## Tailor your service to your needs

Line #	Your need	CenturyLink Choice™ package
Line 1	This is your main office line. It is a published telephone number, and your customers must always be able to reach you on this line.	You might choose Business Plus with Business voicemail, call forwarding and call waiting.
Line 2	Calls roll to this line when your main number is busy.	You might choose Business Add-A-Line with series hunting to transfer calls to Line 2.
Line 3	This might be your fax and credit card line. You do not need this line to tie into your main number.	Business Add-A-Line without any features can handle fax and credit card verification duties.
