

5.2.4.1 Internet Flat Rate Service (InFRa)

| |
|--|
| <p>Contractor's Summary Description of Service: Internet access billed at a flat rate monthly charge. The services include a dedicated Internet port and transport from the Customer site to the nearest Level 3 Point-of-Presence (POP) and includes all equipment, cabling and labor required to provide a User-to-Network Interface (UNI) at the Customer premise Minimum Point of Entry (MPOE).</p> |
| <p>Geographic Availability: Statewide</p> |
| <p>Service Limitations and Restrictions: Internet Flat Rate services require a no-cost customer consultation. Services are subject to the availability of Level 3 facilities. Where facilities are not available, special construction charges may apply. Special construction may not be ordered or billed using the CALNET contracts and must be procured by other means.</p> |
| <p>Change Charge Applicability: N/A</p> |

5.2.5.2.a Internet Sustained Bandwidth Ethernet Port Service (InSBEP) Minimum Bandwidth Commitment and Incremental Usage Charge for InSBET 100-Base-TX 2 Mbps through 1000-Base-SX\LX 1000 Mbps Ethernet Transport (NOT to be provisioned with InSBET 10G-Base-LSR 10G Ethernet Transport)

| |
|---|
| <p>Contractor's Summary Description of Service: Contractor's Summary description of service: Burstable Internet port with Ethernet access that allows Customers to select a monthly minimum bandwidth commitment then pay an additional incremental usage charge for sustained usage above the monthly minimum bandwidth commitment. Service shall allow Customers to "burst" up to the full capacity (100 Mbps or 1 Gbps) of the Internet port when needed. This service will be provisioned in conjunction with a Customer owned router.</p> |
| <p>Geographic Availability: Statewide</p> |
| <p>Service Limitations and Restrictions: Internet Sustained Bandwidth Ethernet Port Service (inSBEP) require a no-cost customer consultation. Services are subject to the availability of Level 3 facilities. Where facilities are not available, special construction charges may apply. Special construction may not be ordered or billed using the CALNET contracts and must be procured by other means.</p> |
| <p>Change Charge Applicability: N/A</p> |

5.2.5.2.b Internet Sustained Bandwidth Ethernet Port Service (InSBEP) Minimum Bandwidth Commitment and Incremental Usage Charge for InSBET 10G-Base-LSR 10,000 Mbps (to be provisioned with InSBET 10G Base-LSR 10,000 Mbps Ethernet Transport)

| |
|---|
| <p>Contractor's Summary Description of Service: Burstable Internet port with Ethernet access that allows Customers to select a monthly minimum bandwidth commitment then pay an additional incremental usage charge for sustained usage above the monthly minimum bandwidth commitment. Service shall allow Customers to "burst" up to the full capacity (10 Gbps) of the Internet port when needed. This service will be provisioned in conjunction with a Customer owned router.</p> |
| <p>Geographic Availability: Statewide</p> |
| <p>Service Limitations and Restrictions: Internet Sustained Bandwidth Ethernet Port Service (InSBEP) require a no-cost customer consultation. Services are subject to the availability of Level 3 facilities. Where facilities are not available, special construction charges may apply. Special construction may not be ordered or billed using the CALNET contracts and must be procured by other means.</p> |
| <p>Change Charge Applicability: N/A</p> |

| 5.2.5.2.b Internet Sustained Bandwidth Ethernet Port Service (InSBEP) Minimum Bandwidth Commitment and Incremental Usage Charge for InSBET 10G-Base-LSR 10,000 Mbps (to be provisioned with InSBET 10G Base-LSR 10,000 Mbps Ethernet Transport) | | | | | | | | | | |

