

CENTURYLINK® VOICE COMPLETE® AND SKYPE® FOR BUSINESS AUDIO CONFERENCING

COLLABORATION ENABLEMENT SOLUTION ALLOWS YOU TO MOVE TO SKYPE CONFERENCING TO REDUCE COSTS AND LOWER RISKS

Moving to Microsoft® Skype® for audio conferencing is a great way to get more value from your Skype investment and allows you to “dip your toe in the water” before using Lync for your broader enterprise voice needs.

The CenturyLink Voice Complete service with On-Net Audio Conferencing provides you with the toll-free and local PSTN connectivity you need to use Skype for audio conferencing. It’s a simple, cost-effective, network-based audio conferencing option that can help you manage your migration and implementation risks. CenturyLink offers a single solution for expanding from Skype for audio conferencing only to a full enterprise voice solution.

Business Solutions

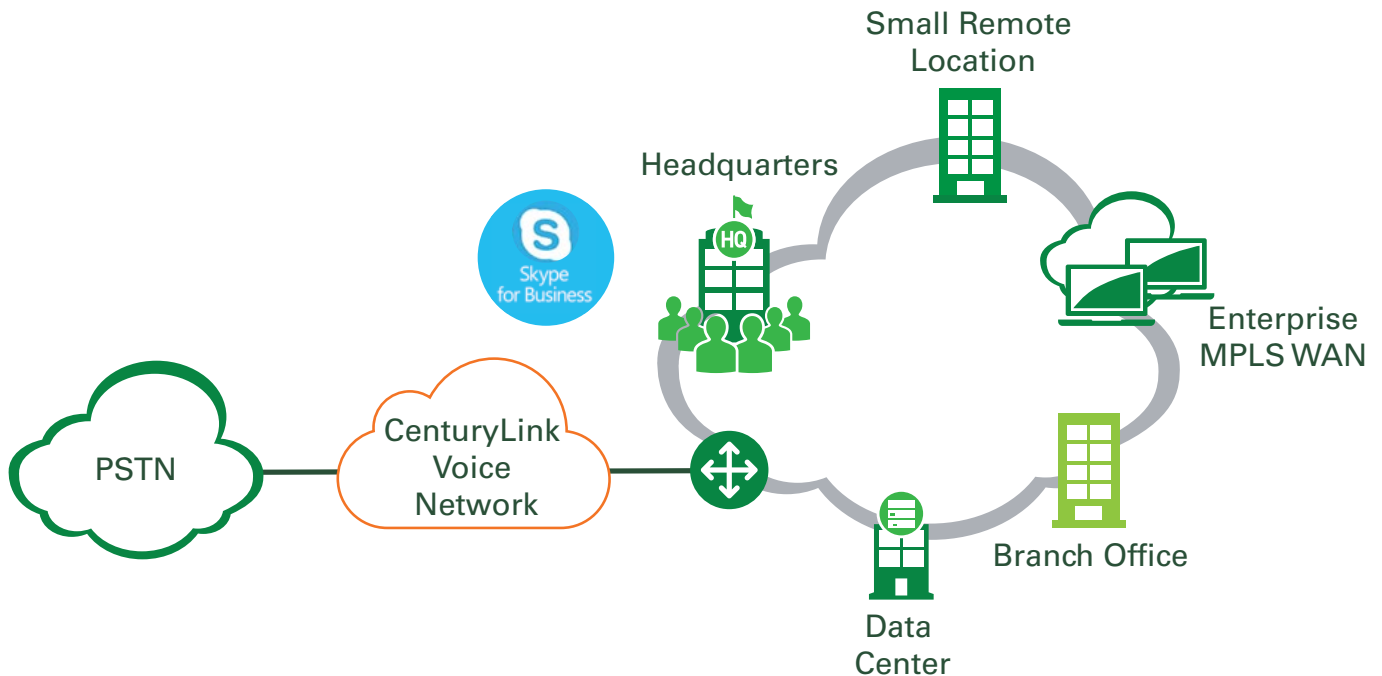

- SIP trunking and Microsoft Skype audio conferencing together help you reduce voice costs.
- CenturyLinkSM Ready-Access® shared TNs can be used to supplement large Skype conferencing events.
- You can leverage CenturyLink local TNs to help reduce Toll Free Minute of Use fees.
- Technical Features / Capabilities
- Calls are aggregated from multiple locations to SIP trunk.
- Easy Skype Audio Conferencing service activation doesn’t require you to configure complex dialing and routing rules.
- Skype conferencing and voice traffic use the same call paths for greater traffic optimization and efficiency.
- Use Skype Audio Conferencing as a standalone service, or add optional CenturyLink Ready-Access and local calling capabilities.

CenturyLink Voice Complete mixes and match the best of proven, new technology (VoIP) with legacy voice technologies (TDM), applied ubiquitously across the United States and major Western European countries. We operate a 100% SIP voice network with expansive local telephone number coverage and global reach.

Why Choose CenturyLink Voice Complete SIP trunking to Power Microsoft Skype?

- 100% end-to-end SIP network with expansive US footprint
- Skype 911 support
- Voice Complete is available in UK, France, Germany, Belgium, and The Netherlands
- Multi-continent calling bandwidth sharing (CCPs)
- Multi-continent service delivery SLA
- Skype SIP trunking certification
- Microsoft “Referenced Architecture” provider for “Skype Hosters”
- Member of Skype Solution Alliance Partnership program

SIP powered Skype Audio Conference
