

CENTURYLINK® WHOLESALE VOICE SERVICES

QUALITY YOU CAN AFFORD

Whether you are expanding into new markets, simplifying networks or maintaining your current business model, providing a high-quality service while managing margins can be a challenge. Relying on CenturyLink as a trusted provider for a full suite of competitive voice services is the key to reaching your business goals. Whether you're a reseller, hoster, voice service provider — or just looking to simplify operations and lower network expenses — we can help provide you with the scale, knowledge and experience needed to grow your business and increase efficiency.

Business Solutions

Expand without the overhead: Access enhanced product offerings through new services that already meet regulatory requirements, and quickly enter new markets with minimal investment; no need to build or manage your own network.

Distance yourself from the competition with an innovative and robust offering: Offer your customers a broad portfolio of services from one source. CenturyLink is a VoIP pioneer with over 125 softswitch patents. We have been delivering commercial VoIP services since 1999, offering both SMS and nomadic 911 services.

Reduce network expense: With efficient network architectures, competitive rates and tandem replacement services, CenturyLink can help reduce costs associated with providing voice services.

Simplify with a single vendor: With more than 87 percent nationwide coverage, we can help you deliver services to customers across the United States.

CenturyLink® Voice Services provide the best of proven, new technology (SIP) with legacy voice technologies, with access across the globe. We own and operate one of the largest, most secure voice networks to enable competitive cost structures and new, efficient ways of managing voice traffic.

Why Choose CenturyLink for Wholesale Voice Services?

Coverage: CenturyLink has connectivity to every long distance tandem office in the United States, with local telephone numbers serving more than 87 percent of U.S. households, as well as in 26 countries, with the ability to terminate calls anywhere in the world.

Value: Our advanced network is designed to deliver operational efficiencies. Carrying more than 13 billion minutes per month in voice traffic translates to economies of scale and potential savings for our customers.

Trust: Our Tier 1, reliable and scalable network can provide quality network services which can easily accommodate your current and future traffic.

Convenience: Manage your CenturyLink services and telephone numbers through the secure, 24/7 MyLevel3SM customer portal. The portal helps streamline your service management process and provides you with the reporting you need to make your job easier — saving you time and helping you control costs.