5.2.5.3.a Internet Sustained Bandwidth Ethernet Port with Managed Router Service (InSBEPM) Minimum Bandwidth Commitment and Incremental Usage Charge for InSBET 100-Base-TX 2 Mbps through 1000 Mbps Ethernet Transport (NOT to be provisioned with InSBET 10G Ethernet Transport)

| |
|---|
| <p>Contractor's Summary Description of Service: Burstable Internet port with Ethernet access that allows Customers to select a monthly minimum bandwidth commitment then pay an additional incremental usage charge for sustained usage above the monthly minimum bandwidth commitment. Service shall allow Customers to "burst" up to the full capacity (100 Mbps or 1 Gbps) of the Internet port when needed. This service will be provisioned in conjunction with a router managed and maintained by Level 3.</p> |
| <p>Geographic Availability: Statewide</p> |
| <p>Service Limitations and Restrictions: Internet Sustained Bandwidth Ethernet Port Service (InSBEPM) require a no-cost customer consultation. Services are subject to the availability of Level 3 facilities. Where facilities are not available, special construction charges may apply. Special construction may not be ordered or billed using the CALNET contracts and must be procured by other means.</p> |
| <p>Change Charge Applicability: N/A</p> |

5.2.5.3.b InSBEPM Minimum Bandwidth Commitment and Incremental Usage Charge 10G (to be provisioned with InSBET 10G Ethernet Transport)

| |
|--|
| <p>Contractor's Summary Description of Service: Burstable Internet port with Ethernet access that allows Customers to select a monthly minimum bandwidth commitment then pay an additional incremental usage charge for sustained usage above the monthly minimum bandwidth commitment. Service shall allow Customers to "burst" up to the full capacity (10 Gbps) of the Internet port when needed. This service will be provisioned in conjunction with a router managed and maintained by Level 3.</p> |
| <p>Geographic Availability: Statewide</p> |
| <p>Service Limitations and Restrictions: Internet Sustained Bandwidth Ethernet Port Service (InSBEP) require a no-cost customer consultation. Services are subject to the availability of Level 3 facilities. Where facilities are not available, special construction charges may apply. Special construction may not be ordered or billed using the CALNET contracts and must be procured by other means.</p> |
| <p>Change Charge Applicability: N/A</p> |

5.2.7.a Additional Unsolicited Internet Services

Contractor's Summary Description of Service: Level 3 Distributed Denial of Service Mitigation and Managed Security Services

Level 3's DDoS mitigation solution is implemented using BGP route advertisements as a mechanism to re-route legitimate and attack traffic through the Level 3 Mitigation Infrastructure. Clean traffic is routed back to the Customer data center over IP VPN/EVPL logical connections between the Mitigation Infrastructure and Customer's border router(s).

Level 3 is carrier-agnostic and will protect against attacks on any carrier's circuits at a specific site. Customers can enhance their cyber security strategy by utilizing a multi-layer approach, protecting attacks at all layers either as a cloud based (Layer 3-4) or a CPE based solution (Layer 7 and SSL attack).

Managed Security Services - Cloud (Secure Internet Gateway)

Network-Based Firewall service provides highly secure connections for Level 3-provided transport customers along with a highly specialized staff to screen applications and administer firewalls, intrusion detection signatures, filters, patches and servers.

Benefits:

- Eliminates the need to install customer premises firewalls and dedicated Internet connectivity at each of your locations
- Helps increase the security of your Internet, Intranet and extranet environments
- Provides central application of outbound or inbound/outbound security policies across your locations
- Allows easy upgrade of bandwidth to and from the Internet as your company and traffic grows

Geographic Availability: Statewide

Service Limitations and Restrictions: DDOS Service and Managed Security Services requires a no-cost customer consultation.

Services are subject to the availability of Level 3 facilities. Where facilities are not available, special construction charges may apply. Special construction may not be ordered or billed using the CALNET contracts and must be procured by other means.

Change Charge Applicability: N/A

5.4.2 Extended Demarcation Wiring Services

| |
|--|
| Contractor's Summary Description of Service: Extended Demarc wiring includes wiring and cable related activities required to extend the service demarcation point to the Customer defined termination location or cross-connect point from the Carrier's Minimum Point of Entry (MPOE). |
| Geographic Availability: Statewide |
| Service Limitations and Restrictions: None |
| Change Charge Applicability: N/A |
