

## NOTE TO DSOS Users

To do the tasks that you formerly did in DSOS, click the **PRE VALIDATION** tab. From there, you can **Search and Verify CFA**, **Search and Verify Cabling**, and **View Order Status**.

Using the **PRE VALIDATION** tab will allow you to perform all of the same tasks that you performed in DSOS. You will even find that the screens will look similar to the DSOS screens. For specific instruction on how to use these functions, go through the **Pre-Validation Services** lesson.
