

Summary of Notes for CenturyLink Regional Performance Results Report

June 10, 2017

General Comments:

- This Summary of Notes is based on the current PID in effect in each state in accordance with state-by-state implementation. Detailed information on which PID (Exhibit B) version is in effect can be viewed on line at <http://www.centurylink.com/wholesale/clecs/nta.html>
- Instances where no CLEC and/or CenturyLink results are reported for a particular month, and instances where no measurement is reported, are due to no CLEC activity.
- New Service Quality (OP-5) and Repair Repeat Report Rate (MR-7) are reported one month in arrears. When a documented code change includes one of these PIDs, the impacted month is one month behind. As an example, if the change applied to OP-3, OP-4, and OP-5 as was completed in the June 2016 release, June would be reported in the implementation column. This would indicate that the change applied to June results going forward for OP-3 and OP-4, but since OP-5 is reported one month in arrears, the change applied to the May results reflected on the June report and going forward.
- When a change requires a rerun of historical data the effective date column will record the start month for the rerun.
- Eff 8/04 Wholesale results for BI-2 - Invoices Delivered within 10 Days may include non-251 products provisioned as part of Commercial Agreements. This level of identification/exclusion from 271 Billing results is not available at this time.
- VoIP Listings are included in the batch process and therefore included in performance results for DB-1 - Time to Update Databases effective 8/6/04.
- For notes regarding monthly reports for 2016, see Summary of Notes for January 2016 through December 2016.
- Summary of Notes is published on an as needed basis when reportable changes to the reports are made.

PID Numbers	Products (if applicable)	Description of Note/Comment	Implementation Month	Effective Month
Definitions of Terms - Inward Activity	LIS and FGD	Using the TIRKS and WFAC Action Code of 'A' (Add), 'R' (Rearrange), and 'RG' (Rearrange Group) to identify orders with Inward Activity post the EXACT to EASE conversion.	Feb-17	Feb-17
OP-3, OP-4 & OP-5	All	Added new miss code for more accurate reporting of commitments.	May-17	May-17
