Network Disclosure Announcement No. 789

Short Term Public Notice Under Rule 51.333(a)

CenturyLink's Internet address: <http://qwest.centurylink.com/disclosures/>

E9-1-1 for the Frontier Communications Counties of the State of Oregon.

First Implementation Date: *October 31, 2016*

Original Date Posted:

June 9, 2016

Summary:

The State of Oregon has directed that the 911 ALI Data network for all Oregon PSAPs be migrated from the existing Frame Relay platform to an MPLS-based transport system provided by IBM and CenturyLink. In addition, the 911 voice trunk network currently provided by Frontier Communications for nine Oregon PSAPs will be rehomed to CenturyLink Selective Routers. Carriers will need to provision new end office 911 trunks (ES trunks) for the impacted counties/PSAPs to CenturyLink Selective Routers, replacing existing trunks to Frontier's 911 SRs. After the migration is complete, Frontier Communications will no longer be providing 911 Selective Routing services in Oregon. The impacted Counties and PSAPs include:

Coos County-Migrating to CTL Eugene DMS100 Selective Router; CLLI-EUGNOR281ED; Point Code 248-229-005; LATA 670; NPA/NXX: 541/342

Additional Information: Service providers should plan to establish trunks to the CenturyLink Selective Routers and move their traffic to the new network starting 8/31/16 and completing no later than 10/31/2016. Please contact your Centurylink Service Manager with questions and schedule implementation. New trunk groups and new service providers should establish trunking to the Selective Routers as described above after August 31, 2016.

Service providers desiring additional information in conjunction with this notification should contact their Centurylink Service Manager or you may contact:
