls to channels on more than one interface (including the one containing the D-channel). The collection of these B-channels and the controlling D-channel is called a PRI group. Up to 20 DS1 Facilities can be assigned to a PRI group.

(1)  Effective February 23, 2011, this service is limited to existing facilities in service at existing locations for current customers. Current customers may migrate existing services to Integrated Services Digital Network-Primary Rate Interface (ISDN-PRI) Business Service as found in S10.5.5 of this Section at any time without incurring any Nonrecurring Charges or Service Charges. TDP customers may migrate existing services without incurring termination liability charges when they select a commitment period equal to or greater than the length of time remaining under their existing TDP.

\(^{(1)}\) Effective February 23, 2011, this service is limited to existing facilities in service at existing locations for current customers. Current customers may migrate existing services to Integrated Services Digital Network-Primary Rate Interface (ISDN-PRI) Business Service as found in S10.5.5 of this Section at any time without incurring any Nonrecurring Charges or Service Charges. TDP customers may migrate existing services without incurring termination liability charges when they select a commitment period equal to or greater than the length of time remaining under their existing TDP.

**Note 1:** Service charges reflected in Section S4.3 of this Price list will not apply in addition to the nonrecurring charges specified below.

**Note 2:** The applicable rates and charges for the ISDN-PRI Facility are the monthly and nonrecurring charges for 1.544 Access Line and Special Transport, as specified in Section S20.4.1 of this Price list. Subscriber Line Charges will apply as specified in the Company’s Federal Tariff.

**Note 3:** The applicable rates and charges for Data Channel Usage are the network usage rates for Switched Data Service, as specified in Section S10.2.6 of this Price list.
DIGITAL NETWORK SERVICES

S10.5 Integrated Services Digital Network - Primary Rate Interface (ISDN-PRI) (Cont’d)

S10.5.5 Integrated Services Digital Network - Primary Rate Interface (ISDN-PRI) Business Service

A. Terms and Conditions

At [www.centurylink.com/tariffs/LTOS_Business_ISDN-PRI.pdf](http://www.centurylink.com/tariffs/LTOS_Business_ISDN-PRI.pdf) the following information will direct you to the applicable Local Terms of Service document which contains the terms and conditions for Integrated Services Digital Network-Primary Rate Interface (ISDN-PRI) Business Service:

State: Alabama
Entity: CenturyTel of Alabama, LLC
Service: CenturyLink ISDN-PRI Services

Termination Liability Charges as described in the aforementioned Local Terms of Service document will apply if a Customer disconnects all or a portion of the ISDN-PRI Business Service prior to the expiration of the TDP.

B. Rates

The rates, charges and regulations for a 1.544 Megabit Service interoffice channel, as specified in Section S20.4 of this Price List, apply in addition to the following rates for the interoffice facilities of an interexchange ISDN-PRI Business service arrangement.

1. ISDN-PRI Business Service Arrangement with One-Way Primary Rate Interface (23-B + D and 24-B)

<table>

DIGITAL NETWORK SERVICES

S10.5 Integrated Services Digital Network - Primary Rate Interface (ISDN-PRI) (Cont’d)

S10.5.5 Integrated Services Digital Network - Primary Rate Interface (ISDN-PRI) Business Service (Cont’d)

B. Rates (Cont’d)

5. Nonrecurring Charges

a. Service Establishment Charges consist of:

1. A Service Order Charge as described in Section 4.1 of this Price List which applies for each order placed, for receiving and recording information, and processing the necessary data in connection with a customer's request for service establishment; and

2. The applicable Nonrecurring Charge for an ISDN-PRI Business Service Arrangement. This charge covers engineering design, common centralized testing and coordination. Nonrecurring charges do not apply for additional ISDN-PRI Business Service Arrangements installed at the same customer designated premises on the same trip and placed on the same service order.

b. Service Change Charge

1. For termination change at the same premises, Physical, per ISDN-PRI Business Service arrangement $165.00

2. For termination change at the same premises, Programming, per ISDN-PRI Business Service arrangement 35.00

c. Premises Visit Charge

per ISDN-PRI Business Service arrangement 125.00

d. Move Charge

The Move Charge is equal to the sum of the Service Change Charge plus the Premises Visit Charge.
DIGITAL NETWORK SERVICES

S10.6 CyberDS1 Service

S10.6.1 General

a. CyberDS1 Service provides network dial tone service between a customer's premises and the local serving office on a channelized basis (DS0) over a single high-capacity (DS1) digital facility that terminates on the trunk side of the switch in the local serving office. CyberDS1 is available for data dialed access use.

b. CyberDS1 is provided in capacity increments of 24 digital channels within a single DS1 (1.544 Mbps) signal.

c. CyberDS1 provides a trunkside DS1 connection with twenty-four (24) channels. CyberDS1 does not provide the function of analog to digital (or vice versa) conversions and no service types can be specified on the DS1.

d. CyberDS1 is comprised of a CyberDS1 Capacity component:

   (1) The CyberDS1 Capacity will be at the rates and charges as specified in Section S10.6.6 of this Price list.

   (2) CyberDS1 customers will have to select capacity in increments of twenty-four (24) digital channels.

e. Customers will be offered CyberDS1 on a month-to-month basis, or on a 12-, 24-, or 36-month term commitment.

f. CyberDS1 may be provided from a foreign exchange to the customer's local exchange at the customer's request. All rules and rates for Foreign Exchange Service in Section 9 are applicable.

S10.6.2 Digital Architecture

a. CyberDS1 differs in provisioning method and numbering format from end-to-end services. These services will be available from the Company on a link (partial channel) basis rather than as an end-to-end service. This architecture is intended to promote more efficient connectivity of analog and digital networks.
DIGITAL NETWORK SERVICES

S10.6 CyberDS1 Service (Cont’d)

S10.6.2 Digital Architecture (Cont’d)

b. CyberDS1 will be available on a digital basis at the network interface on a customer’s premises. Both the Company and the customer have joint responsibilities to ensure the proper transmission of the provided services. Normal analog channel network interface specifications will be superseded by the electrical specifications on the 1.544 Mbps (DS1) channel which is actually terminated. Each digital channel provided will have an identity only as a “time slot” within a DS1 Channel. Compatible digital to analog conversion equipment must be provided by the customer to derive the desired analog services. Any Channel Service Units (CSUs) necessary for digital services are the responsibility of the customer.

S10.6.3 Definitions

Channel Service Unit (CSU). The term CSU denotes network channel terminating equipment provided by the customer to terminate digital channel facilities on a customer’s or user’s premises.

CyberDS1 Capacity. A DS1 signal between the customer premises and the central office. This digital link can be used to transport switched data services. CyberDS1 is available in increments of 24 digital channels.

DS0. The term DS0 denotes a channel service expressed in terms of its digitally encoded data bit rate in accordance with the North American hierarchy of digital signal levels. It is generally referred to as having a 64 Kbps transmission bit rate signal; however, customer transmitted bit rates are limited to 56 Kbps.

DS1. The term DS1 denotes a channel service expressed in terms of its digitally encoded bit rate in accordance with the North American hierarchy of digital signal levels. It has a 1.544 Mbps transmission data rate and provides for the two-way simultaneous transmission of isochronous timed bit stream format. Unframed signal formats are not permitted or compatible with Company equipment.
DIGITAL NETWORK SERVICES

S10.6 CyberDS1 Service (Cont’d)

S10.6.4 Regulations

a. CyberDS1 is furnished subject to the availability of facilities from digital central office equipment located in a central office building owned or leased by the Company. Clear Channel Capability (B8ZS) will be provided where available.

b. CyberDS1 is available within an exchange where appropriate digital facilities are available as determined by the Company. Service inquiries will be necessary to determine availability. Special Construction Charges as specified in Section S5 of this Price list may be applicable.

c. All CyberDS1 must be channelized in a single equipment location on a customer’s premises. CyberDS1 cannot be split between premises, or multiple locations within a premise. Standard network interfaces, without Integrated Services Digital Network (ISDN) signaling and without any line type features, will be provided by the Company for analog and digital services consistent with existing practices.

S10.6.5 Application of Rates

a. The CyberDS1 Capacity rate is applicable to each CyberDS1.

b. The CyberDS1 Capacity element provides for the network facility to the customer premises and the central office channelization.

c. CyberDS1 Service is available on a month-to-month basis, or on a 12-, 24-, or 36-month term commitment.

d. Transfer of service responsibility between customers is permitted subject to the rules and regulations as specified in Section S2.3.5 of this Price list.

e. Unless specified herein, rules and regulations contained elsewhere in this Price list are also applicable to CyberDS1 Service.

f. At the expiration date of the customer’s selected term commitment, the customer may continue service under a new term commitment or on a month-to-month basis at the expired payment plan rates. Rates for service under these options will be the current rates as specified in this price list.

g. In the event CyberDS1 is terminated by the customer prior to completion of the initial contract period, the customer shall be liable for early termination charges. (See General Regulations, Section S2.11).

S10.7 Business Assist™

S10.7.1 General

a. Business Assist™ provides an intra-exchange digital facility between the customer premises and the local serving wire center and will be used by the customer to aggregate their telecommunication services onto a digital local loop. It is an intra-exchange service that can be utilized with other intra-state services that provide transport between two or more central offices. Business Assist™ includes:

(1) Exchange Dial Tone service, e.g., exchange lines/trunks.

(2) Digital Data Services (56/64 Kbps increments)\(^1\)

b. Business Assist™ is comprised of the following components:

Business Assist™ Facility
Business Assist™ Digital Channels

(1) Connection charges will be at the rates and charges specified in S10.7.6 of this price list.

(2) Business Assist™ is available in quantities of DS1 (1.544 Mbps) in increments of up to twenty-four (24) DS0 channels. Term Payment Plans are available in quantities of 12, 24 or 36 months. At the expiration date of the customer’s selected Term Payment Plan period, the customer may continue service under a new Term Payment Plan or on a month-to-month basis at the 12 month Term Payment Plan. Rates for service under these options will be the current rates as specified in this price list.

c. Business Assist™ and other local services are offered on an end user basis only. Use of such services for transmitting interexchange traffic that does not either originate or terminate at the customer premises is prohibited.

\(^1\) Effective June 1, 2020 Business Assist services are grandfathered when the underlying 56/64 Kbps service is grandfathered. Availability to current customers is limited to circuits in service at existing locations.
DIGITAL NETWORK SERVICES

S10.7 Business Assist™ (Cont’d)

S10.7.2 Digital Architecture

a. Business Assist™ provides a common line link between the customer and the local serving wire center. End-to-end private line and exchange services may utilize this digital link to the customer's premise, rather than the analog loop that might otherwise be provided. This architecture is intended to promote more efficient connectivity of analog and digital networks.

b. Business Assist™ will be available on a digital basis at the network interface on a customer's premises. Traditional analog services can be provided on a digital basis to a customer's premises by the Company when a customer desires them encoded in a DS1 bit stream. Under those conditions, they will be provided as DS0 channels by the Company. Each digital channel provided will have an identity only as a "time slot" within a DS1 loop. Both the Company and the customer have joint responsibilities to ensure the proper transmission of the provided services. Normal analog channel network interface specifications will be superceded by the electrical specifications of the 1.544 Mbps (DS1) that is actually terminated. Compatible digital-to-channelized conversion equipment must be provided by the customer to derive the desired analog services. Any terminating equipment necessary for digital services is the responsibility of the customer.
DIGITAL NETWORK SERVICES

S10.7 Business Assist™(Cont’d)

S10.7.3 Definitions

a. Terminating Equipment. The network channel terminating equipment provided by the customer to terminate digital facilities on the customer’s premises such as a Channel Service Unit/Data Service Unit (CSU/DSU) or Integrated Access Device (IAD).

b. Business Assist™ Facility. A multifunctional DS1 or signal between the customer premises and the local serving wire center. This digital link can be used to transport switched and dedicated services. This element acts as the transport medium for the network services ordered by the customer. The Business Assist™ Facility is available in quantities of DS1 facilities.

d. DS0. The term DS0 denotes a channel service expressed in terms of its digitally encoded data bit rate in accordance with the North American hierarchy of digital signal levels. It is generally referred to as having a 64 Kbps transmission bit rate signal; however, customer transmission rates may be limited to 56 Kbps by existing or available central office equipment.

e. DS1. The term DS1 denotes a channel service expressed in terms of its digitally encoded bit rate in accordance with the North American hierarchy of digital signal levels. It has a 1.544 Mbps transmission bit rate and provides for the two-way simultaneous transmission of isochronous timed, Bipolar Return-to-Zero (BPRZ) bit stream format. Unframed signal formats are not permitted or compatible with Company equipment. DS1 facilities are normally provided on copper transmission medium.
DIGITAL NETWORK SERVICES

S10.7 Business Assist™ (Cont’d)

S10.7.4 Regulations

a. Business Assist™ is furnished subject to the availability of facilities and requisite digital equipment located in a central office building owned or leased by the Company. Service inquiries will be necessary to determine availability.

b. Special Construction Charges as specified in Section 5 of this price list may be applicable.

c. The Private Line Service – Digital Data Service as specified in Section 20 of this price list will apply when Business Assist™ is extended beyond the customer's local serving wire center.

d. The customer may activate any number or combination of digital channels within the limitations as set forth in S10.7.4e following. Digital channels may be activated coincident with or at any time subsequent to the initial installation of Business Assist™. Once activated, a digital channel is subject to a minimum service period (month to month).

e. A minimum of six voice channels and two data channels must be activated for Business Assist™. The total number of digital channels activated by the customer may not, at any time, exceed the total Business Assist™ Facility capacity.

f. When individual digital channels are activated to provide the local loop link for services offered in other sections of this price list, the regulations, rates, and charges specified in this price list will apply.

h. All Business Assist™ facilities must be terminated at a single equipment location on a customer's premises.

h. Channelization on a customer's premises will be provided by the customer.
DIGITAL NETWORK SERVICES

S10.7  Business Assist™ (Cont’d)

S10.7.4  Regulations (Cont’d)

i. Joint provisioning of channelized services introduces joint responsibilities between the customer and the Company as specified following:

(1) Responsibilities of the Company:
   (a) The Company will endeavor to activate its portion of joint service in a timely manner on the negotiated date to support installation requirements.
   (b) The Company will provide the customer with information regarding the type and manufacturer of Central Office channelization equipment to be used in each application.
   (d) The Company reserves the right to change its equipment vendors should equipment availability, price or technological advantages make such a change attractive or necessary.
   (e) The Company will notify the customer, generally a minimum of six (6) months in advance, of any need to change its central office equipment to allow the customer sufficient time to respond, make any necessary changes, and schedule cooperative testing for cutover, if required.
   (f) Digital synchronization timing for Business Assist™ will be provided by the Company.

(2) Responsibilities of the Customer:
   (a) The customer must be prepared to activate his portion of joint service in a timely manner on the negotiated date, providing testing equipment and personnel to support installation requirements, as may be necessary.
   (b) The customer will be responsible for selecting his own equipment. Customer equipment must be compatible with the Company provided channelization at the Central Office.

(3) Trouble resolutions:
   (a) The Company will assist the customer in resolving any installation or day-to-day Business Assist™ problems. However, the Company does not assure responsibility for the compatibility or suitability of the customer’s equipment. Dispatches to customer premises caused by customer equipment troubles will result in a Premises Visit Charge as specified in S4.3.b.
   (b) When a customer’s Business Assist™ is interrupted due to any cause other than the negligence or willful act of the customer or the failure of the facilities provided by the customer, a pro-rata adjustment of the monthly charges involved will be allowed for the service and facilities rendered useless and inoperative by reason of the interruption during the time said interruption continues in excess of twenty-four (24) hours from the time it is reported to or detected by the Company except as otherwise specified in this price list. The adjustment shall not be applicable for the time that the Company stands ready to repair the service and the customer does not provide access to the Company for such restoration work.
DIGITAL NETWORK SERVICES

S10.7 Business Assist™ (Cont’d)

S10.7.5 Application of Rates

a. Two basic rate elements; Business Assist™ Facility, and Business Assist™ Digital Channels are applicable to each Business Assist™.

b. The Business Assist™ Facility element includes the transport between the customer premises and the local serving wire center. Business Assist™ Facility is offered with 12, 24 or 36- month Term Payment Plan periods. At the expiration date of the customer’s selected Term Payment Plan period, the customer may continue service under a new Term Payment Plan or on a month-to-month basis at the 12 month Term Payment Plan. Rates for service under these options will be the current rates as specified in this price list.

c. Digital Channel charges are recurring charges applicable for each network service (switched or dedicated, voice or data) required by the customer. Voice and data services include connectivity to the local serving wire center and associated charges such as trunk port charges or channel termination charges. Business Assist™ Digital Channels are offered on a month-to-month basis for each digital channel (DS0) connection.

d. Monthly rates and charges as specified in S10.7.6 following for the Business Assist™ Facility apply according to the requested channel capacity. These rates apply regardless of the number of digital channels that are actually activated by the customer at a point in time.

e. Rates and charges specified in other price list sections for services such as Custom Calling Services, etc., are in addition to the monthly rates for Business Assist™.

f. Rates and charges for other services extended beyond Business Assist™ are in addition to the rates specified in this price list for the Business Assist™ portion necessary to provide customer end-to-end service.
S10.7.5 Application of Rates (Cont'd)

g. The Business Assist™ Facility is available under Term Payment Plans only for rate periods of 12 months, 24 months, or 36 months. All elements of a Term Payment Plan will expire at the same time (be coterminous).

(1) The customer may order additional Business Assist™ Facilities(s) during a Term Payment Plan period. The expiration date of the additional capacity(s) will be the same expiration date as the original Term Payment Plan period.

(2) Business Assist™ Digital Channels are available on a month-to-month basis.

h. At the expiration date of the customer's selected Term Payment Plan period, the customer may continue service under a new Term Payment Plan or on a month-to-month basis at the 12 month Term Payment Plan. Rates for service under these options will be the current rates as specified in this price list.

i. In the event Business Assist™ is terminated by the customer prior to completion of the initial contract period, the customer shall be liable for early termination charges calculated as follows: 100% of any remaining any remaining charges associated with the 1st year of the contract term and 50% of any remaining amount for subsequent years and a subsequent activity charge from 10.7.6A(1)(C)2.

j. Should customer request interconnection between different Business Assist™ provisioned in two or more different local serving offices, the Special Access Service – Digital Data Service Tariff as referenced in S10.7.4c preceding of this price list will apply. This charge will apply in addition to Business Assist™ charges for each premise for which Business Assist™ is provisioned.

k. Additional charges for time and materials associated with customer premises visit(s) may apply for the initial installation or for subsequent customer requested visits.
DIGITAL NETWORK SERVICES

S10.7 Business Assist™ (Cont’d)

S10.7.6 Rates and Charges

a. Nonrecurring Charges

(1) Nonrecurring charges are one-time charges that apply for specific work activity, (i.e., installation of service or change to an existing service). The types of nonrecurring charges that apply for Business Assist™ are those listed below.

(a) Installation of Business Assist™. These are nonrecurring charges associated with the work performed by the Company in connection with the physical installation activities involving central office and/or outside plant facilities during initial installation.

(b) Service Change Charge. This charge is applied per Business Assist™ payment plan and is associated with a customer request for additions or modifications to an existing Business Assist™. This would include activities such as, but not limited to:

- Change of associated channel assignment.
- Addition of supplemental features
- Activate/Deactivate service connections
- Early service termination.

(c) Service Ordering Charges:

N11 ABBREVIATED DIALING CODES

S11.1 Description

a. Abbreviated dialing codes enable callers to connect to a location in the phone network that otherwise would be accessible only via a seven or ten-digit telephone number. The network must be pre-programmed to translate the three-digit code into the appropriate seven or ten-digit telephone number and route the call accordingly. For N11 codes, the first digit can be any digit other than 1 or 0 and the last two digits are both 1.

b. The following N11 abbreviated dialing codes were assigned for specific uses by FCC Decision Nos. 97-51 and 00-256, issued in CC Docket 92-105:

211 – Community Information and Referral Services
311 – Non-Emergency Governmental Services
511 - Traffic and Transportation Information
711 – Telecommunications Relay Service
811 – One-Call Notification Systems

S11.2 Terms and Conditions

a. The offering of these abbreviated dialing codes can be delivered via regular exchange access lines (by individual business line, residential line, PBX trunks, etc.)

b. Access to these abbreviated dialing codes is not available through the following dialing arrangements:

1+
0+, 0- (credit card, third-party billing, collect calls)
101XXXX

Operator assisted calls will not be completed.
N11 ABREVIATED DIALING CODES

S11.2 Terms and Conditions (Cont'd)

  c. The Company will provide only the delivery of the calls. The entity that has been granted authorization to use the N11 abbreviated dialing code will be responsible for providing any announcements and services to the callers.

  d. Directory listings may be provided for N11 services under the terms, conditions, and rates specified in Section 6 of this price list.

  e. The N11 subscriber is restricted from selling or transferring the N11 code to an unaffiliated entity, either directly or indirectly.

  f. Calls to the N11 code that translate to a disconnected number will be routed to intercept or a maximum of 60 days when the N11 provider is a Company subscriber.

  g. Disputes regarding geographic coverage by two or more N11 subscribers will be referred to the Alabama Public Service Commission.

  h. Only a single seven or ten-digit local number or a single ten-digit toll free number may be used as the point-to-point number.

  i. The N11 subscriber should work separately with cellular or wireless companies to ascertain whether cellular or wireless customers will be able to reach referral services provided by dialing N11.
S11.2 Terms and Conditions (Cont'd)

j. N11 will be provided under the following conditions:

(1) The N11 subscriber will subscribe to adequate telephone facilities initially and subsequently as may be required to adequately handle calls to N11 without impairing the Company's general telephone service or telephone plant.

(2) The N11 subscriber is responsible for obtaining all necessary permission, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements or performances are used in connection with the service, and from all holders of copyrights, trademarks, and patents used in connection with said service.

(3) The N11 subscriber will be liable for, and will indemnify, protect, defend and save harmless the Company against all suits, actions, claims, demands and judgments, and all costs, expenses and counsel fees incurred on account thereof, arising out of and resulting directly or indirectly from the service or in connection therewith, including but not limited to, any loss, damage, expense or liability resulting from any infringement or claim of infringement, or any patent, trademark, copyright, or resulting from any claim of liable and slander.

(4) Suspension of N11 Service is not allowed.

(5) The N11 subscriber will respond promptly to any and all complaints lodged with any regulatory authority against any service provided via N11. If requested by the Company, the N11 subscriber will assist the Company in responding to complaints made to the Company concerning the subscriber's N11 service.
N11 ABGREVIATED DIALING CODES

S11.2 Terms and Conditions (Cont'd)

j. N11 will be provided under the following conditions: (Cont'd)

(6) The Company will provide both oral and written notification when a N11 subscriber's service unreasonably interferes with or impairs other services rendered to the public by the Company or by other subscribers of N11. The Company reserves the right once notification is made to institute protective measures up to and including termination at any time and without further notice. The Company may take protective measures when the N11 subscriber makes no modification or is unwilling to accept modification in method of operation, or continues to cause service impairments.

k. The following conditions apply if the N11 subscriber provides a pre-recorded announcement:

(1) The N11 subscriber will provide the announcements. The Company will provide only delivery of the call.

(2) The provision of access to the N11 network by the Company for the transmission of announcements or recorded program services is subject to the availability of such facilities and the requirements of the local exchange network.

(3) The N11 subscriber assumes all financial responsibility for all costs involved in providing announcements or recorded program services including, but not limited to, the recorder-announcement equipment producing the recording, advertising and promotional expenses.

(4) The N11 subscriber assumes all financial responsibility, according to other specific rates and charges under this price list, for all facilities required to connect the recorder-announcement equipment located on the subscriber's premises.
S11.2 Terms and Conditions (Cont'd)

l. The Company may take all legal and practical steps to disassociate itself from N11 subscribers whose business and/or public conduct (whether demonstrated or proposed) is of a type that in the Company's discretion generates unacceptable levels of complaints by end users.

m. The Company will not be responsible for calls that cannot be completed as a result of repair or maintenance difficulties in Company facilities and equipment or on equipment owned or leased by the subscriber.

n. The Company, its employees, or its agents are not liable to any person for civil damages resulting from or caused by any act or omission in development, design, installation, operation, maintenance, performance or provision of N11 service, except for willful or wanton misconduct.

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.3 Centrex Customer Moves and Changes (CMAC)

S12.3.1 General

a. Centrex Customer Moves and Changes (CMAC) provides customers with the ability to prepare, schedule, and implement feature changes and configurations from a computer terminal located on the customer's premises.

b. The customer controls the following functions:

   (1) Service Option Information Changes:

       (a) Line Restriction Status
       (b) Facility Restriction Level Assignment
       (c) Call Pick-Up Group
       (d) Call Forwarding Number
       (e) Authorization Code Assignment
       (f) Button Features

   (2) Activation/Deactivation of Features

   (3) Telephone Number Swaps

   (4) Flexible Reports, Queries, and Tallies

S12.3.2 Definitions

a. Service Option Information Changes:

   (1) Line Restriction Status - The customer can restrict telephone numbers from changes as specified in Section S12.3.1b.(1). If changes are desired at a later time, the customer can remove the restriction.

   (2) Facility Restriction Level Assignment - The customer can change the Facility Restriction Level (a permission level assigned to define calling privileges) associated with both facilities and station users.

   (3) Call-Pickup Group - The customer can establish a call-pickup group and add or delete members from an existing call-pickup group.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.3 Centrex Customer Moves and Changes (CMAC) (Cont’d)

S12.3.2 Definitions (Cont’d)

a. Service Option Information Changes: (Cont’d)

(4) Call Forwarding Number - The customer can change the number that a station user forwards calls to.

(5) Authorization Code Assignment - An authorization code is a number associated with a specific person rather than a specific telephone number. The customer can activate, change, or deactivate authorization codes. The customer can also display the features associated with the authorization code for a particular user.

(6) Button Features - The buttons on a multi-button station set can either activate features or enable call appearances (specific telephone numbers assigned to buttons). The customer can manipulate the features assigned to the buttons.

b. Activation/Deactivate Features - The customer can either add a feature to a telephone number that does not have it, or take a feature off a telephone number that does. This function is limited to the features included in the feature packages subscribed to by the customer as specified in Section S12.4.3 of this price list.

c. Swap Telephone Numbers - The customer can swap telephone number assignments among lines within a group.

d. Flexible Reports, Queries, and Tallies - The flexible report generator formats requested information from the customer's database into a desired format. The system includes several reports that can be customized or the customer can build new reports. The customer can run a flexible report, query, or tally as a function by itself or may choose to perform other system functions once the report request is made. This feature of the report function keeps customers from having to wait online for reports to be processed.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.3 Centrex Customer Moves and Changes (CMAC) (Cont’d)

S12.3.3 Regulations

a. Centrex CMAC will be furnished only from offices that are technically capable of and equipped for providing the service.

b. Customers will have 24-hour dial-up access to the CMAC system except when restricted during maintenance windows. On occasion, customers may receive a busy condition.

c. Customers will have up to two (2) hours per dial-in session at a time on the CMAC system. However, after a period of inactivity, the Company will discontinue the transmission. The CMAC system will provide the customer a disconnect warning prior to disconnect.

d. Some of the lines in a customer’s Centrex system cannot or should not be rearranged. The Company will specify unchangeable lines. Unchangeable lines may be rearranged by the Telephone Company and applicable Service Charges shall apply.

e. All normal or emergency functions of the central office switch processor will have priority over execution of CMAC requests. The Company assumes no responsibility for change requests delayed by priority central office switch processor functions.

f. The Company reserves the right to inhibit CMAC service in the event of a service-affecting condition to the central office or affiliated operating support system.

S12.3.4 Rates and Charges

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 CentraNet®/Digital (ISDN) Centrex Service

Equipment used in conjunction with Central Office Non-Transport Service Offerings and connected to the Company's network on or after February 16, 2020, must, upon connection to the Company's facilities, be configured by the Customer or equipment manufacturer to allow direct “911” dialing by any end user and must be configured to send MLTS notifications as described in Section S2.3.17.

S12.4.1 General

a. Centrex Service is a local exchange telecommunications service available only to customers served from suitably equipped central offices where operating conditions permit. The service may be analog or digital. Digital (ISDN) Centrex is provided using Integrated Services Digital Network-Basic Rate Interface (ISDN-BRI) technology. It is a central office based service arrangement which consists of host central office interface equipment and software located on Company premises. This service provides local exchange access, interexchange access, intrasystem communication and features. A Centrex system may not be provided for standalone service only; access to the Company's exchange network must be provided.

S12.4.2 Conditions

a. Centrex/Digital (ISDN) Centrex Service is available on Flat Rate Trunks where central office and operating facilities and conditions permit. Digital (ISDN) Centrex Circuit Switched Data (CSD) calls are provided on a usage basis.

b. A minimum of two (2) Centrex (Analog or Digital) Service lines are required.

c. A customer may select only one (1) analog Centrex Feature Package per system and one (1) digital Centrex Voice package per system. Digital (ISDN) Centrex Data Feature packages may be selected on a per line basis.

d. One (1) bill will be rendered for each Centrex/Digital (ISDN) Centrex Service system. Separate bills are rendered monthly for Special Service access lines.
S12.4.2 Conditions (Cont'd)

**e.** The Company will furnish one alphabetical directory listing per Centrex customer group without charge. Additional listings may be purchased at rates listed under the Directory Service section of this price list.

**f.** Centrex Service is offered on a contractual basis commencing on the date the service is established.

**g.** Digital (ISDN) Centrex requires a minimum service period of three (3) months for each line which is composed of a Local Loop and a Service Type, Access Service.

**h.** Centrex/Digital (ISDN) Centrex Service Line and Feature Packages rates apply each month from the time the system is placed in service until the Centrex/Digital (ISDN) Centrex Service is discontinued.

**i.** If remote units are required to provide switching capabilities for intracommunication purposes, they will be located on Company provided sites located on the customer's premises. Any remote units and all system cabling used in association with Centrex/Digital (ISDN) Centrex Service are provided by and remain the property of the Company.

**j.** Rotary dial stations may not be capable of accessing all Centrex Service features.

**k.** Rates and charges for Centrex/Digital (ISDN) Centrex Service contemplate the use of central office equipment selected by the Company. When special central office equipment or features are provided at the request of the customer, special assembly rates and charges may be applied in addition to those shown herein.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 CentraNet®/Digital (ISDN) Centrex Service (Cont’d)

S12.4.2 Conditions (Cont’d)

l. If a customer chooses to combine Centrex/Digital (ISDN) Centrex Service stations terminating at different locations into a single Centrex Service system, all stations must be served by the same central office switching equipment.

m. A customer with multiple Centrex/Digital (ISDN) Centrex Service systems may link his systems with tie lines to permit intercom dialing. Tie line charges will apply.

n. Where the Centrex/Digital (ISDN) Centrex station line is located in a different central office area of the serving exchange, the Foreign Central Office Charge and measurement as specified in Section S9.2, is applicable. For Digital (ISDN) Centrex, this capability is only supported from ISDN-capable base unit central offices.

o. Where the Centrex/Digital (ISDN) Centrex station line of the same system is located in a different exchange area, the Interexchange Channel Charges apply for each interexchange channel as specified in S20.1. For Digital (ISDN) Centrex, this capability is only supported from ISDN-capable base unit central offices.

p. Private Line arrangements, Special Access Services, or foreign dial tone connected with Centrex/Digital (ISDN) Centrex Service are subject to rates, rules, and conditions as set forth in the appropriate sections within this price list.

q. Certain optional feature capabilities may not be compatible with other Feature Packages or Optional System features.

r. To qualify for quantity discounts, Centrex service equipped lines must primarily terminate at a single designated location of the customer of record. In those instances where a service configuration results in more than 30% of the lines terminating at a remote location of the customer of record within the coverage area of the Central Office, the service must be offered pursuant to contract to account for cost considerations. Customer of record does not apply to an entity reselling this service. In resale scenarios, the lines must terminate at the primary single location of the customer with identical pricing and costing rules as applicable to end user customers of record.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 CentraNet®/Digital (ISDN) Centrex Service (Cont'd)

S12.4.2 Conditions (Cont'd)

s. Space Requirements

(1) Suitable and sufficient space for any remote units required shall be leased by the Company from the customer.

(2) Suitable space includes provisions for atmospheric control and encompasses the following environmental requirements:
   - Dust free
   - Controlled temperatures ranging from 50° to 86° Fahrenheit, with consideration given to heat loss and/or gain of the equipment
   - Relative humidity of 20% minimum and 55% maximum

(3) Commercial power necessary to operate the remote units, if required, shall be provided by the customer and located on the customer's premises.

t. Subsequent Additions, Deletions and Changes

(1) Subsequent line additions will be rated under a new contract or an addendum to an existing contract based upon the remaining period of the initial contract.

(2) Reserved for Future Use

(3) If a customer requests an upgrade or downgrade of an existing Feature Package (e.g., from Feature Package 1000 to 2000, from Feature Package 3000 to 2000 etc.), his existing per line contract rate will be changed to reflect the new Feature Package rate. The new contract rate will apply for the duration of the existing contract period. Data Base Program charges will apply.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 CentraNet®/Digital (ISDN) Centrex Service (Cont’d)

S12.4.2 Conditions (Cont’d)

   t. Subsequent Additions, Deletions and Changes (Cont’d)

   (4) The contract period for Centrex/Digital (ISDN) Centrex Optional Features is based upon the initial contract period for the Centrex/Digital (ISDN) Centrex System. Subsequent additions of Optional Features will be rated under a new contract or an addendum to an existing contract based upon the remaining period of the initial contract.

   u. Termination Liability

   In the event CentraNet®/Digital (ISDN) CentraNet® service is terminated by the customer prior to completion of the initial contract period, the customer shall be liable for early termination charges. (See General Regulations, Section S2.11)
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 CentraNet®/Digital (ISDN) Centrex Service (Cont’d)

S12.4.2 Conditions (Cont’d)

v. Centrex/Digital (ISDN) Centrex CCLASS

1. Custom Calling Local Area Signaling Service (CCLASS) is a group of Centrex/Digital (ISDN) Centrex Service features offered to customers subscribing to Centrex/Digital (ISDN) Centrex local exchange service.

2. The service is subject to available facilities and limited to central offices specifically equipped to provide such service. Custom Calling Local Area Signaling Service features are applicable to calls placed to/from compatible central offices offering the service.

3. Operator assisted calls will override these features for emergency purposes.

4. Nonrecurring charges are not applicable when Custom Calling Local Area Signaling Service features are provided at the same time as the Centrex/Digital (ISDN) Centrex Service is initially established.

5. When features are added or rearranged on an existing line, the Minor Software Change charge will apply.

6. All customer lines in Calling Number Identification Delivery serving areas will automatically be provisioned with Cancel Calling Number Identification Delivery - Per Call service unless the customer orders Cancel Calling Number Identification Delivery - Per Line service.
S12.4 CentraNet©/Digital (ISDN) Centrex Service (Cont’d)

S12.4.2 Conditions (Cont’d)

v. Centrex/Digital (ISDN) Centrex CCLASS (Cont’d)

(7) Cancel Calling Number Identification Delivery - Per Line, will be provided without nonrecurring charge to law enforcement, domestic violence agencies, and crisis intervention agencies and volunteers certified by those agencies.

(8) In order to subscribe to Centrex/Digital (ISDN) Centrex CCLASS, the customer must also subscribe to at least Centrex/Digital (ISDN) Centrex Feature Package 1000 for analog Centrex Stations and a B-Channel configuration with voice on Digital (ISDN) Centrex.

w. General - Digital (ISDN) Centrex

(1) Services offered in accordance with this price list are provided exclusively from central offices equipped with digital facilities. The availability of services and ability to provide services may vary among serving central offices. Digital (ISDN) Centrex services will be provided where central office capabilities and conditions permit.

(2) Customer-provided equipment used in conjunction with services provided in accordance with this price list must conform with the technical specifications of the Company.

(3) The Company may change telecommunications services, equipment, operations, or procedures while remaining consistent with the Federal Communications Commission’s Rules and Regulations. If changes cause a customer's equipment or communications system to become incompatible with services or if changes cause terminal equipment to require modification or become less effective, the Company shall not be responsible.

(4) Customer requested temporary disconnections of Digital (ISDN) Centrex services are not permitted.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 CentraNet®/Digital (ISDN) Centrex Service (Cont’d)

S12.4.2 Conditions (Cont’d)

w. General - Digital (ISDN) Centrex (Cont’d)

(5) The Company will provide one (1) alphabetical directory listing per Digital (ISDN) Centrex customer group (system) without charge. Additional directory listings will be provided in accordance with the rates and conditions in this price list under Directory Listings.

(6) A change in service from Analog Centrex, from Digital Channel Service, or from a basic exchange service to Digital (ISDN) Centrex service is a discontinuation of service and an establishment of service. Termination liabilities will not apply to these changes if the customer subscribes to an equivalent or greater amount of service. However, all applicable installation and service connection charges and all charges applicable to the establishment of Digital (ISDN) Centrex services apply.

(7) Flat Rate and Measured Service (for voice grade) cannot be mixed on a customer's premises. All data calls will be charged measured rates at the charges stated elsewhere in this price list with the following exception. Data calls within the same business group within the same wire center (intercom calls) do not incur usage.

x. Digital (ISDN) Centrex Services

(1) Digital (ISDN) Centrex Services are digital, business-system, exchange services, which include station connections and network access and which are provided as an alternative to or in conjunction with Centrex services.

(2) Digital (ISDN) Centrex Services offered from this price list include from two to 200 digital local loops with a Digital (ISDN) Centrex service line.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 CentraNet®/Digital (ISDN) Centrex Service (Cont’d)

S12.4.2 Conditions (Cont’d)

x. Digital (ISDN) Centrex Services (Cont’d)

(3) Each Packaged Service is associated with a digital local loop, not with a channel.

(4) Each digital local loop within a business system may be uniquely arranged with a Packaged Service and with a B-Channel or D-Channel configuration, or both a B-Channel and D-Channel configuration.

(5) The Digital (ISDN) Centrex service line is a service which terminates digital local loops at the central office and permits access to the exchange network. Only one Digital (ISDN) Centrex service line is required for each digital local loop, since this service line provides any configuration of the basic elements and includes one access to the network line termination.

(6) A Digital (ISDN) Centrex service line arranges a digital local loop ISDN-BRI access.

(7) The B Voice/Circuit Switched Data Channel (B-V/CSD) assigns voice and circuit switched data traffic to two (2) B-Channels of a digital local line. The CSD mode operates at a maximum speed of 64 Kbps (Switched 64 Kbps) but may be used at a speed of 56 Kbps (Switched 56 Kbps).

(8) Data sent to locations within a business system and to interexchange carriers over B-V/CSD Channels in the CSD mode can be transmitted at either 64 Kbps or 56 Kbps. (Some interexchange carriers do not offer transmission at 64 Kbps).

(9) Data sent to locations within other business systems can be transported at a speed of either 64 Kbps or 56 Kbps in accordance with the rates, charges, and conditions specified by the Company’s tariffs, where 64 Kbps is offered.

(10) The D-Packet Switched Data Channel allows transmission of packet-switched data over a D-Channel. Subscription to a D-Packet Service without subscription to B-Channel Service is permitted.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4  CentraNet®/Digital (ISDN) Centrex Service (Cont’d)

S12.4.2  Conditions (Cont’d)

x.  Digital (ISDN) Centrex Services (Cont’d)

(11)  Additional Telephone Numbers

(a)  Up to two (2) primary telephone numbers are provided with each activated Digital (ISDN) Centrex line, one for each of 2 channels. If an additional telephone number is required on either channel, an additional number charge applies for each additional number. The additional telephone numbers are available at the rate shown in this section. Additional telephone numbers may be published in the directory at the additional listing rates as found elsewhere in this price list.

(b)  One interexchange carrier must be selected for all telephone numbers associated with the same digital local loop, however 101XXXX access to other carriers is provided.

(12)  Digital (ISDN) Centrex Access

(a)  Digital (ISDN) Centrex Access provides support for connecting from one (1) to eight (8) terminals belonging to the same customer on an individual digital local line.

(b)  Only one user will be connected to each B-Channel. Other users on the same digital local loop can access the D-Channel only.

(c)  Up to six users can simultaneously share the same D-Channel of a D-Channel packet switching arrangement. Additional telephone numbers are required for each additional terminal.

(d)  A maximum of eight terminals belonging to the same customer are permitted per ISDN-BRI line.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 CentraNet®/Digital (ISDN) Centrex Service (Cont’d)

S12.4.2 Conditions (Cont’d)

x. Digital (ISDN) Centrex Services (Cont’d)

(13) Individual Line Loop Extension

(a) Digital (ISDN) Centrex Individual Line Loop Extension provides a physical extension of the Digital (ISDN) Centrex loop from approximately 18,000 feet to approximately 36,000 feet (These distances are for planning purposes. The actual distances are dependent on decibel (dB) loss and not just physical loop length.) This physical extension is accomplished by means of a CO installed power module and an outside plant installed regenerator or U-Repeater.

(b) The deployment method is based on dB loss and not on specific cable footage. The vendor installation information indicates that up to a 34dB loss at 40kHz in either direction of the field repeater is acceptable. With the CenturyTel engineering practice of maximum loss for the Digital (ISDN) Centrex loop to be 38dB at 40kHz, it is assumed, if the customer's distance would exceed the 38dB for standard installation, the U-Repeater would be mounted within the stated range of 34dB and the customer's length would be extended another 34dB from the U-Repeater installation point. Only one power module and U-Repeater can be used per Digital (ISDN) Centrex line.

(c) The customer's network access line is pre-engineered to determine when the U-Repeater/ power module are required. The power module is designed to be used only with the U-Repeater and the repeater can only be used with the power module.

S12.4 CentraNet®/Digital (ISDN) Centrex Service (Cont’d)

S12.4.3 Features

a. Analog or Digital (ISDN) Centrex Service offers Feature Packages 1000, 2000, 3000, Centrex CCLASS Package, or Attendant Feature Package, and Optional Line and System Features at the rates and charges set forth in this price list. Feature capabilities may vary depending on the host central office equipment. Centrex Feature Packages 1000, 2000, and 3000 may apply on a per line basis to analog phones connected to a digital Centrex line.

In addition, Digital (ISDN) Centrex Service offers ISDN Station MBKS Basic, MBKS Deluxe, and 3000-Deluxe Packages, Attendant Package, Circuit Switched Data 1000 and 2000 Packages, X.25 Enhancement Package, and Optional Line and System Features at the rates and charges set forth in the price list. Feature capabilities may vary depending on the host central office equipment.

(1) Analog Centrex Service Basic Service Features:

Automatic Identification of Outward Dial (AIOD), Common Recorded Announcement on Intercept, Direct Inward Dialing/Direct Outward Dialing (DID/DOD), Distinctive Ringing, Station-to-Station Calling, and Touch Call.

(2) Digital (ISDN) Centrex Service Basic Operating Features: Direct Inward Dialing/Direct Outward Dialing (DID/DOD), Automatic Identification of Outward Dial (AIOD), Distinctive Ringing, Touch Call, Station-to-Station Calling, and Incoming Calling Number Identification Delivery.

(3) Centrex Feature Package 1000:

Call Alternation, Call Forward (All, Busy, No Answer-Fixed/Variable), Call Hold, Call Pick-Up (Extended, Direct, and Group), Call Transfer (all types), Call Waiting Dial, Call Waiting Originating, Call Waiting Terminating/Cancel, Consultation Hold, Hunting (Pilot Number, Directory Number and Secretarial), Last Number Redial, Speed Call Short List (Individual), Station Restriction, Three-Way Calling, and Toll/Code Restriction.

- Attendant Data Link Console Interface,
- Attendant Flexible Night Answer,
- Attendant Identification- Multiple Directory Numbers,
- Attendant Pre-determined Night Answer (PNA),
- Attendant Universal Night Answer (UNA),
- Authorization Codes (per group of 10),
- Automatic Line,
- Automatic Route Selection (ARS),
- Call Tracing Service,
- Caller ID-Name and Number,
- Caller ID-Number,
- Complete Blocking (per line),
- Facilities Restriction Level (part of ARS),
- Time of Day Routing (part of ARS),
- Expensive Route Warning (part of ARS),
- Code Calling Access,
- Conference Calling (6, 8, 12, 16, 18, 24 port),
- Dictation Access,
- FX/FCO Access,
- Limited ACD,
- Music-On-Hold,
- Paging/Public Address Access,
- Pilot Number of Hunt Groups,
- Preferential Hunting,
- Priority Queuing,
- Proprietary Set Interface,
- Recorded Announcement (Custom),
- Selective Blocking (per call),
- Speed Call Long List (Additional System),
- Station Message Detail Recording,
- Stop Hunt,
- Terminal Make Busy,
- Tie Facility Access,
- T1 Access,
- VIP Alert, 800/877/888 Access.

(9) Digital (ISDN) Centrex Multi-Button Key Set (MBKS) Basic Package:

- Analog Shared Directory Number,
- Automatic Call Back on Busy,
- Bridging,
- Call Alternation,
- Call Forwarding,
- Call Pickup,
- Conference Calling,
- Digital Data Intercom Dialing,
- Drop,
- Feature Function Buttons,
- Flex Calling,
- Hold,
- Intercom Function,
- Key System Coverage for Analog Lines,
- Manual Exclusion,
- Multiple Directory Number,
- Privacy Release,
- Ring Again,
- Shared Call Appearances of Directory Number,
- Speed Calling,
- Station Restriction,
- and Transfer.

(10) Digital (ISDN) Centrex Multi-Button Key Set (MBKS) Deluxe:

- Digital (ISDN) Centrex Multi-Button Key Set (MBKS) Basic Package plus:
- Called Line Identification,
- Delayed and Abbreviated Ringing,
- Display for Ringing Call Appearance Only,
- Intercom Alerting,
- Outgoing Called Line Identification for ISDN Terminals,
- and Priority Calling Incoming Only.

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4  Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4  Definition of Features

a.  Centrex Basic Operating Features:

   Automatic Identification of Outward Dial:

   This feature identifies all calls leaving the customer group by the station
   number from which calls are placed.

   Common Recorded Announcement on Intercept:

   This provides a standard recording for intercept of calls to unassigned
   numbers.

   Direct Inward Dialing:

   This feature allows incoming calls from the exchange network to reach a
   specific station without attendant assistance.

   Direct Outward Dialing:

   This feature allows station users to place external calls to the exchange
   network without attendant assistance.

   Distinctive Ringing:

   This feature permits a station user to determine by the cadence of the ringing,
   whether a call is internal or external.

   Station-to-Station Calling:

   This feature allows station users to call each other using abbreviated dialing.

   Touch Call:

   This feature equips all station lines for touch call dialing.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

b. Feature Package 1000

Call Alternation:

This feature allows a station user to hold one call, make another call then talk alternately between the two parties.

Call Forwarding:

This feature provides the option of fixed and/or variable forwarding of a station's incoming calls to a predetermined number. Includes all calls or only calls reaching a busy or no answer condition (Fixed Forwarding is established and changed by the Telephone Company, whereas variable forwarding is established and changed by the station user).

Call Hold:

Allows a Main Station user to place any call involving their Main Station on hold by flashing and dialing a special code. The Main Station is then free to originate another call. The call is then retrieved by dialing the hold code a second time or by hanging up the phone.

Call Pick-Up Direct:

This feature permits a station user to pick up any ringing station in the business group by dialing a feature code plus the ringing station’s intercom number. The ringing station is not required to be in the same pick-up group.

Call Pick-Up-Extended:

This feature permits a station user to dial a code to apply call pick up to groups other than its own.

Call Pick-Up-Group:

This feature permits a station user to dial a code to answer a call which is ringing at another station within the call pick-up group.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

b. Feature Package 1000 (Cont’d)

Call Transfer:

Call Transfer provides for the transfer, by a Centrex station, of calls within or outside the business group. The Three-Way Calling feature is needed in addition to Call Transfer for this feature to work.

Call Waiting Cancel:

Call Waiting Cancel allows the customer with Call Waiting Service to inhibit the operation of Call Waiting for one call.

Call Waiting Dial:

This feature provides the ability for originating Main Stations to invoke call waiting service on selected intra-group calls by dialing an access code followed by the extension number of the called station. This differs from Call Waiting Originating in that the call wait tone activation is selective, rather than automatic, on all calls.

Call Waiting Originating:

This feature allows the party making the call to activate Call Waiting on a busy line at completion of dialing on a per call basis.

Call Waiting Terminating:

Informs a busy Main Station Line, when the Main Station Line is so equipped, that an incoming call is waiting (burst of tone), and permits holding the connection while answering the new call and return to the original connection. This can be on all calls or inter-business group calls only.

Consultation Hold:

This feature allows the initiator of a three-way call or transfer to speak privately with the third party before completing the connection.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

b. Feature Package 1000 (Cont’d)

Directory Number Hunting:

This feature activates hunting when any of the directory numbers of the individual lines in the hunt group are called. If that line is busy, hunting will start with that line and continue to the end of the list.

Hunting (Distributed):

Only a pilot DN is associated with this hunt group. Hunting starts after the first idle line found by the previous hunt and continues until the starting point of the hunt is reached.

Hunting (Pilot Number):

This feature provides for an incoming call to a fictitious pilot number to hunt through a rotary group of main station lines to the end of that group.

Hunting (Secretarial):

This feature provides hunting within a department to hunt to the secretary last.

Last Number Redial:

This feature allows a station user to redial the last number dialed by utilizing an access code.

Speed Calling Short List (Individual):

Lets the Main Station user place calls to a list of frequently called telephone numbers by dialing fewer digits than the complete directory number. Where technology exists, up to twenty-four (24) dialed digits can be stored.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

b. Feature Package 1000 (Cont’d)

Station Restriction:

Semi-restricted permits the customer to have selected Main Stations restricted from receiving any calls from outside the business customer group or from making any calls outside the business customer group. Intercom calling and private facilities are accessible. Fully restricted blocks calls to and from the attendant in addition to those from/to outside the customer business group.

Three-Way Calling:

This feature permits a station user using the Consultation Hold feature to put one party on hold, reach a third party, and bring all three parties together in a three-way connection.

Toll-Code Restriction:

This feature prevents customer designated stations from placing any chargeable calls. Arrangements to deny access to Directory Assistance and/or Public Announcement Services are not assured. These features are intended to limit main station direct dialed outgoing calls, but such calls may, in certain circumstances, be completed and will be charged for as specified in other sections of this price list. Nonrecurring charges will be waived for customers subscribing to the 900/976 Toll Restriction Only Option (Series 1000).

c. Feature Package 2000 (The features below are in addition to the Feature Package 1000 features).

Automatic Callback:

Automatic Callback permits a Main Station user who attempts an intercommunication call to a busy Main Station to be automatically connected to that line when both called and calling lines are subsequently idle.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

c. Feature Package 2000 (Cont’d)

Call Park-Multiple:

This feature permits a station user to place multiple calls on hold and later retrieve the held calls from his station or another station in the customer business group.

Circular Hunting:

This system tests all lines in the multiline hunt group regardless of the point of entry.

Data Line Security:

This feature prohibits interruption to a busy line by features such as Call Waiting, Executive Busy Override, etc.

Multiple Classes of Service:

This option gives each station a class of service which defines its calling privileges and any features restricted from its use.

Saved Number Redial:

This feature permits a station user to store a number in memory and then later redial the number using a code.

Speed Call Long List (System):

This feature allows members of a customer business group to share a common speed call list of thirty (30) members. One list is provided with Package 2000. Additional lists are available (see optional system features).

Uniform Call Distribution (UCD) Hunting:

Uniform Call Distribution provides an even distribution of incoming network and intercom calls among the individual Main Stations of a hunt group and includes Circular Hunt. Also may include queue Status Lamp, which will provide an indication at the customer premises of how long the first call in the incoming-call queue has been waiting.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

d. Feature Package 3000 (The features below are in addition to the Feature Package 1000 and Feature Package 2000 features).

Call Forwarding/Incoming:

When activated by a Main Station user, automatically routes incoming calls from outside the Centrex System intended for his Main Station to any other Main Station selected within the same system or outside the Centrex system. The Main Station selected may also be the attendant. The attendant may also activate call forwarding for a Main Station.

Call Forwarding/Within Group:

This feature restricts a station user so that calls may only be forwarded to other stations in the business group.

Executive Busy Override:

This feature allows a station user to access a busy station after a break-in tone alerts the busy station.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

d. Feature Package 3000 (Cont’d)

Off-Hook Queuing:

When used with Automatic Route Selection (ARS), queuing is available on primary (first choice) routes in ARS patterns. The text and announcement provided with the optional Recorded Announcement feature will be provided by the Company. The music or music-on-queue will be provided by the customer. This requires a voice-grade channel between the central office and the customer-provided music source, and the optional Music-On-Hold feature. This feature is only available with off-hook queuing. The customer must specify the length of time a call is held in the queue before being routed to a reorder tone. Incoming tie lines have only Off-hook queuing. All main station lines must be equipped with the same type of queuing. Off-hook queuing must have either a recorded announcement or music.

The audio input is applied to incoming calls waiting in the attendant queue or in the UCD queue. The customer must specify the length of time (etc.).

*Remote Access to Features:

This feature allows authorized users to call in from the exchange network and gain access to a business group including all features associated with that group. This also includes the Remote Activation of Call Forward function that allows customers to activate, change, or deactivate their Call Forwarding service from a remote location.

Ringback Queuing:

This feature permits a station user with activated queuing to go on-hook and be called when the busy facility becomes available.

Speed Call Long List (Individual):

This feature allows a station user to place calls to thirty (30) commonly called destinations using two (2) to four (4) digits.

* Limited to existing customers at locations where those services are equipped and in service as of December 30, 1999.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

e. Centrex CCLASS:

Automatic Busy Redial:

This feature is an arrangement which permits the customer to redial automatically the last number dialed. If the called line is found to be busy, a 30-minute queuing process begins. The customer is then given an indication that the network will attempt to set up the call when the called line is idle. The network periodically tests the busy/idle status of the called line until both lines are found idle, the customer cancels the request, or the queuing process expires. If both lines are found to be idle, the calling party is alerted with a distinctive ring signifying that the call can now be completed.

Automatic Call Return:

This feature allows a customer to automatically return the last incoming call whether it is answered or not. Upon activation of the feature, the number of the most recent party who called is announced if it is available and the delivery has not been cancelled. To return the call, the customer dials “1” and the number is dialed automatically. If the called line is found to be busy, a 30-minute queuing process begins. The customer is given an indication that the network will attempt to set up the call when the called line is idle. The network periodically tests the busy/idle status of both parties until both lines are found idle, the customer cancels the request, or the queuing process expires. If both lines are found to be idle, the called party is alerted with a distinctive ring signifying that the call may now be completed.

Call Block:

This feature allows a customer to block incoming calls from a maximum of twelve (12) telephone numbers. The customer also can block incoming calls placed from the last calling number even if the number is unknown to the customer. Blocked calls are routed to a recorded announcement which specifies that the called party is not accepting calls.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

e. Centrex CCLASS: (Cont’d)

   Special Call Acceptance:

   This feature allows a customer to select up to twelve (12) telephone numbers from 
   which calls are to be received. All other calls are intercepted and routed to a 
   recorded announcement that informs the caller the customer is not accepting calls. 
   Calls from numbers outside the specified exchanges will ring normally.

