

Network Disclosure Announcement No. 448

Public Notice of Network Change(s), Pursuant to CFR 47, subsections 51.325 - 51.335.
Qwest's Internet address: <http://www.qwest.com/disclosures>.

Qwest ISDN Digital Subscriber Line (IDSL) Updated 4/25/01

Original Disclosure Date: February 7, 2000

Summary:

This update primarily changes the name of the service from MegaBit IDSL to Qwest IDSL.
* An asterisk in the left margin denotes a change or addition from the previous

release.

This Qwest disclosure is for a service called Qwest_IDSL. This service will provide a nominal 144 Kbit/s always on connection to a Qwest DSL Host. The physical layer connection from the customer to the network is based on the ANSI standard T1.601.1992 – Telecommunications ISDN Basic Access Interface for use on Metallic Loops for application on the Network Side of the NT, Layer 1 Specification. Information on how Qwest has implemented this interface in a private line mode can be found in Qwest Technical Publication 77399. Above the physical layer the customer will be required to have Point to Point Protocol (PPP) in High-level Data Link Control (HDLC) Framing as described in Request For Comment (RFC) 1549.

**Locations and
Timing of Deployment:**

Locations where Qwest_IDSL is planned or currently available can be found in Attachment 1. If the interface changes in the future, Qwest will issue a new Network Disclosure. In addition, any new deployment locations will be added to the Qwest web site at <http://www.qwest.com/disclosures/> in disclosure #448

Pricing:

Order and pricing of this service will be offered under tariff in the locations identified in Attachment 1.

Interface Requirements:

Interface specifications are contained in the following documents:

ANSI-T1.601-1992 Telecommunications – Integrated Services Digital Network (ISDN) – Basic Access Interface for Use on Metallic Loops for Application on the Network Side of the NT (Layer 1 Specification)

American National Standards Institute document can be obtained by contacting: American National Standards Institute, Inc. 11 West 42nd Street New York, NY 10036 or call 1-212-642-4900 or at www.ansi.org

A summarization of technical information of how the ISDN "U" interface is utilized for IDSL Private Line Service will be contained in Qwest Technical Publication 77399. This document is available from <http://www.qwest.com:80/techpub/>

Information on the end to end service can be found in Qwest Technical Publication 77392. This document is available from <http://www.qwest.com:80/techpub/>

All RFCs are available on the Internet at various web pages. One source is the RFC Editors Homepage at URL <http://www.rfc-editor.org/>

***700 West Mineral
Littleton, CO. 80120***

Additional Information:

Any customer premises equipment vendor or manufacturer wanting to offer products and services to interface with Qwest IDSL service from Qwest may request additional information by contacting:

Tamera Irwin
Product Manager
600 Stinson Boulevard
Room 3N
Minnesota, MN 55413
