

# GSA IT Schedule 70

## Easy and convenient way for federal agencies to procure IT products and services from CenturyLink

From improving operational efficiency and agility to better managing threats and risk, the future of digital government depends on your agency's ability to modernize network services. As a trusted provider to the federal government, CenturyLink offers cost-effective voice, networking, cloud, security and professional services. We aim to provide you with reliable connections — when and where you need them.

And with proven network security solutions such as Enhanced Cybersecurity Solutions (ECS), Managed Enterprise (MES) and Network Management Service (NMS), we can help proactively thwart threats before security breaches occur. Easy-to-use government contract vehicles like GSA IT Schedule 70 enable you to modernize your IT on a fixed budget and purchase exactly what you need from CenturyLink.

## Evolve your IT infrastructure at a competitive price

The GSA IT Schedule 70 contract provided by CenturyLink offers IT communication services, security solutions, customer premise equipment (CPE), professional services, and electronic commerce services for agencies nationwide.

The contract program is easy and convenient, whether ordering via GSA Advantage® or working directly with CenturyLink's experienced and knowledgeable staff. Our Program Support team helps customers meet stringent government standards while establishing Schedule Blanket Purchase Agreements (BPAs) for use with ongoing purchase requirements to help reduce procurement costs and provide a more expedient acquisition route for new products. What's more, our engineering staff stands ready to provide the design, configuration, and training services that your agency requires.