   Special Call Forwarding:

   This feature is an arrangement which permits a customer to pre-specify telephone 
   numbers (maximum of 12) from which incoming calls are to be forwarded. During 
   the period that Special Call Forwarding is activated, only calls from the pre-specified 
   number will be forwarded.

   Special Call Waiting:

   This feature allows a customer to choose up to twelve (12) numbers which can 
   activate Call Waiting. Incoming calls placed from numbers not selected by the 
   customer receive busy signals when the customer’s line is busy. Customers may 
   not subscribe to Call Waiting and Special Call Waiting on the same line.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

f. Attendant Feature Package - These features will be provided where facilities are available.

Access to Paging - This feature allows an attendant to gain access to customer-provided loudspeaker paging equipment to summon a particular person over speakers located throughout the customer’s premises.

The feature also provides a preempt capability allowing an attendant to force-release a calling party from a loudspeaker access.

Autodial - This feature permits an attendant to dial frequently called numbers by pressing a feature key, which is programmed with a particular number.

Automatic Recall - This feature allows redirect of extended calls to unanswered stations, camped-on stations, or stations with call waiting back to the Attendant. This also provides for redirect of calls parked for a predetermined amount of time.

Busy Verification - This feature allows an attendant to determine whether stations or trunks are busy or idle.

Call Hold - This feature allows an Attendant to hold a call manually on the loop by pressing a key.

Call Park - This feature allows the attendant to park calls against any directory number in the customer group.

Call Selection - This feature enables an attendant to answer incoming calls using either of the following methods:

- in the order they are received, regardless of the incoming call type;
- by manually selecting a specific incoming call type.

Camp-On: This feature allows the attendant to extend an incoming call to a busy station. When the busy station becomes idle, it automatically rings and is connected to the waiting call.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

f. Attendant Feature Package – (Cont’d)

- Code Calling Line Termination - With this feature, the Attendant can access customer provided code-call equipment using an access code and a called party code.

- Conference - This feature allows the attendant to establish a conference with up to 30 conferees.

- Console Activation of Call Forward - This feature allows attendants to activate, deactivate, and program Call Forwarding for stations.

- Console Test - Allows attendant to test the functional operations of a console.

- Control of Trunk Group Access - This feature allows the attendant to control the access of all stations and incoming trunks to various trunk groups by operating corresponding keys.

- Control of Virtual Facility Groups - This feature allows the attendant to control the access of all stations and incoming trunks to VFGs by a single key.

- Delayed Operation - This feature allows the attendant to place a call for a calling station while the calling station waits on hook.

- Display ofQueued Calls by ICI Key - This feature provides console operators with a visual indication of the number of calls queued to be answered.

- Flexible Console Alerting - Allows an attendant to be alerted to a call requiring attention.

- Interposition Calls - This feature allows an attendant to call, speak to, and transfer a call to another attendant.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont'd)

S12.4.4 Definition of Features (Cont'd)

f. Attendant Feature Package – (Cont’d)

Locked-Loop Operation - This feature allows an attendant to hold a call on loop. Attendant Locked Loop Operation consists of two hold types, manual and automatic. Both types are attendant console features.

- in the order they are received, regardless of the incoming call type,
- by manually selecting a specific incoming call type.

Lockout - Prevents the attendant from re-entering a call on a held loop unless recalled by a station user or by Automatic Recall.

Multiple Listed Directory Numbers - Each directory number is assigned a unique lamp. The maximum number is limited by the number of available lamps and keys on the console.

Position Busy - This feature allows the attendant to make the console unavailable to additional queued calls.

Priority Console Alerting - This feature allows an attendant to be alerted to an enqueued emergency call while the console is idle, active on a call, position busy, or night service.

Recorded Announcement - This feature permits the routing of either originated or extended attendant calls to an optional announcement.

Secrecy - This feature allows the attendant to talk to a called party (destination) without the calling party (source) hearing the conversation. When the attendant releases from the call, the source and the destination are connected.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

f. Attendant Feature Package – (Cont’d)

Serial Call - This feature allows an attendant to extend a call to more than one station.

Speed Call - This feature allows the attendant to dial frequently called numbers with an abbreviated number of digits. A console can have one Speed Calling Short list, one Long List, and can be a user of a Long list.

Transfer - This feature allows a call that is transferred by a station to an attendant to be queued on a first-in, first-out basis.

Two-Way Split - This feature allows the attendant to talk privately to either the calling party or the called party.

Wildcard Key - This feature allows any special feature normally available through the use of a feature key to be invoked through the Wildcard Key, with the exception of ICI.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

g. Optional System Features:
   (The features below can be ordered individually at applicable rates).

   Additional Numbers - A software number which has the characteristics of a basic exchange access line. A Feature Package rate is applicable to each Additional Number.

   Attendant Data Link Console Interface:

   This interface allows the use of a proprietary data-link multiplexed console which is connected to the central office and includes the following features. (Requires three (3) additional Centrex lines at applicable rates). Provided where facilities are available.

   Call Hold: This feature allows an attendant to hold a call on the loop.

   Call Hold Recall: This feature is used for attendant-extended calls to stations. It also applies to calls held on the loop and calls that the attendant releases from the console after keying the station number or destination number.

   Camp-On With Music: This feature will allow the connection of a customer provided music source to the calling party when the caller is camped-on the destination.

   Code Call Line Termination: This feature allows attendant access to customer provided Code Calling equipment.

   Console Display: This console display assists attendants in handling calls efficiently. The display unit is built into the attendant console.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

g. Optional System Features: (Cont’d)

Attendant Data Link Console Interface: (Cont’d)

Multiple Listed Directory Numbers: A customer may have many listed directory numbers. To handle this efficiently, each number has a unique Incoming Call Identification (ICI) lamp so that the attendant can answer appropriately.

The only limit to the number of listed directory numbers that can be assigned is the number of available lamps and keys on the Attendant Console.

Recorded Announcement: This feature permits the routing of either originated or extended attendant calls to an announcement.

Trouble Key on Console: This feature allows customers to define categories of trouble codes, which can be activated by the attendant during call processing.

Attendant Flexible Night Answer:

This feature permits the attendant to change the Predetermined Night Answer station number by dialing a feature code plus the new night answer station number.

Attendant Identification-Multiple Directory Numbers:

This feature enables the attendant to identify an incoming call by Directory Number using the console display. If the customer has multiple directory numbers, the attendant will know by the number appearing on the console display which department is being called.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4  Centrex/Digital (ISDN) Centrex Service (Cont’d)

   S12.4.4  Definition of Features (Cont’d)

   g.  Optional System Features: (Cont’d)

   Attendant Predetermined Night Answer:

   This feature, activated by the attendant, routes calls placed to the listed directory
   number to some predetermined station, hunt group, or station.  This feature also
   allows transfer of calls during commercial power failure.

   Attendant Universal Night Answer:

   When activated by attendant, listed number calls are routed to this equipment.  Calls
   can then be answered by individual stations by dialing the associated feature code.
   This feature also allows transfer of calls during commercial power failure.

   Authorization Codes (AC): [1]:

   The AC feature allows the customer to define a set or sets of dialing privileges, to
   associate an AC with each set, and to use the AC to restrict the dialing privileges to
   authorized personnel.  The AC must be dialed before a call can be advanced.  A
   customer cannot have authorization codes with a different amount of digits.

   Automatic Line:

   This feature provides automatic placement of a call to a preselected DN when the
   call's origination is detected.  No dialing is required by the calling party to complete
   the call.  The service may be used for intraoffice or interoffice calls.  This feature
   does not affect termination to the line.

[1]  Authorization codes configured on and after February 16, 2020 must be configured to allow
   end users to dial “911” directly without dialing “9” or any other prefix code prior to dialing
   “911” as described in Section 2.9.1.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

  g. Optional System Features: (Cont’d)

  **Automatic Route Selection (ARS):**

  ARS provides for the origination of ten-digit, off-network calls to a public telephone number. An access code is dialed followed by the destination digits. A pattern is selected and the route list is checked for an idle route with the proper FRL (if a feature). If no idle route is available, the call is put into queue for the primary route or sent to reorder tone. Routes may include Foreign Exchange and interexchange carrier lines. A maximum of three (3) patterns will be allowed for each NPA or NPA NXX list. A maximum of ten (10) routes is allowed per pattern. Each WATS band is considered a separate route. A maximum of 64 NPA NXX lists will be allowed. ARS does not allow for toll restriction or toll diversion. This feature may also include:

  **Expensive Route Warning (ERWT):** A tone will be assigned to certain routes as designated by the customer. When one of these designated routes is selected, a tone will be returned to the originating caller. The caller has a specified number of seconds to hang up or the call will be advanced on the expensive route.

  **Facilities Restriction Level (FRL):** Each main station line is assigned an FRL as is every facility in all routes. When a call is originated, the FRL of the main station line is compared to the FRL of the facility selected for routing. If the FRL on the facility is equal to or less than the main station FRL, the call is advanced. If the FRL on the facility is greater than the FRL on the line, a tone is returned. An Authorization Code can be dialed to override the FRL. FRL’s are furnished only with ARS. The maximum number of FRL’s available is eight (8). All main station lines and incoming tie-line terminations with ARS capability must be assigned a FRL.

  **Time of Day Routing -** This feature provides for route selection based on the most economical path for a particular time of day.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4  Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4  Definition of Features (Cont’d)

g.  Optional System Features: (Cont’d)

Call Tracing Service:

This feature allows the customer to automatically activate a trace record of the last incoming call. By activating the Call Tracing feature, the customer automatically authorizes the Telephone Company to store the results of any and all traces initiated by the customer in the Telephone Company’s switching office. The result of such traces will be released to the appropriate law enforcement agency only upon such a further request by the customer. The trace record will provide only the incoming telephone number and in no way identifies the person(s) actually placing the call(s). The customer acknowledges his understanding that under no circumstances will trace results be provided directly to the customer. The customer must contact the Company within ten days after activating a call trace or the trace record will automatically be deleted from the system.

Caller ID-Name and Number:

This feature is an arrangement that is provided as an enhancement to Caller ID-Number and permits a customer to receive the name, as well as the telephone number, associated with the calling party for calls placed to the customer. The calling telephone number and name will be forwarded from the terminating central office to compatible customer-provided display equipment associated with the customer’s Local Exchange Service. If the calling telephone number and name is not available for forwarding to the called party, a message indicating that unavailability will be forwarded. The calling party can prevent the Caller ID customer from seeing the calling telephone number and name display by activating Selective Blocking (per call). When the calling party uses this blocking capability, the Caller ID customer will receive an indication on the Caller ID equipment that the display of the calling telephone number and name has been suppressed.

Caller ID-Number:

This feature is an arrangement which permits a customer with Local Exchange Service other than foreign central office service to receive the calling telephone number for calls placed to the customer. The calling telephone number will be forwarded from the terminating central office to compatible customer-provided display equipment associated with a customer’s Local Exchange Service. The calling telephone number will be delivered during the first silent interval of ringing. For calls originating from a line within a multi-line hunt group, only the main telephone number will be delivered. The calling telephone number is unavailable from calls made via some large PABX systems within the Custom Calling Local Area Signaling Service calling area, from most cellular radio calls, and currently from inter-exchange carrier calls. Compatible customer provided display equipment is required for this service.

g. Optional System Features: (Cont’d)

Selective Blocking (per call):

This feature provides free per call blocking in exchanges where Caller ID-Number is offered by the Company. Customers may prevent the delivery of their telephone number to the called party. This is accomplished on a per call basis when the customer dials the Selective Blocking (per call) activation code prior to placing the call.

Complete Blocking (per line):

This feature allows a single-line customer to make all calls with the delivery of his/her calling number identification (CNI) marked as “private” to the people he/she is calling. This service is available only to established shelters of domestic violence intervention agencies and law enforcement agency offices and must be established/removed via a service order.

Code Call Access:

Code Calling provides dial access to customer premises located code calling equipment by Main Station attendant access of a Centrex system. The dialed two- or three-digit code activates signaling devices on the customer's premises to produce a coded signal corresponding to the dialed code. The called party, upon recognition of the signal, is automatically connected to the calling party by dialing a special code from any Main Station in the system. For Rates and Charges applicable for control channels when required for supervision purposes with equipment and/or apparatus located on the customer premises, refer to Section S20 of this price list for Private Line rates.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4  Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4  Definition of Features (Cont’d)

g.  Optional System Features: (Cont’d)

Conference Calling:

This feature permits a station user or attendant to form a conference with a maximum of twenty-four parties, including other stations and/or parties reached over trunks. The capability for offering the feature is provided in multiples of eight.

Channels into groups. Calls within a group are allowed, but calls between groups are denied.

Data Direct Connect provides an automatic connection between a calling line that goes off hook and a predetermined telephone number.

Digital Data Intercom Dialing is an intra-group data function that allows a station user to call another station user, both within the same customer group, usually with abbreviated dialing. No usage charges are incurred on Data Intercom calls.

Dictation Access and Control:

This feature provides for station access to customer provided dictation equipment. For Rates and Charges applicable for control channels when required for supervision purposes with equipment and/or apparatus located on customer premises, refer to Section S20 of this price list for Private Line rates.

FX/FCO Access:

This feature provides access to and from an InterLATA or IntraLATA Foreign Exchange Circuit or Foreign Central Office Circuit.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

g. Optional System Features: (Cont’d)

Limited Automatic Call Distribution:

This option allows incoming trunk calls to be directed to and distributed among a select group of stations using distributive hunting.

Music-on-Hold:

This feature provides access to a common music source for use with call hold, transfer, park, and queuing features.

Paging/Public Address Access:

This feature provides a central office interface to a customer premises for paging and/or public address.

Pilot Number of Hunt Groups - A directory number used to access a hunt group. (No associated cable pair required.)

 Preferential Hunting:

Permits a prehunt over a subset or preferential group of main stations before hunting through the entire multiline hunt group. The hunt through the group may be a regular or a circular hunt. Each main station may have its own preferential group or list.

Priority Queuing:

This feature permits a station user remaining off-hook to queue for a facility to obtain a line ahead of another station user queuing for a facility that goes on-hook.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

g. Optional System Features: (Cont’d)

Proprietary Set Interface:

This interface provides capability to connect business sets to Centrex. When Display sets are used, this will allow the activation, where available, of calling number display (intra-business group only), call announce, and visual message waiting indication.

Recorded Announcement:

This feature routes calls to a recording (may be customized) at the Telephone Company’s Central Office.

Speed Call Long List (System):

This feature allows members of a customer business group to share a common speed call list of thirty (30) members. The first list is included in the Series 2000 package rate. This rate is for an additional list (not to exceed eight (8) lists).

Station Message Detail Recording (SMDR):

This feature provides an SMDR formatted-type record of chargeable and nonchargeable calls for each customer group.

Stop Hunt:

This feature uses a code which allows the hunting process to stop when a particular line is reached in a hunting sequence.

Terminal Make Busy:

This feature uses a code to make a specific terminal, or groups of terminals in a hunting group look busy.

Tie Facility Access:

This feature provides access to and from an InterLATA or IntraLATA tie facility.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

g. Optional System Features: (Cont’d)

T1 Access:

This feature provides a trunk side connection to a High Capacity Digital Channel within the Centrex system. Each T1 Access termination is equivalent to twenty-four (24) derived voice grade circuits.

VIP Alert:

This feature allows a customer to program up to twelve (12) telephone numbers of selected callers enabling the customer to distinguish certain incoming calls from all others by a distinctive ring tone. If a customer also subscribes to Call Waiting, calls from the selected numbers will be distinguished by a distinctive Call Waiting tone.

800/877/888 Service Access:

This feature permits 800/877/888 Service Access to terminate in the Centrex Service System.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

h. Digital (ISDN) Centrex

B-Channel (Bearer Channel): A channel used to carry digitized voice and data information at a speed of 64 Kbps.

Basic Rate Interface (BRI): BRI supports two (2) 64 Kilobits per second (Kbps) B-Channels and one 16 Kbps D-Channel (2B+D).

Clear Channel Capability: The capability to transport 64 Kbps over a channel with no constraint on the quantity or on the sequence of bits.

Channel: The electrical path provided by the Company between two or more terminating points for the transmission of information or intelligence.

D-Channel (Delta Channel): A communications path that operates at 16 Kbps in support of network control signals and 9.6 Kbps X.25 packet data.

D-Packet: A service which permits a customer to use a D-Channel for packet switched data. Utilizes 9.6 of the 16 Kbps on BRI ISDN D-Channel and allows for more than one data device.

Digital (ISDN-BRI) Centrex: Centrex Service provided by ISDN-BRI.

Integrated Services Digital Network (ISDN): A set of standards which enable end-to-end digital transmission, access integration, and established standardization of points of interconnection over a single access line. End-to-end digital transmission eliminates the necessity for voice-band modems that use analog processing techniques. Access integration refers to utilizing a single ISDN line, whereby an end user over one line can access a wide variety of user information services such as voice, circuit switched data, and packet switched data.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

  h. Digital (ISDN) Centrex (Cont’d)

  IntraSystem Caller ID: A function which allows a station within a system to identify a caller calling from another station within the same system.

  Kbps: Kilobits Per Second.

  Mbps: Megabits Per Second.

  Multi-Button Key Set (MBKS) Service: A Basic or Deluxe package of central office functions operated or activated by customer premises equipment.

  Multipoint: Any digital local loop supporting more than one user.

  User: A member of a business system.

  i. Digital (ISDN) Centrex: Multi-Button Key Set (MBKS) Basic Package

  Analog Shared Directory Number: This capability allows an analog user to share an MBKS DN with ISDN MBKS users. The analog user can originate, receive, or bridge onto a call on the shared MBKS DN. If an MBKS DN is shared by an analog user and if there are multiple appearances of that shared DN on the ISDN MBKS terminals, the analog user can be associated with any one call appearance of that shared MBKS DN, with the default being the first call appearance.

  Automatic Callback on Busy allows the user to activate Automatic Callback on Busy when a busy number is dialed. When the busy station becomes idle, a distinctive ring alerts the caller. When the caller goes off-hook, the call is placed.

  Bridging allows a party to establish a conference call within a customer group by bridging into a call. Only one (1) party can bridge into a call. Bridging can be inhibited by activating Manual Exclusion.

  Call Alternation See Centrex Feature Package 1000.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4  Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4  Definition of Features (Cont’d)

i.  Digital (ISDN) Centrex: Multi-Button Key Set (MBKS) Basic Package (Cont’d)

Call Forwarding allows a user to forward calls to a specified number.

Call Pickup allows a user to pick up a call directed to another station in the customer group.

Conference Calling allows a user to set up a conference call. Conference calls can include members of the customer group and parties outside the group. Up to six (6) parties can be connected.

Drop allows a user to disconnect the last party added to a conference call, or the other party if only two (2) parties are conferenced.

Digital Data Intercom Dialing is an intra-group data function that allows a station user to call another station user, both within the same customer group, usually with abbreviated dialing. No usage charges are incurred on Data Intercom calls.

Feature Function Button is a button on the telephone that features and functions may be assigned (example: three way calling and call forward).

Flex Calling allows a user to arrange a conference call. Conference calls can include parties within and outside the group. Up to nine (9) parties can be connected simultaneously.

Hold allows the MBKS set user to place a call on hold by pressing the function button. Any MBKS set with the call appearance for call on hold can pick up the call by pressing the call appearance button.

Intercom Function allows the station set to emulate a dedicated wire to another station for priority conversations without tying up the station set from active or incoming calls.

Key System Coverage for Analog Lines allows an analog station set to share calls with the ISDN station set.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

i. Digital (ISDN) Centrex: Multi-Button Key Set (MBKS) Basic Package (Cont’d)

Manual Exclusion allow an MBKS set user to inhibit other stations from picking up a call on hold or bridging onto a call that is active at that station.

Multiple Directory Number Buttons provides access to more than one Directory Number (DN) on the MBKS set. Indicator lights show the status of the DN (idle, call on hold, call in progress, etc.).

Privacy Release allows a user to inhibit other stations from answering a call on hold or from bridging onto calls. (See Manual Exclusion.)

Ring Again allows a user to arrange for Automatic Callback on Busy when a busy number is encountered. When the busy station becomes idle, a distinctive ring alerts the caller. When the station set is taken off-hook, the call is placed.

Shared Call Appearances of a Directory Number allows several MBKS station sets to share one or more Directory Numbers. Originating and terminating events on one station set affect all stations sharing that Directory Number. The shared Directory Numbers can have multiple call appearances, multiple calls can exist on one Directory Number, and more than one station sharing the Directory Number can have a call active on that shared Directory Number.

Speed Calling (Also known as Abbreviated Dialing) permits the customer to dial selected numbers using fewer digits than normally required. This is accomplished through the assignment of abbreviated codes to frequently called numbers. One and two-digit speed calling lists are available. The Speed Calling Feature is available to individual lines, two-party lines, and members (some or all) of a multiline hunt group. Speed Calling lists assigned to individual lines can be shared by other lines at the customer's request. For the BRC feature, the service providers can define list sizes and up to three digit access codes.

Station Restriction See Centrex Feature Package 1000.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

i. Digital (ISDN) Centrex: Multi-Button Key Set (MBKS) Basic Package (Cont’d)

Transfer allows the MBKS set user to transfer a call to another Directory Number in the customer group by pressing the transfer button, dialing the Directory Number, and pressing the button again.

j. Digital ISDN Centrex: Multi-Button Key Set (MBKS) Deluxe Package

Multi-Button Key Set (MBKS) Basic Package, plus:

Called Line Identification (CLID) provides a user originating a call with information about the called party and the facility or destination. Facility and call destination information are provided via the ISDN Call Identification (ICI) call types. The CLID information provided is:

- Call Appearance Identification
- Called Directory Number (DN)
- ISDN Call Identification (ICI)

If an attendant is originating the call, the switch also provides the originating permissions of the called party. This feature is billed only on a flat-rate basis.

Delayed and Abbreviated Ringing alerts MBKS set for a predetermined interval before ringing another designated MBKS set.

Display for Ringing Call Appearances Only will activate displays on a multibutton keyset only for ringing call appearances. This eliminates displays that a call coverage person (usually a secretary) has no need and no desire to see. The feature is intended for applications where keysets have large numbers of secondary call appearances to provide shared back up coverage among a group of secretaries, and where abbreviated and delayed ringing is used.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

j. Digital (ISDN) Centrex: Multi-Button Key Set (MBKS) Deluxe Package (Cont’d)

Incoming Priority Calling permits calls outside the business group to be terminated to a priority call appearance. Terminations to priority appearances use normal intergroup alerting as opposed to priority alerting.

Intercom Alerting provides a distinctive ring and/or visual indicator to alert the MBKS set user of an intercom call.

Outgoing Called Line Identification for ISDN Terminals provides a user originating a call with information about the called party and the facility or destination. Facility and call destination information are provided via the ISDN Call Identification (ICI) call types. The OCLID information provided is:

- Call Appearance Identification
- Called DN
- ICI

If an attendant is originating the call, the switch also provides the originating permissions of the called party. This feature is billed only on a flat-rate basis.

Priority Calling Incoming Only provides an ISDN equivalent of Call Waiting-Incoming Only. With this feature, calls outside the business group can terminate to a priority call appearance. Terminations to priority appearances use normal intergroup alerting as opposed to priority alerting.

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

k. Digital (ISDN) Centrex Multi-Button Key Set (MBKS) 3000-Deluxe Package

Multi-Button Key Set (MBKS) Deluxe Package plus:

Call Forwarding/Incoming - See Centrex Feature Package 3000

Call Forwarding/Within Group - See Centrex Feature Package 3000

Executive Busy Override - See Centrex Feature Package 3000

l. Digital (ISDN) Centrex: Data Feature Package 1000

Data Call Forward allows a customer to forward incoming calls to another telephone number.

Data Multi-Line Hunt Group provides sequential hunting among lines in a hunt group for calls to a pilot number.

Data Speed Call-Short List allows speed calling over a Circuit Switched Data Channel. A short list allows storing up to eight (8) numbers.

Data Toll Restriction denies toll calls attempted from Circuit Switched Data Channels.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4  Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4  Definition of Features (Cont’d)

m.  Digital (ISDN) Centrex:  Data Feature Package 2000

Data Call Back notifies a calling party after a busy line becomes idle and then automatically establishes the call.

Data Circular Hunting searches for a vacant line in a hunt group for calls to a pilot number. The hunting starts from the idle line found by the previous hunt.

Data Group Speed Calling 30 permits sharing a list of speed call numbers among a group of lines. The list may be updated by a service order. The function permits up to thirty stored numbers.

Data Speed Call-Long List allows speed calling over a Circuit Switched Data Channel. A long list allows storing up to thirty (30) numbers.

n.  Digital (ISDN) Centrex:  X.25 Basic Package

X.25 Flow Control Parameter Negotiation permits negotiation on a per call basis of the flow control parameters. This consists of automatically negotiating the maximum packet size and window size for each direction of data transmission.

X.25 Incoming Calls Barred prohibits a data terminal from terminating an incoming call.

X.25 Outgoing Calls Barred prohibits a data terminal from originating outgoing virtual calls.

X.25 Reverse Charge permits a called party to be billed for a call.

X.25 Reverse Charge Acceptance allows a called party to accept charges for incoming calls.

X.25 Throughput Class Negotiation allows the calling data terminal to request specific throughput classes in a call request package for both directions of data transmission.

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.4 Definition of Features (Cont’d)

n. Digital (ISDN) Centrex: X.25 Basic Package (Cont’d)

X.25 Transmit Delay Selection and Indication allows the data terminal to specify an acceptance transit delay on a per-call basis for virtual call.

o. Digital (ISDN) Centrex: X.25 Enhancement Package:

Includes X.25 Basic Package plus:

X.25 Closed User Groups allows ISDN subscribers to establish subnetworks within which the members of a closed user group can communicate. A member cannot communicate with parties outside of the closed user group. Closed user groups are established by a service order. A user can belong to more than one (1) closed user group.

X.25 Fast Select allows a data terminal to send as many as 128 bytes of data in addition to call setup and clearing packets.

X.25 Fast Select Acceptance allows transmitting incoming call packets with the fast select facility to a compatible destination terminal.

X.25 Hunt Groups allows grouping access lines so that a packet switched data call incoming to a hunt group is completed if there is an open channel on an access line within the hunt group. A Hunt Group is established by service order. Members of a Hunt Group can be distributed among the ISDN switching modules within the central office switch, but the Hunt Group cannot span switches. A Basic Rate Interface line within a Hunt Group can have its own address (individual line addressing) and can accept calls independent of the Hunt Group. A Hunt Group can have multiple group addresses.

X.25 One-Way Outgoing Logical Channel allows an ISDN subscriber to specify the number of channels to be used for originating calls.

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.5 Rates and Charges (Cont’d)

b. Service Line

(1) Rates are determined by the total system size. Total system size will be a combination of Analog and Digital (ISDN) Service lines. For example, if a customer requests twenty-eight (28) Analog/Digital lines, all twenty-eight (28) lines will be billed at the 26-50 lines group, per Analog/Digital line rate. Arrangements exceeding 200 lines will be offered on an individual case basis. The following rates apply during the contract period and until the service is discontinued:

Pricing Example:

Customer requests 50 stations split evenly between Analog Centrex and Digital (ISDN) Centrex, 12-month contract.

25 Analog stations = 25 Analog lines
25 Digital (ISDN) stations = 25/2 = 12.5 = 13 Digital (ISDN) lines [Each Digital (ISDN) Centrex supports 2 stations]

Total system (Analog+Digital) = 38 lines (50 stations)

Price using "26-50 lines" line range since total system is 38 lines.

12-Month Contract, 26-50 lines, Analog = ($13.70/line) (25 lines) = $342.50
12-Month Contract, 26-50 lines, Digital = ($34.25/line) (13 lines) = $445.25

Other rate elements will apply as required.

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.4 Centrex/Digital (ISDN) Centrex Service (Cont’d)

S12.4.6 Assigned CentraNet Telephone Numbers Not In Use

a. General

Assigned telephone numbers without facilities will be provided to meet growth requirements of a CentraNet Type Services subscriber and any associated ISDN service. These telephone numbers will be assigned to the subscriber’s common block/business group without being associated with a working station line and will be converted to active station lines as requested by the subscriber.

b. Regulations

(1) The assignment of telephone numbers and the sequence of numbers assigned to a CentraNet Type Services subscriber’s system will be made at the discretion of the Company.

(2) The service is furnished subject to the availability of telephone numbers.

(3) The Company does not guarantee to provide consecutive telephone numbers.

(4) Calls to these assigned telephone numbers (not in use) will be routed via one of the following options: a customized recorded announcement, a central office supported attendant console, or a trunk group going to the attendant. The numbers cannot be routed to an attendant that is not central office supported.

(5) Telephone numbers furnished herein retain their status until associated with an active station line at which time the service assumes rates and charges applicable to the appropriate CentraNet Type Services station line.

(6) Directory listings will not be provided with these assigned telephone numbers.

(7) These telephone numbers will be billed at the following rates until utilized on an active CentraNet Type Services station line.

(8) A Secondary Service Charge applies per occasion for the assignment of any quantity of telephone numbers at the same time.

(9) The Company will make every effort to insure the correct assignment and control of Assigned CentraNet Type Services Telephone Numbers Not In Use. The Company’s liability for any damages or harm that may occur as the result of incorrect assignment for control of the numbers shall not exceed an amount equal to the proportionate part of the monthly recurring charge for the service for the period during which the service was affected.

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.5  Centrex CustoPAK Service

S12.5.1  General

a.  Centrex CustoPAK is a non-engineered Centrex base service, which once the switch is pre-positioned, does not require operations to provision at the time of the customer order and does not require the customer to use the “dial 9” access code to place calls. Centrex CustoPAK is classified as a business service, and is offered as a complete service package only. The exchange access, intercommunication and services are not offered separately. Centrex CustoPAK is a customized package for small business with a minimum of two (2) lines, and may not exceed a maximum of thirty (30) lines (Exception: There is a six-line limit in the DMS 10 Central Office). Centrex CustoPAK provides an enhanced dial tone from the Central office to the customer’s premises along with an attractive menu of basic services.

b.  Centrex CustoPAK is furnished from compatible digital type switching equipment located on the Telephone Company premises and includes the facilities necessary for intercommunication between Centrex lines within the customer’s system.

c.  Centrex CustoPAK services provides Local Exchange Service (no dial “9” required), direct inward-dialing to Centrex lines, identification and billing of outgoing long distance messages by line number where such billing is done by the Telephone Company, touch-tone Calling Service and intercept to the main listed number.

d.  No Network Access Register (NARs) required for local access or for Voice Messaging.

e.  No other Centrex Classes of Service and features can be mixed with Centrex CustoPAK Service. The customer has the flexibility of adding any combination of standard individual lines and hunt groups that meets the communications needs of the business as well as choosing services from within the offered Centrex CustoPAK package for each line or hunt group

f.  Centrex CustoPAK is available only where technically feasible.

[1] Effective July 20, 2017, Centrex CustoPAK is obsolete and not available to new customers. Existing customers will be allowed to retain their current lines in service only as long as service remains at the same location for the same customer. No other changes to the service are permitted after the effective date of the grandfathering of the service.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.5 Centrex CustoPAK Service \[1\] (Cont’d)

S12.5.2 Conditions

a. Service Options

**Basic Standard Services** \[2\] – Services included with a Centrex CustoPAK service line

- Assume Dial “9”
- Call Transfer – (All Calls)
- Call Hold
- Consultation Hold
- Direct Inward Dial (DID)
- Direct Outward Dial (DOD)
- Distinctive Ringing (Inside/Outside Ringing)
- Intercom Dialing
- Three-Way Calling
- Touch-Tone

**Selectable Standard Services** \[2\] – Services listed in this section are available for each Centrex CustoPAK line at no additional charge. A customer may customize his service by selecting as many of the following services as desired for each individual Centrex CustoPAK line:

- Automatic Callback (within system only)
- Call Forwarding – Busy
- Call Forwarding – No Answer
- Call Forwarding Variable (All Calls)
- Call Restrictions (8 Options):
  - No Call restrictions
  - Call Restriction One
  - Call Restriction Two
  - Call Restriction Three
  - Call Restriction Four
  - Call Restriction Five
  - Call Restriction Six
  - Call Restriction Seven
- Call Waiting/Cancel Call Waiting
- Call Pick-up Directed
- Call Pick-up Group
- Dial Call Waiting-Originating
- Hunting-Series
- Hunting-Multiline
- Speed Calling (6 or 8)

---

\[1\] Effective July 20, 2017, Centrex CustoPAK is obsolete and not available to new customers. Existing customers will be allowed to retain their current lines in service only as long as service remains at the same location for the same customer. No other changes to the service are permitted after the effective date of the grandfathering of the service.

\[2\] Offered where facilities are available.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.5 Centrex CustoPAK Service  \[1\] (Cont’d)

S12.5.2 Conditions (Cont’d)

a. Service Options (Cont’d)

Optional Services \[2\] listed in this section are also available for each Centrex CustoPAK line at an additional monthly recurring charge per feature:

- Busy Redial *66
- Call Block *60
- Call Park
- Call Park Directed
- Call Return *69
- Caller ID-Number \[4\]
- Caller ID-Name & Number
- Call Trace \[3\]
- Executive Busy Override
- Last Number Redial \[4\]
- Special Call Forwarding
- VIP Alert
- Voice Messaging

b. Term Options

Centrex CustoPAK customers may select either a month-to-month or a twenty-four (24) months term option. The term agreement becomes effective upon the installation date of the service.

Centrex CustoPAK payment options may be selected by billing account number within a customer’s system.

c. Adding Lines Under Term Option

Additional Centrex CustoPAK lines may be added to an existing system, up to a maximum of thirty (30), during the term period. For customers subscribing to the two-year term plan, the term obligation with respect to any additional lines will be coterminous with such two-year term.

---

\[1\] **Effective July 20, 2017, Centrex CustoPAK is obsolete and not available to new customers. Existing customers will be allowed to retain their current lines in service only as long as service remains at the same location for the same customer. No other changes to the service are permitted after the effective date of the grandfathering of the service.**

\[2\] Offered where facilities are available.

\[3\] See Section S13. Miscellaneous Services Arrangements in this price list for description and rates.

\[4\] This feature is specific to Centrex CustoPAK Services.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.5 Centrex CustoPAK Service [1] (Cont’d)

S12.5.2 Conditions (Cont’d)

d. Termination Liability

There is no termination liability for customers who have elected the Centrex CustoPAK month-to-month payment option.

When a Centrex CustoPAK customer chooses a twenty-four (24)-month term option and disconnects or terminates its Centrex CustoPAK service after thirty (30) days following installation, the non-recurring and installation charges will not be refunded. In addition the customer will be liable for any termination charges applicable in the Termination Liability price list. Refer to Termination Liability in Section S2 of this price list.

e. Transfer of Term Option

With the written permission of the Telephone Company, the obligation to pay the Centrex CustoPAK charges for the remainder of the term period may be assigned to another customer, provided there is no change of location, and the new customer assumes all outstanding charges. Refer to Termination Liability in Section S2 of this price list.

f. Centrex CustoPAK Service System

Centrex CustoPAK service lines sharing a common intercom arrangement and a primary Directory listing will be considered a Centrex CustoPAK Service System. A system must have a minimum of two lines and may not exceed a maximum of thirty Centrex CustoPAK Service lines. Centrex CustoPAK Service is classified as a business service and is offered only as a complete service. The exchange access, intercommunication and services are not offered separately.

g. Subscriber Line Charge

An applicable interstate Subscriber Line Charge will be applied to all Centrex CustoPAK lines.

[1] Effective July 20, 2017, Centrex CustoPAK is obsolete and not available to new customers. Existing customers will be allowed to retain their current lines in service only as long as service remains at the same location for the same customer. No other changes to the service are permitted after the effective date of the grandfathering of the service.

S12.5  Centrex CustoPAK Service [1] (Cont’d)

S12.5.2  Conditions (Cont’d)

h.  Incoming Toll Free Service Access Arrangement

Incoming calls on Toll Free Service access lines can be terminated on a Centrex CustoPAK Service System. Incoming calls terminated in this manner may be transferred to other lines of the same Centrex CustoPAK Service System.

i.  Off-Premises Lines

Centrex CustoPAK Service lines can be provided at a separate customer premise. No mileage charges apply to lines of the same Centrex CustoPAK Service system that are located at different premises but situated within the same wire center serving area.

j.  Optional Centrex CustoPAK Services

Optional services may be available where Telephone Company facilities permit at the rates specified in Section S12.5.4C. following. These services descriptions and regulations are specified in Section S12.5.3C of this price list. Only the Centrex services specified in this section will be available under Centrex CustoPAK Service. Other Centrex Services are not available under the Centrex CustoPAK Service. Other Custom Calling and CLASS services that are not specified in this price list will not be offered.

k.  Feature Restriction

Call Transfer, Three-Way Calling, Call Forwarding Busy, Call Forwarding Don’t Answer and Call Forwarding Variable may generate local, regional toll or long distance usage charges. If generated, these charges are the responsibility of the Centrex CustoPAK customer.

[1] Effective July 20, 2017, Centrex CustoPAK is obsolete and not available to new customers. Existing customers will be allowed to retain their current lines in service only as long as service remains at the same location for the same customer. No other changes to the service are permitted after the effective date of the grandfathering of the service.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.5  Centrex CustoPAK Service [1] (Cont’d)

S12.5.2  Conditions (Cont’d)

I.  Customer Satisfaction Guarantee

When a customer subscribes to the month-to-month option or the twenty-four (24)-month term option of Centrex CustoPAK Service, he must request that the telephone company disconnect the service within thirty (30) calendar days of installation to be entitled to a full credit of any charges directly associated with the establishment of the service as well as the monthly charges billed for the service. In addition, customers who are not satisfied with their Centrex CustoPAK service may have their previous CenturyTel service reinstalled, at no cost, in accordance with the following terms and conditions:

Customers who had no previous service and subsequently elect to have their Centrex CustoPAK Service disconnected will be converted by the Telephone Company to CenturyTel Business Lines or Trunks at no additional non-recurring charge to them. However, the lines cannot exceed the total number of lines in the Centrex CustoPAK system that the customer is disconnecting, without incurring non-recurring charges. Customers will not be permitted to convert back to a service, which has been “Grandfathered”.

The refund of any charges directly associated with the establishment of the service or monthly charges will be applied as a credit to the customer’s bill.

Credit refunds will not be available for toll charges incurred, or on E911 and other like surcharges.

Each customer will be entitled to a credit refund, one time per service.

The Customer Satisfaction Guarantee applies to the service as a whole and not the individual Services offered with this service.

The Customer Satisfaction Guarantee does not extend to any Customer Provided Equipment (CPE) used in conjunction with this service, nor does it apply to Time and Material charges incurred.

The Customer Satisfaction Guarantee does not apply to the installation of temporary service.

[1] Effective July 20, 2017, Centrex CustoPAK is obsolete and not available to new customers. Existing customers will be allowed to retain their current lines in service only as long as service remains at the same location for the same customer. No other changes to the service are permitted after the effective date of the grandfathering of the service.

S12.5 Centrex CustoPAK Service

(Cont’d)

S12.5.3 Features

a. Centrex CustoPAK Basic Standard Services

The services listed here are automatically included on every Centrex CustoPAK line, and are the backbone of the Centrex CustoPAK offering:

Assume Dial "9" - Allows the customer to place calls outside the group without having to dial the access code "9".

Touch Tone - Provides push button tone signaling for dialing calls, and accessing services. Rotary dial telephones are not compatible with Centrex CustoPAK.

Direct Inward Dial (DID) - The ability of each member of the Centrex CustoPAK group to receive calls from outside the group directly to their station.

Direct Outward Dial (DOD) - The ability of each member of the Centrex CustoPAK group to place calls to locations outside the group without first having to dial a "9" access code or use an attendant.

Distinctive Ringing (Inside/Outside Ringing) - This feature allows the user to distinguish between calls originating from within the Centrex CustoPAK group and calls originated from outside the Centrex CustoPAK group. Calls originating from inside the group will receive one (1) ring, and calls originated from outside the group will receive a double ring.

Call Transfer – (All Calls) - The ability for a Centrex CustoPAK line to transfer an established incoming call to another line. The "transfer to line" location may be inside the group or outside the group. This service may generate local, regional toll or long distance usage charges. If generated, these charges are the responsibility of the Centrex CustoPAK customer.

Call Hold - The ability to place an established call on hold for an extended period of time by dialing the feature code "01." This frees the line to place or receive another call. Only one call can be put on hold at a time per line.

Consultation Hold - A temporary or soft hold activated by a hook-switch flash or link button that will place a call in progress on hold and activate dial tone. The dial tone enables the user to make another call for private consultation or to activate a three-way call.

[1] Effective July 20, 2017, Centrex CustoPAK is obsolete and not available to new customers. Existing customers will be allowed to retain their current lines in service only as long as service remains at the same location for the same customer. No other changes to the service are permitted after the effective date of the grandfathering of the service.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.5 Centrex CustoPAK Service [1] (Cont'd)
S12.5.3 Features (Cont'd)

a. Centrex CustoPAK Basic Standard Services (Cont’d)

Three Way Calling - Provides the user with the ability to add a third party, from within the group or outside the group, to any established call for a three-way conference arrangement. This service may generate local, regional toll or long distance usage charges. If generated, these charges are the responsibility of the Centrex CustoPAK customer.

Intercom Dialing - Provides the customer with the ability to communicate between lines within your own Centrex CustoPAK group by dialing a two digit code instead of having to dial the full seven (7) or ten (10) digit telephone number.

b. Centrex CustoPAK Selectable Services

The following services may be selected at no charge by the customer, and may be placed on any Line or Hunt Group of the customers choosing.

Automatic Call Back (within system only) - When a Centrex CustoPAK user reaches a busy line within the Centrex CustoPAK group, a code (*52) may be dialed which allows the call to be connected when both lines are idle. This feature is for use inside the Centrex CustoPAK group only, and only one request at a time from a line is permitted. The request will remain active for a period of time not to exceed 30 minutes unless it is deactivated, by dialing a code (#52), earlier by the originator.

Call Forwarding – Busy - A fixed feature, provisioned by the telephone company using data provided by the customer, to automatically route all incoming calls to another number (either inside or outside the group or to Voice Messaging) when the called line is busy. Calls forwarded outside the Centrex CustoPAK group are subject to local and/or long distance charges billed to the Centrex CustoPAK customer.

Call Forwarding - No Answer - A fixed feature, provisioned by the telephone company using data provided by the customer. To automatically route all incoming calls to another number (either inside or outside the group or to Voice Messaging) when the called line is not answered in a predetermined number of rings/seconds. Calls forwarded outside the Centrex CustoPAK group are subject to local and/or long distance charges billed to the Centrex CustoPAK customer.

[1] Effective July 20, 2017, Centrex CustoPAK is obsolete and not available to new customers. Existing customers will be allowed to retain their current lines in service only as long as service remains at the same location for the same customer. No other changes to the service are permitted after the effective date of the grandfathering of the service.

Certain material moved to Page 84.1.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.5 Centrex CustoPAK Service [1] (Cont’d)

S12.5.3 Features (Cont’d)

b. Centrex CustoPAK Selectable Services

Call Forwarding - Variable (All Calls) - Allows the customer to have all incoming calls routed to another number (either inside or outside the group). The user chooses and provisions the forwarded to number, and may change the forwarded to number as often as they wish. The user also has the ability to turn the feature off and on as needed to better serve the users needs.

Calls forwarded outside the Centrex CustoPAK group are subject to local and/or long distance charges billed to the Centrex CustoPAK customer.

Call Waiting/ Cancel Call Waiting - When a busy Centrex CustoPAK line receives an incoming call, a tone is heard announcing that an incoming call is being received. The user then has the option of either placing their present call on hold and answering the incoming call or to disregard the call. The calling party will receive ringing tone instead of a busy tone. The user may terminate the Call Waiting feature at any time by dialing the Cancel Call Waiting Code (*70). Canceling the Call Waiting Feature is good for only one (1) call, and must be repeated for each call the user does not wish to be interrupted by the call waiting tone.

[1] Effective July 20, 2017, Centrex CustoPAK is obsolete and not available to new customers. Existing customers will be allowed to retain their current lines in service only as long as service remains at the same location for the same customer. No other changes to the service are permitted after the effective date of the grandfathering of the service.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.5 Centrex CustoPAK Service \(^1\) (Cont’d)

S12.5.3 Features (Cont’d)

b. Centrex CustoPAK Selectable Services (Cont’d)

Dial Call Waiting-Originating - When a user calls another member of the Centrex CustoPAK group, and reaches a busy signal, the user can dial a code (*54) to send a call waiting tone to the called line. The called line, upon hearing the tones, can terminate the call in progress, place the call in progress on hold, or disregard the call waiting tone. This feature can be activated or deactivated by the user.

Call Pick-Up Directed - This feature enables a user to answer (pick-up) calls directed to any other line within the Centrex CustoPAK group by dialing a code (*18) and the number of the ringing line, even if the user and the ringing line are not in the same call pick-up group. If more than one user tries to pick-up the call, only the first user will receive the call, and the others will receive a busy tone to identify the call was answered.

Call Pick-Up Group - This feature allows the user to answer (pick-up) any call directed to any other line within the user’s Pick-Up Group simply by dialing a Call Pick-Up Code (*17).

Hunting (Series and/or Multi-line only) - Hunting allows the customer to eliminate busy signals and increase the Company’s accessibility by expanding call coverage. Hunting begins with a call to a Lead number or Pilot number, and searches for an idle line beginning with the first number of a pre-assigned hunt group and ending with the last number in the group. Hunting for Centrex CustoPAK Customers will be provided in a Series or Multi-line arrangement only, and must be programmed by CenturyTel from data provided by the customer.

Note: Circular or any other type hunting sequence is not available to Centrex CustoPAK customers.

Speed Calling (6 or 8) - This feature allows the user to make calls to frequently dialed numbers by using an abbreviated code for each number. The short list consists of (8) numbers in all switch types except the 5ESS, which will only provide (6). This is a customer programmable feature, and each user will have their own list

\(^1\) Effective July 20, 2017, Centrex CustoPAK is obsolete and not available to new customers. Existing customers will be allowed to retain their current lines in service only as long as service remains at the same location for the same customer. No other changes to the service are permitted after the effective date of the grandfathering of the service.

S12.5  Centrex CustoPAK Service \[1\] (Cont’d)

S12.5.3  Features (Cont’d)

b.  Centrex CustoPAK Selectable Services (Cont’d)

Call Restriction Options (8 options) - The customer has the option of choosing the type call restriction desired for each individual line. The customer request for each line must be identified on the service order so the line can be provisioned with the proper line class code, and call blocking services.

Types Of Call Restrictions Are:

(1)  No Call Restrictions - This option allows the user to make and receive calls without any restrictions of any kind.

(2)  Call Restriction One - This option block all outgoing chargeable toll calls including all operator calls. It does allow outgoing local calls (outside the group), 8XX calls, local DA calls, repair calls, and 911 calls only. This option allows all incoming calls with no restrictions.

(3)  Call Restriction Two - This option block all outgoing direct dialed chargeable toll calls, but allows outgoing operator handled calls for class call screening (3rd number, collect, or credit card only), local calls (outside the group), 8XX calling, local DA calls, repair calls, and 911 calls. This option allows all incoming calls with no restrictions.

(4)  Call Restriction Three - The user is not permitted to make any outgoing calls to numbers outside the Centrex CustoPAK group (toll or local, including 911). This option allows all incoming calls with no restrictions.

(5)  Call Restriction Four - The user cannot make or receive calls to or from outside the Centrex CustoPAK group (including 911). Only inside the group (intercom) calling is allowed.

(6)  Call Restriction Five – This option block all 900, 700 and 976 type calls. This type of call restriction may be added to the No Call Restriction class of service as required.

(7)  Call Restriction Six – This option block all casual dialing (101XXXX) type calls. This type of call restriction may be added to the No Call Restriction class of service as required.

(8)  Call Restriction Seven – This option block all international type calls. This type of call restriction may be added to the No Call Restriction class of service as required.

\[1\] Effective July 20, 2017, Centrex CustoPAK is obsolete and not available to new customers. Existing customers will be allowed to retain their current lines in service only as long as service remains at the same location for the same customer. No other changes to the service are permitted after the effective date of the grandfathering of the service.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.5.3 Centrex CustoPAK Optional Services

These services may be selected by the customer and may be added to any line or hunt group of the customers choosing, however there will be additional charges for these services.

Busy Redial - This feature allows the user that attempts a call to a busy line, within their defined calling area, to dial a code (*66) and be automatically connected to that line when both lines are idle. Once activated, a thirty (30) minute queuing process begins with a voice prompt advising the user that the network will attempt the call again. The user will be alerted with a special ring when the call is returned.

Call Block - This feature provides the user the ability to block up to twelve external telephone numbers, of their choosing, from terminating a call to the user’s line. The numbers the user chooses to block must be from the user’s defined calling area. Calls from outside the users defined calling area and operator calls cannot be blocked. Once activated any calls from these twelve (12) numbers will be routed to an intercept message instead of completing.

Call Park - This feature allows the user to "park" a call against their own number, and then retrieve the call from any other station in the group. Only one call can be parked on any one number at a time.

Call Park Directed - This feature is an enhanced call park feature and enables the user to "park" a call on any number within the Centrex CustoPAK group, except their own number, and then retrieve the call from the number the call was parked on. Only one (1) call can be parked on any one (1) number at a time.

Call Return – (*69) Call Return will automatically store and allow you to redial the number of the last person who called you. (*69) Call Return can be used to return a call whether you answered the call or not. (*69) Call Return works only on calls made from numbers within your defined calling area. If you choose to return the call, and the number is busy, (*69) Call Return will place your call next in line. In most cases, your phone will ring with a series of short-short-long rings when the number you called are no longer busy. If you have Call Waiting and hear the Call Waiting tone while you are talking to another person, you have two (2) choices. You can use (*69) Call Return to call back later or you can use Call Waiting during the call.

Effective July 20, 2017, Centrex CustoPAK is obsolete and not available to new customers. Existing customers will be allowed to retain their current lines in service only as long as service remains at the same location for the same customer. No other changes to the service are permitted after the effective date of the grandfathering of the service.

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.5 Centrex CustoPAK Service [1] (Cont’d)

S12.5.3 Features (Cont’d)

c. Centrex CustoPAK Optional Services (Cont’d)

   Caller ID-Number - This feature allows the user (with compatible CPE) to view the telephone Number, of the incoming call, before answering the call or choosing to ignore the call.

   Caller ID-Name and Number - This feature allows the user (with compatible CPE) to view the telephone number and listed name (LN), of the incoming call before answering the call or choosing to ignore it.

   Executive Busy Override - This feature allows the user, upon reaching a busy line inside the group, to dial a code (*40) to gain access to the busy line, thus establishing a Three way call. The called number must be in the Centrex CustoPAK group, and will receive a warning tone prior to the establishment of the three-way conference call.

   Last number redial - This feature enables the user to redial the last called number by dialing a code (#77) rather than having to dial the entire number. This feature is not available in the 5ESS.

   Special Call Forwarding - This feature allows the user the ability to program up to twelve numbers of their choosing that they want call forwarded. When one of the numbers on the user list calls them, the call will be forwarded to the number the user has programmed to receive the call. Calls from all other numbers will be handled in the normal manner. If call forwarding all calls is activated, it will override this feature.

   VIP Alert - This feature provides the user the ability to identify up to twelve numbers they want to receive a special notification when a call comes is received from one of the numbers. A special ring (short-long-short) will be used to notify the user of a call from one of the numbers on their special list. This feature will not work on a hunt group Pilot number.

   Voice Messaging - This feature allows the user to have busy and no answer calls forwarded to a voice messaging server to take a message if the caller chooses to leave one. If the customer has Voice Messaging, the Call Forwarding Busy and No Answer services are used for Voice Messaging programming purposes and are not available for forwarding to other locations.

   Call Trace - Allows the user to trace the number of the last calls received, and have the number automatically reported to the telephone company.

[1] Effective July 20, 2017, Centrex CustoPAK is obsolete and not available to new customers. Existing customers will be allowed to retain their current lines in service only as long as service remains at the same location for the same customer. No other changes to the service are permitted after the effective date of the grandfathering of the service.

**d. Foreign Central Office**

When the Centrex CustoPAK station line is located in a different central office area of the serving exchange, the Foreign Central Office Service Charge will apply as specified in Section S9 of this price list.

**e. Usage charges**

No local calling usage allowance is included in the Centrex CustoPAK message or measured rate schedule. Usage charges apply as specified in the Local Exchange Services price list.

---

[^1]: Effective July 20, 2017, Centrex CustoPAK is obsolete and not available to new customers. Existing customers will be allowed to retain their current lines in service only as long as service remains at the same location for the same customer. No other changes to the service are permitted after the effective date of the grandfathering of the service.
CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERING

S12.5 Centrex CustoPAK Service [1] (Cont’d)

S12.5.4 Rates (Cont’d)

f. Service Order Activity

Service charges will apply for Centrex CustoPAK, as specified in Section S4 of this price list.

If a customer elects to change from a Business Line or another Centrex Service to the Centrex CustoPAK Service or from the Centrex CustoPAK Service to another Centrex Service, a Change of Class or Grade of Service Charge applies, rather than a Line Connection charge.

No service charges will apply for Centrex CustoPAK Custom Calling and CLASS Services, if installed initially with the Centrex CustoPAK system. When services are added or rearranged on an existing line subsequent to the installation of the Centrex CustoPAK System, the appropriate service charges, as specified in Section S4.3 of this price list will apply.

g. Foreign Exchange Service

Rates and charges for Foreign Exchange Service, as specified in Section S9 of this price list, will apply.

h. Calling Plans

For rates, see Section S3 of this price list for the Local Calling Plan options for a Centrex CustoPAK customer. A Centrex CustoPAK customer is also eligible for a toll Discount Calling Plan. Refer to Section S18 of this price list for the rates of the Discount Calling Plans.

[1] Effective July 20, 2017, Centrex CustoPAK is obsolete and not available to new customers. Existing customers will be allowed to retain their current lines in service only as long as service remains at the same location for the same customer. No other changes to the service are permitted after the effective date of the grandfathering of the service.

MISCELLANEOUS SERVICE ARRANGEMENTS

S13.1 Provisions for Circuits Connecting Stations

S13.1.1 General

a. Extension service may be provided to a different premises in connection with all classes and grades of telephone service, excluding coin telephone service. The mileage charges as shown in S13.1.1.d will apply for each circuit required.

b. When it is known or realized that the life of all or a part of the outside circuit will be shorter than the normal life of the plant or the cost of providing the plant is such as to render inadequate the mileage charges quoted herein, the plant required to furnish such service will be provided on the basis of one of the following plans at the option of the customer.

(1) An installation charge and a reasonable and proper monthly charge in lieu of mileage. Under this plan, where a portion of the facilities must be replaced at a later date due to having served its useful life, installation charges apply to the replaced facilities as if such facilities were installed new and appropriate adjustments are made in the monthly carrying charges.

(2) A reasonable and proper monthly carrying charge in lieu of mileage with an initial service period in ten years.

c. Extension service must be so located that their use will be restricted to those entitled to use the customer's service, except that extension service may be located on the premises of a party other than the customer to provide for the answering of calls during the customer's absence. Such extension service is furnished only on the condition that use of separate exchange service is available to the other party on the same premises.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.1 Provisions for Circuits Connection Stations (Cont’d)

S13.1.1 General (Cont’d)

d. Mileage Charges

(1) Between locations on different premises within the same exchange:

<table>
<thead>
<tr>
<th>Monthly Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>For each quarter mile or fraction thereof, airline measurement, per month</td>
</tr>
</tbody>
</table>

(2) Between locations in different exchanges:

Private Line Mileage Charges Apply - See Section S20.

