

Cisco Webex Calling delivered by CenturyLink

DATA SHEET

Improve your collaboration capabilities with a robust cloud-based calling platform that is flexible and easy to use.

Businesses are constantly being asked to do more with less. It is a challenge to optimize collaboration with your customers and employees with fewer resources available. You need new solutions that are easy to integrate and won't overwhelm your already overloaded IT staff, while still fitting into your budget. These features need to be robust, manageable and reliable, allowing you to focus on your day-to-day business.

CenturyLink has partnered with Cisco to offer a solution to your collaboration challenges, Cisco Webex Calling delivered by CenturyLink. Regardless of where your customers or employees are located, with this solution, they will have the ability to engage in continuous collaboration.

Business Solutions

Cisco Webex Calling offers a standardized set of features along with the flexibility to customize as needed. For example, by adding cloud calling, you can seamlessly move from a phone conversation, to messaging, to a meeting as your discussions evolve.

CenturyLink will partner with you to plan, deploy and maintain your calling solution via our robust customer service team, providing you a reliable and secure end-to-end experience.

Efficiency

This solution helps provide you the ability to manage one vendor for your network, applications and support. Simplifying to one vendor can help streamline processes and keep your users more productive.

Flexibility

Move effortlessly from calling, to messaging, to meetings within our flexible environment for a consistent and continuous collaboration experience.

Growth

Cisco Webex Calling offers an audio and video platform that seamlessly integrates and helps provide you a simple, cost-effective solution that is easy to scale as your business grows and changes.

Agility

Enjoy peace of mind that there is a redundant environment available, if needed, with this cloud-based calling solution. If emergencies arise, Cisco Webex Calling can provide you with the reliable service you need, and the flexibility to scale and add more users when the need arises.
