

CenturyLink CDN

fast, secure, reliable delivery where you want, when you want

Deliver quality end user experiences with the CenturyLink® Content Delivery Network.

Everywhere in the world, at all times of the day, your customers demand a perfect experience. Deliver on those expectations through fast, secure and reliable access with the CenturyLink Content Delivery Network. The scale and power of the CenturyLink global fiber network delivers video content and digital downloads to devices virtually anywhere — all while protecting your content, information and customers through inherently secure IP infrastructure.

CenturyLink Customer

Security with a global perspective

Because our CDN rides on the vast CenturyLink IP backbone, network-based security is inherent and our Threat Research Labs and Security Operations Center professionals have broad visibility into potential threats.

Connectivity to leading cloud partners

Our IP network is directly connected to major cloud storage platforms and we can access your content library for global delivery over our CDN.

Global reach with PoPs in **120** major markets on six continents.