(3) Mileage charges are computed separately for each station circuit and other circuits of like character such as for bells or gongs.

S13.2 Toll Denial

Toll Denial blocks access to the Long Distance Message Telecommunications Network, either by direct or operator assistance.

This prevents the customer from dialing an operator for all purposes including emergencies, assistance and the placing of toll calls. The customer indemnifies and saves harmless the Telephone Company from any and all claims, losses or damages caused by restriction of access to operator services.

Toll Denial is provided only in the Company’s exchanges that have 911 emergency numbers.

MISCELLANEOUS SERVICE ARRANGEMENTS

S13.3 Subscriber Transfer Service

S13.3.1 General

a. Subscriber transfer service is an arrangement which enables a customer to have calls incoming on one line transferred to a second previously designated line at a different location when there is no one available to answer on the first line. The transfer arrangement is restricted to business or domestic establishments on the same or different premises of the same customer, his representatives and associates or to members of the customer’s immediate family.

b. Subscriber transfer service may be used only in connection with one-party line service.

c. When subscriber transfer service is established between central offices in a multi-office exchange, foreign central office mileage charges as set forth in Section S9 will apply.

S13.3.2 Charges

S13.4 Direct Inward-Outward Dialing (DIOD) Service

S13.4.1 General

Direct Inward-Outward Dialing (DIOD) Service is a central office based service that permits incoming calls to reach customer provided equipment, without the assistance of an attendant, and allows the trunk to be used to place outgoing calls. This service is provisioned with E&M signaling and a four-wire connection at the customer’s premises. Rates for rotary line service do not apply.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.4  Direct Inward-Outward Dialing (DIOD) Service (Cont’d)

S13.4.2  Regulations

a.  The assignment of telephone numbers and the sequence of numbers assigned to
    a customer are made at the discretion of the Company. Telephone number rules,
    regulations and charges found in the Direct Inward Dialing (DID) section of this price
    list, Section S13.7, apply to DIOD service.

b.  Customer-Provided Switching Systems must handle calls to all assigned
    numbers, including those that are not currently used with specific stations. Calls to
    numbers not currently used with specific stations must be routed by
    the customer to a recorded announcement referring the caller to another
    number.

c.  Trunks arranged for DIOD service may not be combined with trunk groups
    arranged to provide DID service. Overflow of calls between the two
    arrangements is not permitted.

d.  DIOD service is provided from central offices equipped to provide this service and
    subject to the availability of facilities.

e.  If a customer's normal serving central office is not equipped to provide DIOD
    service or the customer so requests, the service may be provided where
    facilities permit, from a Company central office different than that which
    normally serves the customer, but still within the same LATA, at the additional
    prices specified herein and under the regulations applicable for Foreign
    Exchange (FX), or Foreign Central Office (FCO) service in Section S9.

f.  When DIOD service becomes available or is subsequently requested from the
    central office that normally serves the customer, the service may be
    transferred to the normal serving central office. If the customer requests such
    a transfer, the customer will be subject to a change in telephone number(s)
    and the nonrecurring charges applicable for initial service specified in Section
    S4.3 of this price list will apply.

g.  A change in central office equipment could require the customer to discontinue
    the service or obtain service from another central office. CenturyTel makes no
    guarantees and assumes no liability for loss of service to the customer, resulting
    from the conversion or upgrade of central office equipment.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.4 Direct Inward-Outward Dialing (DIOD) Service (Cont’d)

S13.4.2 Regulations (Cont’d)

h. The combining of flat rate, or message rate service is prohibited.

i. The rates and charges for Direct Inward Dialing working numbers are specified in Section S13.7.2 and will apply for DIOD working/reserved numbers in addition to the trunk termination charge specified in Section S13.4.3.b.

j. In the event DIOD service is terminated by the customer prior to completion of the initial contract period, the customer shall be liable for early termination charges. (See General Regulations, Section S2.11)

k. Service charges, specified in Section S4.3 are applicable when DIOD service is installed or moved. In addition a nonrecurring charge of $100.00 will apply for the initial installation of DIOD service regardless of the quantity of trunks ordered or the contract period requested. (IOSC: 22203)
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.4 Direct Inward-Outward Dialing (DIOD) Service (Cont’d)

S13.4.3 Rates and Charges

a. Direct Inward-Outward Numbers

(1) Electronic Office - minimum of 20 numbers
For each group of 20 numbers

   See Section S13.7.2 for rates

(2) Step-by-Step Office - minimum of 100 numbers
For each group of 100 numbers

   See Section S13.7.2 for rates

b. Direct Inward-Outward Dialing Trunk Termination*
(One required per PBX trunk to customer location)

   Month-to-month $25.00
   12 Month Term $8.00
   36 Month Term $6.00

* The DIOD trunk termination rate is in addition to the monthly rate for PBX access lines as specified in Section S3.2.1.
S13.5 CenturyTel Calling Services

S13.5.1 General

a. The following services are limited to those areas served by central offices arranged for CenturyTel Calling Services, and are subject to the availability of facilities.

These services are available to residence and business individual lines and automatic access lines, exclusive of rotary line service. This service is not available in connection with Coin Telephone Service.

b. WorkSmart – Business

1. WorkSmart Basic –
   Call Waiting/Cancel Call Waiting
   3-Way Calling
   Caller ID
   Selective Call Forward*63

2. WorkSmart Complete –
   Call Forwarding
   3-Way Calling
   Call Waiting/Cancel Call Waiting
   Caller ID

3. WorkSmart Deluxe
   Caller ID
   Call Waiting/Cancel Call Waiting
   3-Way Calling
   Call Forwarding
   Call Return*69
   Distinctive Ring

4. WorkSmart is available on a subscription basis; one to two-line (voice) small business customers only.

5. In the event the service is terminated by the customer prior to completion of the initial term commitment period, the customer shall be liable for an early termination charge of 25% of the monthly recurring charge(s) for the remainder of the term.

(1) Grandfathered to existing customers at existing locations.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.5 CenturyTel Calling Services (Cont’d)

S13.5.2 Definitions

Anonymous Call Block is an arrangement that allows a called party to block calls from parties that have marked their calls "private". When Anonymous Call Block is activated, such calls will be routed to an announcement which tells the calling party that the called party will not accept calls from callers who have chosen to prevent the display of their numbers. The calling party will be instructed to hang up and place the call again, without activating the blocking service. Customers may activate or deactivate this arrangement by dialing a preassigned activation code

Anonymous Call Block is subject to availability of Facilities.

Busy Redial*66 is an arrangement which permits the customer to redial automatically the last number dialed. If the called line is found to be busy, a thirty (30)-minute queuing process begins. The customer is then given an indication that the network will attempt to set up the call when the called line is idle. The network periodically tests the busy/idle status of the called line until both lines are found idle, the customer cancels the request, or the queuing process expires. If both lines are found to be idle, the calling party is alerted with a distinctive ring signifying that the call can now be completed.

This service is offered on a monthly basis per line or on a demand basis per occurrence. The customer must contact the Telephone Company to activate Automatic Busy Redial on the line for a monthly flat rate. To utilize Busy Redial*66 on a demand basis, the customer activates this service by dialing a code provided by the Telephone Company and the per occurrence rate will apply each time the service is activated. Access to the demand-based service will be removed from the customer's line upon request, at no charge.

Call Return*69 allows a customer to automatically return the last incoming call whether it is answered or not. Upon activation of the feature, the number of the most recent party who called is announced if it is available and the delivery has not been cancelled. To return the call, the customer dials "1" and the number is dialed automatically. If the called line is found to be busy, a thirty (30)-minute queuing process begins. The customer is given an indication that the network will attempt to set up the call when the called line is idle.

The network periodically tests the busy/idle status of both parties until both lines are found idle, the customer cancels the request, or the queuing process expires. If both lines are found to be idle, the called party is alerted with a distinctive ring signifying that the call may now be completed.

This service is offered on a monthly basis per line or on a demand basis per occurrence. The customer must contact the Telephone Company to activate Call Return*69 on the line for a monthly flat rate. To utilize Call Return*69 on a demand basis, the customer activates this service by dialing a code provided by the Telephone Company and the per occurrence rate will apply each time the service is activated. Access to the demand-based service will be removed from the customer's line upon request, at no charge.

Effective September 27, 2019, Anonymous Call Block is grandfathered. Availability to current customers is limited to lines in service at existing locations.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.5 CenturyTel Calling Services (Cont’d)

S13.5.2 Definitions (Cont’d)

Call Block \(^{(1)}\) allows a customer to block incoming calls from a maximum of 12 telephone numbers. The customer also can block incoming calls placed from the last calling number even if the number is unknown to the customer. Blocked calls are routed to a recorded announcement, which specifies that the called party is not accepting calls.

Call Forwarding-Multipath allows a Call Forwarding - Variable customer the capability to specify the number of calling paths to be made available to forward calls simultaneously to the destination directory number. This allows customers who are forwarding calls intended for a group of lines arranged in a hunt group to control the number of simultaneous calls that can be forwarded to a target number.

Multipath is available only as an enhancement to Call Forwarding-Variable.

Call Forwarding-Variable provides an arrangement for transferring an incoming call to another telephone number by dialing a code at the Call Forwarding station. Calls may be transferred to either a local or a long distance message telecommunications point, subject to the availability of the necessary facilities.

Call Forwarding-Variable shall not be used to extend calls on a planned and continuing basis to avoid the payment in whole or in part of message toll charges that would regularly be applicable between the station originating the call and the station to which the call is transferred.

Call Forwarding-Variable should not be offered as a feature at the Call Forwarding terminating station.

In addition to the monthly rate in this price list for the call forwarding-variable service, the call forwarding customer is responsible for the applicable customer-dialed station-to-station charges for calls forwarded outside the local calling area. These charges apply to all calls answered at the terminating station, including person-to-person and collect calls, even though such calls might not be accepted at the answering location.

Call Forwarding Busy allows customers to forward incoming calls to another directory number when the called line is busy. The customer selected forward-to telephone number is programmed when the service is established. A service order is required to change the forward-to number. The subscriber can continue a conversation while incoming calls are forwarded. This service includes Call Forwarding Multipath.

Call Forwarding Don’t Answer allows customers to direct incoming calls which are not answered within a specified time interval to be forwarded to a predetermined telephone number.

\(^{(1)}\) Effective September 27, 2019, Call Block is grandfathered. Availability to current customers is limited to lines in service at existing locations.
Call Trace*57 allows a customer to automatically activate a trace record of the last incoming call. By activating Call Trace*57, the customer automatically authorizes CenturyTel to store the results of any and all traces initiated by the customer in the Telephone Company’s switching office, and to release the results of such traces directly to the customer’s serving law enforcement agency upon a further request by the customer. The results of such traces will be released to the appropriate law enforcement agency only upon such a further request by the customer. The trace record will provide only the incoming telephone number and no way identifies the person(s) actually placing the call(s). The customer acknowledges his/her understanding that under no circumstances will trace results be provided directly to the customer. The customer must contact the Company within ten (10) days after activating Call Trace*57 or the trace record will automatically be deleted from the system.

Call Waiting/Cancel Call Waiting - By means of a tone signal a customer who is using his telephone is alerted when another caller is trying to reach that number. The customer may alternately talk to either the first or second party through the use of hook switch flashes; or he may terminate the first call and receive the second call; or he can put the first call on hold so that the second call can be answered. The customer can also cancel the Call Waiting feature on a per call basis using a specific code.

Call Waiting may exist as a stand-alone service under obsolete service offerings in S113.

Call Waiting ID is a service that will allow a Caller ID/Call Waiting customer who is offhook on an existing call to receive caller identification information on a new incoming call. Once the customer receives the Caller ID data, he or she may decide whether to ignore the waiting call, interrupt the current call and flash to answer the waiting call, or end the current conversation in order to be connected to the new caller. These options are the same as for the existing Call Waiting service except that the customer has the ability to identify the waiting caller. The customer must be using Call Waiting ID compatible equipment and not have activated Cancel Call Waiting. Customers must subscribe to Call Waiting and Caller ID at the price listed rates for each service or in a “flexible package”.

Customers who wish to subscribe to Call Waiting ID and currently subscribe to both existing services (Caller ID and Call Waiting) must subscribe to this service which will be available at no charge.

Caller ID is an arrangement that is provided as an enhancement to Caller ID Number Only and permits a customer to receive the name, as well as the telephone number, associated with the calling party for calls placed to the customer. The calling telephone number and name will be forwarded from the terminating central office to compatible customer-provided display equipment associated with the customer's Local Exchange Service. If the calling telephone number and name is not available for forwarding to the called party, a message indicating that unavailability will be forwarded. The calling party can prevent the Caller ID customer from seeing the calling telephone number and name display by activating Selective Blocking (per call). When the calling party uses this blocking capability, the Caller ID customer will receive an indication on the Caller ID equipment that the display of the calling telephone number and name has been suppressed.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.5  CenturyTel Calling Services  (Cont’d)

S13.5.2 Definitions (Cont’d)

Caller ID Number Only is an arrangement which permits a customer with local exchange service other than foreign central office service to receive the calling telephone number for calls placed to the customer. The calling telephone number will be forwarded from the terminating central office to compatible customer provided display equipment associated with a customer's local exchange service. The calling telephone number will be delivered during the first silent interval of ringing. For calls originating from a line within a multil ine hunt group, only the main telephone number will be delivered. If the calling telephone number is not available for forwarding to the called party, a series of zero's (000-0000) or asterisks (**.*.*.*.*) will be delivered to the customer's display device.

Any customer subscribing to Caller ID Number Only will be responsible for the provision of a compatible display device which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the service specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network services described herein.

Telephone numbers are not available on some calls.

Telephone numbers transmitted via Caller ID Number Only are intended solely for the use of the Caller ID Number-Only subscriber. Resale of this information is prohibited by this price list.
S13.5 CenturyTel Calling Services (Cont’d)

S13.5.2 Definitions (Cont’d)

Complete Blocking (per line)

A service which allows a single line customer to make all calls with the delivery of his/her calling number identification marked as “private” to all outgoing calls placed over the specified line.

Per line blocking will be offered at no charge.

Per line blocking customers may unblock the calls on a per call basis by dialing an access code immediately prior to placing a call.

The blocking of Caller ID Number Only will not be provided on calls originating from public, semipublic and customer owned pay telephone services.

This service is available only to established shelters of domestic violence intervention agencies, state and county departments of human resource shelters, the Attorney General Crime Victim Assistance Office, and other such agencies, their employees and volunteers, or individuals where it is certified that the personal safety of these employees or individuals will be jeopardized without Per Line blocking.

Feature Interactions are the same as in Item (10) above.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.5  CenturyTel Calling Services  (Cont’d)

S13.5.2  Definitions (Cont’d)

Coded Toll Control - This allows a customer to control the placement of chargeable calls via a pre-selected Personal Identification Number (PIN).

Distinctive Ring - This feature allows distinctive ringing to be applied to an individual line, where each of two (2) numbers, a main number and a Distinctive Ring number, will have a uniquely distinctive ring for customer identification. Because two telephone numbers are associated with one telephone line, only one (1) conversation can be conducted at a time.

Regulations for Directory Listings set forth in Section S6 of this price list will apply for the main number. The customer is entitled to one free listing in the alphabetical section of the telephone directory for the Distinctive Ring number, regardless of the class of service.

Outbound Call Block is a feature that blocks all outbound dialing with the exception of abbreviated dialing for 911 (Emergency Reporting Services) and 711 (Service for Telecommunications Relay Services). In addition, all pay-per-use features are blocked. All other CenturyTel Calling Services features are prohibited with the use of this feature and lines equipped with this feature will not have a directory listing. This feature is subject to the availability of facilities and is only available to flat rate business and residence Individual Line Local Exchange Service customers.
S13.5 CenturyTel Calling Services (Cont’d)

S13.5.2 Definitions (Cont’d)

Selective Blocking (per call) allows a single-line customer to make a call and temporarily mark the delivery of his/her calling number identification (CNI) as "private" to the next person he/she is calling. This is accomplished on an as needed basis by dialing a preassigned access code prior to making a call. This action must be repeated each time a call is made to prevent the delivery of the telephone number.

This feature will be available, subject to the availability of facilities, without presubscription, and at no charge.

Feature Interactions:

Call Return*69 - The terminating central office will recognize this "private" marking and cause the voice announcement system to say the number cannot be announced.

Call Block - The terminating central office will recognize this "private" marking and if the number is entered onto the screening list automatically (not by dialing the digits), the voice announcement system will say the number cannot be announced during the screen list editing review. The calling number, however, will be matched against the customer's screening list and routed accordingly.

Caller ID Number Only - The terminating central office will recognize this "private" marking and transmit that signal to the display device, which in turn will display "P", "PRIVATE", OR "PRIVATE NUMBER" or such similar indicator on that call.

Call Trace*57 - This service is unaffected, and will record the calling number.

Selective Call Accept*64 allows a customer to select up to 12 customer telephone numbers from which calls are to be received. All other calls are intercepted and routed to a recorded announcement that informs the caller the customer is not accepting calls. Calls from numbers outside the specified exchanges will ring normally.

Selective Call Forward*63 is an arrangement which permits a customer to pre-specify telephone numbers (maximum of twelve (12)) from which incoming calls are to be forwarded. During the period thatSelective Call Forward*63 is activated, only calls from the pre-specified numbers will be forwarded.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.5  CenturyTel Calling Services (Cont'd)

S13.5.2  Definitions (Cont'd)

Selective Call Rejection*60 - allows the customer to create a list of up to twelve numbers which, when calling, will be blocked from ringing the customer’s telephone and will be sent to an appropriate recording. The feature enables the customer to prevent incoming calls from up to twelve specific telephone numbers by allowing the customer to program twelve telephone numbers into a screening list. When a call is received from a number on the screening list, and if Selective Call Rejection is activated, the call is forwarded to a recording. If Selective Call Rejection is not activated, the call is completed as usual. Numbers may be added or deleted by the customer at any time.

Speed Dial - This provides for the calling of a telephone number by dialing an abbreviated code. The two (2) arrangements available are an eight-number capacity (8-Number Speed Dial) and a thirty-number capacity (30-Number Speed Dial).

3-Way Calling - This service permits a customer to add a third party to an existing conversation.

This feature is offered on a monthly basis per line or on a demand basis per occurrence. The customer must contact the Telephone Company to activate 3-Way Calling on the line for a monthly flat rate. The per occurrence rate will apply each time 3-Way Calling is utilized on a demand basis. Access to the demand-based service will be removed from the customer's line upon request, at no charge.

VIP Alert allows a customer to program up to twelve (12) telephone numbers of selected callers enabling the customer to distinguish certain incoming calls from all others by a distinctive ring tone. If a customer also subscribes to Call Waiting, calls from the selected numbers will be distinguished by a special Call Waiting tone.

WorkSmart Business (1) – WorkSmart offers small business customers a choice of three pre-defined packages containing four to six calling services with value-added features. Customers who commit to a term agreement ranging from one (1) to three (3) years will receive a discount off the current individual monthly price listed rates for these packaged features.

(1)  Grandfathered to existing customers at existing locations.

(M) Toll Denial was moved to Page 2 within this section.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.5 CenturyTel Calling Services (Cont’d)

S13.5.3 Regulations

The services are subject to available facilities and limited to central offices specifically equipped to provide such service. CenturyTel Calling Service features are applicable only to local calls placed to/from compatible central offices within the same local calling area offering the service.

Operator assisted calls are designed to override the CenturyTel Calling Service features for emergency purposes.

When features are added to rearranged on an existing line, the Network Access Change charge as shown in Section S4 will apply. (Note: Central Office Line Connection Work charge does not apply when features are added or rearranged).

When a CenturyTel Calling Service feature or package is ordered subsequent to the installation of its associated exchange line, the Network Access Change Charge shall be waived for up to sixty (60) days from the initial request for service.

Except as stated in (1) below, coin phones will not be enabled with CenturyTel Calling Services features.

(1) Selected coin phones may be enabled with CenturyTel Calling Service features, as ordered by the Commission, for the satisfaction of privacy concerns of the Alabama Coalition Against Domestic Violence.

CenturyTel Calling Service features are not enabled on trunks to customers with Automatic Access Line Group Service.

Satisfaction Guarantee

If at anytime the customer notifies CenturyTel he is not satisfied with CenturyTel Calling Services and wishes to discontinue the service(s), the customer will be entitled to a full refund of one (1) month’s monthly recurring charge, or portion thereof if subscription is less than thirty (30) days. This refund will be applied as a credit on the customer’s bill and CenturyTel will remove the service from the customer’s account. Each customer will be entitled to the credit one time per service.

The Satisfaction Guarantee will apply to all CenturyTel Calling services/features listed in Section S13.5.4 of this price list.

(2) Nonrecurring charges, specified in S4, are not applicable when Big Deal Calling Services are established or discontinued.
S13.5 CenturyTel Calling Services (Cont’d)

S13.5.5 Reserved for Future Use

S13.5.6 Choice Pac (1)

a. Choice Pac offers a monthly discount on specific CenturyTel calling services when the customer orders three (3) or more services. The discount percentage is applied to the total of the individual service rates subscribed to by the customer.

Choice Pac is available to business customers with one (1) or two (2) individual lines that are billed on the same account. The discounted services must be billed on the same business account.

Any service may be substituted for another, or additional services may be ordered at a later date. The combination of services is not important to the discount, only the number of services.

If the customer removes an eligible service(s) so that the total subscribed to for this package is less than three (3), the discount percentage will not apply and the individual service rates as specified in Sections S13.5.3.a and S13.5.4.c(1)(b) of this price list will apply.

b. The following services are eligible for the Choice Pac discount offering.
   Busy Redial*66
   Call Return*69
   Call Block
   Call Forwarding
   Call Waiting/Cancel Call Waiting
   Caller ID
   Caller ID Number Only 1
   Distinctive Ring
   Selective Call Accept*64
   Selective Call Forward*63
   Speed Dial 8
   Speed Dial 30
   3-Way Calling
   VIP Alert

Anonymous Call Block is not included toward the threshold. However, the rates will be discounted if the threshold quantity is met.

Cancel Call Waiting, which may be retained by customers as a stand alone feature from Section 113, is not included toward the threshold. The rate, however, will be discounted if the threshold quantity is met.

(1) Grandfathered to existing customers at existing locations.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.5 CenturyTel Calling Services (Cont’d)

S13.5.6 Choice Pac (1) (Cont’d)

c. The applicable monthly discount for Choice Pac is 30%.

d. Service charges, specified in Section S4.3, are not applicable:

- when an order is placed which qualifies the customer for the Choice Pac discount, or

- when Choice Pac customer repackages his services, provided he retains at least three (3) services specified in Section S13.5.6.b.

If the customer places an order which would normally require the application of any other service charge(s) on the same order, then all normally applicable charges apply, including the Network Access Change charge.

S13.6 Remote Call Forwarding (RCF)

S13.6.1 General

a. Remote Call Forwarding (RCF) is a service whereby a call placed from a station (the originating station) to a customer’s (the RCF customer) telephone number in one exchange (the call forwarding location) is automatically forwarded by Telephone Company central office equipment to another station designated by the RCF customer (the terminating station) which is located in a different exchange.

S13.6.2 Limitations

a. RCF service is offered subject to availability of suitable facilities.

b. RCF service is not offered when the terminating station is a coin telephone.

(1) Grandfathered to existing customers at existing locations.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.6 Remote Call Forwarding (RCF) (Cont'd)

S13.6.2 Limitations (Cont'd)

c. The Telephone Company will not provide identification of the originating telephone number to the remote call forwarding customer.

d. Transmission characteristics may vary depending on the distance and routing necessary to complete the remotely forwarded call.

e. RCF is not represented as suitable for satisfactory transmission of data.

f. Call forwarding should not be offered as a feature at the RCF terminating station.

g. RCF is provided on the condition that the customer subscribe to sufficient RCF features and facilities to adequately handle calls to the RCF customer without interfering with or impairing any services offered by the Company. If, in the opinion of the Company, additional RCF features at the call forwarding location or facilities at the terminating station line are needed, the customer will be required to subscribe to such additional RCF features and facilities. In the event the customer refuses to subscribe to such additional RCF features and facilities, said customer's RCF service shall be subject to termination.

h. When the call forwarding number is to be located in a multioffice exchange, the Company will determine the serving central office.

i. RCF will be provided when the Call Forwarding number and the terminating station are both located in the same local calling area.

RCF will be provided on an Interexchange basis where the RCF serving exchange and the exchange serving the forward to location (terminating station) have the same calling scope or where the forward to location is within the EAS calling scope.

j. RCF is offered as an individual service or as an additional feature with multiline hunt Foreign Exchange Service for overflow when the Foreign Exchange Service is busy.

k. An RCF Service number is not to be used as a terminating station number to which calls are forwarded from another RCF Service or from a location with fixed call forwarding.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.6  Remote Call Forwarding (RCF) (Cont’d)

S13.6.2  Limitations (Cont’d)

l. RCF Service provides for handling only one call at a time. An additional service feature is required for each additional call to be handled while the first call continues.

m. If the use of RCF service is primarily or substantially of a business, professional, institutional or otherwise occupational nature, i.e., nonresidential, or if the listing used is such as to indicate nonresidential use, then calls will not be forwarded to any telephone number for which residential rates apply.

n. In the event the customer does not adhere to the limitations for RCF as outlined above, the Telephone Company reserves the right to remove the RCF facilities to protect the network.

S13.6.3  Directory Listings

a. One listing in the alphabetical section of the Directory covering the exchange in which the call forwarding central office is located is provided without additional charge.

S13.6.4  Rates and Charges

a. The following charges are for the RCF feature and additional access facilities only and are in addition to applicable charges for service and equipment with which it is used (the terminating station). Residence and business exchange service line rates do not apply at the call forwarding location.

(1) Remote Call Forwarding

MISCELLANEOUS SERVICE ARRANGEMENTS

S13.6 Remote Call Forwarding (RCF) (Cont’d)

S13.6.5 Message Charges

a. Between the RCF location and the terminating station -

Remote Call Forwarding is not intended to allow toll bypass. The RCF customer is responsible for the applicable customer dialed station-to-station charges specified in Section 18 of this price list. These charges apply to all calls answered at the terminating station, including person-to-person and collect calls, even though such calls might not be accepted at the answering location.

S13.6.6 Service Charges as shown in Section 4 of this price list apply as follows:

a. The Network Access Establishment charge and the Central Office Line Connection Work charge apply when the RCF feature is initially installed or when an additional access facility is provided.

b. The Network Access Change charge and Central Office Line Connection Work charge apply for all subsequent number changes, either the call forwarding location number or the terminating location number.

S13.7 Direct Inward Dialing

S13.7.1 General

a. DID service is furnished subject to the availability of facilities and telephone numbers and in accordance with conditions and regulations specified in Section S2.3.8 of this price list.

b. The service includes the central office switching equipment necessary for indialing from the exchange and toll network directly to the stations associated with the PABX.

c. The service must be provided on all Automatic Access Lines in a group arranged for inward dialing.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.7 Direct Inward Dialing (Cont’d)

S13.7.1 General (Cont’d)

d. Customer-Provided Switching Systems must handle calls to all assigned numbers, including those that are not currently used with specific stations. Calls to numbers not currently used with specific stations must be routed by the customer to a recorded announcement referring the caller to another number.

e. The service is provided subject to the conditions and regulations specified in S15.1 for customer-provided equipment.

f. A primary directory listing and additional listings will be provided in accordance with Section S6 of this price list, under “Directory Listings.”

g. The rates and charges contained in Section 13.7.2 are in addition to the rates and charges for any other facilities or services provided by the Company in association with this service.

h. Trunks arranged for DID service may not be combined with trunk groups arranged to provide Direct Inward-Outward Dialing service. Overflow of calls between the two arrangements is not permitted.

