Copper Retirements in Colorado, Idaho, Iowa and South Dakota.

First Implementation Date: April 30, 2024
Original Date Posted: February 28, 2024

Summary:

Copper retirements are necessary to respond to various factors in the Outside Plant, including road construction, maintenance problems, and growth accommodation. Specific information will be provided with each disclosure.

Due to road construction, state or local municipal agencies in the areas noted below have mandated that CenturyLink move its copper facilities. As a result, CenturyLink will be retiring all copper facilities in these areas as detailed below. No copper facilities will be available in these areas after the First Implementation Date. Given that these circumstances are outside CenturyLink's control, CenturyLink is taking this government-mandated action pursuant to Rule 51.333(b)(2).

Furthermore, no customers are affected by this copper retirement. Thus, this notice is subject to the 15-day notice period in Rule 51.333(b)(2).
