

# C4000LG

Wi-Fi 6 Single Line  
xDSL Router

# C4000LG

## PRODUCT OVERVIEW

Leading the next generation of Wi-Fi, the C4000LG Wi-Fi 6 xDSL Router is powered by the industry's latest Wi-Fi Certified 6 802.11 standard that is up to 3x faster than the previous AC generation of WiFi, with additional data capacities in a dense environment to handle current and future home networks. Lightning fast Wi-Fi speeds powers ultra-smooth 4K streaming, online gaming, smart home automation, and more.

## AT A GLANCE

Get ultra-fast wireless speeds for better 4K streaming, gaming or video conferencing experience.

- **Up to 3 Gbps Speed** - 600+2400 Mbps with 2-stream connectivity†
- **Networking Optimized Dual-Core Processor**  
Powerful processor boosts wireless, wired and WAN-to-LAN performance
- **160MHZ Channel Support\***- Doubles the speeds as offered by 80MHz channels to provide gigabit speeds for compatible mobile devices and laptops
- **1024-QAM** - 38% increase in data rate compared to 256-QAM 802.11ac
- **1 DSL Port** - Supports all ADSL or VDSL profiles up to 17a
- **One Wi-Fi SSID for the entire home**

## KEY FEATURES

- **3X Better Performance than an AC Router**  
2-stream Wi-Fi with up to 600+2400 Mbps† for ultra-fast wireless speeds\*
- **More Wi-Fi for More Devices**  
OFDMA allows efficient data transmission on up to eight devices at the same time. Uplink OFDMA improves scheduling for multiple clients with varying bandwidth requirements§
- **Powerful Processor**  
800 MHz dual-core InterAptiv processor provides a next generation packet offload engine that ensures smooth 4K UHD streaming and gaming
- **Dynamic QoS**  
Prioritizes internet traffic by application and device for smoother streaming
- **Five Gigabit Ports (1 WAN + 4 LAN)**  
Connect more wired devices for faster file transfer and uninterrupted connections
- **Smart Connect**  
Intelligently selects the fastest Wi-Fi band for every device connection
- **Target Wake Time**  
TWT significantly improves battery life in Wi-Fi devices such as cell phones and IoT devices
- **One DSL Port for WAN connectivity**
  - Supporting 8a, 12a, and 17a - ADSL and VDSL (including vectoring) profile
  - Automatic speed fallback VDSL2 & ADSL
- **Wi-Fi 6 supports all current Wi-Fi devices**  
Backward compatible with 802.11a/b/g/n/ac client devices

## Capacity

- **Get better performance for all your smart home devices even when your family is busy streaming videos or uploading media files during the internet rush hour**
- **More Wi-Fi for More Devices** supports a total of 256 clients (128 per band)

## Wi-Fi Range

- **Faster and expanded coverage throughout your home and for all your devices**
- **Ultimate Range**  
Hi-power amplifiers increase Wi-Fi coverage throughout large homes
- **High Performance Antennas**  
Four internal antennas provide reliable Wi-Fi coverage over a large area. Antennas are optimized for best Wi-Fi performance.

## Reliable Connections

With advanced features and best-in-class technology, you'll reduce interference and enjoy more reliable Wi-Fi connectivity

- **Beamforming** - Improves range and performance for both 2.4 and 5GHz devices
- **Simultaneous Dual Band Wi-Fi** - Supports both Wi-Fi bands simultaneously to increase available bandwidth and provides a reliable Wi-Fi network for smooth online gaming without any network congestion
- **Pre-Optimized Antennas** - The C4000LG antennas come pre-optimized for best Wi-Fi performance
- **QoS** - Prioritizes internet traffic by application and device for smoother streaming

## Reduced Latency

- **BSS Coloring** - The access point and clients can ignore neighboring network channel contention, providing system capacity gain and a significant reduction in latency
- **OFDMA** - Reduces contention and preamble overhead by optimally designating portions of a single Wi-Fi frame to multiple clients, which can reduce latency

## Security

- **Standards-based Wi-Fi WPA3 security**
- **Automatic firmware update delivers latest security patches to the router**
- **Guest network access** - separate and secure

# C4000LG

## Technical Specifications

- **Wi-Fi 6 Dual Band Wi-Fi**
  - 2.4 GHz: 2x2 (Tx/Rx) 1024 QAM 40MHz, up to 600 Mbps
  - 5 GHz: 2x2 (Tx/Rx) 1024 QAM 160MHz, up to 2.4Gbps
  - Backwards compatible with 802.11a/b/g/n/ac Wi-Fi
  - OFDMA Uplink and Downlink<sup>§</sup>
  - 1024-QAM
  - 160MHz channel support\*
- **Dual-Core 800 MHz MIPS InterAptiv Processor**
- **Programmable BSS Coloring**
- **Supports UNII-1, UNII-2 & UNII-2x (DFS), UNII-3 channels**
- **High Power Wi-Fi amplifiers**
- **Five 10/100/1000 Mbps gigabit Ethernet ports - one WAN/LAN and four LAN**
- **One DSL Port**
- **IPv6 Support (Internet Protocol Version 6)**
- **Multi-color LED status ring**
- **WPS button** - Allows easy connection of devices to the network
- **Wi-Fi Certified WPA3** - Enables more robust security for networks
- **Reset button**

## Model & Physical Specifications

- **C4000LG - Wi-Fi 6 Router, Single Line DSL**
  - **Item Weight** - 1.54 lbs (700g)
  - **Item Dimensions** - 8.30 (H), 5.64 (Bottom), 4.68 (Top) inch
  - **Package & Item Weight** - 3.46 lbs (1567.8g)
  - **Package Dimensions** - 9.96 (L) x 8.78 (W) x 7.52 (H) inch

† Maximum wireless signal rate derived from IEEE 802.11 specifications. Actual data throughput and wireless coverage will vary and may be lowered by network and environmental conditions, including network traffic volume and building construction.

\* Requires client device that supports 160MHz bandwidth on Wi-Fi

§ Requires compatible Wi-Fi 6 clients with DL-OFDMA and UL-OFDMA support.