MISCELLANEOUS SERVICE ARRANGEMENTS

S13.8 Customized Code Restrictions (CCR)

S13.8.1 General

a. Customized Code Restrictions (CCR) will provide a choice of code restriction options for selected outgoing calls. Each option will permit local calls, non-chargeable calls to Company numbers such as repair service, emergency numbers (911) and 800/877/888 calling.

c. Customized Code Restrictions are furnished only from central offices which have been arranged to provide these services. The services are provided subject to the availability of facilities.

d. The Company shall not be liable to any person for damages of any nature or kind arising out of, resulting from, or in connection with the provision of Customized Code Restrictions offered herein, including, without limitation the inability of the station user to access the operator for any purpose and any of the other restricted codes specified in the dialing plan options listed hereunder.

e. Subscribing to CCR does not relieve customers of responsibility for calls charged to their numbers.

S13.8.2 Customized Code Restrictions Options

a. Option #1 Restricted Codes
   Vacant Code Recording 0-, 0+, 00-, IDDD 01+, 976

Option #2 Restricted Codes
   Vacant Code Recording 1+, 0-, 0+, 00-, IDDD 01+, IDDD 011+, NPA 900

[1] Any requests for changes pertaining to the blocking or unblocking of 900/976 service subsequent to an initial change will incur appropriate nonrecurring charges.

[2] A service charge will not apply when customer initiates Option 4 in an effort to deter fraudulent activity.

(M) Option #5 previously appeared in Section 6.10 of CenturyLink Operating Companies Tariff F.C.C. No. 2.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.9  Telecommunications Service Priority (TSP) System

S13.9.1  Description of the Service

a. The TSP System is a service that provides for the priority provisioning and/or restoration of National Security Emergency Preparedness (NSEP) telecommunications services. The TSP System applies only to NSEP services, includes local exchange service, Foreign Exchange Service, and Private Line Service and Channels, and provides the Telephone Company with a guide to the sequence in which services are to be provisioned and/or restored.

b. All facilities that can be identified by a unique circuit identifier can be provisioned for TSP service by the Telephone Company.

S13.9.2  Obtaining TSP System Service

a. The Executive Office of the President through the TSP Program Office, is empowered with the authority to receive, evaluate and process requests for TSP services. The TSP Program Office makes the priority level assignments and issues the TSP authorization code reflecting the priority assignment associated with a request. The customer provides the TSP authorization code, in addition to all the other details necessary to complete the order to the Telephone Company to obtain TSP System service.

b. The TSP authorization code, assigned on a per order basis, consists of a 12-character field consisting of a nine-character control ID followed by a dash and a two-character field specifying the priority level assignment. Its structure is as follows:

   TSPxxxxxn-yy

The "x"s represent a sequence of numbers unique to each TSP authorization code and the "n" is a one character alphanumeric check digit. The first "y" contains the provisioning priority level assignment and the second "y" contains the restoration priority level assignment.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.9  Telecommunications Service Priority (TSP) System (Cont’d)

S13.9.3  Provisioning Priority

a.  If the customer requires service within a shorter time interval than the Telephone Company can provide, and the requested service qualifies for TSP, the customer may elect to invoke National Security Emergency Preparedness (NSEP) Treatment and obtain the appropriate provisioning priority assignment from the TSP Program Office. Acceptable assignment code values are: E, 1, 2, 3, 4, 5 or 0.

b.  The assignment of the value "E" denotes Emergency Provisioning and implies the service has the most critical provisioning requirements and the Telephone Company will respond accordingly. The Telephone Company will take immediate action to provide the requested service at the earliest possible date.

c.  The assignment values of 1, 2, 3, 4 and 5 are treated as essential service priorities and the Telephone Company will adjust its available resources to meet the customer’s requested due date. The value "0" implies no provisioning priority.

S13.9.4  Restoration Priority

a.  A TSP authorization code for restoration priority classifies the service as being among the nation’s most important NSEP telecommunications services. The Company will restore these services before services without restoration priority assignments in the order of priority assignments. Acceptable values are: 1, 2, 3, 4, 5 or 0 with the value "1" being the highest priority.
S13.9 Telecommunications Service Priority (TSP) System (Cont’d)

S13.9.4 Restoration Priority (Cont’d)

b. When the Company recognizes a TSP as being out of service, unusable or receives a trouble report, available resources will be dispatched to restore the service as quickly as practicable. A priority value of 1, 2, or 3 requires dispatch outside normal business hours if necessary to restore the service. A priority value of 4 or 5 only requires dispatch outside of normal business hours if the next business day is more than 24 hours away. If the value “0” has been assigned, then no restoration priority is applicable to this service.

c. The minimum period for service is one (1) month.

S13.9.5 Obligations of the Customer

a. In all instances, the customer is responsible for obtaining the appropriate TSP authorization code and providing that code to the Telephone Company.

b. The TSP System service customer must also be the customer for the facilities with which TSP service is associated. Only the customer is allowed to order TSP System service.

c. All points of a multipoint service configuration must have the same restoration priority assignment and must satisfy the requirements of that assignment.

d. In obtaining TSP System service, the customer consents to the release of certain information by the Telephone Company to the federal government in order to maintain and administer the TSP System. Such information includes: the customer’s name, telephone number and mailing address, the TSP authorization code and the circuit or service ID number associated with the National Security Emergency Preparedness (NSEP) service.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.9 Telecommunications Service Priority (TSP) System (Cont’d)

S13.9.5 Obligations of the Customer (Cont’d)

e. When a customer invokes TSP Treatment, the Telephone Company will attempt to notify the customer of expected charges. However, the customer when invoking TSP Treatment must recognize that quoting charges beforehand may not be practicable. Therefore, the customer grants the Telephone Company the right to quote and bill charges after provisioning of the service.

f. During certain emergencies, the customer may request TSP assignments verbally and the Telephone Company will accept such verbal notification. The customer must submit a written order to the Telephone Company within two working days following the verbal request. If the written order is not received within two working days, all applicable rates and charges accumulated to date to provision TSP System service, become immediately due and payable and the requested TSP priority is revoked.

g. The customer must request and justify revalidation of all priority level assignments at least every two years as required by the TSP Program Office.

S13.9.6 Obligations of the Telephone Company

a. The Telephone Company will allocate resources to ensure best efforts to provide National Security Emergency Preparedness (NSEP) services by the time required.

b. The Telephone Company will work TSP System services in the order of their priority level assignments. The priority sequence is as follows:

- Restore TSP services assigned restoration priority 1
- Provision TSP services assigned restoration priority E
- Restore TSP services assigned restoration priority 2, 3, 4 or 5 and
- Provision TSP services assigned provisioning priority 1, 2, 3, 4 or 5.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.9 Telecommunications Service Priority (TSP) System (Cont’d)

S13.9.6 Obligations of the Telephone Company (Cont’d)

c.  The Telephone Company will work cooperatively with other providers of TSP service when only a portion is provided by the Telephone Company to ensure "end-to-end" service.

S13.9.7 Rates and Charges

The following rates and charges are in addition to all other rates and charges that may apply for other services offered under this price list which operate in conjunction with the TSP System.

a. Establishment of TSP System Service

   The establishment of TSP System service charge is a nonrecurring charge (NRC) which applies when an access line and/or circuit is ordered. If both (provisioning and restoration) are ordered at the same time, only one NRC is applicable. The NRC is also applicable for orders changing priority levels. There is no charge to remove a TSP assignment.

   **Nonrecurring Charge**
   
   Per Access Line/Circuit $15.00

b. Provisioning Priority

   There are two basic levels of priority provisioning, Emergency (Provisioning priority "E") and Essential (provisioning priority 1, 2, 3, 4 or 5).

   1) Emergency Provisioning

      The Telephone Company will take immediate action to provide the requested service at the earliest possible date.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.9 Telecommunications Service Priority (TSP) System (Cont’d)

S13.9.7 Rates and Charges (Cont’d)

b. Provisioning Priority (Cont’d)

The Telephone Company will adjust its available resources to meet the customer's requested due date.

c. Restoration Priority

Restoration Priority is a monthly rate, per access line and/or circuit, for the ongoing administration and maintenance of the TSP System. This monthly rate only applies for all restoration circuits or lines.

<table>

S13.10 Duplicate Bill Charges

S13.10.1 General

a. A Duplicate Bill Charge will be applied upon a customer’s request for duplicate copies of the telephone bill(s) in accordance with the charges specified following. Concessions are not applicable for this service.

b. A Duplicate Bill charge will not be applied in the following instances:

(1) When customers request a copy of the bill because of nonreceipt of an initial bill after new connect, transfer, or change of address orders.

(2) When customers have not received a bill due to Company error in the address of the bill.

(3) When customers request a copy of a toll credit bill or a final bill.

MISCELLANEOUS SERVICE ARRANGEMENTS

S13.12 Selective Class of Call Screening (SCCS)

S13.12.1 General

a. Selective Class of Call Screening (SCCS) is an optional service available to the Company’s local exchange service customers, and is offered on a per line or local trunk basis. The service is offered to provide customers with a choice of originating call screening options when an operator service system is involved with call processing. The SCCS service provides information to the operator services system (mechanized or live operator) to denote special originating call handling was requested by the customer.

S13.12.2 Regulations

a. The customer will specify, at the time of the order, the special call handling option(s) desired. The customer may specify any combination of SCCS options.

b. On all operator assisted calls originating from the specified line or local trunk, the options available are:

   (1) Bill to a Calling Card Account (specify at the time of the call).
   (2) Bill to a Third Number (specify at the time of the call).
   (3) Collect to the Called Number (specify "collect" at the time of the call).
   (4) Prohibit all operator assisted sent paid calls.

c. Selective Class of Call Screening (SCCS) service is offered subject to the availability of suitable facilities.

d. Subscribers to Selective Class of Call Screening (SCCS) service are responsible to notify the Company of any failure of the feature to perform as requested.
S13.12.2 Regulations (Cont’d)

   e. The Company makes no guarantee and assumes no liability for the accuracy of Selective Class of Call Screening (SCCS) service. The customer agrees fully and completely to indemnify and save harmless the Company, its successors and assigns, from and against any and every claim, loss, damage, suit or liability arising out of the furnishing or failure to furnish Selective Class of Call Screening (SCCS) service.

   f. The minimum period for Selective Class of Call Screening (SCCS) service is one (1) month.

   g. All local calls and calls to Telephone Company numbers such as repair service and emergency services such as 911 will be permitted.

S13.12.3 Rates and Charges

   a. The following rates and charges apply to the provisioning of Selective Class of Call Screening (SCCS) service and are in addition to all other applicable rates and charges as specified elsewhere in the Company's price lists.

MISCELLANEOUS SERVICE ARRANGEMENTS

S13.13 Customized Number Service

S13.13.1 General

a. Customized Number Service (CNS) provides for the assignment of a customer requested telephone number (last four digits) other than the next available number from the assignment control list.

b. Customized Number Service is provided to business or residence customers and is furnished subject to the availability of facilities and requested telephone numbers.

c. This service is offered to customers who request a unique or specific line number, providing that the exchange prefix number is not changed.

d. When a new customer assumes an existing service which includes Customized Number Service, the new customer may keep the customized number at the price listed rate with the consent of the former customer.

e. A Customized Number directory listing in the white pages will be provided only as a numeric listing. The customer may promote their CNS number as an alpha listing at their discretion.

f. Existing customers who have a specific number prior to the establishment of this service will not be charged for CNS.

g. The Company reserves and retains the right:

(1) To discontinue, change or reassign telephone numbers in any exchange area when it is deemed necessary or appropriate in the conduct of its business, or in accordance with the rules and procedures of the Company. Should this occur, the Company will attempt to assign another specialized number of the customer’s choice without applying service charges.

(2) To reject any request for specialized telephone numbers and to refuse requests for specialized numbers for any reasons including, but not limited to, numbers that may in the Company’s judgment, be offensive to good taste, limited central office capacity, or relocation of a central office.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.13 Customized Number Service

S13.13.1 General (Cont’d)

g. The Company reserves and retains the right: (Cont’d)

(3) Of ownership of all telephone numbers, and prohibits the assignment of the use of a telephone number by or from any customer to another, except as otherwise provided in this price list.

(4) To assign telephone numbers in any exchange area as it deems necessary or appropriate in the conduct of its business.

S13.13.2 Conditions

a. The Customized Number Charge applies when a customer:

(1) Requests a telephone number other than the next available number from the assignment control list. A customer whose service has been terminated may be reassigned his previous telephone number, if available, without additional service charges applying, if reassignment occurs within twelve months.

(2) Requests a number change from his present number to a customized telephone number.

b. The Company shall not be liable to any customer for direct or indirect or consequential damages caused by a failure of service, change of number or assignment of a requested number to another customer whether prior to, or after establishment of service. In no case, shall the Company be liable to any person, firm, or corporation for an amount greater than such person, firm, or corporation has actually paid to the Company for the Customized Number Service.

MISCELLANEOUS SERVICE ARRANGEMENTS

S13.14 Services for Enhanced Service Providers (ESPs)

S13.14.1 General

a. This price list section contains regulations, rates and charges applicable to the provision of certain functional network capabilities. These capabilities expand the ability of Enhanced Service Providers (ESPs) to provide services to their clients through the use of the public switched telephone network. These network capabilities are provided by CenturyTel of Southern Alabama dba CenturyLink, hereinafter referred to as the Telephone Company.

b. Services in this price list are furnished only in central office areas where facilities and equipment, as determined by the Telephone Company, permit.

c. Services in this price list, designed primarily for Enhanced Service Providers (ESPs), are also available to others.

S13.14.2 Enhanced Service Provider (ESP) Services

a. ESP Services are offered by the Telephone Company in conjunction with exchange access line service as outlined in Section S13.14.5b.(8) of this price list. Customers may order and utilize these services to connect to the Telephone Company's local exchange network to provide enhanced services to the customer's clients. These services are as follows:

(1) Data Link. This service, which must be established between the customer's location and the Telephone Company's central office, provides the capability of delivering to the customer the called number, the calling number, and the type of forwarding from each central office serving area in which the customer wishes to offer enhanced services.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.14 Services for Enhanced Service Providers (ESPs) (Cont’d)

S13.14.2 Enhanced Service Provider (ESP) Services (Cont’d)

a. ESP Services are offered by the Telephone Company … (Cont’d)

(2) Forwarded Call Information - Intraoffice. This service provides the information on the calling number (the customer's client line which was busy or did not answer and is equipped with call forwarding), the called number (the customer's enhanced service number to which redirected calls are forwarded), and the reason calls were forwarded or placed to the customer. The reasons for forwarding information may include when a client's line is:

- busy;
- not answered;
- either busy or not answered; or
- used to call the customer directly.

(3) Message Waiting Indication - Audible. This service provides the ability for a customer to send and a customer's client line to receive an alerting signal in the form of an audible stutter dial tone. This alerting signal will be used by the customer to inform its clients that information is waiting for them.

(4) Message Waiting Indication - Audible Ring Burst. In addition to the stutter dial tone that a client receives to let him know a message is waiting, CenturyTel can provide ringing at a special cadence to signal the client that a message is waiting. This reminder will be repeated at a specific interval programmed by CenturyTel.

(5) Message Waiting Indication - Visual (MWI-V) is a feature that provides the Enhanced Service Provider (or customer) with the ability to send an alerting signal in the form of a light to its end user's line. This alerting signal can then be used by the Enhanced Service Provider (or customer) to inform its end user that a message(s) is waiting.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.14 Services for Enhanced Service Providers (ESPs) (Cont'd)

S13.14.2 Enhanced Service Provider (ESP) Services (Cont'd)

   a. ESP Services are offered by the Telephone Company … (Cont'd)

      (6) Queuing. This service provides customers subscribing to Automatic Access
          Lines or Centrex lines arranged in a multiline hunt group the capability to equip
          that group with a queuing feature. Calls made to a multiline hunt group
          equipped with the queuing feature will complete immediately if there is an idle
          terminal in the hunt group. However, if all terminals in the hunt group are
          busy, the call is placed on queue and waits its turn to be served.

      (7) User Transfer. This service provides the ability to temporarily hold an
          established call, originate another call to a third party, and then transfer the
          first call to the third party. When a call has been transferred, the original
          line/trunk is cleared to place or receive another call.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.14 Services for Enhanced Service Providers (ESPs) (Cont'd)

S13.14.3 ESP Client Services

a. ESP Client services are offered by the Telephone Company. Customers may order and utilize these client services in conjunction with their clients’ exchange access lines to provide enhanced services to their clients. These client services are as follows:

(1) Call Forwarding Busy Line - Fixed. This service, permanently activated, provides clients the ability to redirect incoming calls to their home or business to the customer's preselected Automatic Access Line number, Centrex line number, or other line number of the customer at another location on a different premises when such incoming calls encounter a normal busy line condition.

(2) Call Forwarding Busy Line/No Answer - Fixed. This service, permanently activated, provides clients the ability to redirect incoming calls to their home or business to the customer's preselected Automatic Access Line number, Centrex line number or other line number of the customer at another location on a different premises when such incoming calls encounter either a normal busy line condition or a no answer condition.

(3) Call Forwarding No Answer - Fixed. This service, permanently activated, provides clients the ability to redirect incoming calls to their home or business to the customer's preselected Automatic Access Line number, Centrex line number or other line number of the customer at another location on a different premises when such incoming calls encounter a no answer condition after a specific number of rings; such number of rings to be specified when this service is ordered.

(4) Customer Controllable Ringing. This service provides clients the ability to adjust the number of ring cycles that should be used prior to forwarding a call in a "No Answer" situation. To select the number of rings desired (1-9), the client will dial a special access code and then input a digit that corresponds to the number of ring cycles desired before the forwarding takes place.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.14 Services for Enhanced Service Providers (ESPs) (Cont'd)

S13.14.4 Definitions

a. Client. The term "client" denotes any individual, partnership, association, joint-stock company, trust corporation, or governmental entity or any other entity which subscribes to the services offered by the customer utilizing those services provided under this section of the price list.

b. Customer. The term "Customer(s)" denotes any ESP, individual, partnership, association, joint-stock company, trust corporation, or governmental entity or any other entity which subscribes to the services offered under this section of the price list.

c. ESP Bill Option. This is an ordering and billing option that allows a customer to order and pay for the provisioning and monthly recurring charges of only those services provided under this section of the price list. An agency agreement between the customer and the customer's client is necessary before the customer may exercise this option. Customers will be held liable for orders involving clients for whom no agency agreement exists.

d. Enhanced Service Provider. An Enhanced Service Provider (ESP) is a customer who, in accordance with applicable regulatory requirements, claims the status of an ESP and who provides an enhanced service under Section 64.702 of the FCC's Rules.

S13.14.5 Regulations and Conditions

a. Undertaking of the Telephone Company

   (1) The limitation of the Telephone Company's liability is set forth in Section S2.5 of this price list.

   (2) The Telephone Company may disconnect the customer's service for failure to comply with any provision(s) of this price list or any tariff of the Telephone Company.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.14 Services for Enhanced Service Providers (ESPs) (Cont’d)

S13.14.5 Regulations and Conditions (Cont’d)

a. Undertaking of the Telephone Company (Cont’d)

(3) ESP Client Services billed to ESP orders can only be accepted if the client line is specified and available for provisioning.

(4) If the Telephone Company finds the provision of ESP Services and ESP Client Services, as outlined herein, is adversely affecting or would adversely affect the Telephone Company's ability to provide, complete or maintain the level of or quality of its other services to its exchange telephone customers, the Telephone Company may refuse to provide or may discontinue providing such services.

(5) Late payment charges will apply to all services contained in this price list.

(6) ESP and ESP Client Services will not be provided in connection with Public Coin Telephone Service, Semipublic Coin Telephone Service or Public Telephone Access Service for Customer-Provided Equipment.

(7) Charges for calls between the originating location and the call forwarded equipped line are applicable in accordance with regularly filed price lists for local message units, dial station, operator station or person toll.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.14 Services for Enhanced Service Providers (ESPs) (Cont’d)

S13.14.5 Regulations and Conditions (Cont’d)

b. Enhanced Service Provider’s Obligations

(1) Customer services as outlined herein and the promotion and provision thereof must comply with all applicable federal, state and local laws, rules and regulations.

(2) The customer shall indemnify, defend, protect and save harmless the Telephone Company against any and all losses, claims, demands, suits, causes of action, damages, costs or liability in law or in equity of every kind and nature whatsoever, including attorney’s fees, arising directly or indirectly from the service or in connection therewith, including but not limited to any loss, damage, expense, or liability resulting from any infringement or claim or infringement of any patents, trademarks, or copyright, or resulting from any claim of libel or slander.

(3) The customer is responsible for all provisioning and monthly recurring charges for billed-to-ESP services including those situations in which the customer’s client and/or the Telephone Company has temporarily suspended or disconnected that client’s service.

(4) The customer has exclusive responsibility and control over the content, quality, and characteristics of services or conversations conducted over the customer’s equipment. The Telephone Company assumes no liability for the quality, defects in, or content of those services. The customer shall exclude from its services any matter, the dissemination of which is prohibited by law, or by rules, regulations or order of any governmental agency.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.14.5 Regulations and Conditions (Cont’d)

b. Enhanced Service Provider's Obligations (Cont’d)

(5) The Customer shall not publish or use any advertising, sales promotion material, or other publicity relating to the subject matter of ESP and ESP Client Services wherein the Telephone Company's name or language, signs, markings or symbols are used, from which the connection of the Telephone Company's name therewith may be, in the Telephone Company's judgment, reasonably inferred or implied without the prior written approval of the Telephone Company.

(6) The customer is financially responsible for any and all costs and expenses involved in providing its services, including, but not limited to, the customer's premises equipment, program development, advertising, and promotional expenses. The customer is financially responsible for all facilities required to connect the customer's equipment to the Telephone Company's serving wire center, in accordance with all applicable rates and charges under the Telephone Company's price lists.

(7) The customer's premises equipment shall be interconnected in accordance with the General Conditions and applicable rates as set forth in Section S15, Connections with Certain Facilities and/or Equipment of Others. If the customer violates this requirement, the Telephone Company may disconnect the customer's services.

(8) Customers subscribing to the services outlined in Section S13.14.2a.(1),(2),(3),(4),(5), and (6) of this price list, are required to subscribe to Automatic Access lines or Centrex lines capable of supporting the enhanced service(s) being offered. Also, they may be required to subscribe to as many additional Automatic Access Lines or Centrex lines as, in the judgment of the Telephone Company, are required to adequately handle calls without impairing service to others.
MISCELLANEOUS SERVICE ARRANGEMENTS

S13.14 Services for Enhanced Service Providers (ESPs) (Cont'd)

S13.14.5 Regulations and Conditions (Cont'd)

b. Enhanced Service Provider's Obligations (Cont'd)

(9) The customer is responsible for disconnecting ESP Client Services ordered for its client(s), including those situations where the customer's client(s) no longer have service with the Telephone Company.

(10) The customer is responsible for the payment of applicable charges for each forwarded call completed in conjunction with User Transfer Service.

c. Client Obligations

(1) The client whose line is equipped with Call Forwarding Busy Line and/or No Answer - Fixed is responsible for the payment of applicable charges for each completed call between their call forwarding equipped line and the customer's number to which the call is forwarded.

d. Billing and Remittance

(1) Adjustments requested due to poor transmission quality caused by the customer's equipment may be made at the discretion of the Telephone Company.

(2) The customer's services may be discontinued pursuant to the procedures set forth in S2 of this price list, for failure to make full payment for the Telephone Company's services provided under this price list.

S13.14.6 Rate and Charge Regulations

a. Any change to the customer's preselected telephone number to which client's telephone calls are redirected, as described in Section S13.14.3a.(1),(2), and (3) of this price list, will incur applicable service charges.

b. The ESP Bill Option as defined in Section S13.14.4a. of this section of the price list may only be exercised by a customer who is planning to utilize the services found in this section of the price list to offer an enhanced service.

13.15.7  Pure Broadband Bundle

A.  Description

Pure Broadband Bundle includes flat rate Residence or Business Individual Line Local Exchange Service and features as specified, and requires subscription to the Company’s High Speed Internet (1.5 Mbps or greater).

B.  Features

Outbound Call Block Feature
Non-published Service
Billed Number Screening (Optional)

C.  Terms and Conditions

Pure Broadband Bundle is available to residential and business customers in all exchanges within the Company where technically feasible, subject to availability of facilities.

This bundle is only available with One-Party Local Exchange Service. Lines equipped with Pure Broadband Bundle will not have a directory listing and will not be included in the Company’s directory assistance records. Extended Area Service (EAS) charges do not apply.

The bundle rate will include the Subscriber Line Charge.

Service Charges or nonrecurring charges do not apply.

D.  Rates

</tbody>
</table>

[1]  Effective June 11, 2017, Pure Broadband Bundle is grandfathered for residential customers. Availability to current customers is limited to lines in service at existing locations.

[2]  Rates applicable for non-regulated High Speed Internet also apply.
MISCELLANEOUS SERVICE ARRANGEMENTS

13.15 Packaged Services

13.15.8 Prepaid Local Telephone Service

Prepaid Local Telephone Service (PLTS) is a residential payment plan where the customer agrees to pay for service one month in advance. Upon establishment of the PLTS plan, the customer will be billed for one month service. The Company will require payment of these charges prior to establishment of service. Thereafter, the customer will be required to pay one month's service on a monthly basis. Once payment for service is received, one month’s service will be provisioned and is non-refundable if the customer cancels service prior to the end of the month. No deposits or non-recurring charges apply.

A. PLTS is configured as follows:

1. Voice grade residential flat rate line, or local measured service line, if available.
2. All mandatory services, including extended area service, expanded local calling, etc. (all tariffed charges applicable).
3. Tone Dialing (Tariffed tone dialing/touch tone charges are applicable).
4. Ability to dial 911.
5. Ability to report service problems seven days a week.
6. Ability to dial CenturyTel Customer Service.
7. Primary directory listing (nonpublished/ nonlisted available at tariffed charges).
9. Toll blocking/usage sensitive services blocking (tariff charges applicable).
10. Call Waiting, Caller ID, and Call Forwarding included.

B. Customers who are unable to pay the required charges to maintain their present service may activate a PLTS plan, but may be required to agree to a repayment plan for their current charges.

C. New customers who do not qualify for service due to a poor credit history may subscribe to PLTS.

D. The monthly rate for PLTS shall be in addition to any surcharges and fees established or authorized by a government entity, including but not limited to 911, subscriber line charge, sales tax and municipal fees.

E. Subscribers to PLTS are required to have mandatory toll blocking and usage sensitive blocking placed on their telephone line. It is the customer's responsibility to not make or receive calls, except for Directory Assistance, for which additional charges are billed to the customer's telephone number. After the first three directory assistance calls, tariffed rates for directory assistance will apply.

13.15.9 Business Unlimited

Description

Business Unlimited is a package of features available to business customers. The Business Unlimited bundle includes one line of unlimited calling and choice of calling features offered by the Company and unlimited long distance calling provided by CenturyLink Long Distance, LLC.

Terms and Conditions

Business customers with 1-10 lines will be eligible for discounted unlimited calling services. Additional lines of Unlimited Local and Long Distance calling, up to a maximum of ten (10) lines, may be added plus all other applicable monthly service charges.

Metered/measured line services, PBX, Key, or Centrex accounts are not eligible for Business Unlimited. The customer must subscribe to the CenturyLink Long Distance, LLC Basic Business Unlimited Long Distance Bundle plan. This plan is for typical domestic voice usage only and cannot be used for any purpose inconsistent with typical domestic voice usage. If usage under this plan is not consistent with typical domestic voice usage, as determined in the Company’s sole discretion, the Company reserves the right to move customer to an alternative plan or may suspend, restrict or cancel customer’s service.

