Phone Features

Consultative Transfer

Consultative Transfer allows you to speak to the recipient you are transferring the call to and announce the caller prior to completing the transfer process.

1. While on a call, tap the **Transfer** soft key. The person you are talking to is placed on Hold and you receive a dial tone.
2. Dial the **extension+#** or **10-digit number+#** for the individual you wish to transfer to.
3. After you announce the caller to the recipient, tap the **Transfer** soft key again to complete the transfer.
4. If they do not answer or you misdial, tap the **Cancel** soft key to release the transfer process and return to the caller. Note that you may have to tap **More** to access **Cancel**.

Note: When transferring in this manner, the caller ID that appears to the recipient of the transfer is the caller ID of the party transferring the call, not the caller ID of the incoming caller.

Blind Transfer

Blind Transfer allows you to transfer a call without speaking to the person you are transferring the caller to.

1. While on a call, **press and hold down** the **Transfer** soft key or hard key. The person you are talking to is placed on Hold and you hear a dial tone.
2. **Press 2** on the keypad for **Blind Transfer** and press the **Select** soft key.
3. Dial the **extension+#** or **10-digit number+#** for the individual you wish to transfer to.
4. The **Blind Transfer** is completed.
5. If you make a mistake or change your mind, press the **Cancel** soft key. Note that you may have to press **More** to access **Cancel**.

Note: When transferring in this manner, the caller ID that appears to the recipient of the transfer is the caller ID of the incoming caller.

Transferring a Call to Voicemail

You can transfer callers directly to someone's voicemail and bypass ringing their phone.

1. While on a call, tap the **To Vmail** soft key. Note that the caller will still be on your phone and will be able to hear you should you speak.
2. Dial the recipient's extension and tap the **Enter** soft key.
3. The call will now leave your phone and go straight into that person's voicemail.

Note: When transferring in this manner, the caller ID that registers in the recipient's voicemail is the caller ID of the incoming caller.

Call Park

Call Park allows you to place calls on hold, and then retrieve that call at another phone within your Call Park Group.

To **Park** a call:
