IMA GUI 32.0 Error Messages

New Error Messages:

LNLN must have more than 1 character for residential accounts

Explanation

When LNLN field in the DL form is populated for Residential accounts, make sure that the LNLN should have more than 1 alpha character (Aa-Zz).

Invalid DES Stylization. All entries must be lower case or upper case except PhD (*ph*d)".

Explanation

Make sure that the DES field in the DL Form should be all in upper or all in lowercase except "PhD" which would be always mixed case.

Number porting indicated for this TN, please re-query using address.

Explanation

On ADSL Loop qualification Preorder query, the WTN is ported out so use address for Loop Qualification Preorder query.

Modified Error Messages:

From: **LNPL can only be populated when TOA = B** (**Note**: This message is in IMA 31.0 and is not currently present in the Error Messages Website.)

To: **LNPL can only be populated when TOA is B, F, C, L, S, PO, RE, SD, TR, TW or SC**

Explanation

When the LNPL field in the DL form is populated, make sure that the TOA is one of the following values:

B- Business,
F-Federal Government,
C-County Government,
L-Local or City Government,
S- State Government,
PO-Port,
RE-Regional,
SD-Special District
TR-Tribal,
TW-Township
SC- School
