CenturyLink IQ+[®] Financial Network

DATA SHEET

Market data and trading connectivity

Market data is the lifeblood of financial markets. Whatever purpose — price discovery, post-trade processing, portfolio valuation — CenturyLink provides latency-optimized connectivity to over 200 exchange and liquidity venue feeds across the globe.

CenturyLink IQ+ Financial Network is a secure, fully managed and highly resilient network designed specifically for the demanding needs of financial markets. It provides access to a wide range of liquidity venues and trading participants, both locally and globally. The IQ+ Financial Network is a purpose-built, ultra-low latency service which addresses your pre-trade, order execution and post-trade requirements. The IQ+ Financial Network, and the customers that leverage it for their market connectivity, are supported by an unsurpassed depth of experience in serving the financial markets.

Market data and trading connectivity packages

With market data and IT budgets constantly under scrutiny, wouldn't it be nice to access the multi-asset class content and trading connectivity your firm requires at predictable and competitive pricing? This is particularly helpful if your needs change over time, but your budget doesn't.

CenturyLink is pleased to announce the availability of flexible and scalable market data and trading connectivity options covering a wide range of exchanges and trading venues across the globe. Choose from the ports and venues tables on the next page to define the package that best fits your firm's requirements.

Features & Benefits

- Add, drop, change constituent feeds and connectivity options as needs dictate
- Leverages the lowest latency physical routes, utilizing latency-optimized network infrastructure and real-time monitoring precise to the microsecond
- Resiliency through use of primary and secondary network ports
- Includes access to CenturyLink's customer portal to view a range of statistics, including bandwidth usage, latency, micro bursting and gapping measurements for all exchanges available on IQ+ Financial

Terms & Conditions

- Minimum one-year contract, with two and three-year options available
- Offer limited to renewals and new customers
- Available in a number of Cyxtera, Equinix and other third-party data centers across North America and the U.K.
- Additional "last mile" connectivity and charges required for delivery to other locations
- Excludes additional third-party charges such as exchange and redistribution, taxes, fees and surcharges

Port Bandwidth in Mbps	CE Option	Monthly Charge (USD)
2	No CPE	\$225
10	No CPE	\$400
100	No CPE	\$550
1000	No CPE	\$950
10000	No CPE	\$1,950
40000	No CPE	\$6,500
2	Juniper EX3300	\$275
10	Juniper EX3300	\$450
100	Juniper EX3300	\$600
1000	Juniper EX3300	\$1,000
100	Juniper EX4300	\$1,400
1000	Juniper EX4300	\$1,800
10000	Juniper EX4300	\$2,450
100	Juniper EX4300F	\$1,500
1000	Juniper EX4300F	\$1,900
10000	Juniper EX4300F	\$2,550
100	Arista 7124	\$1,850
1000	Arista 7124	\$2,250
10000	Arista 7124	\$2,900

All charges appearing are per port and exclude applicable taxes, fees and surcharges. Listed bandwidth speeds are not guaranteed and can vary due to conditions outside of network control, including customer location, equipment and access through a wireless connection. Rates are current as of March 2019.

Venues

Exchange	Sizing	Monthly charge (per port)	Install charge (per port)