Monthly Rates

The following rates apply in addition to the monthly rates applicable for companion long distance service.

| Primary and Each Additional Access Line Charge | $44.00 (I) |

13.15.12. Simple Choice Unlimited (1)

A. Description

Simple Choice Unlimited is a package of features available to residential customers which includes any technically available custom calling features and voicemail, a flat rate access line, and unlimited long distance voice usage.

B. Terms and Conditions

1. A customer may select an unlimited number of compatible services and features from the Custom Calling Features. All terms and conditions as specified herein shall apply.

2. Nonrecurring charges do not apply for transactions involving additions, deletions, or changes to the services/features requested as part of Simple Choice Unlimited. However, appropriate nonrecurring charges do apply for installation of, moves, and changes to the access line.

3. Customers subscribing to the Simple Choice Unlimited may select different features for each line. All lines must be billed to the same account and located at the same premise.

4. Simple Choice Unlimited features must be activated by the customer before they can be used without incurring usage charges.

5. All recurring charges applicable to an access line apply to Simple Choice Unlimited. Among other things, these can include but are not limited to, surcharges, subscriber line charges, and taxes.

6. Call Detail will not be provided with this service plan.

(1) This service is grandfathered to existing customers at existing locations.

13.16 Residence Customer Referral Program

13.16.1. Terms and Conditions

A. Existing residence customers may be eligible for a one-time $50 bill credit when they submit a referral via the Company’s Internet website that results in the establishment of a new customer account for service that includes residential local exchange service. To be eligible, referred customers must establish a new customer account for service that includes residential local exchange service, and provide the Company with the billing account number of the Company’s existing referring customer who generated the on-line referral under this program. Once confirmed, this one-time $50 bill credit will be applied to the referring customer’s account within sixty days. This bill credit is limited to one bill credit per customer referral and unused credits will roll over to future months. Each customer is limited to a maximum of $600 in referral credits per calendar year.

B. New residence customers may be eligible for a $10 bill credit for six consecutive months. To be eligible, referred customers must establish a new customer account for service that includes residential local exchange service, and provide the Company with the billing account number of the Company’s existing referring customer who generated the on-line referral under this program. Once confirmed, the $10 bill credits will be applied to the referred customer’s account during each of the referred customer’s first six bill cycles with the Company. If the referred customer discontinues the local exchange service prior to the end of the six month period, no additional credits will be applied although the referred customer will not be required to refund the Company for previously acquired bill credits.

S14.2 Portable Communications Terminal for the Deaf

S14.2.1 General

a. The Portable Communications Terminal for the deaf is a portable unit which permits a hearing or voice impaired person who has basic local exchange telephone service to communicate with persons using compatible equipment over the telephone network.

b. The Terminal is acoustically coupled, and can be used with all standard telephone sets. The Terminal is battery operated and a rechargeable battery pack is included in the central component of the system.

c. It is the customer’s responsibility to pick up or return the Portable Terminal at designated Company locations in connection with establishment, discontinuance, or repair of service.

d. The Portable Communications Terminal is intended solely to assist deaf, hearing-impaired or speech-impaired individuals to communicate. Business applications are restricted to those intended to assist handicapped persons in their employment.
AUXILIARY EQUIPMENT

S14.2 Portable Communications Terminal for the Deaf (Cont’d)

S14.2.2 Rates and Charges

  a. The following rates and charges are in addition to regular rates for the associated station and applicable service charges.

(1) SSI System 100 Communicator

The central component of the system. The Communicator features a keyboard and video display screen. With the included rechargeable battery pack, the unit is entirely portable.

  Rates

<table>
<thead>
<tr>
<th>Monthly Rate</th>
<th>$ 0.65</th>
</tr>
</thead>
<tbody>
<tr>
<td>Installation Charge</td>
<td>596.00*</td>
</tr>
</tbody>
</table>

(2) SSI System 100 Answerer

The Answerer is jacked into the telephone line and separately connected to the Communicator. It functions as an ordinary magnetic tape answering device by receiving messages at unattended telephones.

  Rates

<table>
<thead>
<tr>
<th>Monthly Rate</th>
<th>$ 0.45</th>
</tr>
</thead>
<tbody>
<tr>
<td>Installation Charge</td>
<td>488.00*</td>
</tr>
</tbody>
</table>

(3) SSI System 100 Master Ring Signaler

The Master Signaler plugs into an electrical outlet. Since it is acoustically responsive to a ringing telephone, it must be located in close proximity to the telephone and in the same room. When the telephone rings, the Master Signaler will cause a light, (customer-provided), which is plugged into the Master Signaler, to flash.

S15.1 Regulations

S15.1.1 General

a. Terminal equipment and communications systems may be used with the facilities of the Company for telecommunications services as provided in the following paragraphs of this Section. In all such cases, the terminal equipment or communications systems will be so constructed, maintained and operated as to work satisfactorily with the facilities of the Company.

b. Where telecommunications service is available under this price list for use in connection with terminal equipment or communications systems, the operating characteristics of such equipment or system shall be such as not to interfere with any of the services offered by the Company. Such use is subject to the further provisions that the equipment or system does not endanger the safety of Company employees or the public, damage, require change in or alteration of, the service or other facilities of the Company; interfere with the proper functioning of such service or facilities; impair the operation of the telecommunications systems or otherwise injure the public in its use of the Company's services. Upon notice from the Company that the equipment or system is causing or is likely to cause such hazard or interference, the customer shall make such change as shall be necessary to remove or prevent such hazard or interference. The customer shall be responsible for the payment of Company charges, as specified in S4.7, for visits by the Company to the customer's premises where a service difficulty or trouble report results from the customer's equipment or system.
S15.1 Regulations (Cont’d)

S15.1.1 General (Cont’d)

c. The Company shall not be responsible for the installation, operation or maintenance of any terminal equipment or communications systems. Telecommunications service is not represented as adapted to the use of terminal equipment or systems and where such are connected to Company facilities the responsibility of the Company shall be limited to the furnishing of facilities suitable for telecommunications service and to the maintenance and operation of such facilities in a manner proper for such telecommunications service. Subject to this responsibility, the Company shall not be responsible for (1) the through transmission of signals generated by the terminal equipment or systems or for the quality of, or defects in, such transmission, or (2) the reception of signals by terminal equipment or systems.

d. The Company shall not be responsible to the customer or otherwise if changes in the criteria outlined herein or in any of the facilities, operations or procedures of the Company render any equipment or communications systems obsolete or require modification or alteration of such equipment or systems or otherwise affect its use or performance.

The Company may make changes in its communications facilities, equipment, operations, or procedures, where such action is reasonably required in the operation of its business and is not inconsistent with the rules and regulations in VOLUME X, Part 68, of the Federal Communications Commissions Rules and Regulations.

If such changes can be reasonably expected to render any terminal equipment incompatible with Company Communications facilities, or require modification or alteration of such terminal equipment, or otherwise materially affects its use or performance, the customer shall be given adequate notice in writing, to allow the customer an opportunity to maintain uninterrupted service.
CONNECTIONS WITH CERTAIN FACILITIES
AND/OR EQUIPMENT OF OTHERS

S15.1 Regulations (Cont'd)

S15.1.1 General (Cont'd)

e. The Company will not be responsible for any loss or damage, nor for any
impairment or failure of the service, arising from or in connection with use of
facilities of customers and not caused solely by the negligence of the Company.

f. Where any terminal equipment or system is used with telecommunications
service in violation of any of the provisions in this price list, the Company will take
such immediate action as necessary for the protection of the network and will
promptly notify the customer of the violation. The customer shall immediately
discontinue such use of the equipment or system or correct the violation and shall
confirm in writing to the Company within ten (10) days, following the receipt of
written notice of the violation from the Company, that such use has ceased or that
the violation has been corrected.

Failure of the customer to discontinue such use or to correct the violation and to
give the required written confirmation to the Company within the time stated
above shall result in termination of the customer's service until such time as the
customer complies with the provisions of this price list.

g. The customer indemnifies and saves the Company harmless against claims of
infringement of patents arising from combining such equipment or system with,
or using it in connection with, facilities of the Company; and against all other
claims arising out of any act or omission of the customer in connection with
facilities provided by the Company.

S15.1.2 Recording of Two-Way Telephone Conversations

a. Telecommunications services are not represented as adapted to the recording of
two-way telephone conversations. However, voice recording equipment may be
connected with telecommunications services, subject to the following conditions.
S15.1 Regulations (Cont’d)

S15.1.2 Recording of Two-Way Telephone Conversations (Cont’d)

b. A distinctive recorder tone that is repeated at intervals of approximately fifteen seconds is required when recording equipment is in use and is electrically connected with services of the Telephone Company, except that the distinctive recorder tone described is not required:

(1) When used by a Federal Communications Commission licensed broadcast station Customer for recording of two-way telephone conversations solely for broadcast over the air.

(2) When used by the United States Secret Service of the Department of Treasury for recording of two-way telephone conversations which concern the safety and security of the person of the President of the United States, members of his immediate family, or the White House and its grounds.

(3) When used by a broadcast network or by a cooperative programming effort composed exclusively of Federal Communications Commission broadcast licensees, to record two-way telephone conversations solely for broadcast over the air by a licensed broadcast station.

(4) When used for recording at United States Department of Defense Command Centers of emergency communications transmitted over the Department of Defense’s private line system when connected to telecommunications services.

(5) Additionally, recorder connector equipment which does not contain the automatic recorder tone device may be furnished to law enforcement agencies, fire departments and Public Safety Answering Points in connection with 911 Service for use on central office lines assigned exclusively for the receipt of local or intrastate law enforcement, fire or other emergency calls and attended at all times for such purpose provided that the department or agency certifies these conditions will be observed.

S15.1.3 Responsibility of the Customer

All multi-line telephone systems connected to the Company’s network on or after February 16, 2020, must be configured to allow direct “911” dialing by any end user and must be configured to send MLTS notifications as described in Section S2.3.17.
CONNECTIONS WITH CERTAIN FACILITIES
AND/OR EQUIPMENT OF OTHERS

S15.1 Regulations (Cont’d)

S15.1.2 Recording of Two-Way Telephone Conversations (Cont’d)

b. A distinctive recorder tone that is repeated at intervals of … (Cont’d)

(6) When used by the United States Nuclear Regulatory Commission of the Department of Energy, with respect to the telephone systems located at its Operations Center for recording of two-way telephone conversations.

(7) All parties to the telephone conversations must give their prior consent to the recording of the conversation, and the prior consent must be obtained in writing or be part of, and obtained at the start of the recording.

S15.2 Service Through Miscellaneous Common Carriers

S15.2.1 Conditions

a. Only customers of Miscellaneous Common Carriers, may be interconnected with the exchange and toll network facilities of the Telephone Company. Contractual arrangements will be made between the Miscellaneous Common Carrier and the Telephone Company for the interchange of telephone traffic and are subject to the regulations, rates, and charges specified herein.

b. The Telephone Company will provide the necessary circuits to the point of connection which will be utilized to interconnect the facilities of the Miscellaneous Common Carrier and the facilities of the Telephone Company. The point of connection with the facilities of the Miscellaneous Common Carrier will be located within the service area of the Miscellaneous Common Carrier base station and within the exchange boundary of the serving exchange.

c. Where the Miscellaneous Common Carrier elects to handle interconnect traffic either wholly or in part by automatic equipment, the Miscellaneous Common Carrier will be responsible on behalf of its subscribers for provision of the interconnection facilities and access arrangements with the telecommunications network facilities of the Company.
S15.2 Service Through Miscellaneous Common Carriers (Cont’d)

S15.2.1 Conditions (Cont’d)

d. The service is available to the Miscellaneous Common Carrier only on a flat rate basis.

(1) Customers of a Miscellaneous Common Carrier mobile radio system are furnished interconnected local service at rates provided in the applicable Price lists of the Miscellaneous Common Carrier.

(2) Interconnected local service as used herein is defined as telephone messages between Telephone Company stations located within the local calling area of the exchange serving the Miscellaneous Common Carrier and the radio telephone units of the Miscellaneous Common Carrier which are within range of the Miscellaneous Common Carrier base station.

e. The exchange which services the base station of the Miscellaneous Common Carrier will determine the long distance telecommunications rate center for purposes of rating interconnected long distance calls.

f. One directory listing is provided without charge for each common carrier mobile radio system. Additional listings may be furnished subject to regular business additional listing regulations, rates and charges.

g. When the Miscellaneous Common Carrier provides either dial mobile telephone service or personal paging service, the rates and charges specified in S15.2.2.a., associated with Dial Type Service, are applicable.

SHARED TENANT SERVICE OFFERINGS

S16.1 Sharing and Resale of Basic Local Exchange Service

S16.1.1 General

a. In general, basic local exchange service is furnished for the exclusive use of the customer, and the customer’s family, guest, employees, agents, or representatives. Resale of basic local exchange service is permitted only under the specific conditions described in this price list. For the purpose of this price list section, "sharing" of basic local exchange service is considered synonymous with "resale" of basic local exchange service.

b. The customer must apply in writing to resell exchange services provided by the Company. When in the judgment of the Company it is deemed necessary, the reseller may be required to submit layout maps defining the intended geographic resale area and anticipated development plan in terms of new or existing buildings.

c. All rates and charges in connection with the resale operation and all repairs and rearrangements behind and including the reseller’s communication system will be the responsibility of the reseller (customer of record)/owner. The reseller will be the single point of contact for all shared tenant services provided in the resale service area. Customers who choose to obtain service directly from the Company may subscribe to any local exchange service available.

Nothing in this price list section impairs the Company’s franchise or ability to operate in the state. This price list is not intended, nor does it, enfranchise or certify the recipients of this service as a telecommunications company.

d. Resale is permitted where facilities permit and within contiguous property areas under the control of a single ownership or within a common development with a single name identity, such as multi-tenant office buildings, apartment and condominium complexes, commercial malls, campus complexes, and office and industrial parks.
SHARED TENANT SERVICE OFFERINGS

S16.1 Sharing and Resale of Basic Local Exchange Service (Cont'd)

S16.1.1 General (Cont'd)

d. Resale is permitted where facilities permit and within … (Cont’d)

Areas designated for resale may be intersected or transversed by public thoroughfares provided that the adjacent property segments created by intersecting or transversing thoroughfares would be continuous in the absence of the thoroughfare. The designated resale service area may extend into contiguous exchange boundaries of the Company.

e. The premises definition as applies to resale of basic local exchange service is a resale area as defined by layout maps, if appropriate. See premises as defined in Section S1 of this price list.

f. Private line services may be provided to tenants of resellers under the rules and regulations specified in Sections S2 and S20 of this price list.

g. Private interconnection of resale service areas within an exchange local calling area is prohibited. Tie Lines are restricted to the private use of a single resale client and cannot be used to access Local Exchange Service via haring and Resale trunks or lines.

h. All other rules and regulations specified in other sections of this price list will apply.

S16.1.2 Regulations and Application of Rates

a. Resale of local exchange service is provided under the applicable PBX access line rate as specified in Section S3.2.1.a or in the Digital Channel Service price list as specified in Section S10.1.

b. The client of the reseller is defined as a different business, firm, corporation, company, subsidiary, association, associate, agent or a residence. One directory listing for each reseller will be provided in the alphabetical section of the directory at no extra charge. Other listings for its clients may be obtained under the conditions and rates specified in Section S6, Directory Listings price list. Client listing charges will not be separately billed.
SHARED TENANT SERVICE OFFERINGS

S16.1 Sharing and Resale of Basic Local Exchange Service (Cont'd)

S16.1.2 Regulations and Application of Rates (Cont'd)

c. The service establishment charge shown in S16.1.3 applies for all resale service applications processed under this price list and is in addition to all other applicable nonrecurring and recurring charges.

d. Whether the tenants included in a resale service area are residence or business, such tenants may be served by the reseller and the same business rates specified in this and other tariffs will apply to the reseller.

e. The minimum period of service is 36 months with a Service Cancellation Fee (SCF) applicable at the date of termination based on the exchange rates in effect. The Service Cancellation Fee is reduced by 1/36 per month and will be an amount equal to the exchange rates for the maximum number of lines subscribed to during the service period. A nine (9)-month notice is required prior to termination of service by the reseller.

f. When a customer located within the designated resale service area wishes to be directly served by the Company on a non-resale basis, or when CenturyTel or customer-provided coin telephone service is to be provided in the resale service area, the reseller will bear the responsibility for and cost of providing premises access for such services. The reseller/owner will make either cable pairs or their equivalents available, or provide facility support (conduit or poles) access to the Company at no charge for provision of these services.

g. The Company will provide facilities to the first point (demarcation/network interface) inside the reseller's premises which, in the judgment of the Company, is suitable for the location of a network interface. The most economical route from existing network distribution facilities will generally determine the approach used in establishing the point-of-demarcation. The customer may designate an alternate approach route for entrance facilities at additional charges as specified in Section S5 of this price list.
SHARED TENANT SERVICE OFFERINGS

S16.1 Sharing and Resale of Basic Local Exchange Service (Cont’d)

S16.1.2 Regulations and Application of Rates (Cont’d)

g. The Company will provide facilities to the first point … (Cont’d)

The Company will extend the point-of-demarcation to any point designated by the reseller inside his premises at the charges specified in Section S4, of this price list. Route selection and location of point-of-demarcation must be in compliance with regulations set forth in other sections of this price list and F.C.C. Part 68.

h. All usual and applicable Service Charges and Installation Charges as appropriate indicated in this and other tariffs apply to the activation, move or change of lines within the sharing and resale offering.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.1 Application

a. This price list is applicable to intrastate long distance message telecommunications service furnished or made available by CenturyTel, hereinafter referred to as the Company, and its connecting companies, between two (2) or more points which are located in the same Local Access and Transport Area (LATA) within the State of Alabama where the respective rate centers of such points also are located in said State.

S18.2 General

a. Long distance message telecommunications service is that of furnishing facilities for communications between stations in different rate centers for either two-point or conference service.

b. Rates for service between points are based on airline mileage between rate centers. In general, each point is designated as a rate center except that certain small towns or communities are assigned adjacent rate centers with which they are closely associated for communication purposes or by community of interest. Airline mileages between rate centers are determined as provided in S18.4 following.

S18.3 Two-Point Service

a. Service Between Land Wire Telephones

(1) Classes of Service

Service is offered on a Dial Station-to-Station, Customer Dialed Calling Card, Operator Station-to-Station, or Person-to-Person basis. Charges for messages within these classes of service are based upon the day of the week and the time of the day when the connection is established.

The following regulations and applicable rates also apply to two-point service from paystations. Applicable usage charges from paystations are dependent upon whether the call is sent-paid (coins deposited for payment) or non-sent-paid (paid for by other than coin deposit).

(a) Dial Station-to-Station

(1) Dial Station-to-Station rates apply only to sent-paid, station-to-station dial type telephone communication.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.3 Two-Point Service (Cont’d)

a. Service Between Land Wire Telephones (Cont’d)

   (1) Classes of Service (Cont’d)

      (a) Dial Station-to-Station (Cont’d)

         (2) Dial type telephone communication denotes a call dialed and completed by the customer from a residence or business telephone without the assistance of an operator and the call is not billed to a number other than the originating number. The services of an operator will not be used in connection with completing a call, or in furnishing any information or assistance relating to billing or charges for such call, except that an operator will:

            - Re-establish a call which has been interrupted after the called number has been reached or,

            - Reach the called telephone number where facilities are not available for customer dial completion.

            - Record the originating telephone number where no automatic recording equipment is available.

            - Place a call for a calling party who identifies himself as being handicapped and unable to dial the call because of his handicap.

(b) Operator Station-to-Station and Person-to-Person

   (1) Operator Station-to-Station rates apply to station-to-station telephone communication where the completion of the call or a request for any information or assistance relating to billing or charges for such call requires the assistance of an operator, except for operator services used in connection with dial type telephone communications as noted above. Operator handled Station-to-station calls include station-to-station calls placed from a pay-station.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.3 Two-Point Service (Cont’d)

a. Service Between Land Wire Telephones (Cont’d)

(1) Classes of Service (Cont’d)

(b) Operator Station-to-Station and Person-to-Person (Cont’d)

(1) Operator Station-to-Station rates apply to … (Cont’d)

(2) Customer Dialed Calling Card rates apply to Station-to-Station telephone communication where the person originating the call dials and completes the call without the assistance of an operator, except that an Operator will record the Company Credit Card number, or where the Operator reaches the called telephone number where facilities are not available for dial completion.

(3) Person-to-Person rates apply where the person originating the call specifies to the operator a particular person to be reached, or a particular station, department, or office to be reached through a PBX attendant.

(2) Initial and Additional Minutes

(a) Rates are quoted in terms of initial and additional minutes.

(1) All initial period rates for Peak and Off-Peak messages given in the rate table in (7) following are for telephone connections of one (1) minute or any fraction thereof.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.3  Two-Point Service (Cont’d)

a.  Service Between Land Wire Telephones (Cont’d)

  (2)  Initial and Additional Minutes (Cont’d)

    (a)  Rates are quoted in terms of initial and additional minutes. (Cont’d)

    (2)  All additional period rates for Peak and Off-Peak messages given in the table in (7) following are for each additional minute or any fraction thereof that the telephone connection continues beyond the initial period.

    (3)  The basic rate for all classes of service is the Station-to-Station rate. Additional amounts as shown under (7)(b) following should be added to the basic rate for all Operator Station and Person classes of service.

  (3)  Timing of Messages

    (a)  The time when connection is established, as provided in (b) through (e) following, determined in accordance with the time - standard or daylight saving - observed at the location of the rate center of the calling station, determines what rate schedule applies. This rule applies whether the call is originated as paid or collect.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.3 Two-Point Service (Cont'd)

a. Service Between Land Wire Telephones (Cont’d)

(3) Timing of Messages (Cont’d)

(a) The time when connection is established, as provided (Cont’d)

(1) In cases where a message begins in one rate period and ends in another, the charge for the portion of the message within each rate period shall be the charge for whole minutes in effect for that rate period.

(b) On station-to-station calls, chargeable time begins when connection is established between the calling station and the called station or PBX system.

(c) On person-to-person calls, chargeable time begins when connection is established between the calling person and the particular person or station specified or an agreed alternate.

(d) Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the operator.

(e) Chargeable time does not include time lost because of faults or defects in the service.

(4) Reversal of Charges (Collect Calls)

(a) Collect calls are permissible for all telephone calls except calls to which dial Station-to-Station or customer dialed calling card rates apply.

(b) The regularly established rates apply.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.3 Two-Point Service (Cont'd)

a. Service Between Land Wire Telephones (Cont'd)

(5) Reserved for Future Use

(6) Rates for Hearing or Speech Impaired Persons or users of the Alabama Relay Center.

(a) Rates for certain MTS calls are reduced for a customer who meets the following requirements:

(1) The customer is certified to the Company as having a hearing or speech impairment that prevents telephone voice communication.

(2) The customer uses a Text Telephone (TT) or other non-voice equipment for telecommunications.

(3) The customer makes written application to the Company for the reduced MTS rates.

(4) The customer designates to the Company one and only one telephone number associated with that customer's service and telecommunications device. Reduced rates apply only to calls originated from this telephone number.

(5) The reduced rates specified in (d) following apply for all calls originated from the designated telephone number.

(6) The customer uses the Alabama Relay Center which permits hearing and/or speech impaired customers to use a Text Telephone (TT) to exchange telephone messages with voice customers and vice versa.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.3 Two-Point Service (Cont'd)

a. Service Between Land Wire Telephones (Cont’d)

(6) Rates for Hearing or Speech Impaired Persons or users of the Alabama Relay Center. (Cont’d)

(b) Rates for certain MTS calls are reduced for an agency or business that assists hearing or speech impaired persons under the following conditions:

(1) The agency or business provides non-voice telecommunications equipment (TT) solely for the use of hearing or speech impaired persons or persons who communicate with hearing or speech impaired persons.

(2) The agency or business makes written application to the Company for the reduced MTS rates.

(3) The reduced rates are given as a credit on a subsequent bill.

(4) The reduced rates specified in (d) following apply for all calls placed between TT’s.

(c) Rates for certain MTS calls are reduced for individuals equipped with TT’s for communicating with hearing or speech impaired persons under the following conditions:

(1) The customer uses a TT or other non-voice equipment for communicating with other TT’s or non-voice equipment.

(2) The customer makes written application to the Company for reduced MTS rates.

(3) The reduced rates are given as a credit on a subsequent bill.

(4) The reduced rates specified in (d) following apply for all calls placed between TT’s.

(d) Applicable Rates

(1) Customers who have been certified to the Company as having a hearing and/or speech impairment which requires them to communicate over telephone facilities by means other than voice and who use data transmitting and receiving terminals of speeds of 110 bauds or less, provided either by the Company or the customer, will be charged as follows for customer dialed direct station-to-station messages.

Peak Periods will be charged for at the Off-Peak rates.

Off-Peak Periods will be discounted an additional 35% off the standard Off-Peak rates.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

</tr>
</tbody>
</table>

* The Off-Peak rates apply all day (12:00 A.M. to 11:59 P.M.) on the following holidays: New Year’s Day (January 1), Independence Day (July 4), Thanksgiving Day (the fourth Thursday in November), and Christmas Day (December 25).
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.4 Conference Service

S18.4.1 General

a. Long Distance Message Telephone Conference Service is that of furnishing connections between three (3) or more land telephone numbers on one (1) connection at the same time.

b. Service is furnished where and to the extent that facilities permit.

c. All stations on a conference connection may be so interconnected that each may communicate with all the others, or arrangements may be made whereby one station will be the transmitting station and all others receiving stations.

d. One class of service only is offered whether the call is to specified persons or specified telephones.

e. The Company, upon request, will attempt to arrange for the establishment of a conference call at a specified time.

S18.4.2 Application of Charges

a. Charges

The total charge for the conference connection is the sum of the following:

(1) For the two (2) stations on the connection farthest apart, the charge is the total charge for a regular two-point Person-to-Person Long Distance MTS message between those two points, as specified in S18.3.1.b.

(2) For each additional station connected, the charge is the same charge that applies for the two stations on the connection farthest apart, as specified in S18.4.2.a(1) preceding. This charge is based on chargeable time (duration) of the message as specified in S18.4.2.b, following.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.4  Conference Service (Cont’d)

S18.4.2  Application of Charges (Cont’d)

b.  Timing of Messages

(1)  The time at the beginning of each minute of connection determines the applicable rate period. The time observed at the rate center of the calling station applies, whether the call is originated as sent-paid or collect.

(2)  Chargeable time begins when connection is established between all the persons on the conference and ends when the connection is terminated at the originating station, except as provided in S18.4.2.b(3) following.

(3)  When the originating customer requests that a station or stations be added to or disconnected from a conference call on which conversation is in progress, it is considered as terminating the call and initiating a new call to the revised group of stations.

(4)  Chargeable time does not include time lost because of faults or defects in the service.

c.  Reversal of Charges

Charges for conference calls may, upon request, be reversed provided the total charge will be billed against one called station and the charge is accepted at the designated station.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.5 Airline Mileage Between Rate Centers

a. General

(1) For the purpose of determining airline mileages vertical and horizontal grid lines have been established across the State of Alabama. The spacing between adjacent vertical grid lines and between horizontal grid lines represents a distance of one coordinate unit. This unit is the square root of 0.1, expressed in airline miles. A vertical (V) and a horizontal (H) coordinate is computed for each rate center from its latitude and longitude location by use of appropriate map-projection equations. These rate centers and their V and H coordinates are shown in S18.5.c following. A pair of V-H coordinates locates a rate center, for determining airline mileages, at a particular intersection of an established vertical grid line with an established horizontal grid line. The distance between any two rate centers is the airline mileage computed as explained in S18.4.b following.

