CenturyLink® Business

DATA SHEET

CenturyLink® Managed Enterprise

with Cisco Meraki

Managed by CenturyLink for Fast WiFi and Network Deployment, Scalable Growth, and Increased Security

CenturyLink Managed Enterprise with Cisco Meraki is a secure, simple WiFi and networking solution with enhanced reporting — Simply managed for your business.

CenturyLink Managed Enterprise with Cisco Meraki is a great fit for Businesses that:

- Need a simple, secure WiFi solution with <50 devices (per location) that can be centrally controlled and managed
- Need a fast and standardized WiFi deployment and automated setup for business locations
- Would like to implement WiFi networks with few IT resources and without breaking the IT budget
- Need visibility and control over the WiFi network
- Need to provide employee and customer WiFi that aids with industry compliance — PCI, HIPAA, IIHI
- Need a WiFi experience for customers that also promotes products and services
- Could benefit from more secure and efficient WAN network options

CenturyLink Managed Enterprise with Cisco Meraki Delivers:

- A secure WiFi and networking platform that you don't have to maintain or manage
- A managed model where you can pay monthly for what you need now and simple growth plans as your business grows. Fully Managed, Partial, and Monitor/Maintain options available.
- Improved employee and customer wireless experience
- The ability to promote your brand to your customers
- Increased network security and reduced compliance risks
- Unsurpassed visibility and control over your network using a simple, comprehensive web-based management tool
- Secure WAN networking options that improve network efficiency and security
