Short Term Public Notice Under Rule 51.333(a)
Qwest's Internet address: <http://www.qwest.com/disclosures>.

Copper Retirements in Minnesota, New Mexico

First Implementation Date: *June 15, 2011*

Original Date Posted:

March 21, 2011

Summary:

Copper Retirements are necessary to respond to various factors in the Outside Plant, including road construction, maintenance problems, and growth accommodation. Replacement cables may be either copper or fiber. Specific information will be provided with each disclosure.

**Locations, Timing of
Deployments & Interface
Requirements:**

The following gives additional details on the copper retirement(s):

STATE	WIRE CENTER	PLANNED COMPLETION OR RETIREMENT DATE	DA (s)	Job #	FDI Address(es)	Replacing
MN	Eden Prairie EDPRMNEP	6-15-2011	120103	12M2GQ3	9715 Valley View Rd	Federally funded road job forces Qwest to abandon its copper facilities and move all working services to a fiber fed digital loop carrier system (DLC). Copper reliant services, such as line-sharing and non-loaded copper loops will no longer be supported after the cut to DLC; all other types of unbundled loops will still be available.

STATE	WIRE CENTER	PLANNED COMPLETION OR RETIREMENT DATE	DA (s)	Job #	FDI Address(es)	Replacing
MN	Eden Prairie EDPRMNEP	6-27-2011	120306	12M2GS7	9715 Valley View Rd.	Federally funded road job forces Qwest to abandon its copper facilities and move all working services to a fiber fed digital loop carrier system (DLC). Copper reliant services, such as line-sharing and non-loaded copper loops will no longer be supported after the cut to DLC; all other types of unbundled loops will still be available.
MN	Little Falls LTFLMNLF	6-16-2011	310302	12M2GMC	Highway 10 South	Morrison County road project forces Qwest to abandon its copper facilities and move all working services to a fiber fed digital loop carrier system (DLC). Copper reliant services, such as line-sharing and non-loaded copper loops will no longer be supported after the cut to DLC; all other types of unbundled loops will still be available.
MN	Shakopee SHKPMNSH	7-20-2011	330102	12M2GQ5	CO RD 17% CO RD 78	Road job forces Qwest to and move all working services to digital loop carrier system (DLC). There are no CLEC services in the cable today. All existing services will continue to be supported. However, future copper reliant services, such as line-sharing and non-loaded copper loops will no longer be available in this DA after the cut to DLC; all other types of unbundled loops will still be available.

STATE	WIRE CENTER	PLANNED COMPLETION OR RETIREMENT DATE	DA (s)	Job #	FDI Address(es)	Replacing
NM	Santa Fe Southwest SNFENMSW	8-18-2011	310733	12521ZW	1115 Ocate Rd.	Due to defective cable, Qwest will move all working services to digital loop carrier system (DLC). There are no CLEC services in the cable today. All existing services will continue to be supported. However, future copper reliant services, such as line-sharing and non-loaded copper loops will no longer be available in this DA after the cut to DLC; all other types of unbundled loops will still be available.
