

In today's competitive marketplace, companies need to modernize their IT environments in order to survive and thrive. However, with ever-growing network assets and increasingly complex infrastructure, companies are often challenged by a lack of visibility into their physical, virtual and cloud environments. CenturyLink provides Basic Network Discovery which will help you scan your complete network inventory and collect all relevant data on your network devices, as well as performance issue details. CenturyLink combines best-in-class network discovery tools and deep networking experience to help you identify top network architectural issues that can help improve network performance and save you time and money.

### Business Solutions

**CenturyLink Basic Network Discovery** gives you insight into your network topology as well as valuable assessments and recommendations for remediation to optimize functionality. This, along with the insights you gain in performance issues, will help you make informed decisions and drive better business outcomes.

**CenturyLink Basic Network Discovery** is designed to provide:

#### Physical Inventory

- Network device hardware inventory spreadsheet
  - Physical hardware inventory of network devices (serial numbers if possible)

#### Documentation Engagement Portfolio

- Executive summary documentation
  - Overall summary review

### Network monitoring for medium-sized companies and beyond

Basic Network Discovery is for customers who have up to 500 devices and up to two locations.

#### CenturyLink Basic Network Discovery Engagement includes:

- An assessment of your network by location and IP-segments
- Hardware inventory pertinent to locations of network devices and their functions
- Collection and reporting of network and network device utilization for oversubscribed or bandwidth-limited hot spots

#### Fixed Price

Basic Network Discovery is a fixed price assessment and uses a standard SOW.

#### Deliverables

- Executive summary documentation
- Overall summary review
- Network topology (PDF)
- Network inventory (MS Excel)
- Top five risks including network hot spots

### Why Choose CenturyLink?