(2) For long distance message telecommunications service the rate center for a point not listed in this section is the rate center for the central office to which the point is assigned for long distance telecommunications rate purposes; where the point is not assigned to a central office, the rate center is the location of the point.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.5  Airline Mileage Between Rate Centers (Cont’d)

b.  Determination of Airline Mileages

(1)  To determine the rate distance between any two rate centers proceed as follows: (1)

(a)  Obtain the "V" and "H" coordinates for each rate center.

(b)  Obtain the difference between the "V" coordinates of the two rate centers. Obtain the difference between the "H" coordinates.

(c)  Divide each of the differences obtained in (b) by three, rounding each quotient to the nearer integer.

(d)  Square these two integers and add the two squares. If the sum of the squares is greater than 1777, divide the integers obtained in (c) by three and repeat step (d). Repeat this process until the sum of the squares obtained in (d) is less than 1777.

(e)  The number of successive divisions by three in steps (c) and (d) determines the value of "N". Multiply the final sum of the two squares obtained in step (d) by the multiplier specified in the following table for the value of "N" proceeding.

<table>
<thead>
<tr>
<th>N</th>
<th>Multiplier</th>
<th>Minimum Rate Mileage</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>0.9</td>
<td>-</td>
</tr>
<tr>
<td>2</td>
<td>8.1</td>
<td>41</td>
</tr>
<tr>
<td>3</td>
<td>72.9</td>
<td>121</td>
</tr>
<tr>
<td>4</td>
<td>656.1</td>
<td>361</td>
</tr>
<tr>
<td>5</td>
<td>5,904.9</td>
<td>1,081</td>
</tr>
<tr>
<td>6</td>
<td>53,144.1</td>
<td>3,241</td>
</tr>
</tbody>
</table>

(1)  The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.5 Airline Mileage Between Rate Centers (Cont’d)

b. Determination of Airline Mileages (Cont’d)

(1) To determine the rate distance between any two rate centers proceed as follows: (1)

(Cont’d)

(f) Obtain square root of product in (e) and with any resulting fraction, round up to
next higher integer. This is the message rate mileage except when the mileage
so obtained is less than the minimum rate mileage shown in (e) preceding, the
minimum rate mileage corresponding to the "N" value is applicable.

(1) EXAMPLE:

The message rate difference is required between Birmingham, Alabama
and Anniston, Alabama.

<table>
<thead>
<tr>
<th>V</th>
<th>H</th>
</tr>
</thead>
<tbody>
<tr>
<td>(a) Birmingham</td>
<td>7518</td>
</tr>
<tr>
<td>Anniston</td>
<td>7406</td>
</tr>
<tr>
<td>(b) Difference</td>
<td>112</td>
</tr>
<tr>
<td>(c) Dividing each difference by three (3) and rounding to nearer integer</td>
<td>37 and 47.</td>
</tr>
<tr>
<td>(d) Squaring integers and adding.</td>
<td>37 x 37 = 1369</td>
</tr>
<tr>
<td>47 x 47 = 2209</td>
<td></td>
</tr>
<tr>
<td>3578</td>
<td></td>
</tr>
</tbody>
</table>
| (e) Sum of integers is greater than 1777 so divide integers in (.c) by
three and repeat (d). |
| (f) Dividing integers in (c) by three (3) and rounding = 12 and 16. |
| (g) Squaring integers and adding. | 12 x 12 = 144 |
| 16 x 16 = 256 |
| 400 |
| (h) The sum of the squared integers is less than 1778 and was obtained
after two successive divisions by three (3), therefore "N" = 2. |

(1) The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.5 Airline Mileage Between Rate Centers (Cont’d)

b. Determination of Airline Mileages (Cont’d)

(1) To determine the rate distance between any two rate centers proceed as follows: (1)
(Cont’d)

(f) Obtain square root of product in (e) and with any resulting fraction, … (Cont’d)

(1) EXAMPLE: (Cont’d)

(i) Multiply final sum of squared integers by "N" = 2 factor of 8.1
    400
    x 8.1
    3240.0

(j) Square root of 3240.0 = 56 and a fraction which is rounded up to 57 miles (fractional miles being considered full miles). The 57 miles is larger than the minimum of 41 rate miles when "N" = 2 so the message rate mileage is 57 miles.

(1) The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.10 Optional Calling Plans

S18.10.1 General

a. Description of Service

Optional Calling Plans are specially designed toll plans applicable to intrastate subscriber-dialed station-to-station sent paid toll messages placed from the Optional Calling Plan subscriber's telephone during the service period to stations in the prescribed terminating exchange, exchange or area. All other toll messages will be billed as regular toll messages.

b. General Regulations

(1) Liability of the Telephone Company

Adjustments will not be applicable on measured rate service until the subscriber has used a minimum of one-half hour's service in a given month.

(2) Limitation of Service

(a) Optional Calling Plans will be offered to exchanges as set forth in S18.10.2 following.

(b) Offering of this service is subject to availability of facilities as determined by the Company.

(3) Use of Service

The service is furnished subject to regulations in Section S2, including those regulations which restrict use of the service to communications in which the customer has a direct interest and prohibit payment to the customer by another for use of the service.

(4) Minimum Contract Period

The minimum contract period is one month, except that a longer period applies, as specified in Section S6 of this Price list, when a two-way subscriber has a foreign listing printed in the distance directory which indicates no charge applies for direct dialed calls to the subscriber's number.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.10 Optional Calling Plans (Cont'd)

S18.10.1 General (Cont'd)

b. General Regulations (Cont'd)

(5) Suspension of Service

Service will be suspended for causes other than those enumerated in Section S2 preceding, only as a result of the suspension of the service with which associated.

(6) Continuity of Service

In case of connection of an Optional Calling Plan for the same customer where Optional Calling Plan service has been disconnected at the same location less than two (2) weeks previously, charges for the service will commence one day following the disconnect date of the prior service.

S18.11 Reserved for Future Use
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.12 Calling Plans-CenturyTel Discount Calling Plans

S18.12.1 CenturyTel Easy Savings Plan for Residence

a. General

CenturyTel Easy Savings Plan is an optional 1+, 0+ and 0- Intrastate IntraLATA Long Distance Message Telecommunications Service offered only to Residence customers in CenturyTel exchanges.

b. Regulations

This Plan provides discounts on CenturyTel Long Distance Message Telecommunications Service Intrastate IntraLATA calls to exchanges within the customer's LATA. The Discounts apply when the customer meets the required monthly toll usage dollar amount. There is no monthly rate or nonrecurring charge associated with CenturyTel Easy Savings Plan. The Plan is applicable to all Rate Periods messages:

Dial Station-to-Station
Operator Station-to-Station and Person-to-Person

Dial Station-to-Station is that service where the person originating the call dials the telephone number desired or gives to the Company operator the telephone number of the desired telephone.

Two classes of Dial Station-to-Station service are offered as follows:

(1) Dial Station-to-Station is that station-to-station service where the person originating the call from other than a public or semipublic coin or coinless telephone dials the telephone number desired and the call is completed without the assistance of a Company operator (or placed with an operator where facilities are not available for call completion or where, for other service reasons, operator assistance in completion of the call is necessary) and the call is billed to the originating number.

Also includes Customer Dialed Calling Card calls where the person originating the call dials and completes the call without the assistance of an operator.

S18.12.1 CenturyTel Easy Savings Plan for Residence (Cont’d)

b. Regulations (Cont’d)

(2) Operator Station-to-Station and Person-to-Person is that station-to-station service other than Dial Station-to-Station service. Operator Station-to-Station and Person-to-Person is that service where the completion of the call or a request for any information or assistance for such call requires the assistance of an operator. The CenturyTel Easy Savings Plan applies to the message toll portion of the call and to the Operator Assisted Service Charges portion as specified in Section S18.3.1 of this Price list.

CenturyTel exchanges –
Local and CenturyTel Local Plans calls as specified in Sections S3.2 and S13.14 of this Price list do not apply to the CenturyTel Easy Savings Plan.

A customer may only subscribe to one CenturyTel Discount Calling Plan per main billed account at any given time.

The minimum service period for CenturyTel Easy Savings Plan is one (1) month.

The application of usage rates and timing of messages is as specified in Section S18.3.a. of this Price list.

Customers have the option to choose their preferred peak calling hours for Monday through Friday. The choices are:

<table>
<thead>
<tr>
<th>Time</th>
<th>Rates</th>
</tr>
</thead>
<tbody>
<tr>
<td>5:00 a.m. to, but not including 5:00 p.m.</td>
<td>19195</td>
</tr>
<tr>
<td>6:00 a.m. to, but not including 6:00 p.m.</td>
<td>19196</td>
</tr>
<tr>
<td>7:00 a.m. to, but not including 7:00 p.m.</td>
<td>19197</td>
</tr>
<tr>
<td>8:00 a.m. to, but not including 8:00 p.m.</td>
<td>19198</td>
</tr>
</tbody>
</table>

Off-Peak rates shall apply for all other hours Monday through Friday, all day Saturday, Sunday and holidays as specified in Section S18.3.a. (7)(c).

This option is available to new and existing CenturyTel Easy Savings Plan for residence customers and may be changed up to three (3) times per year, at no charge to the customer.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.12 Calling Plans-CenturyTel Discount Calling Plans (Cont'd)

S18.12.1 CenturyTel Easy Savings Plan for Residence (Cont’d)

c. Application of Discount

The Discounts are provided to the Company's customer only and shall not be used for any purpose for which a payment or other compensation shall be received by the customer from any other person, firm or corporation for such use.

CenturyTel Easy Savings Plan Discount percentages apply to the message toll portion of the call and to the Operator Assisted Services Charges, if applicable.

These Discounts are applicable to the CenturyTel Easy Savings Plan only and do not apply to any other CenturyTel offered intraLATA plan.

These discounts will include monthly usage (including service charges and surcharges) for customer dialed direct station-to-station, customer dialed calling card station-to-station, operator assisted station-to-station, operator assisted calling card station-to-station and person-to-person calls that are carried and billed by the Company.

In calculating the usage volume discount, the discount will generally be applied against the customer’s intrastate intraLATA charges. However, if the intraLATA offering is part of a joint toll offering, which is an agreement between CenturyTel and any certified telecommunications provider to jointly offer toll service, the threshold for application of the discount will be determined by total gross monthly toll usage associated with the joint offer. In that case, the discount applied will be as specified by the joint offering, and the discount will be apportioned to the proper jurisdiction proportional to the accumulated usage charges.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.12.1 CenturyTel Easy Savings Plan for Residence (Cont’d)

d. Rates

Residential customers who subscribe to the CenturyTel Easy Savings Plan will receive the following discount percentage on all toll usage billed for the month when their monthly toll usage meets:

<table>
<thead>
<tr>
<th>Monthly Toll Usage Volume</th>
<th>Discount</th>
</tr>
</thead>
<tbody>
<tr>
<td>$ 0.00 - $ 9.99</td>
<td>0%</td>
</tr>
<tr>
<td>10.00 - 24.99</td>
<td>10%</td>
</tr>
<tr>
<td>25.00+</td>
<td>25%</td>
</tr>
</tbody>
</table>

No Service Ordering Charges, as specified in Section S4.3 of this Price list, will apply when subscribing to this Plan.

S18.12.2 CenturyTel Easy Savings Plan for Business

a. General

CenturyTel Easy Savings Plan for Business is an optional 1+, 0+ and 0- Intrastate IntraLATA Long Distance Message Telecommunications Service offered only to Business customers in CenturyTel exchanges.

b. Regulations

This Plan provides discounts on CenturyTel Long Distance Message Telecommunications Service Intrastate IntraLATA calls to exchanges within the customer’s LATA. The Discounts apply when the customer meets the required monthly toll usage dollar amount. There is no monthly rate or nonrecurring charge associated with CenturyTel Easy Savings Plan for Business. The Plan is applicable to all Rate Periods messages:

Dial Station-to-Station
Operator Station-to-Station and
Person-to-Person
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.12 Calling Plans-CenturyTel Discount Calling Plans (Cont’d)

S18.12.2 CenturyTel Easy Savings Plan for Business (Cont’d)

b. Regulations (Cont’d)

Dial Station-to-Station is that service where the person originating the call dials the telephone number desired or gives to the Company operator the telephone number of the desired telephone.

Two classes of Dial Station-to-Station service are offered as follows:

(1) Dial Station-to-Station is that station-to-station service where the person originating the call from other than a public or semipublic coin or coinless telephone dials the telephone number desired and the call is completed without the assistance of a Company operator (or placed with an operator where facilities are not available for call completion or where, for other service reasons, operator assistance in completion of the call is necessary) and the call is billed to the originating number.

Also includes Customer Dialed Calling Card calls where the person originating the call dials and completes the call without the assistance of an operator.

(2) Operator Station-to-Station and Person-to-Person is that station-to-station service other than Dial Station-to-Station service. Operator Station-to-Station and Person-to-Person is that service where the completion of the call or a request for any information or assistance for such call requires the assistance of an operator. The CenturyTel Easy Savings Plan for Business applies to the message toll portion of the call and to the Operator Assisted Service Charges portion as specified in Section S18.3.a. of this Price list.

CenturyTel exchanges -
Local and CenturyTel Local Calling Plan calls as specified in Sections S3.2 and S13.14 of this Price list do not apply to the CenturyTel Easy Savings Plan for Business.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

b. Regulations (Cont'd)

A customer may only subscribe to one CenturyTel Discount Calling Plan per main billed account at any given time.

The minimum service period for CenturyTel Easy Savings Plan for Business is one (1) month.

The application of usage rates is as specified in Section S18.3.a of this Price list. Sub-minute rating will be utilized for the timing and rating of CenturyTel Easy Savings Plan for Business messages. Sub-minute rating consists of the initial eighteen (18) seconds of the first minute rated at the appropriate initial period rate (1st Minute Rate prorated for eighteen (18) seconds) and then each increment of six (6) seconds thereafter is rated at the appropriate additional period rate. (Each Additional Minute Rate prorated for six (6) seconds). Rates shown in the following table are applicable to the CenturyTel Easy Savings Plan for Business messages.

c. Application of Discounts

The Discounts are provided to the Company's customer only and shall not be used for any purpose for which a payment or other compensation shall be received by the customer from any other person, firm or corporation for such use.

CenturyTel Easy Savings Plan for Business Discount percentages apply to the message toll portion of the call and to the Operator Assisted Services Charges, if applicable.

These Discounts are applicable to the CenturyTel Easy Savings Plan for Business only and do not apply to any other CenturyTel offered intraLATA plan.

These discounts will include monthly usage (including service charges and surcharges) for customer dialed direct station-to-station, customer dialed calling card station-to-station, operator assisted station-to-station, operator assisted calling card station-to-station and person-to-person calls that are carried and billed by the Company.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.12 Calling Plans-CenturyTel Discount Calling Plans (Cont'd)

S18.12.2 CenturyTel Easy Savings Plan for Business (Cont'd)

c. Application of Discounts (Cont'd)

In calculating the usage volume discount, the discount will generally be applied against the customer's intrastate intraLATA charges. However, if the intraLATA offering is part of a joint toll offering, which is an agreement between CenturyTel and any certified telecommunications provider to jointly offer toll service, the threshold for application of the discount will be determined by total gross monthly toll usage associated with the joint offer. In that case, the discount applied will be as specified by the joint offering, and the discount will be apportioned to the proper jurisdiction proportional to the accumulated usage charges.

d. Term Periods

A customer may select a Term Period for CenturyTel Easy Savings Plan for Business. The Term Periods allow a customer to take advantage of higher discount percentages on their toll usage volumes for a one (1), two (2) or three (3) year term period.

The customer must specify the Term Period at the time the Plan is ordered.

During a Term Period, the customer may elect to convert to a new Term Period of the same or different length. Conversion to a new Term Period will be allowed without penalty if the expiration date of the new Term Period is greater than the remainder of the original Term Period.

At the expiration of a Term Period, the Company will continue to provide CenturyTel Easy Savings Plan for Business at the customer's current Term Period for a sixty (60) day time frame (i.e., grace period). After the sixty (60) days, the Company will convert the customer to the Month-to-Month Discount percentages unless the customer chooses to renew for the same Term Period, converts to a different Term Period, or discontinue service.
LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

S18.12 Calling Plans - CenturyTel Discount Calling Plans (Cont’d)

S18.12.4 CenturyTel Easy Savings Flat Rate Plan for Business

a. General

CenturyTel Easy Savings Flat Rate Plan for Business offers a flat rate pricing, available twenty-four (24) hours a day, seven (7) days a week to business customers in CenturyTel exchanges. The Flat Rate Plan is offered on a month-to-month basis and with contract term options of one (1), two (2) or three (3) years. The minimum service period for CenturyTel Easy Savings Flat Rate Plan is one month. There is a monthly recurring charge for the Flat Rate Plan for Business and calls will be billed in sixty (60) second increments. There is no nonrecurring charge associated with this Plan.

The Flat Rate Plan for Business applies to the following types of calls:

- Customer Dialed Direct Station-to-Station
- Customer Dialed Calling Card Station-to-Station
- 800/877/888 Toll Free
- Operator Assisted Station-to-Station
- Operator Assisted Calling Card Station-to-Station
- Operator Assisted Person-to-Person

Operator assisted service charges, as specified in Section S18.3.a(7)(b), will apply when appropriate.

No service ordering charges, as specified in Section S4.3, will apply when subscribing to this plan.

The customer must specify the term period at the time the Plan is ordered. During a term period, the customer may elect to convert to a new term period of the same or different length, or to another CenturyTel optional calling plan. Conversion to a new term plan or another CenturyTel optional calling plan will be allowed without a penalty if the new term period is greater than the remainder of the original term period.

In the event the Flat Rate Plan is terminated by the customer prior to completion of the initial term period, the customer will be liable for a termination liability charge. The customer will be required to pay $25.00 for each month remaining in the term period selected by the customer.

PRIVATE LINE SERVICE AND CHANNELS

S20.1 Interexchange Private Line Service

S20.1.1 Concurrence for Certain Private Line Services

a. The company concurs with Section 17.7 of the CenturyTel of Northern Alabama d/b/a CenturyLink General Customer Services Price List for the purpose of providing Interexchange Private Line Service within its serving territory.

For intraexchange private line services and channels not described herein, see Section 17.7 of the CenturyTel of Northern Alabama d/b/a CenturyLink General Customer Services Price List and/or Section S23 herein for Advanced Data Services.

b. This Company is an issuing carrier in the rates and regulations for channels for program transmission service as set forth in CenturyTel's Interstate tariffs CLOC FCC No. 2 and No. 3.

S20.2 Intraexchange Private Line Service

S20.2.1 Local Private Line Service

a. Regulations

(1) Scope of Service

(a) Local private lines connect two or more points within the same exchange service area for telephone communication, but are not connected to general telephone facilities for either exchange or toll service.

(b) Both two-point and multi-point service ordinarily contemplates communication between two stations only at the same time.

In connection with multi-point service, arrangements may be made to permit communication between three or more stations at the same time. Special equipment and arrangements which may be required to furnish such service are furnished at rates and charges based upon estimated costs.

(c) The minimum contract period for local private line telephone service is one month.
PRIVATE LINE SERVICE AND CHANNELS

S20.2 Intraexchange Private Line Service (Cont’d)

S20.2.1 Local Private Line Service (Cont’d)

a. Regulations (Cont’d)

(2) Allowance for Interruptions

No allowance is made for interruptions of less than twenty-four (24) hours. For interruptions of twenty-four (24) hours or more, credit is allowed for the proportionate part of the monthly charge in multiple of one (1) day for each twenty-four (24) hours or major fraction thereof, of interruption for the portion of the facilities rendered inoperative by reason of the interruption.

(3) It is expressly declared that fully metallic facilities are in continually decreasing supply, and the Company is not obligated to continue to make such facilities available or to furnish to existing customers fully metallic facilities.

b. Rates and Charges

(1) Channels

(a) For the first mile or fraction thereof, airline measurement $23.00

(b) For each additional quarter mile or fraction thereof, airline measurement 5.75

Note: Where because of the characteristics of the customer's equipment or operation or at the request of the customer, it is necessary to provide two (2) pairs of circuits, a charge for two (2) local channels will apply.

(2) Special arrangements requested by the customer are furnished where feasible and if not detrimental to the service at rates and charges based on estimated costs. Where arrangements as covered elsewhere in this price list may be used with local private line telephone service without modification or change, the rates and charges for such arrangements are as specified in the other price list sections.
PRIVATE LINE SERVICE AND CHANNELS

S20.2 Intraexchange Private Line Service (Cont'd)

S20.2.1 Local Private Line Service (Cont'd)

b. Rates and Charges (Cont'd)

(3) Service Charges

(a) For installation, move, or change of each channel termination, the service charges specified in Section S4.3 will apply.

(b) Transfer of service and Service charges responsibility from one Service charges specified in customer to another, or Section S4.3 reconnection of left in will apply facilities without move or change, entire service

Note: Above charge does not apply if transfer of service or reconnection of left-in facilities is made coincident with transfer or connection of left-in basic local exchange service for which service charges apply.

(4) Channel Conditioning Arrangement

(a) Type C1 - Description (For a two-point or multi-point channel)

The envelope delay distortion shall not exceed:

Between 1000 and 2400 cps, a maximum difference of 1000 mcs.

The loss deviation with frequency (from 1000 cps. reference) shall not exceed:

Between 1000 and 2400 cps, -1dB to +3dB
Between 300 and 2700 cps, -2dB to +6dB

(+ means more loss)

S20.2 Intraexchange Private Line Service (Cont'd)

S20.2.1 Local Private Line Service (Cont'd)

b. Rates and Charges (Cont'd)

(4) Channel Conditioning Arrangement (Cont’d)

(b) Type C2 - Description (for two-point or multi-point)

The envelope delay distortion shall not exceed:

Between 1000 and 2600 cps, a maximum difference of 500 mcs.

Between 600 and 2600 cps, a maximum difference of 1500 mcs.

Between 500 and 2800 cps, a maximum difference of 3000 mcs.

The loss deviation with frequency (from 1000 cps reference) shall not exceed:

Between 500 and 2800 cps, -1dB to +3dB
Between 300 and 3000 cps, -2dB to +6dB

(+ means more loss)

(c) When, at the request of the customer, a channel is conditioned in accordance with the specifications in (4)(a) & (b) preceding, a channel conditioning charge applies to the first station only at each building except that two channel conditioning charges apply for a channel located within the same building, at the following charges:

Between buildings in the same exchange on a two-point or multi-point channel (not arranged for switching), or for a channel located within the same building:

* The Basic Termination Charge will be reduced 1/60 for each month of service.

S20.2.4 Channels for Program Transmission

a. General

(1) The service and channels provided under this section are not furnished for the commercial transmission of communications between exchanges nor for the use in competition with any service by the Telephone Company or its connecting companies.

(2) Provision of all service described herein is subject to the availability of facilities and limitation in operating characteristics of the equipment.

b. Rates

(1) These services are furnished in accordance with the rates and regulations set forth in CenturyLink’s Interstate tariffs, CLOC F.C.C. 2 and F.C.C. 3.

\[^{1}\] Effective June 1, 2020 Channels for Piped Music Systems are grandfathered. Availability to current customers is limited to circuits in service at existing locations.
PRIVATE LINE SERVICE AND CHANNELS

S20.2 Intraexchange Private Line Service (Cont'd)

S20.2.5 Digital Data Service [1]

a. Digital Private Line Service is furnished for intraexchange communications by the Company.

This service will be provided according to the regulations set forth in the FACILITIES FOR INTRASTATE ACCESS TARIFF for Dedicated Access Services.

The Dedicated Access Services rates as provided in Section 7 of the FACILITIES FOR INTRASTATE ACCESS TARIFF shall apply.

The applicable Nonrecurring Charges as specified in Section 7.7 of the FACILITIES FOR INTRASTATE ACCESS TARIFF shall apply.

Miscellaneous Service available to the customer from Section 13 of the FACILITIES FOR INTRASTATE ACCESS TARIFF includes the following:

- Additional Labor
- Maintenance of Service Charge
- Telecommunications Service Priority (TSP) System
- Additional Testing

Channels for program transmission service will be furnished in accordance with CenturyLink's Interstate tariffs, CLOC F.C.C. 2 and F.C.C. 3.

[1] Effective June 1, 2020 Digital Data Services are grandfathered. Availability to current customers is limited to circuits in service at existing locations.
PRIVATE LINE SERVICE AND CHANNELS

S20.3 Channels for Use with Limited Distance Modems (LDM)

S20.3.1 General

 a. Channels required for LDM service are provided at the rates and charges specified for Local Private Line Service in S20.2.1 preceding.

S20.3.2 Regulations

 a. Limited Distance Modem Channels require unloaded cable facilities, and channels will be furnished only where operating and facility conditions exist. In the event that only loaded facilities are available, the Company will, at the customer's request, unload the facilities at the charges shown in S20.3.4.

 b. Channels will be furnished only to connect customer locations within the same central office serving area and where the total route mileage of the channel does not exceed six (6) miles.

 c. When the Company is required to make changes in any of the channels, operations or procedures of the Company, the Company does not guarantee the continued availability of the Limited Distance Modem Channels furnished. The Company reserves the right, after thirty (30) days' written notice to the customer, to discontinue the provision of such channels.

**c. Maintenance of Service Charge**

Where a customer provided his own Limited Distance Modem(s) and the Company supplies the cable pair(s) to each point, the maintenance of service charge as specified in S2.7.4 of this price list will apply.

(T)
PRIVATE LINE SERVICE AND CHANNELS

S20.4 1.544 Megabit Service

a. General

(1) This price list contains the regulations and rates applicable to 1.544 Megabits per second service (1.544 Mbps) furnished for private line intraexchange communications.

(2) 1.544 Mbps service provides for the simultaneous transmission of bipolar data signals at the rate of 1.544 Mbps over network facilities between customer locations within an exchange.

(3) The rates specified for 1.544 Mbps service contemplate the provision of a digital quality facility over existing exchange facilities compatible with this service. If such facilities or changes to existing facilities are required to provide 1.544 Mbps service, a charge based on the cost incurred will apply in addition to the rates for the service.

b. Regulations

(1) Description of Service

Service is furnished for the simultaneous transmission of bipolar data signals at the rate of 1.544 Mbps between two (2) points located in an exchange.

(2) Definitions

1.544 Access Line - A 1.544 Access Line provides the transmission facilities between a customer-designated premises and the serving wire center of that premises. One 1.544 Access Line charge applies per customer designated premises at which the facility is terminated.

1.544 Special Transport - The 1.544 Special Transport rate element provides for the transmission facilities between the serving wire centers associated with customer designated premises.
PRIVATE LINE SERVICE AND CHANNELS

S20.4 1.544 Megabit Service (Cont’d)

b. Regulations (Cont’d)

(3) Connections

(a) Responsibility of the Customer

Where a customer elects to connect a communications system to 1.544 Mbps service the customer shall be responsible for:

i. Compatibility of the connected communications system and the 1.544 Mbps service.

ii. Testing and clearance of trouble conditions or service difficulties on any communications system which is connected to 1.544 Mbps service.

(b) Responsibility of the Company

i. The Company shall not be responsible to the customer if changes in any of the facilities, operations or procedures of the Company utilized in the provision of 1.544 Mbps service render any facilities provided by a customer obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.

ii. The Company undertakes to maintain and repair the facilities which it furnishes. The customer may not rearrange, disconnect, remove or attempt to repair any facilities installed by the Company.
PRIVATE LINE SERVICE AND CHANNELS

S20.4 1.544 Megabit Service (Cont’d)

S20.4.1 Rates and Charges

a. The rates below are for 1.544 Mbps service furnished for private line intraexchange communications. The minimum period for which service is furnished and for which charges are applicable is twelve (12) months.
